For the love of the outdoors, let's Leave No Trace.

We love nature, but we all have an impact.

More use, trash, compromised wildlife, fire and climate change. The nature we love is at risk.

We are Leave No Trace

Leave No Trace is one of the world's leading organizations that addresses this risk by teaching people how to take care of the outdoors. Research says that people trained in Leave No Trace are five times more likely to protect nature, yet many still don't have the education they need to do so. Leave No Trace is here to change that.

How we do it:

1. Advancing the Science
2. Providing Education and Training for All
3. Increasing Environmental Stewardship & Advocacy

At Leave No Trace, we empower people to be the solution to conservation. To do this, we are advancing the science of Leave No Trace with research that supports the health of the outdoors. We are leading the way with Leave No Trace education and training for all people to ensure everyone has the tools they need. Leave No Trace is also building sustaining partnerships and activating communities through critical education and restoration programs.

Because when we Leave No Trace, we keep forests healthy, protect our parks, keep wildlife strong, prevent wildfires and ensure everyone is welcome to enjoy these remarkable places.
