The Future of Food

A Global Issue

Today's youth are tomorrow's citizens and scientists, inventors and entrepreneurs, patients and practitioners, learners and leaders. The Lawrence Hall of Science is dedicated to preparing youth to face the challenges of today and to inspire them to improve tomorrow.

As we work to continually improve science, technology, engineering, and mathematics (STEM) education, we create experiences that demonstrate that we can explore, investigate, discover, and invent our way through challenges with global implications.

One such challenge: feeding a hungry world

Funds raised this evening will help sponsor exhibits and programs at The Lawrence on the future of food, showcasing the many voices contributing to global food solutions, from farms, laboratories, and communities.

Our exploration of the future of food will serve as a model for exhibitions yet to come that will explore other STEM issues with global implications.

Innovations & Inspirations

The Future of Food

The Lawrence Hall of Science, University of California, Berkeley
November 9, 2023 • 5:00–9:00 p.m.

Join us at The Lawrence for an
immersive evening for hungry minds
exploring the future of food.

This celebratory benefit event will include tastings from food innovators, interactive experiences, a seated dinner, and an inspiring talk from our featured speaker, **Ndidi Okonkwo Nwuneli**.

A serial entrepreneur and changemaker, she will share stories of innovative food businesses and farming solutions that are transforming Africa's agriculture and nutrition landscape.

The evening will also include a spirited paddle raise to help underwrite our upcoming focus on the future of food.

Become a Sponsor

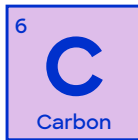

The Lawrence creates innovative programs, seeds new ideas, and increases access to high-quality science, technology, engineering, and mathematics (STEM) learning experiences for youth and educators both in Northern California and around the globe.

Our corporate and foundation partners are vital to our success, helping us ensure that all young people (regardless of financial resources) have the opportunity to engage in the transformative STEM learning they need to become the innovators and science-literate citizens of tomorrow.

Please join us on November 9 for an event not to be missed.

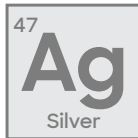

Sponsorship Levels & Benefits

**\$50,000
Diamond
Partner**

**\$25,000
Gold
Partner**

**\$10,000
Silver
Partner**

- Table for 10 at event
- Recognition during the event (in the program, slideshow, and other event activities)
- Recognition as a supporter of The Lawrence Hall of Science on our website, on our social media channels, and in our building and in our e-newsletter (25,000 subscribers)
- 25 guest passes for employees
- Increased recognition opportunities at the \$25,000 and \$50,000 levels

To discuss any level of sponsorship, please contact Deb Danziger at ddanziger@berkeley.edu or 510-643-0406.
