ZDHC MRSL V2.0 LEVEL 1 CONFORMANCE

Eliminate use of hazardous chemical from the origin

The Zero Discharge of Hazardous Chemicals Programme (ZDHC) has accepted Intertek as a testing certifier of the new version of ZDHC MRSL V2.0 Level 1 Conformance in connection with the ZDHC Gateway—Chemical Module.

Intertek can ensure compliance of the test data with the Quality Assurance and Quality Control requirements, as well as provide safety data sheet (SDS) review for any toxic chemical or specific priority chemicals and to verify SDS are up to date and in order.

Currently 10 Intertek apparel and footwear testing laboratories are approved:

- Bangladesh — Dhaka
- Hong Kong
- China — Guangzhou
- China — Shanghai
- China — Tianjin
- India—Bangalore
- India—Gurgaon
- Taiwan — Taipei
- Turkey
- Vietnam — Ho Chi Minh City

* As of April 2020

ZDHC MRSL conformance

Intertek is recognized by ZDHC as a third-party testing certifier to help companies demonstrate MRSL Level 1 conformance to the ZDHC Gateway – Chemical Module, an online chemistry database that provides safety and sustainability information about chemicals registered in the database. After Dec. 31, 2020, all chemicals in the Gateway shall be certified with MRSL V2.0.

By demonstrating ZDHC conformance, apparel and footwear brands and suppliers can implement a chemical management process that improves supply chain traceability.

Chemical management

Intertek Softlines can certify Level 1 Conformance against ZDHC's latest MRSL version, enabling supply chain transparency.

As an approved third-party certifier, Intertek offers testing programs against the ZDHC MRSL conformance guidance to verify and validate the compliance of chemicals used in textile, synthetic leather, and leather processing.
