

Getting Around Charles Fort

There are two walkways around Charles Fort, an upper grass walk and a lower gravel walk. Some of the buildings that we can see on our journey are pictured below.

Ships Cannon

Soldiers Quarters

Sentry Box

Sally Port -Tunnel

Lighthouse

Parade Ground

It is best to walk and not to run around Charles Fort. Following the pathways is a good idea. There are many steps, grass slopes and uneven surfaces. There are high walls around the fort. It is important that we must not climb onto these unprotected areas.

Leaving Charles Fort

When we are ready to leave Charles Fort, we must return any items that we borrowed to the Sensory Box in the Ticket Office.

We exit Charles Fort the same way that we entered.

If we are leaving at 5.45pm in the Summer or at 4.30pm in the Winter we might hear a bell. One of the Tour Guides will ring this bell to let all the visitors know that it is time to leave.
