

Aahnni Tribal Citizens,

My name is Dexter McNamara, and I am asking for your vote in the upcoming Tribal Election.

Some of my concerns are: The Blood quantum issue – Why are we the only Americans who must carry a card to verify what race we are? Blood quantum is confusing. If we are to continue the LTBB Band into future generations, we cannot continue to demand at least a quarter of quantum blood.

We all need affordable housing. This is not something that we need just for the elders, we must provide housing for non-elders also.

Prescription delivery service for all tribal members who cannot pick up their prescriptions.

Tribal Health is sitting on a gold mine. They can set up a delivery service.

New and updated policies and procedures at the Tribal Health Clinic.
