

# SKSIT3601GE SKSIT3001GE FLEX INDUCTION COOKTOPS

## FLEX INDUCTION COOKTOP PRODUCT SPOTLIGHT

Our ENERGY STAR® certified Flex Induction Cooktops feature powerful induction elements, with each zone providing up to 3,700 watts of power, delivering the power you need for most of your daily cooking.

Need to go to the next level? The 11-inch dual-center element delivers up to 7,000 watts (SKSIT3601GE) / 5700 watts (SKSIT3001GE) for even more induction power. But don't worry, there's plenty of beauty to go with all that brawn.

A 7-inch color LCD touch control makes it easy to use – and clean. And with their thin profile, they can be installed completely flush to match your style.

### SKSIT3601GE 36-INCH FLEX INDUCTION COOKTOP

#### Powerful Center Element

With 7,000 watts of power, the 11-inch dual center element is the most powerful center induction element in the industry\*. This element can boil one quart of water in about a minute.

#### Two Flex Cooking Zones

From a small pan to a large griddle, each Flex Cooking Zone combines elements to accommodate different sizes and shapes of cookware. Each zone provides up to 3,700 watts of power.

### SKSIT3001GE 30-INCH FLEX INDUCTION COOKTOP

#### Powerful Center Element

For the ultimate performance the 30-inch cooktop features an industry leading 5,700 watt strong and 11-inch wide center dual element.

#### One Flex Cooking Zone

From a small pan to a large griddle, the Flex Cooking Zone combines elements to accommodate different sizes and shapes of cookware.

#### Proud / Flush Installation for a luxury look in any kitchen

The cooktop can be installed proud, allowing quick and easy retro-fit installation. A flush-mount installation provides a sleek appearance that blends seamlessly with countertops.

#### LCD Touch Control simplifies cooking and makes clean-up easy

7-inch color LCD touch control allows for easy interface and use. The seamlessly integrated display is also easy to clean.

#### Wi-Fi Enabled for Smart Control and smart synchronization

The innovative Wi-Fi feature, powered by ThinQ® Technology, brings modern convenience to the kitchen. Monitor the on/off status of the cooktop elements from a mobile device using the ThinQ® app. When combined with a Signature Kitchen Suite Hood, ThinQ® Technology lets the cooktop and hood communicate with each other so the elements and fans are synchronized.

\*Among leading brand 36" induction cooktops when pots over 9" are used.
