

HEALTHIER™
COLORADO

Healthier Colorado Legislative Scorecard

2022

A note from the Executive Director

In a tiny nutshell, here's how we create change via the Colorado General Assembly. First, we organize thousands of everyday Coloradans both through face to face conversations and online. Second, we deploy their power (your power) by ensuring your stories are told and your interests are represented through media and direct contact with legislators. Third, we grade those legislators on how they vote on our priorities and then share that information back with the people who are our ultimate source of power – that's this scorecard. Both by sharing this information with you, and by using it to guide how we engage in elections with money and other resources, we influence who gets to come back to the legislature to make decisions.

This is the fifth year Healthier Colorado and the second year for our sister organization, Healthy Air and Water Colorado, has released a scorecard to help infuse transparency and accountability into a system that is typically not accessible to most Coloradans.

I have two significant takeaways from the 2022 Legislative Session. First, there was strong bipartisan support for transformative legislation to help all Coloradans live a healthier life. This is highlighted by the fact that 100% of our top priorities this year were sponsored and supported by both Democrats and Republicans. Second, the interest of public health didn't always win over other, narrower political interests – and this was a bipartisan occurrence as well. There's clearly more work to do, and it begins now, by taking stock of where legislators chose to stand.

Thank you for all you do.

Sincerely,

Jake Williams
CEO, Healthier Colorado

Becoming a Health Champion

The mission of Healthier Colorado is to ensure all people have the opportunity to live a healthy life. We cannot reach this goal without pro-health policies at the Capitol and elected officials who put the health of Coloradans first. Throughout this scorecard, we recognize several elected officials for their leadership and hard work in a number of categories.

WHO ARE OUR STATE LEGISLATORS

An elected official is a person that you choose, through your vote, to represent you in local, state, and federal government. One hundred state legislators - 65 Representatives and 35 Senators - represent you at the state capitol throughout the 120 day annual legislative session. Every day these individuals have an immense amount of influence over the laws that impact your ability to lead a healthy life.

STAR RANKING

We rate every elected official based on their sponsorship, co-sponsorship, and votes on pro-health bills. The more a legislator sponsored and voted on the bills we scored, the more stars they received. The highest star ranking an elected official can earn is five stars. Elected officials who sponsor our **Tier 1** bills are scored higher because they've demonstrated a strong desire to invest their time and efforts to pass a bill - more than committing to a vote.

TIER RANKING

As mighty as we may be, we can't devote 100% of our resources to every pro-health bill that is introduced. Instead, we tier bills to determine the level of support we are able to provide. We use the following standards to categorize the bills:

TIER 1:

Healthier Colorado was present for the creation of the policy, expended all available resources to pass the bill, and was deeply involved in the legislative strategy.

TIER 2:

Healthier Colorado supports the policy, stakeholder group, and legislative campaign, but were not intimately involved in the strategy and/or creation of the policy. Limited resources may be expended to support the campaign.

TIER 3:

Healthier Colorado endorsed the policy and legislative campaign and spent a brief amount of time supporting the advancement of the policy.

LEGISLATIVE LEADERSHIP CIRCLE

Our Legislative Leadership Circle features elected officials who supported each of the 39 bills we scored. To be a member of our leadership circle, a legislator must vote on the side of health on every bill Healthier Colorado scored.

Care Access

Every Coloradan deserves access to affordable, quality health care. High costs of care, inadequate or no insurance options, and lack of community services bar entry to our health system for many people in need of care. This year legislators worked tirelessly to address those barriers and increase access to care by expanding the workforce and scope for a new mid-level dental provider, building out the resources and capacity of our behavioral health system to better serve youth and families, and strengthening protections for Colorado families from surprise, out-of-network medical bills.

KEY BILLS

REGULATING DENTAL THERAPY **SB22-219**

Sponsors: Sen. Moreno, Sen. Smallwood, Rep. Duran, Rep. McLachlan

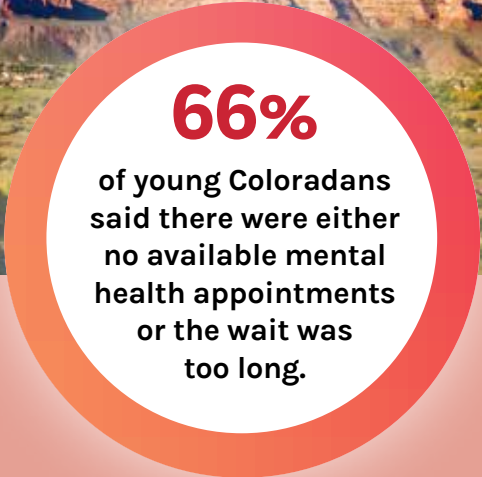

Pro-health Position: Support

Final Action: Signed by Governor

Summary: Too many Coloradans, especially people in rural areas, communities of color, children and seniors, lack access to affordable, quality dental care. More than 80% of Colorado's counties are designated as a dental professional shortage area, and five counties do not have a single licensed dentist. This bill creates a new license and licensure process for dental therapists in Colorado - a mid-level provider that could be added to a dental team. Dental therapists will help expand quality care to more patients, reduce wait times for appointments, and provide treatment in community settings, such as schools or nursing homes.

53

of Colorado's 64 counties
are designated as a dental
health professional
shortage area.

HEALTH INSURANCE SURPRISE BILLING PROTECTIONS **HB22-1284**

Sponsors: Rep. Esgar, Rep. Catlin, Sen. Gardner, Sen. Pettersen

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: In 2019, Colorado passed some of the strongest protections for Colorado consumers with state-regulated health insurance plans from being billed for unknowingly receiving care outside of their insurance network. A year later, Congress followed Colorado’s lead and passed similar protections at the federal level. HB22-1284 integrates the federal and state surprise billing protections by establishing clear rules for when patients can consent to out-of-network care, providing stronger safeguards to ensure a patient does not lose access to care if their medical provider becomes out-of-network, and more.

YOUTH AND FAMILY BEHAVIORAL HEALTH CARE **HB22-1283**

Sponsors: Rep. Michaelson Jenet, Rep. Bradfield, Sen. Buckner, Sen. Priola

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Colorado does not have adequate capacity to serve children and youth with complex mental health needs. As a result, too many children are sent out-of-state to access treatment, far away from their families and support network. Based on recommendations from the state’s Behavioral Health Transformational Task Force, this bill will invest \$54 million to support intensive youth and family residential and outpatient care, ensuring that children, youth, and families can access behavioral health treatment and services they need right here in Colorado.

BILLS SCORED

HB 22-1008 Concerning the federal requirements for the implementation of fertility coverage under health benefit plans

HB 22-1095 Concerning an expansion of a physician assistant's ability to practice, and, in connection therewith, changing the relationship between a physician assistant and a physician or podiatrist from supervision to collaboration for physician assistants with less experience or who are working in a new specialty, establishing the collaboration requirements, and requiring physician assistants with more experience to consult with the physician assistant's health-care team

HB 22-1269 Concerning requirements imposed on persons not authorized to transact insurance business in this state who are offering coverage of health-care costs for Colorado residents, and, in connection therewith, making an appropriation

HB 22-1283 Concerning enhanced residential services for persons with behavioral health needs, and, in connection therewith, making an appropriation

HB 22-1284 Concerning updates to state surprise billing laws to facilitate the implementation of surprise billing protections, and, in connection therewith, aligning state law with the federal "No Surprises Act" and making an appropriation

HB 22-1289 Concerning improving access to health benefits for economically insecure Colorado families by enhancing public health programs, and, in connection therewith, making an appropriation

HB 22-1303 Concerning an increase in the number of residential behavioral health beds, and, in connection therewith, making an appropriation

HB 22-1325 Concerning alternative payment models for primary care services, and, in connection therewith, making an appropriation

SB 22-040 Concerning actuarial reviews of proposed legislation that may impose a new health benefit mandate on health benefit plans, and, in connection therewith, making an appropriation

SB 22-052 Concerning aligning medical assistance income eligibility requirements with federal law

SB 22-068 Concerning the creation of a tool to provide transparency in health claims data submitted to the Colorado all-payer health claims database, and, in connection therewith, making an appropriation

SB 22-081 Concerning a requirement that the board of directors of the Colorado health benefit exchange create a consumer outreach campaign to provide consumers with comprehensive information regarding covered health-care services, and, in connection therewith, adjusting the limit on the total amount of tax credits that may be granted to health insurance companies

SB 22-177 Concerning behavioral health system investments in the statewide care coordination infrastructure, and, in connection therewith, making an appropriation

SB 22-181 Concerning the behavioral health administration's plan to address issues regarding the delivery of behavioral health-care services in this state, and, in connection therewith, making an appropriation

SB 22-219 Concerning the regulation of dental therapists, and, in connection therewith, making an appropriation

Bridging the Gap

While we strive to ensure every Coloradan has the chance to live a healthy life, there are drastic disparities across the state – factors like zip code, family income, or race, form barriers to receive the opportunities we all deserve. This session was transformational as state lawmakers automated Colorado’s process for sealing criminal records, removing a major barrier to economic stability for more than one million Coloradans, and passed a bill that will bolster services for youth involved in the juvenile justice system. Additionally, the legislature invested in programs that will expand healthy food options in communities across our state.

KEY BILLS

SEALING CRIMINAL RECORDS SB22-099

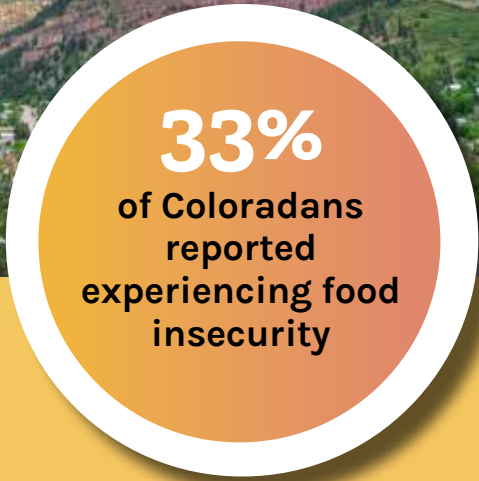

Sponsors: Sen. Hisey, Sen. Rodriguez, Rep. Tipper, Rep. Larson

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Many types of non-violent criminal records are eligible for sealing under Colorado law, yet the process leaves people behind. In fact, only 5% of Coloradans eligible for record sealing successfully get their records sealed. SB22-099, known as the Colorado Clean Slate Act, will automatically seal records that are currently eligible to help people find meaningful employment so they can become contributing members of their community, support themselves and their families, and lead healthy lives.

An estimated
1.3
million
Coloradans have a
record eligible for
sealing.

REDUCE JUSTICE-INVOLVEMENT FOR YOUNG CHILDREN HB22-1131

Sponsors: Rep. Gonzales-Gutierrez, Rep. Bacon, Sen. Gonzales

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Right now, kids in Colorado as young as 10 years old can be arrested, prosecuted, and locked up in juvenile detention even though the majority of children ages 10 to 12 are arrested for developmentally appropriate and non-violent misbehaviors. Instead, they deserve systems and interventions from families, communities, and child-serving programs that improve outcomes for children, enhance community safety, and prevent future misbehavior with evidence-based methods. This bill creates a working group within the Department of Human Services to examine potential gaps in services for youth ages 10 to 12 and to make recommendations to address those gaps if the age of prosecution is raised for children.

CRITICAL SERVICES FOR LOW-INCOME HOUSEHOLDS HB22-1380

Sponsors: Rep. Gonzales-Gutierrez, Rep. Pelton, Sen. Bridges, Sen. Coram

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Many Colorado households are finding it difficult to put food on the table and access nutritious meals. During the COVID-19 pandemic, 33% of Coloradans reported experiencing food insecurity, including 43% of non-White and Latinx families. Colorado’s small food retailers have struggled to keep prices down, while small farms have trouble connecting with local retailers to sell their products. This bill invests funding into programs that will streamline technology systems and expand healthy food options for low-income Coloradans, while supporting the small businesses and farmers in local communities across the state.

BILLS SCORED

HB 22-1002 Concerning expanding student access to enrollment in postsecondary courses while the student is enrolled in high school

HB 22-1010 Concerning an income tax credit for eligible early childhood educators, and in connection therewith, making an appropriation

HB 22-1098 Concerning the elimination of barriers to obtaining authority to practice an occupation based on an individual's criminal history record, and, in connection therewith, making an appropriation

HB 22-1131 Concerning measures to reduce justice-involvement for young children, and, in connection therewith, focus on prevention and age-appropriate interventions and making an appropriation

HB 22-1267 Concerning culturally relevant training available to health-care providers, and, in connection therewith, making an appropriation

HB 22-1326 (Opposed) Concerning measures to address synthetic opiates, and, in connection therewith, changing the criminal penalties associated with synthetic opiates; using a substance abuse assessment to direct appropriate treatment at sentencing; providing opiate antagonists in the community; providing synthetic opiate detection tests in the community; creating immunity for furnishing synthetic opiate detection tests; providing treatment for persons in the criminal justice system; developing a fentanyl prevention and education campaign; providing funding for substance use and harm reduction; evaluating the substance use and harm reduction needs across the state; requiring a post-enactment review of the implementation of this act; and making an appropriation

HB 22-1380 Concerning creating comprehensive, statewide systems to provide improved access to critical program services that support low-income households, and, in connection therewith, making an appropriation

SB 22-021 Concerning the treatment of persons with behavioral health disorders in the justice system, and, in connection therewith, making an appropriation

SB 22-099 Concerning the procedure for sealing of criminal records for nonviolent offenses, and, in connection therewith, addressing workforce shortages, minimizing barriers to employment for job seekers, and making an appropriation

SB 22-125 Concerning allowing certain public health-care entities to improve health-care efficiency through cooperation

SB 22-173 Concerning criteria relating to the operation of telepharmacy outlets

Healthy Communities

All of Colorado's communities deserve the same chance at living a healthy life. Our lawmakers have the power to put the communities throughout our state on equal footing—or to let some communities fall behind. This year legislators created and reformed our institutions to prioritize the foundations of health by allowing counties to use local tax revenue towards housing and basic workforce needs, streamlining access to behavioral health and substance use services, and laying the groundwork for a universal, high-quality preschool program to ensure our kids can succeed and thrive.

KEY BILLS

USE OF LOCAL LODGING TAX REVENUE HB22-1117

Sponsors: Rep. Roberts, Rep. Catlin, Sen. Coram, Sen. Donovan

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Across Colorado, frontline workers are priced out of the communities where they work leaving critical industries, like vital tourism economies, with workforce shortages and neglected maintenance on tourist attractions. This bill allows Colorado's counties to invest local lodging tax and marketing district dollars towards workforce housing, affordable child care, and enhancing visitor experiences with the permission of their voters. Communities will be able to use this flexible, actionable solution to build back local affordability to sustain a vibrant, healthy workforce.

20%

leaving kids without
needed services.

BEHAVIORAL HEALTH ADMINISTRATION HB22-1278

Sponsors: Rep. Young, Rep. Pelton, Sen. Lee, Sen. Simpson

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Coloradans’ mental health is suffering and our state has fallen behind in helping people navigate and access critical behavioral health services. Last year, Children’s Hospital Colorado declared a ‘state of emergency’ for youth mental health, and a report by Mental Health America ranked Colorado in last place overall for adult mental health. This bill creates the Behavioral Health Administration to help increase and streamline access to behavioral health services for people with mental health conditions and substance use disorders to ensure they get the appropriate care to support their health and wellbeing.

DEPARTMENT OF EARLY CHILDHOOD AND UNIVERSAL PRESCHOOL PROGRAM HB22-1295

Sponsors: Rep. Sirota, Speaker Garnett, Sen. Buckner, President Fenberg

Pro-health Position: Support

Final Action: Signed by the Governor

Summary: Early childhood is a critical time in a child’s life that lays the foundation for the future. During this period, children are constantly acquiring new knowledge and skills that dramatically impact their life outcomes, which is why access to high quality early childhood education is critical. Based on the unanimously approved recommendations by the state’s Early Childhood Leadership Commission, HB22-1295 establishes a cabinet-level Department of Early Childhood and a universal preschool program to provide a seamless experience for families and expand access to high quality preschool options for all of Colorado’s kids to ensure they have the foundations they need to thrive.

Final Bills Scored

TIER 1

HB 22-1117 Concerning the use of revenue from a local tax on lodging.

SB 22-099 Concerning the procedure for sealing of criminal records for nonviolent offenses, and, in connection therewith, addressing workforce shortages, minimizing barriers to employment for job seekers, and making an appropriation.

SB 22-219 Concerning the regulation of dental therapists, and, in connection therewith, making an appropriation.

TIER 2

HB 22-1131 Concerning measures to reduce justice-involvement for young children, and, in connection therewith, focus on prevention and age-appropriate interventions and making an appropriation.

HB 22-1267 Concerning culturally relevant training available to health-care providers, and, in connection therewith, making an appropriation.

HB 22-1278 Concerning the creation of the behavioral health administration, and, in connection therewith, making and reducing an appropriation.

HB 22-1295 Concerning the department of early childhood, and, in connection therewith, establishing the duties of the department of early childhood and the executive director of the department, relocating early childhood programs from the departments of human services and education to the department of early childhood, creating the Colorado universal preschool program, and making and adjusting appropriations.

HB 22-1325 Concerning alternative payment models for primary care services, and, in connection therewith, making an appropriation.

HB 22-1380 Concerning creating comprehensive, statewide systems to provide improved access to critical program services that support low-income households, and, in connection therewith, making an appropriation.

SB 22-021 Concerning the treatment of persons with behavioral health disorders in the justice system, and, in connection therewith, making an appropriation.

SB 22-040 Concerning actuarial reviews of proposed legislation that may impose a new health benefit mandate on health benefit plans, and, in connection therewith, making an appropriation.

SB 22-106 Concerning addressing conflicts of interest in regional organizations responsible for public behavioral health services, and, in connection therewith, making an appropriation.

SB 22-125 Concerning allowing certain public health-care entities to improve health-care efficiency through cooperation.

TIER 3

HB 22-1002 Concerning expanding student access to enrollment in postsecondary courses while the student is enrolled in high school.

HB 22-1005 Concerning modifications to the existing tax credit for rural and frontier health-care preceptors.

HB 22-1008 Concerning the federal requirements for the implementation of fertility coverage under health benefit plans.

HB 22-1010 Concerning an income tax credit for eligible early childhood educators, and in connection therewith, making an appropriation.

HB 22-1052 Concerning promoting behavioral health crisis services to school-age students, and, in connection therewith, making an appropriation.

HB 22-1064 Concerning tobacco products, and, in connection therewith, prohibiting the distribution of flavored cigarettes, tobacco products, or nicotine products, amending the definition of cigarette, tobacco product, or nicotine product to include products containing synthetic nicotine, prohibiting the distribution of synthetic nicotine products, and directing the prevention services division in the department of public health and environment to convene a working group to develop and implement a grant program to address the needs of communities disproportionately impacted by tobacco and nicotine marketing, sales, and use.

HB 22-1070 Concerning early childhood development service districts, and, in connection therewith, allowing a district to include in its service area less than all of the territory of an existing taxing district and to accept gifts, grants, and donations.

HB 22-1095 Concerning an expansion of a physician assistant's ability to practice, and, in connection therewith, changing the relationship between a physician assistant and a physician or podiatrist from supervision to collaboration for physician assistants with less experience or who are working in a new specialty, establishing the collaboration requirements, and requiring physician assistants with more experience to consult with the physician assistant's health-care team.

HB 22-1098 Concerning the elimination of barriers to obtaining authority to practice an occupation based on an individual's criminal history record, and, in connection therewith, making an appropriation.

HB 22-1269 Concerning requirements imposed on persons not authorized to transact insurance business in this state who are offering coverage of health-care costs for Colorado residents, and, in connection therewith, making an appropriation.

HB 22-1283 Concerning enhanced residential services for persons with behavioral health needs, and, in connection therewith, making an appropriation.

HB 22-1284 Concerning updates to state surprise billing laws to facilitate the implementation of surprise billing protections, and, in connection therewith, aligning state law with the federal "No Surprises Act" and making an appropriation.

HB 22-1289 Concerning improving access to health benefits for economically insecure Colorado families by enhancing public health programs, and, in connection therewith, making an appropriation.

HB 22-1303 Concerning an increase in the number of residential behavioral health beds, and, in connection therewith, making an appropriation.

SB 22-033 Concerning the exclusion of revenues from the sale of certain foods from the calculation of total annual gross sales revenues for purposes of the limit on the amount of non-alcohol items a retail liquor store may sell.

SB 22-052 Concerning aligning medical assistance income eligibility requirements with federal law.

SB 22-068 Concerning the creation of a tool to provide transparency in health claims data submitted to the Colorado all-payer health claims database, and, in connection therewith, making an appropriation.

SB 22-081 Concerning a requirement that the board of directors of the Colorado health benefit exchange create a consumer outreach campaign to provide consumers with comprehensive information regarding covered health-care services, and, in connection therewith, adjusting the limit on the total amount of tax credits that may be granted to health insurance companies.

SB 22-149 Concerning measures to improve marijuana industry regulation.

SB 22-173 Concerning criteria relating to the operation of telepharmacy outlets.

SB 22-177 Concerning behavioral health system investments in the statewide care coordination infrastructure, and, in connection therewith, making an appropriation.

SB 22-181 Concerning the behavioral health administration's plan to address issues regarding the delivery of behavioral health-care services in this state, and, in connection therewith, making an appropriation.

OPPOSED

HB 22-1100 Concerning the prohibition against discrimination based on the refusal to obtain a COVID-19 vaccine.

HB 22-1200 Concerning a requirement that an employer grant an employee an exemption from a COVID-19 vaccine requirement under specified circumstances.

HB 22-1201 Concerning standards for immunization requirements.

HB 22-1326 Concerning measures to address synthetic opiates, and, in connection therewith, changing the criminal penalties associated with synthetic opiates; using a substance abuse assessment to direct appropriate treatment at sentencing; providing opiate antagonists in the community; providing synthetic opiate detection tests in the community; creating immunity for furnishing synthetic opiate detection tests; providing treatment for persons in the criminal justice system; developing a fentanyl prevention and education campaign; providing funding for substance use and harm reduction; evaluating the substance use and harm reduction needs across the state; requiring a post-enactment review of the implementation of this act; and making an appropriation.

Methodology:

- Total stars were awarded to Senators based on dividing members into quintiles after ranking members 1-35 based on their total percentage of their overall voting and sponsorship records.
- Total stars were awarded to Representatives based on dividing members into quintiles after ranking members 1-65 based on their total percentage of their overall voting and sponsorship records.
- Methodology for awarding points:
 - Only votes with a recorded third reading were scored for the entire General Assembly

- Points for sponsorships are included regardless of a third reading vote taking place.
- Sponsorship of a Healthier Colorado Tier 1 Bill = +3 points
- Sponsorship of a Healthier Colorado Tier 2 Bill = +1 points
- Sponsorship of a Healthier Colorado Tier 3 Bill = +0.333 points
- Votes aligned with a prohealth position +0.333 points
- Votes against a prohealth position resulted in no points being awarded
- Votes occurring when legislators were excused or absent were not included in their final score.

An Act

AMERICAN RESCUE PLAN ACT BILLS (ARPA)

HB 22-1283 Concerning enhanced residential services for persons with behavioral health needs, and, in connection therewith, making an appropriation.

HB 22-1303 Concerning an increase in the number of residential behavioral health beds, and, in connection therewith, making an appropriation.

HB 22-1380 Concerning creating comprehensive, statewide systems to provide improved access to critical program services that support low-income households, and, in connection therewith, making an appropriation.

SB 22-177 Concerning behavioral health system investments in the statewide care coordination infrastructure, and, in connection therewith, making an appropriation.

SB 22-181 Concerning the behavioral health administration's plan to address issues regarding the delivery of behavioral health-care services in this state, and, in connection therewith, making an appropriation.

ARPA MONEY SPENT

\$428 million

to increase affordable housing across the state by investing in innovative housing options, offering grants and loans to finance housing projects, and increasing access to homeownership for middle-income Coloradans and mobile home residents

\$250 million

to help people experiencing homelessness find housing and health care, and create a regional navigation campus and supportive residential community center to respond to and prevent homelessness in our state

\$184 million to bolster Colorado's behavioral health services by expanding inpatient and residential treatment options, stabilizing and investing in the behavioral health workforce, and improving care coordination and integration of behavioral health into primary care

\$157 million to support the mental health of youth and families by investing in community-based services, expanding behavioral health care services in schools, and increasing residential treatment options for intensive care

\$95 million to improve child care access and options for families, recruit and retain high-quality child care providers, and support the state's workforce in returning to work

\$57 million to prevent people with behavioral health needs from becoming involved in the criminal justice system, providing medication-assisted treatment to people in prison, and increasing funding for pre-trial diversion programs

\$29 million to address the state's fentanyl crisis by buying medication to reverse opioid overdoses, support medication-assisted treatment for people in jail, and provide grants to community-based organizations to support harm reduction efforts

HEALTHY AIR & WATER COLORADO ACTION

Healthy Air and Water Colorado Action is Healthier Colorado's sister organization that focuses exclusively on public policy that addresses the growing public health threats posed by climate change. We know that worsening air quality, rising temperatures and threats to water availability and quality – all products of climate change – have profound impacts on human health, particularly for our most vulnerable community members like those with existing health issues and children. While our Healthier Colorado work focuses on broadly mobilizing grassroots Coloradans, our charge is to engage health care professionals, including frontline health care providers who see and treat the real health issues caused by our changing environment.

Healthy Air & Water Colorado

KEY BILLS

WILDFIRE MITIGATION INCENTIVES FOR LOCAL GOVERNMENTS HB22 - 1011

Sponsors: Rep. Cutter, Rep. Snyder, Sen. Story, Sen. Lee

Pro-health position: Support

Final Action: Signed by Governor

Summary: Climate change has led to a hotter and drier Colorado, which has amplified the conditions that make severe wildfires possible. Large and destructive fires pose a direct threat to our safety. They also put our health in jeopardy as smoke and particulate matter from wildfires exacerbates existing health issues and worsens our air quality, leading to short and long term public health issues. Our state needs innovative approaches for mitigating wildfires before they happen. This bill creates a grant program to give state match funding to local governments that invest in long term wildfire mitigation strategies in order to protect Coloradans' health and safety from the dangers of catastrophic wildfires.

Coloradans live in the
'highest wildfire risk areas'
and more are moving
into those high risk
areas everyday.

PUBLIC PROTECTIONS FROM TOXIC AIR CONTAMINANTS HB22 - 1244

Sponsors: Rep. Kennedy, Rep. Gonzales-Gutierrez, Sen. Gonzales

Pro-health position: Support

Final Action: Signed by Governor

Summary: Toxic pollutants from industrial facilities have detrimental health effects, such as cancer, respiratory disease, and asthma complications for those regularly exposed to emissions of these chemicals. This often includes low income communities and communities of color that live closer to industrial polluters. HB22-1244 protects public health by establishing health-based standards for toxic chemicals to ensure that emissions of toxins are subject to limits that prioritize the health of nearby communities.

Air pollution causes about
100,000
premature deaths annually in America, and costs us all about \$886 billion per year.

BUILDING GREENHOUSE GAS EMISSIONS HB22 - 1362

Sponsors: Rep. Bernett, Rep. A. Valdez, Sen. Winter, Sen. Hansen

Pro-health position: Support

Final Action: Signed by Governor

Summary: Emissions from household appliances that run on fossil fuels such as gas stoves, water heaters, and furnaces contribute to poor indoor air quality that leads to a number of health impacts including asthma complications, bronchitis, and respiratory infections. On top of these acute health hazards, emissions from buildings represent the third largest source of greenhouse gas emissions in the state contributing to increased air pollution and larger and more destructive wildfires in our state. In order to improve indoor air quality to protect Coloradans' health and reduce the carbon footprint from buildings, HB22-1362 requires local governments to update building codes and allocates significant investments for clean energy transitions in buildings.

AIR QUALITY IMPROVEMENT INVESTMENTS SB22 - 193

Sponsors: Rep. Froelich, Rep. A. Valdez, Sen. Fenberg, Sen. Gonzales

Pro-health position: Support

Final Action: Signed by Governor

Summary: Doctors, nurses, and health researchers agree that the high pollution in Colorado's air is having a detrimental impact on community health across the state, leading to increased risk of cancers, asthma complications, cardiovascular diseases, and other potentially life threatening conditions. SB22-193 makes record-setting investments to clean up our air through grants for electric school buses, electric bicycles, and other energy efficiency projects that will reduce health harming emissions and make our air cleaner and safer to breathe.

Healthy Air & Water Colorado

LEGISLATOR WINNERS | HAWC

Senate Republicans

1. Kevin Priola*
2. Don Coram
3. Bob Rankin

Senate Democrats

1. Faith Winter*
2. Tammy Story
3. Julie Gonzales

House Republicans

1. Marc Catlin*
2. Mike Lynch
3. Perry Will

House Democrats

1. Lisa Cutter*
2. Alex Valdez
3. Tracey Bennett

The 2021 wildfire season in Colorado was the worst year on record, witnessing the **three largest fires in state history.**
