THE MARYLAND GENERAL ASSEMBLY  
ANNAPOLIS, MARYLAND 21401-1991

April 30, 2022

The Honorable Bill Ferguson  
President of the Senate  
State House  
Annapolis, Maryland 21401-1991

The Honorable Adrienne A. Jones  
Speaker of the House  
312 House Office Building  
Annapolis, Maryland 21401-1991

Dear President Ferguson and Speaker Jones:

We are pleased to submit the reports of the Senate Budget and Taxation Committee and House Appropriations Committee dealing with the final actions taken on Senate Bill 290 and Senate Bill 291. Senate Bill 290 is the State operating budget, making appropriations for support of the State government, for aid to local governments, and for other purposes during the fiscal year ending June 30, 2023, and for deficiency appropriations for the fiscal year ending June 30, 2022. Senate Bill 291 is the State capital budget, authorizing general obligation debt for State facilities and for grants to local governments and nonprofit organizations for construction of and improvements to facilities and infrastructure.

These reports incorporate detailed statements of all reductions made to the appropriations and also contain expressions of legislative intent and policy guidelines which are an integral part of the action taken on the budgets. Explanations of reductions and other actions are provided where the rationale may not be obvious.

Sincerely,

  
Guy Guzzone, Chairman  
Senate Budget and Taxation Committee

  
Maggie McIntosh, Chairman  
House Appropriations Committee

## **Agency Instructions**

### **Responding to Restricted Appropriations or Report Requests**

The *Joint Chairmen's Report* (JCR) lists each action adopted by the General Assembly in the budget bill, including reductions and budget bill language, with explanations. Budget language may, among other things, restrict funding pending the submission of a report or other action. The JCR also includes committee narrative adopted by the budget committees, which is generally used to request reports or additional information.

**Restricted Appropriations:** Where all or a portion of an appropriation is restricted, approval to release restricted funds should be requested in a letter addressed to the budget committee chairs and attached to an email to jcr.docs email address. The correspondence for a request should identify the agency, the amount restricted, the fund source, and should specifically note that the release of restricted funds is being requested. See "Submission Procedures" below for specific direction for all items.

**Due Dates for Reports:** Please note that some restricted items as well as reports requested via committee narrative have a specific due date. If a due date cannot be met and the agency wishes to request an extension, the agency should prepare a letter to the committee chairs and send as an attachment via email to the jcr.docs email address. The correspondence should indicate why an extension is needed and the anticipated submission date. See "Submission Procedures" below for specific instructions.

**Submission Procedures:** All correspondence, agency reports, and studies submitted in response to committee narrative or budget bill language are required to be submitted both in electronic form and hard copy:

- **Electronic copies and requests for extension should be sent via email to [jcr.docs@mlis.state.md.us](mailto:jcr.docs@mlis.state.md.us) with a cc to [Sarah.Albert@mlis.state.md.us](mailto:Sarah.Albert@mlis.state.md.us).** The naming convention for each item should include the session year of the JCR, the page in the JCR on which the item's Information Request appears, an agency abbreviation, and the title of the report (e.g., 2021\_p83\_DNR\_Coyote Population). **The subject line should include JCR REPORT or JCR EXTENSION REQUEST and reflect the session year of the JCR and the page in the JCR on which the item's information request appears.** DLS will distribute electronic copies to the Office of Policy Analysis staff, including the agency's DLS budget analyst, as well as the members of the budget committees. Electronic documents may **EITHER** use Adobe Acrobat **OR** Microsoft Word software, with tables and charts in either Word or through use of embedded (not linked) Excel files. (Word 2013 and Excel 2013 are preferred, but DLS can convert older versions.) **NOTE: If files to be emailed are larger than 10 MB, they cannot be sent via email. Contact [jcr.docs@mlis.state.md.us](mailto:jcr.docs@mlis.state.md.us) for instructions for posting large files on the DLS FTP site.**
  
- **Mail five hard copies of correspondence and reports to the legislative library. Please address the packet to:**

**General Assembly of Maryland**

**Budget Amendments**

Add the following language:

Provided that \$9,000,000 of general funds is added to the appropriation for the Maryland General Assembly to be allocated among the House of Delegates, Senate, and General Legislative Expenses.

**Explanation:** The additional funds support the operations of the General Assembly.

**DEPARTMENT OF LEGISLATIVE SERVICES**

Add the following language:

Provided that \$17,000,000 in general funds is added to the appropriation of the Department of Legislative Services for development of a new operating and capital budget system and for personnel expenses associated with new positions and increases to staff salaries to levels more competitive with other public sector employers in the region. The funds may be allocated across the units of the Department of Legislative Services. Further provided that 26 new positions are created for the Department of Legislative Services.

**Explanation:** This adds funds to replace an obsolete budget system, provide salary increases, and create 26 new positions.

**B75A01.07 Office of Policy Analysis**

Add the following language to the general fund appropriation:

, provided that \$250,000 in general funds is added to the appropriation for the Department of Legislative Services to conduct a disparity study in order to better understand the barriers to entering the cannabis market, contingent on the enactment of HB 837.

**Explanation:** This language increases the appropriation for the Department of Legislative Services to conduct a study of whether remedial measures are needed to assist minorities and women in the adult-use cannabis industry and market.

## B75A01

Add the following language to the general fund appropriation:

Further provided that \$500,000 in general funds is added to the appropriation of the Department of Legislative Services to support the Maryland 2030 Apprenticeship Commission, contingent on the enactment of SB 926.

**Explanation:** These funds provide funds to staff a commission on apprenticeships, contingent on the enactment of that legislation. Senate Bill 926 establishes the Apprenticeship 2030 Commission, staffed by the Department of Legislative Services (DLS) with the assistance of staff from State agencies represented on the commission. The purpose of the commission is to examine and make recommendations to reduce skill shortages in high-demand occupations and provide affordable training for career pathways for young people by expanding registered apprenticeships in industry sectors with skill shortages. The bill is consistent with the Blueprint goal for 45% of high school graduates completing the high school level of a registered apprenticeship.

Add the following language to the general fund appropriation:

Further provided that \$750,000 in general funds is added to the appropriation for the Department of Legislative Services for the costs and consultant fees associated with supporting the Commission on the Establishment of a Family Medical Leave and Insurance Program, contingent on the enactment of HB 496.

**Explanation:** This language increases the appropriation for the Department of Legislative Services to support operations of the Commission on the Establishment of a Family Medical Leave and Insurance Program, contingent on the legislation establishing the commission.

## Budget Amendments

Add the following language to the general fund appropriation:

Provided that \$12,502,610 in general funds made for the purpose of providing judicial compensation enhancements are reduced to bring available funds in line with the recommendations of the Judicial Compensation Commission. The Chief Judge is authorized to allocate this reduction across programs within the Judiciary.

**Explanation:** This action reduces funds in the fiscal 2023 budget to bring judicial compensation enhancements in line with the Judicial Compensation Commission’s recommendations. This includes a \$10,000 salary increase in fiscal 2023 for all judges.

## Committee Narrative

**Appointed Attorney Program Costs and Utilization:** The committees remain interested in the costs and operations of the Appointed Attorney Program. ### Budget Amendments

#### C00A00.04 District Court

Add the following language to the general fund appropriation:

. provided that \$8,250,000 of this appropriation made for the purpose of providing attorneys for required representation at initial appearances before District Court Commissioners consistent with the holding of the Court of Appeals in DeWolfe v. Richmond may be expended only for that purpose. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** This language restricts the use of \$8.25 million of the Judiciary's general fund appropriation for the implementation of DeWolfe v. Richmond.

Add the following language to the general fund appropriation:

Further provided that \$3,000,000 in general funds and 41.00 regular positions are added to the appropriation for the District Court to provide resources for the expedient implementation of statutory changes to expungement laws resulting from the enactment of HB 837 and the ratification of a constitutional amendment authorizing adult use and possession of cannabis, contingent upon the enactment of HB 837 and the ratification of a constitutional amendment authorizing adult use and possession of cannabis. The Judiciary is hereby authorized to redistribute funds and positions to other programs as needed to implement HB 837.

**Explanation:** This language adds funds and 41.00 regular positions to assist the Judiciary in expediently implementing statutory changes to expungement laws pertaining to the use and possession of cannabis.

#### C00A00.06 Administrative Office of the Courts

Add the following language to the general fund appropriation:

. provided that \$10,000,000 in general funds are added to the appropriation for the Maryland Legal Services Corporation within the Administrative Office of the Courts for the purpose of providing increased Access to Counsel services.

**Explanation:** This language adds funds for Maryland Legal Services Corporation for providing access to counsel.

## C00A00

Add the following language to the general fund appropriation:

Further provided that \$500,000 of this appropriation made for the purposes of administrative expenses may not be expended until the Judiciary submits a report on annual court performance measures. The report shall be submitted by January 1, 2023, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** This language restricts funds pending the submission of the annual report on Judiciary court performance measures.

Add the following language to the general fund appropriation:

Further provided that \$2,500,000 in general funds is added to the appropriation for the Maryland Legal Services Corporation (MLSC) within the Administrative Office of the Courts to provide resources to help MLSC educate individuals on changes to cannabis and expungement laws and support other expungement efforts, contingent upon the enactment of HB 837 and the ratification of a constitutional amendment authorizing adult use and possession of cannabis.

**Explanation:** This language increases the appropriation for the MLSC to be able to provide legal support and education related to statutory changes pertaining to expungement laws and the legal use and possession of cannabis.

### Committee Narrative

**Access to Counsel in Evictions Quarterly Reports:** The committees are interested in the operations of the Access to Counsel in Evictions program administered by the Maryland Legal Services Corporation (MLSC). The committees request quarterly reports, the first to be submitted October 15, 2022, detailing the planned fiscal 2023 budget for the Access to Counsel in Evictions program. Subsequent reports should include an update on the implementation of the program.

The first quarterly report should include:

- the fiscal 2023 budget for the Access to Counsel in Evictions program; and

## C00A00

- the pay structure for attorneys participating in the program.

The subsequent quarterly reports should include:

- the number of cases represented by attorneys in the program broken out by case type, including nonpayment of rent, breach of lease, and tenant holdover cases;
- the amount of funds paid to attorneys per case;
- the geographic distribution of cases;
- data on case dispositions that were decided during the relevant quarter;
- the amount of State and federal funds allocated to each grantee; and
- how many individuals, if any, received legal representation for multiple cases during the relevant quarter.

### **Budget Amendments**

#### **C00A00.10 Clerks of the Circuit Court**

Add the following language to the general fund appropriation:

, provided that \$619,341 in general funds are reduced to eliminate excess funds for circuit court clerk salary increases. The Chief Judge is authorized to allocate this reduction across the Judiciary.

**Explanation:** This action reduces funds in the fiscal 2023 budget to bring circuit court clerk salary increases in line with the fiscal note for SB 74 or HB 519 of 2022.

Add the following language to the general fund appropriation:

Further provided that \$719,389 of this appropriation made for the purpose of circuit court clerks salary increases is contingent on enactment of SB 74 or HB 519, which provides an increase in the maximum salaries for circuit court clerks.

**Explanation:** This action makes \$719,389 in funding for circuit court clerk salary increases contingent on the passage of SB 74 or HB 519.

**Staffing Needs Report:** The committees are concerned that due to the high vacancy rate and recent legislative and technological changes, the Office of the Public Defender (OPD) does not have enough full-time positions to support the workload that it is experiencing. The committees are also concerned about the high rate of using panel attorneys and contractual social workers to meet workload demands, including the impact that the use of these types of positions is having on the quality of representation that OPD provides for Marylanders. The committees request a report, to be submitted by September 1, 2022, that includes the following information:

- the staffing ratio of full-time secretaries, social workers, paralegals, and investigators per attorney, by district;
- the number of full-time intake specialists, by district;
- the average caseload of attorneys who work in parental defense, juvenile defense, District Court, and circuit court, by district;

## C80B00

## Committee Narrative

### C90G00.01 General Administration and Hearings

**Availability of Reporting of Complaints Filed Against Utilities:** The committees continue to be interested in tracking complaints filed against utilities as a point of comparison to the data on complaints filed against energy suppliers currently reported by the Public Service Commission (PSC) on its website. The committees request that PSC provide an update on its implementation of its new complaint data management system, including the status of the availability of reporting of complaints filed against utilities. If not currently available on its website at the time of this report, PSC should indicate when this data will become available and provide an updated summary of complaint data by complaint type for utilities, suppliers, and other regulated entities as of the end of calendar 2021 and year-to-date data for calendar 2022.

**Consumer Education and Protections Relating to Corrugated Stainless Steel Tubing (CSST):** The committees are interested in the potential dangers of corrugated stainless steel, or “yellow CSST,” a type of natural gas piping. The committees request that the Public Service Commission (PSC) submit a report on the potential creation of a consumer website to educate homeowners on the potential safety risks of improperly installed yellow CSST as well as consumer protections such as replacement, signage to alert first responders of its presence, and/or proper grounding or bonding of the piping. The report should include the potential costs associated with creating such a website, the potential content of such a website, and a review of whether any other state or local governments maintain such a website. PSC should consult with relevant stakeholders in preparing the report. The report shall be submitted no later than September 1, 2022.

**Energy Supplier Marketing Practices:** Over the last several years, the committees have requested various data from the Public Service Commission (PSC) related to third-party energy supplier pricing and marketing practices as well as complaints filed against these suppliers. The committees are interested in continuing to monitor the marketing practices of energy suppliers in the State, particularly due to concerns that certain energy suppliers may be targeting certain communities with prohibited marketing practices through the use of door-to-door sales activity. The committees request that PSC submit a report with data on door-to-door sales and marketing activity reported by retail energy suppliers, including the number of suppliers reporting activities by zip code, for the period of November 2020 through October 30, 2022. The report should also include a description of consumer education and other outreach activities conducted by PSC in response to prohibited marketing practices as well as any actions taken against energy suppliers.

**C96J00.01 General Administration**

Add the following language to the special fund appropriation:

. provided that since the Uninsured Employers' Fund (UEF) has had serious findings in the most recent fiscal compliance audit issued by the Office of Legislative Audits (OLA), \$250,000 of this agency's special fund appropriation may not be expended unless:

- (1) UEF provides a status report to OLA describing the corrective action that it has taken with respect to all audit findings on or before November 1, 2022; and
- (2) a report is submitted to the budget committees by OLA listing each audit finding along with a determination that each finding was corrected. The budget committees shall have 45 days from the date of the receipt of the report to review and comment to allow for funds to be released prior to the end of fiscal 2023.

**Explanation:** Due to audit findings regarding a lack of oversight of UEF's third-party administrator, a portion of its budget will be withheld pending the adoption of corrective action by the agency and a determination by OLA that each finding was corrected. OLA shall submit reports to the budget committees on the status of repeat findings.

**Justice Thurgood Marshall Center:** To support the operations of the Justice Thurgood Marshall Center, the Board of Public Works’ appropriation includes a new grant totaling \$1.75 million. This is expected to be an ongoing grant. The National Park Service (NPS) is preparing a Special Resource Study to determine if Justice Marshall’s school (Public School 103) should be designated as a national park. The criteria for recommending this designation are that the location (1) contains nationally significant natural or cultural resources; (2) represents a resource that is not adequately represented; (3) is sufficient in size and has appropriate configuration to ensure long-term protection and visitor enjoyment; and (4) requires direct NPS management that is clearly superior to other management approaches. The center should report to the committees on the status of NPS’ Special Resource Study and how the center will use the State grant funds.

**Cost Estimate of Certifying Sign Language Interpreters in Maryland:** In response to the 2020 Joint Chairmen’s Report, the Office of the Deaf and Hard of Hearing (ODHH) indicated that Maryland is the only state that does not have standards for sign language interpreters. Other states have established standards for sign language interpreting. For example, Texas has established a Board for Evaluation of Interpreters (BEI) that offers a certification program responsible for testing and certifying the skill level of individuals seeking to become certified interpreters in Texas. The committees continue to be interested in the State’s progress toward improving protections for users of sign language interpreting services. The committees request that ODHH submit a report that provides:

- cost estimates for developing a Maryland-specific independent certification program;
- cost estimates for implementing a State certification board, similar to Texas’ BEI, separately identifying one-time and ongoing costs;
- a fee scale that could be charged to applicants and be used to offset the cost of administering certifications;
- an estimate of the number of interpreters expected to be certified each year; and
- an estimate of the number of positions needed to create and staff an evaluation board and administer a State certification process.

The committees request the report be submitted by September 1, 2022.

**D12A02.02 Telecommunications Access of Maryland**

**Expenditures and Projected Balance of the Universal Services Trust Fund (USTF):** The USTF is funded by a telecommunications subscriber surcharge. Allowable uses of the USTF are primarily limited to the provision of accessible telephone service and equipment to individuals that have difficulties using a standard telephone and the Maryland Department of Aging’s (MDOA) Senior Call Check program. In fiscal 2021, the USTF was transferred to the Maryland Department of Disabilities (MDOD) with a fund balance of \$12.8 million. As programmatic changes to the Telecommunications Access of Maryland (TAM) program and operation of the Senior Call Check program are expected to incur expenditures substantially in excess of USTF annual revenues, the committees request that MDOD submit a report that:

- projects the USTF balance by fiscal year including anticipated revenue;
- projects, by category of cost, anticipated TAM expenditures from the USTF balance each year through fiscal 2027 and the number of individuals planned to participate in each TAM service each year through fiscal 2027;
- projects, in coordination with MDOA, Senior Call Check participation and program expenditures each year through fiscal 2027;
- describes a plan to address any projected USTF revenue shortfalls; and
- lists the service outcomes, with quantifiable performance goals, that are planned to be achieved through increased spending of USTF funds and provides this data indicating calendar 2022 performance against the identified performance goals.

**Strategic Energy Investment Fund (SEIF) Revenue, Spending, and Fund Balance:** The committees are interested in ensuring transparency in Regional Greenhouse Gas Initiative (RGGI) revenue assumptions and spending included in the budget as well as available fund balance. The committees request that the Department of Budget and Management (DBM) provide an annual report on the revenue from the RGGI carbon dioxide emission allowance auctions, set-aside allowances, and interest income in conjunction with the submission of the fiscal 2024 budget as an appendix to the Governor’s Fiscal 2024 Budget Books. The report shall include information on the actual fiscal 2022 budget, the fiscal 2023 working appropriation, and the fiscal 2024 allowance. The report shall detail:

- revenue assumptions used to calculate the available SEIF from RGGI auctions for each fiscal year, including the number of auctions, the number of allowances sold, the allowance price in each auction, and the anticipated revenue from set-aside allowances;
- interest income received on the SEIF;
- amount of the SEIF from RGGI auction revenue available to each agency that receives funding through each required statutory allocation, dues owed to RGGI, Inc., and transfers or diversions of revenue made to other funds; and
- fund balance for each SEIF subaccount for the fiscal 2022 actual, the fiscal 2023 working appropriation, and the fiscal 2024 allowance.

**Maryland Gas Expansion Fund Activities:** The fiscal 2023 allowance includes \$18.5 million of funds from the Maryland Gas Expansion Fund. This amount represents the vast majority of the unspent funds remaining in the fund that were restricted by the General Assembly in the fiscal 2022 Budget Bill for transfer to the Department of Human Services Office of Home Energy Programs for the purpose of bill payment assistance and arrearage retirement but were not released for that purpose. Fiscal 2022 spending from this fund is budgeted at \$7.5 million. Given the substantial increase in funding available to be distributed in fiscal 2023, the committees request that the Maryland Energy Administration (MEA) submit a report providing

information on the status of the application process, including applications received, evaluation criteria, and awards made. Data should include final end-of-year data for fiscal 2022 as well as year-to-date information for fiscal 2023. #### **D13A13.08 Renewable and Clean Energy Programs and Initiatives**

Add the following language to the special fund appropriation:

, provided that \$9,250,000 of this appropriation made for the purpose of the Maryland Energy Infrastructure Grant Program, including the Contributions in Aid of Construction Dispensation Fund, the Anchor Customer Program, and the Local Distribution Company Program, and technical assistance from the Maryland Gas Expansion Fund may not be expended for that purpose but instead may be transferred by budget amendment to the Department of Human Services program N00I00.06 Office of Home Energy Programs to be used only for bill payment assistance and arrearage retirement for residential electric and natural gas customers. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled.

**Explanation:** This language restricts \$9.25 million of the \$18.5 million appropriation in the Renewable and Clean Energy Programs and Initiatives program of the Maryland Energy Administration from the Maryland Gas Expansion Fund created as a result of a condition of approval of the WGL Holdings, Inc. and AltaGas, Ltd. merger to be used in the Department of Human Services for bill payment or arrearage assistance for residential electric and natural gas customers.

### Committee Narrative

#### D15A05.03 Governor's Office of Small, Minority & Women Business Affairs

**Training and Outreach Data:** The committees are concerned with the continued low Minority Business Enterprise (MBE) participation rate in State procurement. The committees direct the Governor's Office of Small, Minority, and Women Business Affairs (GOSBA) to report on its efforts to train vendors on the State procurement practices, particularly on MBE goals. This report should include monthly data related to GOSBA's technical training programs for business and its GOSBA-hosted small business events, with attention paid to whether attendees are MBEs or become MBEs, for fiscal 2021 through 2023.

**Agency Minority Business Enterprise (MBE) Participation Attainment and Liaison Surveys:** The committees are concerned by the overall low MBE attainment in State procurement and that Small Business Reserve and MBE program liaison positions remain vacant in some State agencies. The committees request that the Governor's Office of Small, Minority, and Women Business Affairs (GOSBA), in consultation with the Department of General Services (DGS), continue to administer the Agency MBE Participation and Liaison surveys. In addition to the existing survey questions, the Agency Liaison survey should inquire how much time the MBE liaison spends administering the MBE program. GOSBA should report the results, by agency, to the committees on December 1, 2022.

The committees request that the Maryland State Commission on Criminal Sentencing Policy (MSCCSP) develop a plan for studying the extent to which racial bias is present in sentences assigned through Maryland's Judicial system. The report, at a minimum, should identify a structure for the study, available data, a timeline, potential impediments, and estimated costs and resources needed to complete the evaluation.

**D17B01.51 Administration**

Add the following language to the general fund appropriation:

. provided that \$500,000 of this appropriation made for the purpose of the Historic St. Mary’s City Commission (HSMCC) may not be expended until the agency submits a report to the budget committees and the St. Mary’s County Delegation on the results of a performance audit. The report shall include all findings from a performance audit consistent with professional auditing standards of the administrative and financial offices of HSMCC to evaluate the efficiency and effectiveness of the financial management practices, including procurement by HSMCC. The audit shall meet the following requirements:

- (1) the audit shall be conducted by an independent entity that has expertise in nonprofit corporate government selected after a competitive bidding process for a certified public accounting firm;
- (2) on the award of the contract, and prior to the commencement of the audit, the certified public accounting firm shall consult with the Joint Audit and Evaluation Committee and the Office of Legislative Audits in the development of the scope and objectives of the performance audit; and
- (3) a certified public accounting firm that provides services to HSMCC is not eligible to bid on the performance audit.

The report shall be submitted December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The committees continue to be concerned about the financial management practices at HSMCC. This audit would provide the committees and St. Mary’s County Delegation with information on the financial management practices of HSMCC. This language restricts funds pending submission of an audit conducted by an independent third party on the financial management practices of HSMCC.

### ADMINISTRATIVE HEADQUARTERS

#### D21A01.01 Administrative Headquarters

Add the following language:

Provided that \$750,000 of the appropriation made for the purpose of grant expenditures may only be used to provide an operating grant to the National Center for Victims of Crime. Funding provided for this restricted purpose may not be drawn from the federal Victims of Crime Act award provided through the Governor's Office of Crime Prevention, Youth, and Victim Services or the State Aid for Police Protection program. Funds not expended for this purpose may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled or revert to the General Fund.

**Explanation:** This language restricts grant funding to be directed to the National Center for Victims of Crime.

Amend the following language to the general fund appropriation:

, provided that \$125,000 of this appropriation made for the Administrative Headquarters may not be expended until the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) submits a report to the budget committees reporting on Managing for Results data for the percentage of grants in a regular status, the percentage of grants in risk status audited, the percentage of closed grants with above average compliance with conditions and regulations of grants, the percentage of unused federal funds returned, and the percentage of unused State funds returned. GOCPYVS shall submit fiscal 2021 and 2022 actual data for each measure, along with estimated data for fiscal 2023 and 2024 in a draft report no later than November 1, 2022. The official submission shall be provided with the fiscal 2024 budget. The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** Public reporting of data and Managing for Results (MFR) is one of the primary tools that the legislature and the public have for evaluating the performance of GOCPYVS. The Department of Legislative Services recommends that the office return to reporting five MFR measures that were previously included in its annual submission.

Draft report on grants management MFR data	GOCPYVS	November 1, 2022
Grants management MFR	GOCPYVS	With the fiscal 2024 budget submission

Add the following language to the general fund appropriation:

Further provided that no funding provided under the federal Victims of Crime Act (VOCA) provided through the Governor’s Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) may be awarded to State agencies, programs, or held in reserve until each victim services provider who received funding during fiscal 2022 has been awarded funding at no less than the same level as fiscal 2022 to continue services to victims of crime during fiscal 2023. For the purposes of identifying a State agency or program, it is the intent of the budget committees that higher education institutions, the Baltimore Police Department, and other quasi-State entities be excluded from that definition and be included in the category of non-State victim services providers.

Further provided that if funding under VOCA is reduced, funding shall be awarded in the following manner:

- (1) victim services providers who received funding during fiscal 2022 shall receive all available VOCA funds, and funding for each provider may be reduced only by the same percentage as other providers, unless a provider submits a grant request for a lower amount; and
- (2) in the event that funding is not available, each grant shall be reduced by the same percentage unless a provider has requested reduced funding. Non-State providers shall be fully funded prior to any award to a State agency and prior to the retention of reserve funds. If additional State or federal funding becomes available as a result of COVID-19 relief, changes in the federal VOCA allocations to states, or otherwise, such cuts shall be restored.

No VOCA funding may be awarded by GOCPYVS except in a manner that gives priority to continuing funding for non-State victim services providers who received funding during fiscal 2022 and have the capacity to continue to provide services to victims.

Further provided that \$500,000 of the general fund appropriation for GOCPYVS made for the purposes of general administration may not be expended until, prior to providing fiscal 2023 awards and no later than August 1, 2022, GOCPYVS reports to the budget committees on:

- (1) each proposed grant award;

## D21

- (2) how priority has been given to non-State victim services providers;
- (3) whether each grant is equal to fiscal 2022 awards and, if it is not, the identification of the difference in funding and justification for this difference; and
- (4) the amount of VOCA funding held in reserve.

In addition to the official report, data shall be provided in an electronic format subject to the concurrence of the Department of Legislative Services (DLS). The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

Further provided that \$500,000 of the general fund appropriation for the purposes of administration may not be expended until GOCPYVS submits a report by November 1, 2022, regarding the federal VOCA funding. The report shall include:

- (1) total active VOCA grant awards as of January 1, 2022, including grant number, implementing agency, project title, start date, end date, amount of award, jurisdiction of implementation, and the brief description/abstract of the grant;
- (2) for each VOCA grant award in item (1) and for any other VOCA grant awards made subsequently, a description of whether for the federal fiscal year beginning October 1, 2022, the award was continued, awarded, or otherwise funded, including the grant number, implementing agency, project title, start date, end date, amount of award, jurisdiction of implementation, and the brief description/abstract of the grant;
- (3) for each VOCA grant award in items (1) and (2) identification of any decrease or other change in victim services funding between items (1) and (2), the justification for each grant award change, and the impact on the continuity of crime victim services;
- (4) the amount of unexpended funds for each open three-year VOCA grant and the reason funds are unexpended, including whether they are held in reserve for future grants;
- (5) identification of the respective amount of funds expended for the purpose of direct provision of services, administration, and that which went unobligated for the federal fiscal 2018 and 2019 three-year funding cycles;
- (6) identification of the legislative appropriation for VOCA and the actual level of spending for each State fiscal year, beginning with State fiscal 2016 through 2022; and
- (7) identification of any decrease or other change between the legislative appropriation for VOCA and the actual level of spending for VOCA for each State fiscal year identified in item (6) and the reason for any and all disparities that may exist between the legislative appropriation and the actual spending level.

## D21

In addition to the official report, data shall be provided in an electronic format subject to the concurrence of DLS. The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

Further provided that \$500,000 of the general fund appropriation made for the purposes of administration may not be expended until GOCPYVS publishes the total amount of funding from federal VOCA funds on GOCPYVS's website, including funds available from prior years and including the specific amounts held in reserve from each federal three-year award. GOCPYVS shall provide the budget committees with a letter, no later than November 1, 2022, indicating that this data has been made available on its website and providing the web address to this data. The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

Further provided that GOCPYVS is authorized to process a budget amendment recognizing additional State or federal funds to restore funding cuts to victim services providers if additional State or federal funding becomes available as a result of COVID-19 relief or changes in the federal VOCA allocations to states or otherwise.

Further provided that, upon request by a grantee and unless expressly prohibited by federal law, GOCPYVS shall permit grantees to carry over grant funds from one federal fiscal year to the next for up to six months. GOCPYVS shall take any steps needed to maximize the ability of grantees to carry over grant funds, including by requesting no-cost extensions for expenditure of federal funds granted to the State.

Further provided that it is the intent of the budget committees that the primary purpose of the programs funded through the VOCA grant awards be to ensure continuity of trauma-informed, high-quality services for victims of crime as the COVID-19 pandemic progresses.

**Explanation:** There have been several concerns among members of the General Assembly and the advocacy community that reductions in federal VOCA funding will result in a loss of services for victims of crime in Maryland. Questions have arisen surrounding the impact of declining federal awards, the allocation of grant awards, and the levels of unspent funding.

This language requires the State fiscal 2023 VOCA awards to be awarded at a level equal to that of fiscal 2022 in order to ensure the continuity of victim services. Further, in the event that available funding is reduced or not available, priority shall be given to non-State service providers, and funding for all non-State providers must be reduced by the same percentage. Additionally, grantees will be able to request that grant funds may be carried over from one federal fiscal year to the next for up to six months.

## D21

The language restricts funds pending the submission of a report by GOCPYVS detailing how non-State providers were given funding priority and proposed VOCA awards for the fiscal 2023 grant cycle.

The language restricts an additional \$1.0 million pending the submission of VOCA data by November 1, 2022. Of this funding, \$500,000 shall be released pending submission of a report providing information for all active VOCA grants as of January 1, 2022. The report should detail whether each of the grant recipients received the same level of VOCA funding during the federal fiscal 2021 VOCA grant cycle and the information on each of the grant programs receiving such funds. For each open three-year grant cycle (federal fiscal 2020, 2021, and 2022), GOCPYVS should report the amount of currently unexpended funds, the reason these funds remain unspent, and whether they will be held in reserve.

The report should provide further detail regarding the expenditure of funds for the two most recently completed funding cycles: 2018 and 2019. Finally, the report should identify any differences between the legislative appropriation and actual spending levels for each closed out fiscal year, beginning with State fiscal 2016: State fiscal 2016; 2017; 2018; 2019; 2020; 2021; and 2022. For any differences between the authorized and actual spending levels during the aforementioned State fiscal years, the report should identify and discuss the reasons for these disparities.

An additional \$500,000 shall be released pending submission of a letter, no later than November 1, 2021, confirming that data related to available VOCA fund reserves is published to GOCPYVS's agency website.

**Update on the Implementation of Office of Program Evaluation and Government Accountability (OPEGA) Performance Audit Recommendations:** The committees are interested in ensuring that the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) has the capacity to meet its complex vision and mission. As such, the committees direct GOCPYVS to submit a one-year update detailing its implementation or further response to the recommendations identified in the OPEGA performance evaluation of the office. The report should also identify any funding associated with the implementation of these recommendations in the fiscal 2022 and 2023 budgets.

**Police and Community Relations:** The committees are interested in better understanding the role community organizations may play in improving relationships between police and Maryland's communities as well as the role that community organizations may play in preventing juvenile crime and violence. The committees direct the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) to provide a report on funding currently provided to community organizations that are focused on improving police and community relations and preventing juvenile crime and violence. The report should also provide a description of the populations serviced, programs supported by the funding, and outcomes used to measure the effectiveness of the programming. Furthermore, the report should also provide options for improving and expanding the use of community organizations to improve police and community relations and to address juvenile crime issues as well as police athletic leagues. The report is to be submitted to the committees no later than August 1, 2022.

**Pretrial Services Program Grant Fund:** Chapter 771 of 2018 established the Pretrial Services Program Grant (PSPG) Fund to provide grants to eligible counties to establish or improve pretrial services programs. Under Chapter 771, the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) is granted the authority to administer the special nonlapsing PSPG Fund. The statute does not mandate an annual appropriation into the grant fund but allows for appropriations through the General Fund. Funding for the PSPG does not appear in the Fiscal 2023 Governor's Budget Books for fiscal 2022 or 2023.

The committees request that GOCPYVS provide a report detailing the actual annual expenditures from this grant fund in fiscal 2019 through 2023 expenditures year to date and the list of grant recipients and respective grant award amounts for each fiscal year. The report should also detail the program's mandate, the program's total funding for fiscal 2019 through 2023, the process that GOCPYVS uses for awarding grants from the PSPG Fund and confirmation that these funds are properly expended each year, or explanation for why the expenditures are not occurring. Finally, this report should address how the PSPG Fund and spending for the PSPG program appear in the relevant Governor's budget book to explain why allowance and actual amounts have varied so greatly. This report should be submitted no later than December 1, 2022.

#### D21A01.02 Local Law Enforcement Grants

Add the following language to the general fund appropriation:

, provided that \$50,000 of the appropriation made for the purpose of the Baltimore City Police Department's (BPD) portion of the Local Law Enforcement grants funding program may not be expended until the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) and BPD provide a report on recent arrest warrants that BPD has related to a violation of probation. The report shall include:

- (1) the number of open arrest warrants that BPD had each month for a violation of probation for calendar 2017, 2018, 2019, 2020, and 2021; and
- (2) the number of arrest warrants served for a violation of probation that BPD had each month for calendar 2017, 2018, 2019, 2020, and 2021.

The report shall be submitted by July 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The budget committees are seeking additional information about arrest warrants for those in violation of probation that BPD is responsible for. This language withholds a portion of the award made to BPD under the Local Law Enforcement grants funding program until GOCPYVS and BPD submit a report on warrants related to a violation of probation in calendar 2017, 2018, 2019, 2020, and 2021.

#### D21A01.02 Local Law Enforcement Grants

Add the following language to the general fund appropriation:

, provided that these funds are intended to supplement rather than supplant existing funding from all sources used to support Baltimore City warrant apprehension activities in fiscal 2022.

**Explanation:** This language requires that general funds provided in Supplemental No. 3 for the purpose of providing funding to the Baltimore City Police Department to support warrant apprehension activities may not be used to supplant other funding provided for this purpose.

### Supplemental Budget No. 3

#### D21A01.02 Local Law Enforcement Grants

Add the following language to the general fund appropriation:

, provided that these funds are intended to supplement rather than supplant existing funding from all sources used to support Baltimore City warrant apprehension activities in fiscal 2023.

Further provided that the Governor’s Office of Crime Prevention, Youth, and Victim Services, in consultation with the Baltimore City Police Department (BPD), shall provide a report summarizing the activities of the BPD’s Warrant Apprehension Task Force in fiscal 2022 and fiscal 2023. The report shall detail how all funds provided for the task force’s activities in fiscal 2022 and fiscal 2023 were used to increase the operational success of the Warrant Apprehension Task Force. The report shall be submitted to the budget committees by December 31, 2022.

**Explanation:** This language requires that general funds provided in Supplemental No. 3 for the purpose of providing funding to the BPD to support warrant apprehension activities may not be used to supplant other funding provided for this purpose. This language also directs the Governor’s Office of Crime Prevention, Youth, and Victim Services to submit a report, in consultation with BPD, on the activities of the Warrant Apprehension Task Force in fiscal 2022 and fiscal 2023.

### Budget Amendments

#### D21A01.03 State Aid for Police Protection

Add the following language to the general fund appropriation:

, provided that \$45,878,143 of this appropriation made for the purpose of State Aid for Police Protection funding made for the purpose of supporting the Administration's Re-Fund the Police Initiative and increasing funding for the counties and Baltimore City may be distributed only in a manner that allocates funds proportionally based on the number of reported total violent crime offenses in the 2020 Maryland Uniform Crime Report. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** The Administration's Re-Fund the Police Initiative proposes to increase funding provided through the State Aid for Police Protection Program (SAPP) by 50%, including an \$8 million appropriation to Baltimore City. However, the manner proposed for awarding those funds does not reflect a distribution in line with where the highest instances of violent crime are occurring across the State. This language requires that the enhanced portion of the SAPP funding be distributed to jurisdictions in proportion to the number of reported violent crimes per the most recent official crime report for the State – the 2020 Maryland Uniform Crime Report.

Add the following language to the general fund appropriation:

Further provided that \$100,000 of the appropriation made for the purpose of Baltimore County's portion of the State Aid for Police Protection funding program may not be expended until the Governor's Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) and the Baltimore County Police Department (BCPD) provide an update on the implementation of recommendations made in the Baltimore County Equitable Policing Advisory Group's Report of Initial Findings and Recommendations submitted December 4, 2020. The report shall include:

- (1) a specific response to each of the 13 community police relations recommendations, each of the 10 officer training recommendations, each of the 10 officer complaint process recommendations, and each of the three data accountability and transparency recommendations that BCPD has implemented fully or partially; and
- (2) an explanation for why any of the remaining recommendations have not been or cannot be implemented by BCPD.

The report shall be submitted by July 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

### Committee Narrative

**Police Aid Detail for Counties and Municipalities:** The committees are concerned that the Governor’s budget books do not provide sufficient detail to allow local governments to determine the level of police aid allocated to municipal governments as compared with county governments. This information is necessary for updating local government revenue estimates. It is the intent of the committees that, beginning with the Fiscal 2024 Budget Books and each year thereafter, the Governor’s Office for Crime Prevention, Youth, and Victim Services (GOCPYVS) separately detail State Aid for Police Protection (SAPP) funding allocations for county governments and municipal governments, similar to the format used by the State Highway Administration’s County and Municipality Funds.

## CHILDREN’S SERVICES UNIT

### D21A02.01 Children and Youth Division

**Expenditures for Children’s Programs:** The Governor’s Office for Children was moved to the now Governor’s Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) in December 2018 and transformed into the Children and Youth Division (CYD). CYD seeks to improve child well-being in Maryland and has seven priorities as set by the Children’s Cabinet: reduce the impact of incarceration on children, families, and communities; improve outcomes for disconnected/opportunity youth; reduce childhood hunger; reduce youth homelessness; using community-based programs and services to achieve juvenile justice system diversion; using trauma-informed practices and preventing adverse childhood experiences; and prevention of out-of-state placements.

The committees request that GOCPYVS provide a report detailing the actual annual expenditures to address each of those strategic goals and the percentage of funding that reached children under the age of 16 for fiscal 2020, 2021, and 2022. In addition, the committees request information on any funds that are used to provide mental health services to children and youth.

### VICTIM SERVICES UNIT

#### D21A03.01 Victim Services Unit

**Maryland Sexual Assault Evaluation Fund:** Chapter 422 of 2018 transferred the Maryland Sexual Assault Evaluation Fund from the Maryland Department of Health to the Victim Services Unit of the Governor’s Office of Crime Prevention, Youth, and Victim Services (GOCPYVS) in 2018. This fund is used to reimburse the cost of sexual abuse and assault evaluations, including medical exams and forensic interviews, for children and adults regardless of insurance or ability to pay. A qualified provider can bill \$80 per hour, for a maximum of 5 hours, for forensic services for victims of sexual abuse and assault. The five-hour limitation includes both medical exams and forensic interviews.

The committees are concerned that the program’s reimbursement rate and framework have not been recently evaluated for sufficiency in assuring appropriate and timely access to care. To ensure that the program is providing adequate reimbursement for medical exams and forensic interviews necessary to ensure timely access to these essential services, the committees request that GOCPYVS submit a report, no later than December 1, 2022, that includes the following information:

- a description of how the reimbursement program is administered by the office;
- the last time the reimbursement rate and maximum timeframe for medical exams and forensic services were updated as well as the last time the maximum hours for reimbursement was evaluated;
- what the hourly reimbursement rate would be if inflation since the last rate change was accounted for;
- what other surrounding states pay for comparable services;
- which counties are not currently billing for services and an explanation for why they are not billing; and
- any plans the office has to review the program, its funding, and the fee structure.

**Waitlist Data and Utilization of Program Enhancement Funding:** With \$3 million in general funds appropriated for the purpose of reducing Senior Care, Senior Assisted Living Subsidy (SALS), and Congregate Housing Services Program (CHSP) waitlists, the committees are interested in monitoring how the funds will be used and the effect on program waitlists. The committees request that the Maryland Department of Aging (MDOA) submit two reports, the first providing the following data as of July 1, 2022, and the second providing the following data as of January 1, 2023:

- the number of individuals, by age, race, and gender, participating in each program at each Area Agency on Aging (AAA);
- the number of individuals, by age, race, and gender, waitlisted for each program at each AAA;
- the number of assisted living and congregate housing providers that provide services to SALS and CHSP participants in each jurisdiction; and
- an update describing how each AAA plans to use each program’s appropriation over the coming six months.

The committees request a report providing a status update that includes the following data as of June 30, 2022:

- the total number of open and pending cases, separately by case type;
- the average case processing times by case type for fiscal 2022;
- the number of cases that have been unresolved for more than one year;
- the number of cases currently awaiting assignment to an investigator;
- an updated timeframe estimate for assigning the remaining outstanding cases to investigators;

**Quarterly Reports on Pollbook Major Information Technology Development Project (MITDP) Activities and Spending:** The committees request that the State Board of Elections (SBE) submit quarterly reports on the Pollbook MITDP activities and expenditures. The report submitted on July 15, 2022, should include projected costs in each month of fiscal 2023, a description of project milestones and the date that each milestone is planned to be achieved, and a description of anticipated contingency planning activities throughout the year. In addition, each report should include the following:

- a description of activities undertaken in the quarter, complete with dates identifying whether project milestones were achieved or if delays were experienced, and an assessment of the resulting effect any delays experienced in the quarter have on the project’s overall timeline;
- actual project spending in each month of the quarter;

The committees are concerned that there does not appear to be a long-term funding plan and scope for the commission’s activities despite the commission’s authority extending to December 31, 2027. Therefore, the committees request that the Maryland Department of Planning (MDP) submit a report by December 31, 2022, explaining the use of fiscal 2023 funding through December 31, 2022, the plan for the use of funding throughout the rest of fiscal 2023, and the long-term funding needs and scope of the commission’s activities.

**Improving Emergency Management Performance Measures:** The committees are concerned that the current Managing for Results (MFR) data reported by the newly established Maryland Department of Emergency Management (MDEM) does not include measures for the Maryland 9-1-1 Board and does not offer adequate insight into the agency’s objectives and performance. As such, the committees direct MDEM to develop more detailed agency objectives and performance measures for the MFR section of the Fiscal 2024 Budget Books and for subsequent fiscal years. The committees also direct MDEM to submit a draft of the department’s MFR submission not later than October 31, 2022. The department should consult with the Commission to Advance Next Generation 9-1-1 Across Maryland to develop its objectives and performance measures. At a minimum, these measures should include:

- all measurements submitted with the fiscal 2023 allowance;
- the ratio of grant monitors to grants from the federal emergency grant support provided to local jurisdictions;
- the ratio of grant monitors to grants from the State portion of the 9-1-1 telephone surcharge;
- the funds awarded to each jurisdiction from the State portion of the 9-1-1 telephone surcharge; and

Add the following language to the special fund appropriation:

. provided that \$100,000 of this appropriation made for the purposes of general administration may not be expended until the Maryland Institute for Emergency Medical Services Systems submits a report to the budget committees on interfacility transportation for Medicaid patients between hospitals in the State. The report shall study both emergency and nonemergency interfacility transport, including the capacity under the current referral process, response time to referral requests, and costs under the current system. The report shall also include recommendations for improvements to the current system. The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** The budget committees are concerned with the interfacility ambulance transport between Maryland health systems and hospitals for Medicaid patients. **Emergency Medical Technician (EMT) Shortages and Evaluation of Efforts to Address Shortages:** EMTs and other emergency health personnel have played a vital role in Maryland’s response to the COVID-19 pandemic. Recent actions by the Governor and new programs under the Maryland Institute for Emergency Medical Services Systems (MIEMSS) have attempted to expand the availability of EMT personnel in the State. The committees request that MIEMSS include in its annual report a discussion of the expanded work and role that EMT personnel have played during the COVID-19 pandemic and any current statewide staffing shortages. Further, the committees request that the annual report should include, to the extent available, data and information on the effectiveness of the new EMT education stipend and regulatory action taken under the Governor’s executive order, including any increase in the availability of providers resulting from these actions. **D55P00.05 Veterans Home Program**

Add the following language to the federal fund appropriation:

. provided that \$2,000,000 of this appropriation made for the purpose of grants to the Charlotte Hall Veterans Home (CHVH) contractor may not be expended until the Maryland Department of Veterans Affairs submits a report to the budget committees on CHVH’s response to the COVID-19 pandemic, including justification for continued revenue support for the contractor in fiscal 2023. The report shall be submitted by October 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** CHVH is the only such facility currently operated by the State. The facility’s care of elderly veterans made it uniquely impacted and susceptible to the challenges of the COVID-19 pandemic. The committees are interested in gaining insight into the impact that the COVID-19 pandemic has had on CHVH’s residents, staff, and operations. The committees request that the Maryland Department of Veterans Affairs (MDVA) and CHVH submit a report that conveys and reflects the difficulties faced by CHVH throughout the COVID-19 crisis thus far. This report should include a discussion of strategies and best practices for infection control used by the facility. Further, the report should include a detailed discussion of the impact that resident census has on revenue and facility operations and the methodology used for determining revenue supports. The report should further address the continued need for revenue support in fiscal 2023. Additionally, the report should include a discussion of the COVID-19 vaccination rollout, both among staff and residents; any initiatives or incentives to increase vaccination rates; and the impact that the vaccine availability has had on CHVH operations.

To facilitate the further review of this disparity and the equitable taxation of alcoholic beverage products, the committees request that the Alcohol and Tobacco Commission (ATC) submit a report no later than December 31, 2022, including:

- the states that have enacted legislation taxing RTD cocktails at a rate lower than full-strength spirits and a summary of each such enactment that includes the tax rate and a comparison of how RTD cocktails are taxed in comparison to full-strength spirits, wine, and beer;
- any information that is available on the impact of such laws in other states, including fiscal impact of the change;
- the market share and other data relating to the categories of alcoholic beverage products that RTD cocktails primarily compete with;
- precedent in Maryland law for reclassifying an alcoholic beverage product for purposes of the excise tax that is not dependent on the product’s base; and

While the State Department of Assessments and Taxation (SDAT) has reported on this issue quarterly, the committees wish to remain briefed on this situation. The committees request that SDAT continue to submit quarterly reports, which should outline SDAT’s efforts to increase hiring, improve training processes, and provide information by employee class title and jurisdiction for the quarter preceding the due date of the report:

- the number of employees in the program that have left State service;
- the number of new hires;
- the number of positions posted;

**E80E00.01 Property Tax Assessment Appeals Boards**

Amend the following language to the general fund appropriation:

. provided that \$50,000 of this appropriation made for the purpose of the Property Tax Assessment Appeals Boards may not be expended until the Property Tax Assessment Appeals Board submits a report regarding the plan to address the backlog at the Prince George’s County Property Tax Assessment Appeals Board and board member appointments and communication. The report shall include:

- (1) a timeline for when the backlog in Prince George’s County will be addressed;
- (2) a plan for addressing the backlog in Prince George’s County, including additional resources from the Property Tax Assessment Appeals Board being provided to the Prince George’s County Property Tax Assessment Appeals Board to address the backlog as well as other steps and strategies being implemented; and
- (3) information regarding the recruitment, appointment, and removal of board members for all jurisdictions as well as the communication to potential and current appointees during these processes.

The report shall be submitted by August 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The Property Tax Assessment Appeals Boards (PTAAB) have had difficulty throughout the pandemic ensuring that all property tax assessment appeals boards are able to maintain a timely appeals process, with some facing a large backlog of appeals that are passing the constitutional requirement for timely return. In particular, Prince George’s County has had difficulties in processing appeals. **Budget Amendments**

**F10A02.01 Executive Direction**

Add the following language to the general fund appropriation:

. provided that \$100,000 of this appropriation made for the purpose of agency administration may not be expended until the Department of Budget and Management and Maryland Department of Transportation (MDOT) submit a report detailing formal procedures for performing Annual Salary Reviews in the State Personnel and Management System and MDOT.

The procedures shall include timelines for when reviews are performed, methodologies for determining the employee classes eligible for review, and methods for determining the amount of funds available to allocate annually for a salary review.

The report shall be submitted by November 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** There is currently no formal procedure for conducting Annual Salary Reviews (ASR). This language restricts funds until a procedure is created for the State Personnel Management System and MDOT employees and a report detailing the procedure is submitted to the budget committees.

**Health Insurance Account Closeout Report:** The committees request a report on the fiscal 2022 closeout of the Employee and Retiree Health Insurance Account. This report shall include (1) closing fiscal 2022 fund balance; (2) actual provider payments due in the fiscal year broken out by medical payments for active employees, medical payments for non-Medicare-eligible retirees, medical payments for Medicare-eligible retirees, prescription drug payments for active employees, prescription drug payments for non-Medicare-eligible retirees, and prescription drug payments for Medicare-eligible retirees; (3) State employee and retiree contributions, broken out by active employees, non-Medicare-eligible retirees, and

Medicare-eligible retirees; (4) an accounting of rebates, recoveries, and other costs, broken out into rebates, recoveries, and other costs associated with active employees, non-Medicare-eligible retirees, and Medicare-eligible retirees; (5) any closeout transactions processed after the fiscal year ended; and (6) actual incurred but not received costs.

**Quarterly Prescription Drug Plan Performance:** The State entered into a pharmacy benefit manager contract with CVS Caremark effective January 1, 2018. The committees request that the Department of Budget and Management (DBM) provide quarterly prescription drug plan performance data to the committees in order to monitor the trends of prescription drug utilization and costs. The report should provide information on the highest cost prescription drugs by category of treatment; the prescription drugs accounting for the largest increases in drug spending; the top 25 most costly individual prescription drugs in generic, brand, biologics, and specialty drug categories; recent drug patent expirations; and upcoming new drug patent approvals. Additionally, the reports should include data on the cost drivers and drug trends by actives, non-Medicare retirees, and Medicare retirees.

**Quarterly Medical and Dental Plan Performance:** In recent years, the State has implemented different strategies to contain medical costs. The committees request that the Department of Budget and Management (DBM) submit quarterly reports on plan performance of the State's medical and dental plans. Reports should provide utilization and cost data broken out by plans as well as actives, non-Medicare-eligible retirees, and Medicare-eligible retirees. The reports should include utilization per 1,000 plan participants; unit cost and per member costs for hospital inpatient services; hospital outpatient services; professional inpatient services; professional outpatient services; and ancillary services, provided by the State's health plans.

**Budget Amendments**

**F10A05.01 Budget Analysis and Formulation**

Add the following language to the general fund appropriation:

. provided that \$250,000 of this appropriation is contingent upon the Department of Budget and Management submitting two reports on the expenditure of federal funds available through the American Rescue Plan Act. The reports shall list the amount available to the State through each federal grant, the amount expended to date, the remaining balance, and the date by which the funds must be encumbered under federal law. Additionally, the second report shall include the allocation of funds by State agency and a description of expenditures. The reports are due September 15, 2022, and January 15, 2023. The budget committees shall have 45 days from the date of receipt of the first report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** American Rescue Plan Act (ARPA) funding provided \$3.9 billion in grants for eligible COVID-19 expenses. This language requires a full accounting of ARPA grants on a semiannual basis to increase transparency and oversight of federal fund spending.

**Monitoring the Use of Federal Stimulus Funding:** Given the influx of a significant amount of federal stimulus and other relief funding into Maryland since the start of the COVID-19 pandemic, there are concerns about ensuring that those resources are used in the most proper and effective manner. As such, the budget committees direct the Department of Budget and Management to explore the existing mechanisms and data available for evaluating the following:

- the extent to which already distributed funds have been utilized in alignment with federal rules and guidance in order to appropriately serve targeted populations and prevent improper use;
- opportunities for improving agency administration of funds to ensure proper compliance with federal rules, reduction of cybersecurity risks, and appropriate internal auditing procedures; and

## F10A05

- outcomes that can be measured to determine the impact COVID-19 assistance has had in Maryland.

**Managing for Results (MFR) Goals and Indicators for Services to State Agencies:** The Department of Information Technology’s (DoIT) fourth MFR goal is to provide efficient and high-quality information technology services to State agencies. DoIT also has indicators that measure the workload and efficiency. However, the goal does not address value, and there are no indicators for costs. Many of the services that DoIT provides are comparable to services provided by the private sector and other organizations. DoIT should expand its MFR goals to include value and add indicators that measure costs and value. The department should report these indicators with the fiscal 2024 budget.

**Plan for Spending Cybersecurity Funds Appropriated in the Dedicated Purpose Account (DPA):** The Department of Information Technology (DoIT) will have access to up to \$110 million in funding in the DPA to support cybersecurity efforts. DoIT advises that these funds will fund the next phase of the cybersecurity assessments, including ongoing cybersecurity, vulnerability risk and reduction assessments, privacy impact assessments, and implementation of remediation recommended by the assessments. Additionally, the funding will support security incident response efforts, like the ransomware attack at the Maryland Department of Health. Audit findings have noted that it is too common for legacy systems to have cybersecurity risks. DoIT should report on its plans to spend funds in the DPA. This should include discussions of how and when the funds will be spent; lessons learned from assessments; and progress made securing State information technology hardware, software, and systems. It should also include an update on efforts made to address cybersecurity risks in legacy systems.

**Update Remote Workforce Enablement Major Information Technology Development Project (MITDP):** Audits from 2020 have four audit findings in which agencies have issues associated with virtual private networks (VPN). A survey of information technology professionals released by SolarWinds estimates that more staff will be teleworking often or always in the future than during the COVID-19 pandemic. It is reasonable to expect that State agencies that are currently teleworking will continue to telework. To reduce cybersecurity risks

## F50

and improve teleworking productivity, the Department of Information Technology's (DoIT) fiscal 2023 budget includes \$7.9 million for the Remote Workforce Enablement MITDP, which develops a VPN that provides a single, secure network for State agencies on DoIT's enterprise system. The department should report to the committees on the status of the Remote Workforce Enablement MITDP. This update should include a timeline for implementing the project, a list of agencies that will be using the VPN, and if any agencies not on DoIT's enterprise system will be using the new VPN.

**Infrastructure Investment and Jobs Act (IIJA) Funding and Reporting:** The federal IIJA creates the State and Local Cybersecurity Grant Program. Early estimates are that Maryland will receive \$16 million from this fund from federal fiscal 2022 to 2025. The State is required to give at least 80% of these funds to local governments and 25% of the local grants (or 20% of total grants) to rural areas. The Act also requires that the State have a cybersecurity planning committee. The committee should prepare a plan that includes (1) information about existing plans to address cybersecurity risks; (2) an explanation of how the State will monitor and track threats; (3) an overview of plans to enhance preparation, response, and resilience to information technology systems against risks; and (4) how the State will implement a process of continuous cyber vulnerability assessments and threat mitigation policies. The department should submit a status report to the budget committees that identifies how these grants will be distributed, when the cybersecurity planning committee will begin its work, any efforts made preparing the plan, and when the department anticipates the plan will be ready.

**Pricing Maryland Public Television (MPT) Tower Resource Sharing Agreements (RSA):** In December 2011, the Department of Information Technology (DoIT), the Maryland Department of Transportation, and MPT developed a standard pricing schedule for cell phone tower RSAs. Pricing is a function of the amount of traffic around a tower and the type of equipment on the tower. This has been effective in standardizing revenues from cell phone tower RSAs. In recent years, factors such as digitized broadcast signals and additional channels from broadcasters have contributed to increased antenna television viewership. In calendar 2021, MPT entered into an RSA with a television broadcaster for its Anne Arundel County tower. In February 2022, DoIT notified the Legislative Policy Committee of a proposal to renew an RSA with a radio station using the Salisbury tower. The Anne Arundel County MPT tower, which has strong signals to both the Baltimore and Washington, DC television markets, was priced based

## F50

on the vehicle traffic around the tower even though the tower's signals reach well beyond this traffic. The pricing for the radio station will be below the amount recommended by the standard pricing schedule. DoIT and MPT should develop pricing strategies and schedules for MPT towers for both radio and television. The agencies should consider factors like distance that the signal covers, size of the market, and broadcaster's market share.

**State Chief Data Officer and State Chief Privacy Officer:** Executive orders in July 2021 created the positions of State Chief Data Officer and State Chief Privacy Officer. The positions will develop, monitor, and direct State policies concerning data availability and privacy. These positions are appointed by the Governor. The order also created agency data officers and agency privacy officers in State agencies that work with the State officers. The Department of Information Technology's (DoIT) fiscal 2023 budget also includes \$3.4 million in new contracts to support these positions. To inform the committees, the Governor's Office and DoIT should report to the committees on the role of these new positions, policies developed by these positions, progress made toward accomplishing objectives set in the executive orders creating the positions, and spending plans for the funds budgeted to support these positions.

# G20J01 State Retirement Agency

## Committee Narrative

### G20J01.01 State Retirement Agency

**Report on COVID-19-related Disability Claims:** The committees are interested in the number of disability applications and disability awards related to COVID-19 the State Retirement Agency (SRA) is processing. The report should include the following information:

- the number of disability applications referencing COVID-19 as a cause or contributing cause of the disability;
- the number of disability applications citing long COVID-19 as the disabling condition;
- the number of disability benefit awards where COVID-19 caused or contributed to the disabling condition;
- the number of disability benefits awarded where long COVID-19 is the disability;
- general information on the best practices in place at other public systems with regards to the handling of COVID-19-related disability claims; and
- general information on the reasons why State Retirement and Pension System disability claims citing COVID-19 have been approved or rejected.

**Retirement Date Flexibility:** The committees are concerned about the lack of flexibility for members of the State pension systems in choosing retirement dates, as it is required that members retire on the first of the month. The committees request that the State Retirement Agency (SRA) provide a report on the impacts of allowing members to choose a retirement date other than the first of the month. The report should include:

- a summary of the changes necessary to allow for more choice in retirement dates;
- an estimate of the costs of implementing changes necessary to allow for more choice in retirement dates; and

## G20J01

- an explanation of the impact on State pension systems' members retirement benefits, including retiree health care benefits if applicable.

**Explanation:** This narrative requests a report from SRA on the impacts of allowing for more flexibility in the choice of pension system members' retirement dates.

**H00A01.01 Executive Direction**

Add the following language to the general fund appropriation:

. provided that \$250,000 of this appropriation made for the purpose of Executive Direction may not be expended until the Department of General Services submits a report to the budget committees on the status of State Center. The report should include an update on the State Center litigation, planned agency moves, parking for agencies moving into leased space, cost and operational issues associated with depopulating State Center, potential future uses of the State Center property when it is vacant, and opportunities for the community and General Assembly to provide input regarding future uses of the State Center property. The report shall be submitted by September 30, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The Department of General Services (DGS) is moving agencies out of State Center and into leased space in Baltimore City. The language requires that DGS update the committees on the status of State Center and potential future uses of the property.

**Emergency Procurements Reporting to the Board of Public Works (BPW):** A review of emergency procurements in calendar 2021 not related to the COVID-19 pandemic showed that only 6 of 54 BPW agenda items were brought to BPW within 45 days of awarding the contract, as required by law. As the procurement control agency, the Department of General Services (DGS) should examine emergency procurements to determine why such a large share of them were reported to BPW beyond the 45-day timeframe and what can be done so that more emergency procurements are reported within the time required by State law.

**Managing for Results (MFR) Goals for Employee Training and Retention:** In response to high employee vacancies and turnover rates, the budget bill includes a \$300,000 deficiency appropriation for the Department of General Services (DGS) to create a training program for DGS employees. The training program will be a multitiered training program that is expected to have a tier for (1) supervisors and employees wanting to become supervisors; (2) managers such as unit chiefs, deputy directors, and directors; and (3) senior or executive level staff and employees whose goal it is to move into such a role. DGS' first MFR goal is to provide best value for customer agencies and taxpayers. This training program is consistent with this goal. As such, DGS should add an objective to its first goal about employee retention and appropriated training. DGS should consider performance measures like (1) the number of employees in the program; (2) retention rates of employees that do and do not participate in the program; (3) career paths of employees that do and do not participate in the program; and (4) other measures of the training program's effectiveness.

**Women's Prerelease Center Oversight:** Chapter 16 of 2021 established a mandate to build, operate, and provide status reports on a standalone prerelease facility dedicated to incarcerated women returning to the community. The Department of Public Safety and Correctional Services (DPSCS) submitted the fiscal 2022 Prerelease Unit for Women Progress Report late and has made slow progress in complying with Chapter 16. It is the intent of the committees that the Department of General Services (DGS) provide project oversight, guidance, and technical assistance in the development of this project. The committees request a report, due January 15, 2023, that includes a status update on the following:

- procuring a project manager;
- determining a new building site;
- determining how much space and how many beds are needed in the new facility;
- determining estimated costs for each portion of the project; and
- procurement challenges, project risks, and oversight needs.

**Budget Amendments**

Add the following language:

Provided that it is the intent of the General Assembly that projects and funding levels appropriated for capital projects, as well as total estimated project costs within the Consolidated Transportation Program, shall be expended in accordance with the plan approved during the legislative session. The department shall prepare a report to notify the budget committees of the proposed changes in the event that the department modifies the program to:

- (1) add a new project to the construction program or development and evaluation program meeting the definition of a “major project” under Section 2-103.1 of the Transportation Article that was not previously contained within a plan reviewed in a prior year by the General Assembly and will result in the need to expend funds in the current budget year; or
- (2) change the scope of a project in the construction program or development and evaluation program meeting the definition of a “major project” under Section 2-103.1 of the Transportation Article that will result in an increase of more than 10% or \$1,000,000, whichever is greater, in the total project costs as reviewed by the General Assembly during a prior session.

For each change, the report shall identify the project title, justification for adding the new project or modifying the scope of the existing project, current year funding levels, and the total project cost as approved by the General Assembly during the prior session compared with the proposed current year funding and total project cost estimate resulting from the project addition or change in scope.

Further provided that notification of project additions, as outlined in paragraph (1) above; changes in the scope of a project, as outlined in paragraph (2) above; or moving projects from the development and evaluation program to the construction program shall be made to the General Assembly 45 days prior to the expenditure of funds or the submission of any contract for approval to the Board of Public Works.

**Explanation:** This annual budget bill language requires the department to notify the budget committees of proposed changes to the transportation capital program that will add a new project that was not in the fiscal 2022 to 2027 Consolidated Transportation Program (CTP) or will increase a total project’s cost by more than 10%, or \$1 million, due to a change in scope. Reports are to be submitted with the draft and final versions of the CTP with each using the 2022 session CTP as the basis for comparison. In addition, notification is required as needed throughout the budget year if certain changes to projects are made.

Add the following language:

The Maryland Department of Transportation (MDOT) may not expend funds on any job or position of employment approved in this budget in excess of 9,107.5 positions and 115.0 contractual full-time equivalent (FTE) positions paid through special payments payroll (defined as the quotient of the sum of the hours worked by all such employees in the fiscal year divided by 2,080 hours) of the total authorized amount established in the budget for MDOT at any one time during fiscal 2023. The level of contractual FTE positions may be exceeded only if MDOT notifies the budget committees of the need and justification for additional contractual personnel due to:

- (1) business growth at the Helen Delich Bentley Port of Baltimore or Baltimore/Washington International Thurgood Marshall Airport that demands additional personnel; or
- (2) emergency needs that must be met, such as transit security or highway maintenance.

The Secretary shall use the authority under Sections 2-101 and 2-102 of the Transportation Article to implement this provision. However, any authorized job or position to be filled above the regular position ceiling approved by the Board of Public Works shall count against the Rule of 100 imposed by the General Assembly. The establishment of new jobs or positions of employment not authorized in the fiscal 2023 budget shall be subject to Section 7-236 of the State Finance and Procurement Article and the Rule of 100.

**Explanation:** This annual budget bill language establishes a position ceiling for MDOT each year to limit growth in regular positions and contractual FTEs. The position cap allows for 50 regular positions to implement a departmental apprenticeship program.

**J00A01.01 Executive Direction**

Add the following language to the special fund appropriation:

. provided that \$500,000 of this appropriation made for the purpose of departmental administration may not be expended until the Maryland Department of Transportation submits a report to the budget committees explaining the methodology it uses in determining whether to fund projects on county priority letters entirely from State funds or from a combination of State and federal funds and, when using federal funds, how the department determines whether to use federal formula funds or to seek a discretionary grant. The report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of this report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** The process by which the Maryland Department of Transportation (MDOT) makes funding decisions for projects identified in county priority letters is unclear. This language restricts funds pending a report explaining MDOT's methodology.

### J00A01.02 Operating Grants-In-Aid

Add the following language to the special fund appropriation:

. provided that no more than \$5,561,906 of this appropriation may be expended for operating grants-in-aid, except for:

- (1) any additional special funds necessary to match unanticipated federal fund attainments; or
- (2) any proposed increase either to provide funds for a new grantee or to increase funds for an existing grantee.

Further provided that no expenditures in excess of \$5,561,906 may occur unless the department provides notification to the budget committees to justify the need for additional expenditures due to either item (1) or (2) above, and the committees provide review and comment or 45 days elapse from the date such notification is provided to the committees.

**Explanation:** This annual language caps the level of special funds provided for operating grants-in-aid. The cap may be increased to match unanticipated federal dollars or to provide new or expanded grant funding upon notification to the budget committees.

**8000 Series Passenger Railcars Procurement – Local Economic Benefits:** The committees are interested in learning about the economic benefits that will accrue to Montgomery and Prince George’s counties as a direct or indirect result of the contractors’ performance under the Supply and Service Contract (RFP CQ19038-8K/FRV) to deliver the Washington Metropolitan Area Transit Authority’s (WMATA) 8000 Series passenger railcars and request that WMATA submit a report by October 1, 2022, providing this information. As required by the request for proposals, the economic benefits may include building an assembly plant, subcontracting to local businesses, hiring local employees, providing job training, and supporting local business initiatives. Add the following language:

Consolidated Transportation Bonds may be issued in any amount, provided that the aggregate outstanding and unpaid balance of these bonds and bonds of prior issues may not exceed \$3,321,205,000 as of June 30, 2023.

**Explanation:** Section 3-202 of the Transportation Article requires the General Assembly to establish the maximum debt outstanding each year in the budget bill. The level is based on the outstanding debt as of June 30, 2021, plus projected debt to be issued during fiscal 2022 and 2023 in support of the transportation capital program.

Add the following language:

The Maryland Department of Transportation (MDOT) shall submit with its annual September and January financial forecasts information on:

- (1) anticipated and actual nontraditional debt outstanding as of June 30 of each year; and
- (2) anticipated and actual debt service payments for each outstanding nontraditional debt issuance from fiscal 2022 through 2032.

Nontraditional debt is defined as any debt instrument that is not a Consolidated Transportation Bond or a Grant Anticipation Revenue Vehicle bond; such debt includes, but is not limited to, Certificates of Participation; debt backed by customer facility charges, passenger facility charges or other revenues; and debt issued by the Maryland Economic Development Corporation or any other third party on behalf of MDOT.

Add the following language:

The total aggregate outstanding and unpaid principal balance of nontraditional debt, defined as any debt instrument that is not a Consolidated Transportation Bond or a Grant Anticipation Revenue Vehicle bond issued by the Maryland Department of Transportation (MDOT), exclusive of any draws on the federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan for the Purple Line Light Rail Project, may not exceed \$1,382,690,000 as of June 30, 2023. The total aggregate outstanding and unpaid principal balance on the Purple Line TIFIA loan may not exceed \$1,760,500,000 as of June 30, 2023. Provided, however, that in addition to the limits established under this provision, MDOT may increase the aggregate outstanding unpaid and principal balance of nontraditional debt so long as:

- (1) MDOT provides notice to the Senate Budget and Taxation Committee and the House Appropriations Committee stating the specific reason for the additional issuance and providing specific information regarding the proposed issuance, including information specifying the total amount of nontraditional debt that would be outstanding on June 30, 2023, and the total amount by which the fiscal 2023 debt service payment for all nontraditional debt would increase following the additional issuance; and
- (2) the Senate Budget and Taxation Committee and the House Appropriations Committee have 45 days to review and comment on the proposed additional issuance before the publication of a preliminary official statement. The Senate Budget and Taxation Committee and the House Appropriations Committee may hold a public hearing to discuss the proposed increase and shall signal their intent to hold a hearing within 45 days of receiving notice from MDOT.

**Explanation:** This language limits the amount of nontraditional debt outstanding at the end of fiscal 2023 for non-TIFIA debt to the total amount that was outstanding from all previous nontraditional debt issuances as of December 31, 2021, plus an anticipated issuance of \$655 million of Private Activity Bonds for the Purple Line Project. TIFIA debt outstanding for the Purple Line Project is capped at the projected maximum debt outstanding level that will occur during the construction phase of the Purple Line Project. The language allows MDOT to increase the amount of nontraditional debt outstanding in fiscal 2023 by providing notification to the budget committees regarding the reason that the additional debt is required.

The committees therefore request that the State Highway Administration (SHA) provide a report detailing the number of accidents at this location by type for the past three years and indicating what measures have been or can be taken to improve safety along this portion of I-695. ### Budget Amendments

#### J00B01.05 County and Municipality Funds

Add the following language to the special fund appropriation:

. provided that \$2,000,000 of this appropriation made for the purpose of providing a grant to Baltimore City may not be expended until Baltimore City submits a letter to the budget committees and the Baltimore City legislative delegation committing to operate the existing Banner Route of the Charm City Circulator during the entirety of fiscal 2023 and beyond. The budget committees shall have 45 days from the receipt of the letter to review and comment. Funds restricted pending the receipt of this letter may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the letter is not submitted to the budget committees.

**Explanation:** This language restricts transportation aid to Baltimore City until the City commits to continuing the operation of the existing Banner Route of the Charm City Circulator.

Add the following language to the special fund appropriation:

, provided that \$250,000 of this appropriation made for the purpose of reimbursing the Maryland Transportation Authority (MDTA) for policing services, contingent on the failure to enact either HB 29 or SB 59, may not be expended for that purpose or any other purpose until MDTA submits a performance audit that allays concerns about ongoing issues with E-ZPass toll collections and accuracy. On the award of the performance audit contract to a certified public accounting firm, the certified public accounting firm shall consult with the Joint Audit and Evaluation Committee and the Office of Legislative Audits in the development of the scope and objectives of the performance audit. The performance audit shall include:

- (1) a full discussion billing issues and any related data;
- (2) statistics on customer call center wait times;
- (3) statistics on customer problems repaying tolls dues to errors;
- (4) MDTA's efforts to address the backlog of toll transactions;
- (5) any technological issues with toll facilities and billing; and
- (6) statistics on how MDTA resolves claims of billing errors.

Further provided that in submitting the aforementioned performance audit and requested data, MDTA shall also provide an update on the Customer Assistance program and any related statistics.

The report shall be submitted by December 15, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** MDTA has had ongoing issues with of tolling errors and billing accuracy, particularly in its E-ZPass program. Being that MDTA is nonbudgeted, this language restricts funds within the Maryland Port Administration appropriated for the purpose of reimbursing MDTA for policing expenses incurred at the Port of Baltimore until a report is provided detailing the findings of the performance audit.

**Budget Amendments**

**J00H01.01 Transit Administration**

Add the following language to the special fund appropriation:

, provided that \$100,000 of this appropriation made for the purpose of agency administration may not be expended until the Maryland Transit Administration submits a report to the budget committees on the policies it has and the procedures it uses to assist paratransit users when scheduled rides do not arrive within 30 minutes of the scheduled pick-up time. The report shall include the following information:

- (1) how stranded riders can contact the paratransit dispatch center to provide notification that a scheduled pickup is 30 minutes or more late;
- (2) how backup drivers and vehicles are made available;
- (3) for fiscal 2022:
  - (a) the number of paratransit trips scheduled;
  - (b) the number and percent of paratransit trips performed on time;
  - (c) the number and percent of paratransit trips performed late in 30-minute increments; and
- (4) for calendar 2022, the on-time percentage by month.

The report shall be submitted by January 16, 2023, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** The Maryland Transit Administration's (MTA) stated goal is achieving an on-time performance of 92%; however, MobilityLink on-time performance was well below this level during calendar 2021. This language requires MTA to report on how paratransit riders experiencing late service are assisted.

Add the following language to the special fund appropriation:

Further provided that \$100,000 of this appropriation made for the purpose of agency administration may not be expended until the Maryland Transit Administration (MTA) submits a report to the budget committees comparing itself with peer agencies and surrounding jurisdictions with respect to wage and salary levels, hiring and retention bonuses, and any other relevant metrics related to attracting and retaining employees for job classifications for which MTA is currently experiencing high vacancy rates. The report shall be submitted by October 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** Transit service has suffered recently due to MTA's inability to maintain sufficient filled positions for several job classifications such as bus operators and vehicle maintenance workers. This language requires MTA to provide a report comparing itself to surrounding jurisdictions on hiring and retention factors for these job classifications.

Add the following language to the special fund appropriation:

Further provided that \$100,000 of this appropriation made for the purpose of agency administration may not be expended until the Maryland Transit Administration submits a report to the budget committees on:

- (1) the level of reliable cellular and broadband access in stations and along transit rights-of-way for MARC, Light RailLink, and Metro SubwayLink; and
- (2) the extent to which, if any, there has been a review of reliable, cellular and broadband access within transit-oriented development and surrounding communities.

The report shall be submitted by August 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** The committees are interested in learning the extent to which there is access to reliable cellular and broadband access for commuters within transit stations as well as those along rights-of-way, including within transit-oriented development.

Further provided that \$100,000 of this appropriation made for the purpose of agency administration may not be expended until the Maryland Transit Administration submits five bimonthly construction status reports for the Purple Line project to the budget committees. The status reports shall provide:

- (1) the percent completion for the project as a whole and for each major category of work;
- (2) the running total amount expended for construction; and
- (3) an explanation of any material change to the total construction cost estimate or construction schedule as set forth in the revised P3 Agreement as amended to add Maryland Transit Solutions as the replacement design-build contractor for the project.

The first status report shall be submitted by July 1, 2022, and subsequent reports shall be submitted every second month thereafter, and the budget committees shall have 45 days from the date of the receipt of the final report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** This language restricts funds pending regular construction progress reports for the Purple Line Light Rail Project.

**Baltimore Collegetown Network:** The Baltimore Collegetown Network is a consortium of Baltimore-area colleges and universities that has expressed a desire for a dedicated transit service connecting each institution to replace individual systems run by member institutions that have some duplicative service, realize efficiencies, and improve transit services for students. The committees request that the Maryland Transit Administration provide technical assistance to the Baltimore Collegetown Network in planning the development of its unified transit system.

**Linthicum Heights Light Rail Crossing:** In February 2022, a crash involving a light rail train and a motor vehicle near the intersection of MD 169 (West Maple Road) and MD 170 (Camp Meade Road) in Linthicum Heights resulted in the death of the motor vehicle operator. The committees request that the Maryland Transit Administration (MTA), in conjunction with the State Highway Administration (SHA), provide a report by October 1, 2022, detailing the following:

- the agencies' policies related to regular inspection of rail crossing equipment such as crossing arms and warning lights and bells;
- the results of a safety review of the Linthicum Heights light rail crossing evaluating:
  - the current gate system with respect to proper functioning;
  - the feasibility of converting the crossing to a grade-separated crossing; and
  - whether the design of the crossing adheres to best practices;
- the findings of any previous studies of the Linthicum Heights crossing; and
- any barriers to converting the Linthicum Heights crossing to a grade-separated crossing and the steps that the Linthicum Heights community, in conjunction with SHA, MTA and Anne Arundel County, can take to facilitate the conversion to a grade-separated crossing.

This report shall include the following:

- (1) the process MAA uses to validate its noise modeling;
- (2) the physical validation of the noise model for 65, 60, 55, 50, 45 and 40 dBA DNL; and
- (3) the process used to physically validate the 65 to 40 dBA DNL contours.

This report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted for this report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted.

**Explanation:** The committees remain interested in efforts that MAA is taking to mitigate the impact of aircraft noise on the lives of Marylanders. MAA has never been required to show any contours except the 65 dBA DNL. Many of the complaints received by MAA have been between DNL 65 and 40 dBA. The only available data is due to portable noise monitor studies requested by members of the public. This language restricts funds pending receipt of a report from MAA evaluating noise levels among contours for 40 to 65 dBA DNL.

**Female Black Bear Population Report:** The committees are concerned that insufficient information is known about the impact of the annual black bear hunt on the female black bear population in Maryland. For instance, the five-day hunt held October 25, 2022, through October 29, 2022, in Allegany, Frederick, Garrett, and Washington counties harvested 34 female bears as opposed to only 20 male bears. In addition, the last black bear population survey was conducted in 2011. Therefore, the committees request that the Department of Natural Resources (DNR) submit a report on the impact of the annual hunt on the female black bear population, including information from the statewide Sightings and Complaints Survey, the Black Bear Bait Station Survey, the Mortality Survey, and the Reproduction Survey. Amend the following language to the special fund appropriation:

Further provided that \$6,000,000 of this appropriation made for the purpose of providing funding to Baltimore City through the Baltimore City Direct Grant from the Program Open Space State allocation shall be allocated as follows:

- (1) \$5,900,000 for projects that meet park purposes; and
- (2) \$100,000 to study and evaluate repairs needed on the Patterson Park Pagoda.

Further provided that \$100,000 of this appropriation made for the purpose of providing funding to Baltimore City through the Baltimore City Direct Grant from the Program Open Space State allocation may not be expended until Baltimore City Recreation and Parks submits a report to the budget committees. The report shall include information on the plans, next steps, and timeline to rebuild the Patterson Park Ice Rink as required by the Patterson Park Master Plan. In addition, the report shall include information on the next steps and timeline to fully fund the needs listed in the 2020 Baltimore City Recreation and Parks Swimming Pool Assessment and to provide adequate wages for lifeguards and staff to ensure full staffing for the calendar 2023 and future swimming seasons. The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** Statute allocates \$6,000,000 for the Baltimore City Direct Grant from the Program Open Space State allocation in fiscal 2023. This action specifies how the funding is to be allocated and restricts funding pending the submission of a report.

**Budget Amendments**

**M00A01.01 Executive Direction**

Add the following language to the general fund appropriation:

Further provided that \$100,000 of this appropriation made for the purposes of executive direction may not be expended until the Maryland Department of Health (MDH) submits a report to the budget committees on staffing vacancies throughout MDH. The report shall address barriers to attracting and maintaining staff, including:

- (1) a comparison of compensation between MDH and other comparable administrative positions at the federal and local levels;
- (2) a comparison of compensation of direct care staff to other private and nonprofit health care settings;
- (3) an evaluation of the impact of recent annual salary review adjustments and any other compensation benefits or incentives offered by MDH;
- (4) discussion of recruitment and retention strategies for the MDH workforce; and
- (5) the long-term impact of the Facilities Master Plan on MDH's staffing alignment.

The report shall be submitted by October 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purposes and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The committees are concerned about the persistently high vacancy rates in MDH. As of December 31, 2021, the vacancy rate in the MDH Administration budgets was 12.89%, with high vacancy rates found in both direct care institutions as well as administration. This language restricts funds pending a report on barriers to recruitment and retention throughout MDH, including salary comparisons to other similar positions elsewhere in government or in different care settings. Further, this language requests that MDH report on the alignment of MDH's current staff with the goals and projects outlined in the new Facilities Master Plan.

## M00A01

Add the following language to the general fund appropriation:

Further provided that \$1,000,000 of this appropriation made for the purposes of executive direction may not be expended until the Maryland Department of Health (MDH) submits a report to the budget committees on the actual amount of overpayments outstanding, recoupment of overpayments, forgiveness of overpayments to providers, specifically accounting for expenditures from the fiscal 2022 deficiency appropriation provided for this purpose, and any equity considerations around the chosen forgiveness and recoupment options. The report shall also include a discussion by MDH regarding steps that were taken by MDH or the Behavioral Health Administrative Services Organization to ensure that amounts of overpayments forgiven do not have associated claims that may, if addressed through further reconciliation or adjudication, reduce the need for general fund forgiveness and increase the State's ability to claim federal funds. The report shall also include the total number and total amount of claims still in dispute, total number and total amount of claims resolved through reconciliation, and the difference between estimated payments amounts and the amounts associated with service provision. The report shall be submitted by August 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The nearly eight-month estimated payments period required due to the failed launch of the new Administrative Services Organization resulted in overpayments to providers currently estimated to be no more than \$214 million, for which the MDH is going to begin the recoupment of funds. Included in this total is \$81.5 million that the Behavioral Health Administrative Services Organization has identified being associated with a claim that was denied that may require additional action by the provider. Any number of these claims that were previously denied that may ultimately be cured would reduce the overpayment balance for an individual provider and receive at least a 50% federal fund match. The department has also received a \$13 million general fund deficiency for the forgiveness of certain providers. This language restricts funding pending a report on the process used by the department to determine the actual amount of overpayments outstanding, forgiveness of overpayments, including an accounting of the expenditures from the fiscal 2022 deficiency appropriation provided for this purpose and equity considerations around the particular forgiveness plan chosen and the recoupment plan undertaken. The report should also address efforts to ensure claims that were forgiven did not have claims associated with them that had not been fully resolved. This report should also include the number and total amount of claims resolved through reconciliation process and the total number and amount of claims currently disputed or needing further resolution.

### M00A01.07 MDH Hospital System

Add the following language to the general fund appropriation:

. provided that \$100,000 of this appropriation made for the purposes of hospital administration may not be expended until the Maryland Department of Health submits a report to the budget committees on the time to placement for court-involved patients and the efforts to improve the timeliness of placement to align with statutorily required timeframes. The report shall be submitted by October 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purposes and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The committees are concerned with the increasing delays seen in the placement of court-involved placements. Specifically, legislative mandates have been in place since fiscal 2019 requiring individuals who are either incompetent to stand trial (IST) or not criminally responsible (NCR) to be admitted within 10 business days. While this mandate was largely met in the first year, subsequent years have had longer placement times for IST/NCR patients. This language restricts funds pending a report on the efforts being made to improve the timeliness of placement for NCR/IST patients within the legislatively mandated 10-day period.

**Uniform Reporting on Patient and Staff Safety:** As of fiscal 2023, the Maryland Department of Health (MDH) has largely completed the reorganization of the State's facilities and hospitals under the MDH Hospital System. However, reporting on staff and patient safety is inconsistent between the different facility types, making comparisons between facility types difficult and preventing a complete picture of safety at these facilities. The committees are concerned about inconsistent reporting across the MDH Hospital System and request that MDH submit a report on efforts to improve reporting on measures of patient and staff safety and recommendations for uniform measures of patient and staff safety. The committees also request that the recommended uniform measures be included in annual Managing for Results submissions beginning with the fiscal 2024 budget.

**Report on Divestiture from Upper Shore Hospital Center:** The Maryland Department of Health (MDH) has included a planned divestiture from the former Upper Shore Hospital Center, which closed in 2010 and is currently occupied by the A.F. Whitsitt Center, operated by the Kent County Health Department in the current facility master plan. The A.F. Whitsitt Center is an inpatient residential treatment facility that treats substance use disorders (SUD) and co-occurring mental health disorders. The committees are interested in the extent to which, if any, divestiture from this facility by MDH will impact the operations and service provision by the A.F. Whitsitt Center and more broadly on substance use treatment in the region. MDH should submit a report that addresses:

- options for divestiture from the Upper Shore Hospital Center;
- the extent to which divestiture from the Upper Shore Hospital Center will impact the operations of the A.F. Whitsitt Center including any anticipated impact on staffing of the center;
- estimated cost savings through divestiture from the A.F. Whitsitt Center;
- applicants and number serviced at the A.F. Whitsitt Center separately by year and jurisdiction; and
- current public inpatient bed need and capacity for SUDs by jurisdiction and efforts by the department to address unmet need.

**Report on Admissions Applications for Chronic Care Hospitals and the Holly Center:** The committees are interested in the number of applicants seeking admission into either of the State's Chronic Care Hospitals at Deer's Head Hospital Center (DHHC) and Western Maryland Hospital Center (WMHC) as well as the Holly Center. In particular, the committees are interested in the share of applicants to these facilities that ultimately receive services, the extent to which outstanding need exists for these services, and what efforts can be made to increase service utilization. The Maryland Department of Health (MDH) should submit a report on:

- the number of applicants, by program, service line, and facility separately by year since calendar 2017;
- the number of these applicants, by program, service line, and facility who were ultimately admitted to these facilities separately by year since calendar 2017;
- for applicants not admitted, the top reasons for failure to admit, by program, service line, and facility, separately by year since calendar 2017;
- efforts being made by MDH, if any to, increase program participation and number of applicants into programs at these facilities;
- overall licensed bed capacity by program, service line, and facility annually separately by year 2017; and
- average daily staffed bed capacity by program, service line, and facility separately by year since calendar 2017.

New Centers for Disease Control and Prevention (CDC) guidance have expanded offering influenza vaccine distribution for patients aged 50 to 65 years old, above the prior recommendations for all patients 65 and older in accordance with CDC's Advisory Committee on Immunization Practices. While currently, the Office of Health Care Quality (OHCQ) publishes the number of these complaints, the outcomes or resolutions are not made available. The committees request that OHCQ submits a report on the process for investigating these complaints made by, or on the behalf of, Alzheimer's patients, the time that it takes to investigate these complaints, and the resolution or follow-up process taken by OHCQ after investigation. **M00B01.04 Health Professional Boards and Commissions**

Add the following language to the special fund appropriation:

. provided that \$100,000 for the Board of Professional Counselors and Therapists and \$100,000 for the Board of Pharmacists, made for the purposes of the Health Professional Boards and Commissions may not be expended until the Maryland Department of Health (MDH) Board of Professional Counselors and Therapists and Board of Pharmacists submits a report addressing the steps taken to remedy finding 1 and the Board of Professional Counselors and Therapists submits a report addressing the steps taken to remedy finding 5 of the fiscal compliance audit released by the Office of Legislative Audits in January 2021 for the MDH Health Regulatory Services. These reports shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of receipt to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** Due to the concern over repeat audit findings, the Joint Audit and Evaluation Committee has requested language restricting funds until repeat audit findings are resolved. Given the unique nature of the Health Professional Boards and Commissions, a modification to the language has been adopted to request that the impacted boards identify steps taken related to specific repeat findings related to that board. #### M00B01.05 Board of Nursing

Add the following language to the special fund appropriation:

. provided that \$100,000 of this appropriation made for the purpose of the Board of Nursing may not be expended until the Maryland Department of Health (MDH) Board of Nursing submits a report to the budget committees detailing efforts to resolve repeat audit findings related to providing sufficient oversight to ensure complaints against licensees were investigated timely and password and account controls were sufficient to protect critical data as identified in the fiscal compliance audit released in January 2021 by the Office of Legislative Audits for the MDH Health Regulatory Services. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the report is not submitted to the budget committees.

**Explanation:** Due to concern over repeat audit findings, the Joint Audit and Evaluation Committee has requested language restricting funds until repeat audit findings are resolved. Given the unique nature of the Health Professional Boards and Commissions, a modification to the language has been adopted to request that the impacted board identify steps taken related to specific repeat findings related to that board. In particular, the timeliness of the investigations into complaints and the associated impediments caused by staffing issues. The committees request that the Maryland Board of Nursing (BON) submit a report that includes:

- an overview of the process by which investigations into complaints are handled, including each step from the receipt of the complaint to the conclusion;
- the number of authorized positions dedicated to investigations and the number of positions filled from fiscal 2020 through 2022;

**DEPUTY SECRETARY FOR PUBLIC HEALTH SERVICES**

**M00F01.01 Executive Direction**

Amend the following language to the general fund appropriation:

, provided that \$500,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Health submits a report to the budget committees on the Office of the Chief Medical Examiner (OCME) accreditation status and recruitment and retention efforts for medical examiner staffing and other OCME personnel. The report shall include:

- (1) OCME's accreditation status and any updates on when the National Association of Medical Examiners (NAME) will begin demoting or removing accreditation statuses due to phase I and II violations related to the COVID-19 pandemic;
- (2) phase I and II violation findings from any inspections conducted by NAME in fiscal 2022 or 2023;
- (3) year-to-date full-time equivalent (FTE) medical examiners (identifying the number attributed to per diem medical examiners) and the calendar year-to-date ratio of FTE medical examiners to examinations performed;
- (4) an update on the hiring of a chief medical examiner and 21 positions that were transferred to OCME in fiscal 2023, including medical examiner, forensic investigator, and autopsy assistant positions;
- (5) information on other efforts to fill vacant positions to ensure that OCME can maintain full accreditation;
- (6) a comparison of salaries offered by OCME for board-certified medical examiners compared to medical examiner offices in other jurisdictions and other pathology jobs available in Maryland;
- (7) a status update on any backlogs of autopsies needing to be performed, including the number of autopsies in the backlog, a timeline for the office to address all backlogs, and total funds spent on additional storage capacity resulting from the backlog in fiscal 2022 and fiscal 2023 year-to-date;

## M00F

- (8) a description and timeline of all assistance provided by the Federal Emergency Management Agency (FEMA) to address the backlog of autopsies, the number of autopsies performed by FEMA personnel, the number of positions temporarily provided by FEMA, and an update on whether FEMA assistance will continue to be provided in the future; and
- (9) a description of how the \$350,000 for recruitment and retention of medical examiner positions was spent in fiscal 2022 and how the \$825,000 for recruitment and retention of medical examiner positions in fiscal 2023 will be spent, including how much of this funding has been spent in fiscal 2023 year-to-date.

The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** In fiscal 2021, OCME reported a medical examiner caseload ratio that was significantly higher than the NAME maximum standard to maintain an adequate medicolegal system. OCME has experienced persistently high vacancy rates in multiple positions, including medical examiners and forensic investigators, and these staffing issues have been exacerbated by increased caseloads stemming from the opioid crisis and increasing homicides in the State. This language restricts funding budgeted for administration under the Deputy Secretary for Public Health Services until the Maryland Department of Health (MDH) submits a report to the committees on OCME recruitment and retention efforts, autopsy backlogs, and FEMA assistance, autopsy backlogs, and FEMA assistance.

Add the following language to the general fund appropriation:

Further provided that \$250,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Health submits a report to the budget committees on public health personnel recruitment and retention. The report shall include:

- (1) an analysis of the causes of public health staffing shortages at the State and local health department (LHD) levels;
- (2) LHD vacancy rates as of December 2019, 2020, 2021, and 2022;

## M00F

- (3) an evaluation of how the State’s COVID-19 pandemic response activities impacted recruitment and retention of State and LHD personnel;
- (4) a discussion of salary enhancements, programs, and any other strategies that the department is implementing to recruit and retain public health staff;
- (5) an evaluation of how the department spent COVID-19-related federal funds to expand, recruit, and train the public health workforce, including any performance measures or data collected on how this funding filled vacant slots and improved retention; and
- (6) a discussion of any partnerships or programs with higher education institutions to recruit students and recent graduates to work for the department.

The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The budget committees are concerned by the vacancy rate in the Maryland Department of Health (MDH), specifically the vacancies among the public health workforce both at the State and local levels. This language restricts funding until MDH submits a report with data on MDH and LHD staffing levels and evaluations of how recent salary adjustments and COVID-19-related federal funds to strengthen the public health workforce have worked in filling vacant positions and improving retention, among other information.

The committees request that the Maryland Department of Health (MDH) submit a report to the committees and the Joint Audit and Evaluation Committee by August 1, 2022, on operating costs for vaccine clinics and missions held in calendar 2021 and 2022 year to date, including:

- the cost per mobile vaccine clinic/mission operated by third-party nongovernmental vendors in each calendar year, including costs by fund type, available federal fund sources used to support these vaccination efforts, and costs broken out by use of funds (such as personnel, vaccine supplies, transportation, contractual services, and any other costs); and

- laboratory testing equipment and facilities; and
- laboratory personnel, including, but not limited to, full- or part-time staff and on-call staff who periodically train, practice, and participate in drills and exercises to rapidly respond to emergencies that require a surge in clinical laboratory testing.

### Budget Amendments

#### M00F03.04 Family Health and Chronic Disease Services

Add the following language to the general fund appropriation:

, provided that \$250,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Health Prevention and Health Promotion Administration, in consultation with the Medical Care Programs Administration, submits a report to the budget committees on Medicaid claims for school-based health centers (SBHC). The report shall include:

- (1) an analysis of current Medicaid claims for SBHC services, including the number of SBHCs that bill through Medicaid, efforts by the department to expand Medicaid claiming for SBHC services, SBHC services that are not eligible for Medicaid claiming or are not reimbursed due to administrative issues, and the reasons for services not being eligible or reimbursed;
- (2) an update on the progress of federal guidance and agency progress to implement an administrative claiming program for school-based health services;
- (3) a discussion of how additional funds for SBHC grants are being used in fiscal 2023; and
- (4) the number of SBHCs operating as of July 1, 2022, the number of new SBHCs established after that date, and the locations of all active SBHCs.

The report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The budget committees are interested in receiving more information about Medicaid claims through SBHCs as administration of SBHC grants transfers from the Maryland State Department of Education to the Maryland Department of Health (MDH). This language restricts \$250,000 budgeted for administrative purposes until MDH submits a report on the process for Medicaid claiming at SBHC, the status of initiating an administrative claiming program, and efforts to expand the number of SBHCs.

**M00F05.01 Post Mortem Examining Services**

**Report on Forensic Pathologist Recruitment and Financial Assistance in Higher Education Institutions:** The Office of the Chief Medical Examiner (OCME) under the Maryland Department of Health (MDH) has reported persistent issues filling vacant medical examiner positions. This coincides with national shortages of forensic pathologists at a time when the opioid crisis and rising homicide rates has caused a higher need for autopsies. Contributing to the workforce shortage is an insufficient number of physicians graduating from higher education institutions choosing to pursue forensic pathology. Therefore, the budget committees request that OCME, in consultation with the University of Maryland, Baltimore Campus (UMB) and the Maryland Higher Education Commission (MHEC), submit a report by November 1, 2022, including:

- current and upcoming efforts to increase the number of forensic pathologists graduating from higher education institutions in Maryland;
- a description of any partnerships between OCME and higher education institutions for informing students of OCME job opportunities and recruiting recent graduates and fellows;
- funding opportunities for scholarships and other financial aid at higher education institutions for students in forensic pathology programs or other programs that could support OCME staffing needs;
- any changes or additional funding that could make existing Loan Assistance Repayment Programs (LARP) accessible to forensic pathologists; and
- steps that would be needed to develop a new LARP for forensic pathologists and the resource availability to implement this type of program.

**Budget Amendments**

**M00L01.01 Program Direction**

Add the following language to the general fund appropriation:

. provided that \$250,000 of this appropriation made for the purposes of program direction may not be expended until the Maryland Department of Health (MDH) submits a report to the budget committees on the Pre-Admission Screening and Resident Review (PASRR) program in Maryland. The report shall include:

- (1) a review of federal PASRR regulations;
- (2) the policies and procedures of Maryland's PASRR program and whether it complies with federal regulations;
- (3) a review of PASRR programs in other states, including regulations and opportunities to improve program efficiency; and
- (4) recommendations, informed by the analysis conducted, for regulatory or statutory changes to improve the State's PASRR program and address any compliance gaps.

The report shall be submitted by November 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purposes and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The budget committees are interested in better understanding the status of Maryland's PASRR program and identifying areas for improvement to best serve the State's growing number of older adults with behavioral health issues and nursing home level of care needs. Federal law mandates that Medicaid-certified nursing facilities may not admit an applicant with serious mental illness or a related condition unless the individual is properly screened, thoroughly evaluated, found to be appropriate for placement, and able to receive all specialized services necessary to meet the individual's unique needs. Per this requirement, states must have a PASRR process in place to determine whether a placement is appropriate or whether their needs can be met in the community with appropriate services and supports.

This language restricts funds pending a report on the State's current PASRR program, and the report shall include evaluation of the State's ability to meet current federal regulations as well as opportunities to improve the State's PASRR program. The report should be produced in consultation with appropriate stakeholders of the behavioral health and aging communities.

### M00L01.02 Community Services

Add the following language:

Provided that these funds are to be used only for the purposes herein appropriated, and there shall be no transfer to any other program or purpose except that funds may be transferred to programs M00L01.03 Community Services for Medicaid State Fund Recipients or M00Q01.10 Medicaid Behavioral Health Provider Reimbursements. Funds not expended or transferred shall be reverted or canceled.

**Explanation:** This language restricts the entire appropriation for substance use disorder treatment, uninsured treatment, or other community service grants for that purpose or for provider reimbursements in M00L01.03 Community Services for Medicaid State Fund Recipients or M00Q01.10 Medicaid Behavioral Health Provider Reimbursements.

### Committee Narrative

**Statewide Telebehavioral Health Services Utilization:** The committees are encouraged by the growth of telebehavioral health services in the rural parts of the State and are interested in the prevalence and provision of these services elsewhere in Maryland through the Public Behavioral Health System (PBHS). ### Fiscal 2022 Deficiency

#### M00L01.02 Community Services

Add the following language to the general fund appropriation:

, provided that \$1,828,152 of this appropriation made for the purposes of issues related to the Behavioral Health Administrative Services Organization may not be expended for that purpose but instead may only be used for forgiveness of actual provider overpayments for providers owing less than \$25,000 or be used for provider reimbursements. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** Under the current plan outlined by the department, only \$3 million of the \$13 million in funding provided through the deficiency appropriation has been earmarked for provider forgiveness. This action restricts all funding made available through the deficiency for provider forgiveness for those owing less than \$25,000 or for support for provider reimbursements. This language further specifies amounts forgiven must be determined to represent actual overpayments made by the department.

### Supplemental Budget No. 5

#### M00L01.02 Community Services

Add the following language to the general fund appropriation:

, provided that these funds are to be used only for the purposes herein appropriated, and there shall be no transfer to any other program or purpose except that funds may be transferred to programs M00L01.03 Community Services for Medicaid State Fund Recipients or M00Q01.10 Medicaid Behavioral Health Provider Reimbursements. , provided that \$1,000,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Health (MDH) submits a report each quarter to the budget committees regarding the ongoing transition to an fee-for-service (FFS) reimbursement system and spending forecasts for the Developmental Disabilities Administration (DDA) Community Services program transitions. The report shall include:

- (1) a timeline for forecasting general fund spending in the Community Services program based on actual utilization and reimbursement billed through the Long Term Services and Supports (LTSS) system following the transition to an FFS model, including a discussion of how the spending will be forecast during the transition period;
- (2) if available, MDH spending forecasts by year;
- (3) a timeline for finalizing rates and the fiscal impact analysis of the new rates;
- (4) upon finalization, the finalized rates and the fiscal impact analysis of the new rates;
- (5) the number of individuals receiving DDA-funded services and providers transitioned to the LTSS system, including the timing of the transition including those transitioned in fiscal 2023 to date;
- (6) a cost analysis of the rates paid to providers that were transitioned to the LTSS system as part of the LTSS pilot program and how DDA's reimbursements compare to estimated payments that would have been made under the prospective payment model; and
- (7) an updated timeline for transition of individuals and providers to the LTSS system.

The reports shall be submitted quarterly, and \$250,000 may be available to be released following the submission of each report, and the budget committees shall have 45 days from receipt of each report to review and comment. Funds restricted pending receipt of these reports may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** DDA is overhauling its Community Services system by implementing new service definitions, establishing new rates based on an FFS reimbursement model, and transitioning to Medicaid's existing LTSS system for billing and service authorization. These changes should improve DDA's data collection and spending forecast abilities compared to the current prospective payment model. This language restricts funding budgeted for administration

Further provided that \$250,000 of this appropriation made for the purpose of administrative expenses may not be expended until the Maryland Department of Health submits a report each quarter to the budget committees regarding community services utilization data from the Long Term Services and Supports (LTSS) system. The report shall include data separately by month:

- (1) utilization by service type, including the number of claims and claims spending in LTSS; and
- (2) the number and share of individuals served through LTSS system.

The report shall be submitted quarterly beginning on July 15, 2022, and the budget committees shall have 45 days from the date of receipt of the final report to review and comment. The first report shall include data for November 2021 through June 2022. Each subsequent report shall include data for the appropriate quarter. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The Maryland Department of Health (MDH) indicated in a response to language in the fiscal 2022 Budget Bill that the department would be able to provide community services utilization data from the LTSS system on the fifteenth of each month. The committees request that MDH begin providing this monthly data with quarterly reports beginning on July 15, 2022.

### M00M01.02 Community Services

Add the following language:

All appropriations provided for program M00M01.02 Community Services are to be used only for the purposes herein appropriated, and there shall be no budgetary transfer to any other program or purpose.

**Explanation:** The Maryland Department of Health has previously reported increasing net general fund transfers out of the Developmental Disabilities Administration Community Services program, mainly to cover shortfalls elsewhere in the department. This annual language restricts funds appropriated for the Community Services program to that use only and prevents budgetary transfers.

### Committee Narrative

**Demographic Data Provided by Developmental Disabilities Administration (DDA):** The committees are interested in receiving additional information on those served by the DDA Community Services programs. The committees request that the Maryland Department of Health (MDH) submit a report on demographic information of participants. This report should include detail specifically on individuals identifying as White, Black or African American, Hispanic/Latino of any race, Asian, American Indian/Alaskan Native, Native Hawaiian/Other Pacific Islander, and two or more races. Data should be provided separately for fiscal 2022 and 2023 year to date and include both the number and percentage for:

- individuals who entered the Community Pathways, Community Supports and Family Supports waiver separately by county;
- individuals in traditional and self-directed groups separately by county;
- individuals who applied and were found eligible and are on the waiting list separately by county and by priority group;
- transitioning youth who entered service separately by county; and
- individuals accessing DDA Low Intensity Support Services funds by county

In addition, the report should include the primary language (including American Sign Language) of applicants and caregivers/guardians as indicated on the DDA application in fiscal 2022 separately by county. For fiscal 2023 data, the report should indicate the date of the data.

**M00Q01.01 Deputy Secretary for Health Care Financing**

Add the following language to the general fund appropriation:

, provided that \$1,000,000 of this appropriation made for the purpose of administration in the Office of the Deputy Secretary for Health Care Financing may not be expended until the Maryland Department of Health (MDH) submits quarterly reports on the Medicaid redetermination process following the termination of the national declaration of a COVID-19 public health emergency. Each report shall include the following data on a monthly basis and divided by eligibility category:

- (1) the number of individuals disenrolled;
- (2) the number of new individuals enrolled;
- (3) the number of disenrollments by reason for disenrollment, identifying disenrollments due to failure to apply for recertification, missing information/verifications, income too high, and other common reasons for disenrollment; and
- (4) if disenrollments have not begun due to the continuation of the national public health emergency, MDH should instead report the status of the national COVID-19 public health emergency and notification from the U.S. Centers for Medicare and Medicaid Services (CMS), including the current public health emergency expiration date, date for disenrollment and redeterminations to resume, and guidance or assistance authorized by CMS to aid states in resuming redetermination and working through any backlogs.

The first report shall be submitted by November 1, 2022, and the other reports shall be submitted quarterly thereafter. The funds may be released in \$250,000 increments related to the submission of each quarterly report. The budget committees shall have 45 days from the date of the receipt of each report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** This language restricts funds budgeted for administrative purposes until MDH submits quarterly reports with data and status updates related to the eligibility redetermination process and national COVID-19 public health emergency.

Further provided that \$250,000 of this appropriation made for the purpose of administration in the Office of the Deputy Secretary for Health Care Financing may not be expended until the Maryland Department of Health (MDH) Medical Care Programs Administration submits a report, in consultation with the MDH Behavioral Health Administration and MDH Developmental Disabilities Administration, on current Medicaid rates, rate enhancements, and rate-setting studies. The report shall include the following information for each provider type:

- (1) a timeline for when the current rate structure and rates were determined;
- (2) the method for determining and establishing the current rate structure and rates, including whether a rate-setting study was conducted (and if not, the reason for a rate-setting study not being conducted), and a discussion of how actual provider expenditures were taken into account in setting rates;
- (3) a summary of recent rate increases and enhancements;
- (4) the status of any ongoing rate-setting studies and plans for future rate-setting studies; and
- (5) a description of any federal requirements affecting the rate structure, such as whether rates must be actuarially sound, must cover certain costs, or cannot differ across certain service types, geographic locations, or provider types.

The report shall be submitted by October 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** This language restricts funds budgeted for administrative purposes until MDH submits a report on current Medicaid rate structures and rate-setting studies. The report shall provide information on rates for all providers types funded through the Medical Care Programs Administration (Medicaid), Behavioral Health Administration (BHA), and Developmental Disabilities Administration (DDA) separately, including disaggregating provider types within each administration.

Further provided that \$250,000 of this appropriation made for the purpose of administration in the Office of the Deputy Secretary for Health Care Financing may not be expended until the Maryland Department of Health submits a report on home- and community-based services (HCBS) expansion. The report shall include the following information with federal claims and spending data disaggregated by administration, including the Behavioral Health Administration, the Developmental Disabilities Administration, and the Medical Care Programs Administration:

- (1) the actual amount of federal funds claimed through the 10% enhanced federal match for HCBS expenditures from April 1, 2021, to March 31, 2022, as authorized in the American Rescue Plan Act, including secondary federal funds claimed and any associated State funds accounted for separately;
- (2) a timeline for spending the funds by fiscal year and the status of Centers for Medicare and Medicaid Services (CMS) approval for the spending plan (including reasons for CMS disapproving any planned uses proposed by the department);
- (3) actual spending for rate increases, provider grants, and any other uses in fiscal 2021, 2022, and 2023 year-to-date, and planned spending in fiscal 2023 and 2024; and
- (4) specific programmatic recommendations on ways to claim Medicare savings to apply to costs for HCBS waiver expansion.

The report shall be submitted by November 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The committees are interested in receiving federal claims and spending data accounting for enhanced federal matching funds authorized in the American Rescue Plan Act for HCBS spending from April 1, 2021, to March 31, 2022. This language restricts funds budgeted for administrative purposes until the Maryland Department of Health (MDH) submits a report with spending data and other information on HCBS expansion efforts.

### M00Q01.03 Medical Care Provider Reimbursements

Add the following language:

All appropriations provided for program M00Q01.03 Medical Care Provider Reimbursements are to be used only for the purposes herein appropriated, and there shall be no budgetary transfer to any other program or purpose except that funds may be transferred to program M00Q01.07 Maryland Children’s Health Program. Funds not expended or transferred shall revert to the General Fund.

**Explanation:** This annual budget language restricts Medicaid provider reimbursements to that purpose only and prevents budgetary transfers to any program except the Maryland Children’s Health Program.

Amend the following language to the general fund appropriation:

, provided that no part of this General Fund appropriation may be paid to any physician or surgeon, or, contingent upon enactment of SB 890 or HB 937, qualified provider as defined in Section 20—103 of the Health—General Article, or any hospital, clinic, or other medical facility for or in connection with the performance of any abortion, except upon certification by a physician or surgeon, or, contingent upon enactment of SB 890 or HB 937, qualified provider, as defined in Section 20—103 of the Health—General Article, based upon his or her professional judgment that the procedure is necessary, provided one of the following conditions exists: where continuation of the pregnancy is likely to result in the death of the woman; or where the woman is a victim of rape, sexual offense, or incest that has been reported to a law enforcement agency or a public health or social agency; or where it can be ascertained by the physician provider with a reasonable degree of medical certainty that the fetus is affected by genetic defect or serious deformity or abnormality; or where it can be ascertained by the physician provider with a reasonable degree of medical certainty that termination of pregnancy is medically necessary because there is substantial risk that continuation of the pregnancy could have a serious and adverse effect on the woman’s present or future physical health; or before an abortion can be performed on the grounds of mental health there must be certification in writing by the physician, or surgeon, or other provider that in his or her professional judgment there exists medical evidence that continuation of the pregnancy is creating a serious effect on the woman’s present mental health and if carried to term there is a substantial risk of a serious or long-lasting effect on the woman’s future mental health.

## M00Q01

Further provided that this restriction shall remain in effect only from July 1, 2022, to December 31, 2022, contingent upon enactment of SB 890 or HB 937, establishing requirements for how Medicaid must cover abortion care services.

Further provided that beginning on January 1, 2023 and through June 30, 2023, funds may be used to provide coverage of abortion care services with restrictions that are consistent with the protected rights under Title 20, Subtitle 2 of the Health—General Article, contingent upon enactment of SB 890 or HB 937, establishing requirements for how Medicaid must cover abortion care services.

**Explanation:** This action amends language specifying restrictions on the use of general funds under the Medicaid Program for abortion services. The restrictive language is amended to refer to any qualified provider of abortion services, as defined in Section 20-103 of the Health – General Article, and for the restrictive language to remain in effect for the first six months of fiscal 2022, contingent on enactment of SB 890 or HB 937. Beginning on January 1, 2023, this language authorizes funds to cover abortion care services with restrictions that are consistent with Title 20, Subtitle 2 of the Health – General Article, also contingent on enactment of SB 890 or HB 937.

### Committee Narrative

**Managed Care Organization (MCO) Risk Corridor Settlements:** Given the uncertainty around service utilization trends during the COVID-19 pandemic, the Maryland Department of Health (MDH) entered into risk corridor agreements with MCOs for calendar 2020 and 2021. Under these two-sided agreements, MCOs and State share in any savings or losses depending on revenues exceeding or falling below certain expenditure levels. MDH is expected to recover some amount of savings based on calendar 2020 medical loss ratio results, while the department’s initial estimates in calendar 2021 would not trigger a risk corridor. The committees request that MDH submit a report detailing:

- calendar 2020 risk corridor results by individual MCO;
- the final State recovery amount resulting from the calendar 2020 risk corridor (broken out by federal and State shares);
- the timeline and mechanism for recoupment of calendar 2020 recoveries; and
- calendar 2021 risk corridor results programwide.

The report should also include a discussion of whether risk corridor agreements are likely necessary due to the COVID-19 pandemic in calendar 2023.

**Community First Choice (CFC) Program and Home- and Community-based Options (Community Options) Waiver Financial and Registry Data:** Recent efforts to expand home- and community-based services have led to significant increases in CFC program expenditures, including spending for the Community Options waiver. The committees request that the Maryland Department of Health (MDH) submit quarterly reports on spending in CFC, disaggregating Community Options waiver spending. The reports should include monthly enrollment, utilization, and cost data that aligns with actual budget expenditures under the CFC program, and the initial report should include data that reconciles to actual spending in fiscal 2021 and 2022. Each report should also provide:

- an update on the number of Community Options waiver slots filled of the 800 newly funded slots across fiscal 2022 and 2023;
- the current status of the Community Options waiver registry, including a discussion of any changes to outreach and methodology for registry operation;
- the number of new or transferred positions to the Community Options waiver in fiscal 2022 and 2023 that have been filled; and
- a description of how the new filled positions support filling waiver slots and screening individuals off of the waiver registry more efficiently.

**Rate Adjustments for Dental Services under the Medical Assistance Program:** The committees are interested in the Maryland Department of Health's (MDH) implementation of a reimbursement rate increase for dental services covered under the Medical Assistance (Medicaid) program in fiscal 2023. The committees request that MDH submit a report by December 1, 2022 that includes:

- the percentage increase in Medicaid reimbursement rates for dental services overall and by service type budgeted in fiscal 2023 over fiscal 2022 dental rates;

## M00Q01

- a comparison of fiscal 2023 Medicaid dental rates and commercial insurance rates for dental services in Maryland;
- a comparison of fiscal 2023 rate increases for Medicaid dental services and recent rate increases for other Medicaid medical services; and
- additional adjustments to Medicaid dental rates that would need to be considered as part of the implementation of a permanent adult dental services benefit under the Medicaid program.

**Employed Individuals with Disabilities (EID) Program Eligibility Requirements:** The EID Program, also known as the Medicaid Buy-in, extends medical assistance to working Marylanders with disabilities. Individuals ages 18 to 64 are eligible if they meet certain work and income requirements, with the income of the individual's spouse included in eligibility determination. The fiscal 2023 budget includes \$4.6 million to expand EID program eligibility by removing the current income threshold of 300% of federal poverty guidelines and allows both the income of an individual and individual's spouse to be disregarded during the eligibility determination process. Considering the planned eligibility expansion, the committees request that the Maryland Department of Health (MDH) submit a report on the EID program including:

- the actual EID program enrollment in fiscal 2021, 2022, and 2023 year to date, noting the number of participants enrolling and remaining enrolled in the program due to recent eligibility expansion and the number of participants by age grouping including 18 to 59 and 60 and older;
- the actual number of EID program participants who were disenrolled and applicants who were denied due to turning 65 years old, not meeting maximum age requirements, surpassing the income eligibility threshold, and surpassing the asset threshold, reported separately by reason and by month in fiscal 2022 and 2023 year to date;
- the actual number of EID program participants that reported getting married or otherwise updated their income for eligibility determination to include their spouse's income, reported separately by month in fiscal 2022 and 2023;
- the projected EID program enrollment in fiscal 2023 for individuals ages 65 and older and ages 16 to 18, if program eligibility were extended to these groups;

## M00Q01

- the actual EID program expenditures in fiscal 2022 and 2023 year to date, with expenditures for eligibility expansion labeled separately;

Add the following language:

All appropriations provided for program M00Q01.07 Maryland Children’s Health Program are to be used only for the purposes herein appropriated, and there shall be no budgetary transfer to any other program or purpose.

**Explanation:** This budget language restricts funding in the Maryland Children’s Health Program to that purpose only and prevents budgetary transfers.

Amend the following language to the general fund appropriation:

**Explanation:** This action amends language specifying restrictions on the use of general funds under the Maryland Children's Health Program for abortion services. The restrictive language is amended to refer to any qualified provider of abortion services, as defined in Section 20-103 of the Health – General Article, and for the restrictive language to remain in effect for the first six months of fiscal 2022, contingent on enactment of SB 890 or HB 937. #### M00Q01.10 Medicaid Behavioral Health Provider Reimbursements

Add the following language:

Provided that these funds are to be used only for the purposes herein appropriated, and there shall be no transfer to any other program or purpose except that funds may be transferred to programs M00L01.03 Community Services for Medicaid State Fund Recipients or M00L01.02 Community Services. Funds not expended or transferred shall be reverted or canceled.

**Explanation:** This language restricts the entire appropriation for Medicaid behavioral health provider reimbursements for that purpose or for provider reimbursements in M00L01.03 Community Services for Medicaid State Funded Recipients or M00L01.02 Community Services.

### Committee Narrative

**Funding for Youth in Out-of-home Placements and Hospital Overstays:** The Governor’s Supplemental Budget No. 4 contained \$15 million for a tiered rate structure to assist with the placement of difficult-to-place youth into Residential Treatment Centers. It is the intent of the committees that this funding be used to address the issue of hospital overstays for youth in State custody, particularly those with psychiatric needs. The committees request that the Maryland Department of Health (MDH) submit a report on how this funding and other funding in the Behavioral Health Administration (BHA) budget is being used to address this issue, outcome measures for this program initiated with the additional funding from the supplemental budget and any other funding included within the budget of BHA to address this issue, and whether any new programs could be developed to assist in addressing the ongoing challenges in the State of hospital overstays.

### Fiscal 2022 Deficiency

#### M00Q01.10 Medicaid Behavioral Health Provider Reimbursements

Add the following language to the general fund appropriation:

, provided that \$11,179,744 of this appropriation made for the purposes of issues related to the Behavioral Health Administrative Services Organization may not be expended for that purpose but instead may only be used for forgiveness of actual provider overpayments for providers owing less than \$25,000 or for provider reimbursements. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** Under the current plan outlined by the department, only \$3 million of the \$13 million in funding provided through the deficiency appropriation has been earmarked for provider forgiveness. This action restricts all funding made available through the deficiency for provider forgiveness for providers owing less than \$25,000 or to support provider reimbursements. This language further specifies amounts forgiven must be determined to represent actual overpayments made by the department.

Reduce appropriation for the purposes indicated:

**Committee Narrative**

**M00R01.01 Maryland Health Care Commission**

**Behavioral Health Crisis Response System Study:** The committees are concerned with the adequacy of the behavioral health crisis system in the State. In particular, the new implementation of the 9-8-8 hotline at the federal level is projected to increase call volumes and need for crisis services. As a result, the committees request that the Maryland Health Care Commission (MHCC) conduct an independent analysis of the system. To conduct this analysis, MHCC should develop a request for proposals to contract with a health research and analytics company to conduct a needs assessment and gap analysis of Maryland's behavioral health crisis response services continuum. MHCC should also convene a workgroup composed of the Behavioral Health Administration and other stakeholders involved in the evaluation of Maryland's behavioral health crisis response system. The selection of the health research and analytics company and the conduct of the independent study should be done in consultation with the workgroup. The independent analysis should include, but not be limited to:

- a review of past analysis on behavioral health crisis services in the State;
- an inventory of the existing community-based behavioral health crisis response services, including current Suicide Prevention Lifeline call centers, 211+1 call centers, other local behavioral health hotlines, mobile crisis teams, crisis stabilization centers, mental health crisis beds and substance use disorder detox beds, peer support services, and any other related crisis response services;
- the cost and payer source of all current community-based behavioral health crisis response services and the number of Maryland residents served;

The workgroup, convened by MHCC, should be involved in the evaluation of the Maryland behavioral health crisis response system.

The committees request that MHCC submit an interim report produced by the independent health research and analytics company contractor to by December 1, 2022. It is the intent of the committees that the working group should continue this work after submission of the interim report, with the intent of producing a final report by December 1, 2023.

**Financial Restrictions on Access to Organ Transplant Lists:** The committees are concerned that transplant hospitals have implemented policies that place financial restrictions on individuals eligible for receiving organ donations. Specifically, the committees are concerned with the consideration of means to cover aftercare impacts an individual's ability to receive an organ donation and/or undergo a transplant procedure. The committees request that the Maryland Health Care Commission (MHCC) submit a report that reviews the existing policies governing the eligibility for receiving an organ donation, identifies reasons for denial of organ transplantation, and the number of individuals who had organ transplant needs denied or deferred under each reason since calendar 2018. This report should specifically consider the financial requirements that may be a cause of the denial or deferral of care in the State.

**The Maryland Model's Interaction with the Challenges of the COVID-19 Pandemic:** Maryland has long been a unique state in terms of hospital financing and regulations. During the COVID-19 pandemic, this system was able to provide financial stability and relief to the State's hospitals. The committees are interested in how the State's model impacted the State and State's hospitals in terms of stability and operations during the pandemic when compared with other hospitals in the nation during this crisis. Further, the committees are interested in the costs associated with the pandemic: both in terms of the treatment of COVID-19 hospitalizations by

## M00R01

payor; and the indirect costs incurred in hospital operations during this period. This cost discussion should also include information on additional funding received by the hospital outside of the model that were considered in rate setting, such as the provider relief fund, and include the extent to which additional funding received by the hospitals have assisted with hospital staffing and salaries during this period. Further, the report should discuss the jurisdictional distribution of these additional, non-rate-related funds as well as the rate-related funding. Additionally, the committees are interested in the financial performance of the hospital industry in fiscal 2022 and any liabilities that the State's current hospital financing stability has presented to the ongoing success of the State's model agreement, the Total Cost of Care model. Further, the report should address the challenges faced during the pandemic due to a lack of surge capacity existing in the State's hospitals prior to the pandemic, any lessons learned during the initial response COVID-19 pandemic, and how those lessons will be applied for future surge planning. The committees request that the Health Services Cost Review Commission (HSCRC) submit a report addressing these areas.

**Evaluation of the Maryland Primary Care Program (MDPCP):** Given the role of MDPCP in transforming care in the State under the Total Cost of Care (TCOC) model, the committees request information on the effectiveness of the program. In particular, this evaluation should focus on cost savings from MDPCP reducing unnecessary utilization or hospitalization for patients participating in MDPCP over the increased expenditures from provider incentives. The evaluation should include reporting on the racial and ethnic diversity of the program, any efforts to improve minority representation in the program, and improve data collection on racial and ethnic diversity of providers. The evaluation should also consider existing disparities in primary care access and ways in which the State can address these disparities. Further, given the anticipated benefits that the outcome-based credits have against MDPCP's care management fees, the committees are interested in aggregate costs of the care management fees against TCOC, the amount that outcome-based credits have discounted these expenses, and MDPCP's contribution to the achievement and maximization of the current and future outcome-based credits and other population health goals.

**Maryland Consortium on Coordinated Community Supports:** The committees are interested in the formulation and actions of the newly created Maryland Consortium on Coordinated Community Supports. Specifically, the committees are interested in the progress of appointments and selections to the consortium. The committees are further interested in the extent to which the work and efforts of the consortium will prioritize services for concentration of poverty students. The committees request that the Community Health Resources Commission (CHRC), who staff the consortium, submit a report, in consultation with the consortium, that discusses the membership of the consortium, the appointment and selection process, and the planned efforts of the consortium to prioritize concentration of poverty students.

Add the following language to the general fund appropriation:

. provided that this appropriation made for the purpose of the Maryland Legal Services Program may be expended only for that purpose. Funds not used for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** This language restricts the general fund appropriation of the Maryland Legal Services Program (MLSP) to that purpose and, if it is not needed for that purpose, requires that the funds revert to the General Fund. During the fiscal 2013 closeout process, the Department of Human Services recorded an unprovided for payable in MLSP. That was the second consecutive year that an unprovided for payable was recorded and the fourth since fiscal 2007. Given the important functions of MLSP, it remains necessary to ensure that the program is adequately funded. Similar language has been adopted in each of the last eight fiscal years.

**N00B00.04 General Administration – State**

Add the following language to the general fund appropriation:

. provided that since the Department of Human Services (DHS) Social Services Administration has had four or more repeat audit findings in the most recent fiscal compliance audit issued by the Office of Legislative Audits (OLA), \$100,000 of this agency’s administrative appropriation may not be expended unless:

- (1) DHS has taken corrective action with respect to all repeat audit findings on or before November 1, 2022; and
- (2) a report is submitted to the budget committees by OLA listing each repeat audit finding along with a determination that each repeat finding was corrected. The budget committees shall have 45 days from the date of the receipt of the report to review and comment to allow for funds to be released prior to the end of fiscal 2023.

**Explanation:** The Joint Audit and Evaluation Committee has requested that budget bill language be added for each unit of State government that has four or more repeat audit findings in its most recent fiscal compliance audit. Each agency is to have a portion of its administrative budget withheld pending the adoption of corrective action by the agency and a determination by OLA that each finding was corrected. **Hospital Stays by Youth in Out-of-home Placements:** The committees continue to be concerned about whether youth are remaining in emergency rooms or inpatient hospital settings longer than is medically necessary. Data has been requested on hospital stays for several years. In an effort to continue to monitor this issue, the committees request that the Department of Human Services (DHS) submit a report that provides for each month of the period October 2021 through September 2022:

## N00B

- the number of youths in out-of-home placements served in emergency rooms for psychiatric evaluation or crisis and the average length of stay (ALOS) by month;
- the number of youths in out-of-home placements served separately by medical hospitals and inpatient psychiatric hospitals and ALOS by month;
- the number of days that youth in out-of-home placements served in hospitals were in the hospital longer than was deemed medically necessary by either the hospital or a judicial finding separately by type of hospital; and
- the placement type after discharge separately by type of hospital, including identifying the number of youths placed out-of-state after discharge for fiscal 2022.

**Status of the Implementation of the Family First Prevention Services Act (FFPSA):** The committees are interested in steps taken during fiscal 2022 and year to date in fiscal 2023 to continue efforts to implement evidence-based prevention practices and other services under provisions of the FFPSA and the impacts of those programs and services on families served through the child welfare system and on the State budget. The committees request that the Department of Human Services (DHS) submit a report on:

- the status of collaboration between DHS and the Department of Juvenile Services in the development of an application or certification process for Qualified Residential Treatment Programs (QRTP);
- the number of QRTPs in the State that have been designated to date as a result of this designation process to allow for federal reimbursement under the FFPSA;
- the status of the approval of the State's revised Cost Allocation Plan;
- a list of all evidence-based practices implemented through fiscal 2022, including data on jurisdiction and number of families or children served during the fiscal year, and any changes in evidence-based practices implemented in fiscal 2023; and

**Implementation of the New Foster Care Provider Rate Structure:** In response to committee narrative included in the 2021 Joint Chairmen’s Report, the Department of Human Services (DHS) indicated that it had released a request for proposal for a vendor for actuarial services for developing the new foster care provider rate structure for providers who have rates set by the Interagency Rates Committee. According to the timeline projected by DHS, a contract would be fully established, allowing for rate revision to begin, at the beginning of fiscal 2023; and the new provider rate structure would be fully in place by the beginning of fiscal 2026. The committees are interested in receiving updates on the timeline for implementation and monitoring the impact of the new provider rate structure on the budget. The committees request that DHS submit a report on the status of implementation, including the status of any amendments to the State Medicaid Plan to allow for clinical care costs to be eligible for reimbursement, and an update on the implementation timeline.

**Departmentwide Recruitment Plan:** As recent vacancies within the Department of Human Services (DHS) have reached historic highs, the committees are interested in factors affecting staff retention, impacts on service delivery of the high level of vacancies, and the department’s plan to improve recruitment and staff retention. The committees request that the department submit a report that provides the following:

- an assessment of factors that have contributed to DHS’ increasing vacancy rate since calendar 2019 aside from the State hiring freeze during a portion of this time;
- a description of any notable or common findings from exit surveys throughout calendar 2022;
- a plan to improve staff recruitment and retention, complete with identification of classes of positions that will be prioritized for recruitment, and steps that will be taken to improve staffing levels complete with anticipated dates of completion;
- any planned or completed efforts to adjust education or experience requirements for positions to improve staff recruitment; and
- monthly data about performance attainment against measures impacted by staffing adequacy, including maltreatment report investigation times and utilization of overtime.

**Use of Contractual Full-time Equivalent (FTE):** The Department of Human Services (DHS) has indicated that it will use funds available from a Supplemental Nutrition Assistance Program (SNAP) Administrative Grant available from the American Rescue Plan Act for contractual FTEs to assist in case management and the redetermination process for SNAP cases. DHS indicates that the available funding in fiscal 2022 and 2023 will support 188 contractual FTEs. Recognizing the substantial increase in the department’s utilization of contractual staff, the committees are interested in understanding more about the use of contractual FTEs for case processing, as well as the use of contractual FTEs across the department. The committees request that DHS submit a report that details:

## N00E01

- the total number of contractual FTEs by program;
- when the department began hiring contractual FTEs for Family Investment Administration (FIA) case processing;
- the length of time on average that contractual FTEs are employed or expected to be employed by DHS both departmentwide and specifically for the FIA case processing assistance;
- a timeline indicating how the department will transition from the temporary FTEs for FIA case processing assistance when the SNAP Administrative Grant ends;
- the classification for the equivalent regular positions that the contractual FTEs are temporarily being used for, identifying the number of FTEs per class code or job classification;
- a comparison of the average length of retention of individuals in regular positions and retention of individuals in FTEs with similar classifications;
- by classification, the amount of training time needed to onboard an individual in a contractual FTE compared with a regular position in a similar classification;
- the education and experience requirements for contractual FTEs, reported separately by classification and indicating how these requirements compare to the equivalent regular positions; and
- a discussion of the department's strategy in using FTEs in each administration.

As the MITDP prepares to conclude at the end of fiscal 2022, the committees are interested in the new data reporting advantages experienced with the new system and estimated data reporting timelines going forward. The committees request that the Department of Human Services (DHS) submit a report that includes:

- a full catalog listing each type of data report now available through the new MD THINK shared platform systems;
- for each system, a timeline indicating when DHS expects to complete testing each data report for reliability;
- for each system, an approximation of the time lag between the time data is collected for a specific program to the time data is expected to be ready for publication; and

**N00G00.01 Foster Care Maintenance Payments**

Add the following language to the general fund appropriation:

Further provided that these funds are to be used only for the purposes herein appropriated, and there shall be no budgetary transfer to any other program or purpose. Funds not expended shall revert to the General Fund.

**Explanation:** This annual language restricts general funds appropriated for foster care maintenance payments to that use only. This restriction prevents a transfer of general funds to other programs that might create or increase a deficit in spending in the Foster Care Maintenance Payments program (N00G00.01).

**N00G00.03 Child Welfare Services**

Add the following language to the general fund appropriation:

provided that these funds are to be used only for the purposes herein appropriated, and there shall be no budgetary transfer to any other program or purpose except that funds may be transferred to program N00G00.01 Foster Care Maintenance Payments. Funds not expended or transferred shall revert to the General Fund.

**Explanation:** This annual language restricts general funds appropriated for the Child Welfare Services program to that use only or for transfer to N00G00.01 Foster Care Maintenance Payments.

**Committee Narrative**

**Child Welfare Caseload Data:** The committees believe that maintaining an adequate child welfare workforce is essential to improving outcomes for children entering the State's care. Therefore, in order to maintain oversight of this important issue, the committees request that the Department of Human Services (DHS) report to the committees on the number of cases and positions required based on the caseload to meet the Child Welfare League of America (CWLA) caseload standards, by jurisdiction, for the following caseload types current within 70 days:

- intake screening;

## **N00G00**

- child protective investigation;
- consolidated in-home services;
- interagency family preservation services;
- services to families with children – intake;
- foster care;
- kinship care;
- family foster care;
- family foster homes – recruitment and new applications;
- family foster homes – ongoing and licensing;
- adoption;
- interstate compact for the placement of children; and
- caseworker supervision.

Although current CWLA caseload standards are based on standards for individual types of child welfare cases, DHS caseworker positions may be assigned cases in more than one of these specialized units, and DHS caseworkers may carry a caseload which spans across several specialized units. Therefore, the committees also request how DHS calculates compliance with each individual CWLA unit standard and how, in those calculations, the department accounts for instances in which individual caseworkers are assigned cases across multiple caseload unit types.

The committees also request that DHS discuss specific actions taken by the department and local departments of social services to reallocate positions, including the number of positions reallocated by type (caseworker or supervisor) between jurisdictions and identifying the jurisdictions that these positions were transferred from and to, in order to ensure that all jurisdictions can meet the standards for both caseworkers and supervisors. It is the intent of the committees that DHS establish a partnership with the University System of Maryland and Morgan State University for the recruitment of Master of Social Work graduates into open child welfare caseworker positions. The report should include a discussion of these partnerships, in particular including a discussion of potential incentives or scholarships that could be offered to students enrolled in a Master of Social Work degree program at these institutions.

## N00G00

In addition to reporting on caseload data and these items, the committees also request that the report contain an update on the status of work done by CWLA to implement new workload standards for child welfare and the status of efforts by DHS to complete a workload study based off of these new workload standards. DHS should indicate when it anticipates that the new CWLA workload standards will be available as well as an anticipated timeline for completing a workload study based off of these new standards. The committees request that to complete this study, DHS establish a workgroup to include employees' union representatives for child welfare caseworker positions and other relevant stakeholders. If available at the time of the report, DHS should also include a summary of findings from its workload study regarding what revisions or improvements can be made to caseload standards to better account for case workload.

Lastly, the report should include a comprehensive list of states that have implemented revised caseload or workload standards for child welfare to improve outcomes for children and families.

**Impacts of Economic Instability on Child Maltreatment and Removals into Care:** The COVID-19 pandemic has had significant impacts on the rates of child maltreatment reporting and removals into foster care. The committees are interested in examining the impacts of economic instability caused by the COVID-19 pandemic on child maltreatment and removals into care, specifically in the area of child neglect. In order to evaluate the potential impacts on economic stability-related neglect, the committees request that the Department of Human Services (DHS) submit a report including data on:

- the removals into care by reason specifically for fiscal 2020, 2021, and 2022 separately by jurisdiction, with separate identification or a discussion of causes behind removals into care due to a finding of neglect during fiscal 2020, 2021, and 2022 that could be related to economic hardship;
- proposed actions that could be taken or have been taken by the department to provide additional support to families experiencing financial hardship as a result of the COVID-19 pandemic to reduce the number of children entering care or reentering care; and
- a discussion of actions that have and can be taken to prevent child neglect and maltreatment from going unreported, or reported prior to cases increasing in level of severity, reflecting continued rates of maltreatment reporting and foster care caseloads far below prepandemic levels through the first half of fiscal 2022.

**Application Processing Times, Denials, and Case Closures:** The committees remain interested in tracking the timeliness of application processing as well as reasons for denials and case closures. The committees request that the Department of Human Services (DHS) submit quarterly reports that contain:

- the number of applications processed by benefit type for Temporary Cash Assistance (TCA), Supplemental Nutrition Assistance Program (SNAP), and Temporary Disability Assistance Program (TDAP) separately by month;
- the average number of days to process applications by benefit type for TCA, SNAP, and TDAP separately by month;
- the percentage of applications processed in 0 to 30 days, 31 to 45 days, and longer than 45 days by benefit type for TCA, SNAP, and TDAP separately by month of application;
- the number and percentage of applications denied by benefit type for TCA, SNAP, and TDAP separately by month;
- the number and percentage of applications denied by reason for denial and by benefit type for TCA, SNAP, and TDAP separately by month;
- the number of case closures by benefit type for TCA, SNAP, and TDAP separately by month; and
- the reasons for case closure by benefit type for TCA, TDAP, and SNAP separately by month.

**Children Served in the Summer Supplemental Nutrition Assistance Program (SNAP):** Chapters 635 and 636 of 2019 created a supplemental benefit for children receiving the Summer SNAP in jurisdictions that chose to implement the program. The chapters mandated \$200,000, which was the funding level provided for the program in fiscal 2021 and 2022. Although benefits were provided through the program, implementation has been impacted by the federal Pandemic-Electronic Benefit Transfer program, delaying summer benefit distribution in each year. In addition, the fiscal 2023 allowance increases funding to \$5 million. The committees are interested in continuing to monitor the implementation of the program with a more typical benefit distribution and the impact of the increased funding on participation rates. The committees request that the Department of Human Services (DHS) provide two reports with the following information:

- the number of children served by participating jurisdiction;
- the benefit level provided by jurisdiction;
- the number of children in participating jurisdictions that are not able to receive benefits due to insufficient funding by jurisdiction; and
- participation rates by jurisdiction.

In addition, the first report should also provide information on the number of jurisdictions that applied for the program funding; how the determination for funding was made by jurisdiction; the total funding available for benefits, including the local match by jurisdiction; and how jurisdictions determined which children would receive the benefit.

The first report should cover the summer portion of the program (June, July, and August 2022), while the second report should cover the winter portion of the program (December 2022).

**Pandemic-Electronic Benefit Transfer (P-EBT) Spending:** The committees remain interested in understanding the impact of the P-EBT program on the Supplemental Nutrition Assistance Program budget. Given the uncertainty around whether the program will continue for the 2021-2022 school year and summer 2022 and how this will impact spending in fiscal 2022 and 2023, the committees request that the Department of Human Services (DHS) and the Department of Budget and Management (DBM) separately identify in subprogram detail spending related to the P-EBT program in the fiscal 2022 actual; and, to the extent applicable, the fiscal 2023 working appropriation.

**Employment Incentive Benefit Programs:** The Department of Human Services (DHS) began providing a transitional benefit for cases leaving Temporary Cash Assistance (TCA) due to employment or income too high in fiscal 2020. After the initial implementation of the program, from October 2019 through May 2021, the number of recipients averaged just under 1,900, with the highest month (December 2020) have 2,736 recipients. Beginning in June 2021, the number of recipients has exceeded 10,000 in three of seven months, with the remaining four months greater than 4,500, despite the low number of case closures. The committees are interested in understanding more about the program, including how individuals gain access to the program and why the number of recipients is higher than case closures would indicate. In addition, DHS plans to offer job retention bonuses for TCA recipients maintaining employment at four and six months through one-time federal stimulus funds. The committees request that DHS submit a report describing:

- the reason for the increased utilization of the TCA Cliff program beginning in June 2021, including any temporary or ongoing changes in policy that led to this increase;
- how individuals access the TCA cliff benefit;
- how cases are terminated from this benefit after reaching the end of the three-month period of the TCA cliff benefit;
- how DHS identified recipients of the job retention bonuses; and
- whether and how DHS plans to continue the job retention bonuses after the federal stimulus funds from the Pandemic Emergency Assistance Fund are fully utilized.

In addition, the committees request a copy of the evaluation of the TCA cliff program that DHS indicates is expected to be completed in June 2022.

With the completion of the new CSMS, the committees are interested in data on enforcement activity including both automated enforcement actions and enforcement actions manually applied by Department of Human Services (DHS) staff. The committees request that DHS submit a report that provides:

- the number of cases for which an automated enforcement measure was applied during federal fiscal 2022 by type of enforcement activity;
- the number of cases for which a manually applied enforcement measure was applied during federal fiscal 2022 by type of enforcement activity;
- the number of cases for which an enforcement measure was applied in federal fiscal 2022 by reason for applying the enforcement measure; and

- each county's performance set against four performance measures used to determine federal incentive payments (paternity establishment, support order establishment, collections on current support, and cases paying toward arrears);

**Participation in the Child Support Lien Network (CSLN):** CSLN allows states to work with insurance companies to match personal injury and workers' compensation insurance claimants against individuals with past due child support. CSLN indicates that throughout its existence, a total of \$2 billion has been intercepted for children and families nationwide, and that on average, CSLN collections on insurance interceptions average approximately \$2,100 per case. More than half of states (28) participate in CSLN, including each jurisdiction bordering Maryland. In its testimony, the Department of Human Services (DHS) indicated that it intends to pursue

participation with CSLN, or a similar service if available, upon statutory authority pending a future legislative bill and adherence to procurement rules. The committees are interested in the department's plans to introduce a bill during the 2023 legislative session to become a CSLN member state and any impact on operations if the State began to participate. The committees request that DHS submit a report that includes:

- a timeline delineating how DHS would approach applying to become a CSLN member state or use a similar service;
- DHS' plan for adjusting child support administration practices to accommodate this new service;
- information on the cost per fiscal year of participating in CSLN or a similar service;
- an estimate of the amount of support anticipated to be intercepted each year by participating in CSLN or a similar service;
- the anticipated average amount of support intercepted per case;
- for comparison, the average amount of an arrearage payment in fiscal 2022; and
- DHS' plan for partnering with insurance companies in the State, including how DHS would approach informing insurance companies of the State's intention to intercept a portion of insurance claims for child support arrears and how the department will encourage insurance companies' participation in this model.

**Implementation of the Child Support Management System (CSMS):** The Department of Human Services (DHS) indicates that the implementation of the new CSMS component of the Maryland Total Human Services Integrated Network (MD THINK) will conclude by the end of fiscal 2022, the legacy system will be decommissioned by the end of fiscal 2022, and the new system will be in maintenance and operations in fiscal 2023. As a result, the committees are interested in the final steps in implementation of the system and the new capabilities offered by CSMS. The committees request that DHS submit a report that details:

- findings associated with any federal review of the new system, whether each finding was subsequently resolved, and the timeline for addressing findings that remain outstanding;

## N00H00

- the department’s training efforts to ensure child support staff are proficient in the new system prior to decommissioning of the legacy system, including the number of staff trained by jurisdiction;
- any difficulties or improvements from the access available in the legacy system that the new system offers in accessing data (such as child support obligor wage data from various sources) and matching obligors’ or children’s records with records in other State and federal programs; and
- each type of enforcement action that will be automated in the new system and whether any automated enforcement actions are newly available through CSMS.

**Changes to Educational and Experience Requirements for Family Investment Specialists:**

The Department of Human Services (DHS) has indicated that in an effort to address high vacancy levels within the Family Investment Specialist positions the agency is working with the Department of Budget and Management (DBM) to remove the requirement that entry-level family investment specialist positions have a bachelor's degree and to allow for a wide range of experience to count towards the experience qualification. The department indicated that this is expected to broaden the pool of candidates. The committees are interested in understanding more about this plan and how it will impact the department's recruitment and retention. The committees request that DHS submit a report describing:

- detail on the proposed changes including a comparison of the current and new education criteria and current and new experience criteria;
- the timeline for implementing the change in requirements including when the change is expected to be approved by DBM and when recruitments will begin using the new criteria;
- the number of positions impacted by the change;
- how the department will accommodate candidates entering with different education and experience levels within the current salary schedule, including whether candidates with bachelor's degrees or more experience meeting the current requirements would enter at a different step than those with the altered requirements;
- any impacts on current employees hired under prior qualifications based on the altered education and experience qualification criteria; and
- a comparison of education and experience qualifications for positions comparable to Family Investment Specialists in other states.

### N00I00.06 Office of Home Energy Programs

**Energy Assistance Applications Processing Times and Denial Rates:** The committees are interested in continuing to monitor the local administering agencies (LAA) energy assistance application processing times and overall program denial rates. The committees request that the Department of Human Services (DHS) provide by LAA:

- the number of applications received;
- the average number of days to process applications; and
- the number and percentage of applications processed within 30 days, 55 days, and longer than 60 days.

In addition, the committees request that DHS provide application denial rates separately by benefit type as well as the share of application denials by reason separately by benefit type. Data should also include the number of applications initially denied due to incomplete information that were subsequently cured by applicants providing missing information within the additional three months after denial, as allowed for under Chapters 638 and 639 of 2021. Fiscal 2021 and 2022 end-of-year actual data for denial rates should be included in the report due December 31, 2022, as well as fiscal 2023 data current through November 1, 2022.

Each report should note the date of the data. The data should be current through November 1, 2022, for the report due December 31, 2022, and current through May 1, 2023, for the report due June 30, 2023.

**Implementation of Categorical Eligibility for Energy Assistance Programs:** The Department of Human Services (DHS) Office of Home Energy Programs (OHEP) has begun to take steps necessary to implement categorical eligibility for energy assistance programs in order to reduce administrative costs, simplify the application process, and reduce denial rates. The committees continue to be interested in administrative changes to energy assistance programs and request that DHS submit a report providing an update on the status of the implementation of categorical eligibility for energy assistance. In addition, the report should include updates on the following:

## N00I00

- the status of the integration of the OHEP Data Management System with DHS's new Enrollment and Eligibility system;
- the status of establishment of a centralized administrative model through local departments of social services (LDSS) for energy assistance programs;
- the anticipated role that non-LDSS local administering agencies will continue to have in providing outreach and other assistance following the transition of program administration to the LDSS model; and
- the budgetary impacts of the implementation of categorical eligibility, including actual or estimated cost savings for administration resulting from a centralized administrative model.

**Low Income Household Water Assistance Program:** The committees are interested in understanding the new Low Income Household Water Assistance Program (LIHWAP) funded through federal stimulus funds. The committees request that the Department of Human Services (DHS) Office of Home Energy Programs submit a report on LIHWAP, with a specific discussion of (1) the steps taken by DHS to implement the program in Maryland; (2) the date(s) when the program began or is estimated to begin accepting applications and when the first benefits were or will be paid to recipients; (3) the use of federal stimulus funds for the program, including if additional need for funding is projected once these funds are expended or the anticipated end date of the program if it is not expected to continue beyond the availability of these funds; and (4) the number of applications and households receiving benefits under the program, including the average benefit size.

**Budget Amendments**

**P00A01.01 Executive Direction**

Add the following language to the general fund appropriation:

, provided that \$100,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Labor, in consultation with the Department of General Services (DGS), submits a report to the budget committees on the implementation of Chapter 782 of 2017. Specifically, the report shall address:

- (1) steps taken in collaboration with DGS to ensure that contractors and subcontractors working on qualified projects are directed to submit information to the established online portal;
- (2) a list of the capital projects for which contractors and subcontractors have submitted information through the online portal; and
- (3) data on the number of apprentices that worked on those capital projects and any payments to the Maryland Apprenticeship Training Fund related to those projects.

The report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

**Explanation:** This language restricts \$100,000 pending the receipt of a report on how the Maryland Department of Labor (MDL) is working with DGS to fully implement the Providing Our Workers Education and Readiness (POWER) Apprenticeship Act (Chapter 782 of 2017). The Act requires that each contractor or subcontractor awarded a contract for at least \$500,000 for a capital construction project that receives at least \$1 million in the State’s capital budget to be affiliated with a registered apprenticeship program and use apprentices in each covered craft that is used, or to make payments either to the State Apprenticeship Training Fund or directly to a registered apprenticeship program. The report should include steps taken to ensure that contractors and subcontractors working on qualified capital projects are properly directed to the online portal established by MDL as well as information on data submitted through the online portal by contractors and subcontractors.

Add the following language to the general fund appropriation:

Further provided that \$100,000 of this appropriation made for the purpose of administration may not be expended until the Maryland Department of Labor (MDL) submits a report to the budget committees on the status of the implementation of certain provisions of Chapters 49, 50, 51, and 65 of 2021. Specifically, the report shall include:

- (1) a detailed explanation of the procedures for ensuring claimants receive status updates at least once every three weeks, including examples (without actual claimant data) of what updates would look like in a variety of common circumstances;
- (2) a detailed explanation of the procedures for individuals to track the status of their claims, including the anticipated timeline for resolution and examples (without actual claimant data) of how various tracking information would appear in the BEACON system;
- (3) the number and percentage of claims for which first payment was not made within 21 days of the first compensable week for each week in May, June, and July 2022; and
- (4) a detailed explanation of how MDL's timeliness calculations differ from those used to produce the data published on the U.S. Department of Labor website.

The report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of receipt of the report to review and comment. Funds restricted pending the receipt of the report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

**Explanation:** Chapters 49 and 65 required MDL to establish procedures for unemployment insurance (UI) claimants to receive status updates at least once every three weeks after filing an initial claim until benefits are either paid or denied and to establish procedures for an individual to track the status of their claim, including an anticipated timeline for resolution. Chapters 49 and 65 also required MDL to establish timeliness standards of paying 92% of initial claims within three weeks and 97% of claims that require adjudication within eight weeks. Chapters 50 and 51 defined a disaster as the situation where MDL has failed to pay at least 82% of first payments within three weeks and the legislation identified reporting requirements for the department during a disaster. The committees are interested in the status of implementation of these provisions of Chapters 49, 50, 51, and 65. This language restricts funding until MDL submits a report detailing the procedures established to comply with these provisions as well as additional evidence of compliance. Examples provided for the purposes of this report should not be taken directly from actual claimant circumstances in order to avoid the potential for accidental transmission of personally identifiable information.

### P00G01.07 Workforce Development

Add the following language to the federal fund appropriation:

, provided that \$430,000 of this appropriation made for the purpose of workforce development programs funded through the American Rescue Plan Act (ARPA) may not be distributed to local workforce development boards but instead may be used only to provide oversight of ARPA funding provided to Local Workforce Areas (LWA), including reviewing fiscal and programmatic reporting from LWAs and performance evaluation. Further provided that it is the intent of the General Assembly that these funds may be used for oversight purposes for fiscal 2023 to 2025, and that general funds be provided for any further oversight activities needed beyond the expenditure deadline for ARPA funding. Further provided that the Maryland Department of Labor (MDL) shall distribute \$37,070,000 of this appropriation made for the purpose of workforce development programs funded through the ARPA directly to local workforce development boards according to the same formula used to distribute fiscal 2023 Federal Workforce Innovation and Opportunity Act adult funds to LWAs. Funds not expended for these restricted purposes may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled. Further provided that it is the intent of the General Assembly that each local workforce development board submit quarterly fiscal and program reports to MDL on the use of these funds.

**Explanation:** This language restricts a portion of the \$37.5 million of funding from the ARPA for workforce development programs to be used only for oversight by MDL, including reviewing fiscal and programmatic reporting from LWAs, performance evaluation, and any other oversight activities that the department deems necessary. These oversight funds are intended to remain available through the expenditure deadline for ARPA funding in fiscal 2025, and general funds are intended to be provided for any further oversight needs beyond that date. The remaining funds must be distributed to LWAs using the same formula used to distribute federal Workforce Innovation and Opportunity Act adult funds, and the language expresses the intent that LWAs submit quarterly fiscal and program reports to MDL.

### Committee Narrative

**Apprenticeship Workgroups for Targeted Occupations:** The committees are concerned with the ever-present and increasing workforce shortages among government employees, particularly within the public safety, health, and transportation sectors. More needs to be done to enhance the pipeline for connecting students and other individuals aged 16 and older with meaningful employment within State and local government. Unfortunately, useful aggregated data regarding current staffing levels, vacancy rates, and existing training programs is minimal, particularly at the local level.

In an effort to address ongoing staffing concerns and explore potential opportunities for attracting individuals into public service, the committees direct the Maryland Department of

## **P00**

Labor (MDL) to establish individual workgroups to study and report on the short-term and long-term occupation needs in each of the respective sectors of public safety, health care, and transportation at the State and local level in Maryland.

At a minimum, the Public Safety Apprenticeship Workgroup should include MDL; the Department of Public Safety and Correctional Services; the Department of State Police; and any relevant local law enforcement organizations, detention centers, and community supervision offices.

At a minimum, the Healthcare Apprenticeship Workgroup should include MDL; representatives from State public health, local health departments, State facilities, and other Maryland Department of Health staff as relevant; representatives of the associations of health care providers; and representatives of the labor unions representing health care workers.

At a minimum, the Transportation Apprenticeship Workgroup should include MDL, the Maryland Department of Transportation, representatives of the associations of relevant and contracted employers, and representatives of the relevant labor unions.

Each workgroup shall provide the committees with an interim report to be submitted by December 1, 2022, and a final report submitted no later than June 30, 2023. Each report shall provide data and information addressing the individual workgroup's efforts to:

- identify the extent of vacancies at the State and local level within each sector, specifically including, but not limited to, police officers, correctional officers, parole and probation agents, direct care and public health workers, bus operators, and vehicle maintenance personnel;
- review existing apprenticeships in the United States and elsewhere specifically for occupations in these identified sectors;
- design apprenticeships in the occupations within the identified sectors that have the greatest recruitment challenges and training deficiencies, including estimated costs and potential funding opportunities;
- identify opportunities to start apprenticeships at the high school level consistent with the Blueprint for Maryland's Future;
- identify opportunities, in coordination with the University System of Maryland (USM), the Maryland Association of Community Colleges (MACC), University of Maryland Global Campus (UMGC), the Maryland Career and Technical Education (CTE) Committee, and the Maryland State Department of Education (MSDE), to create degree apprenticeship programs and other ways to incorporate associate and bachelor's degrees in apprenticeships; and

## P00

- identify potential apprenticeship sponsors in each occupation.

Furthermore, the committees recognize that degree apprenticeship programs improve college affordability and serve as pathways to reduce skilled workforce shortages. Combining on-the-job training with related academic instruction is particularly helpful in health care and education, where licensing rules are generally tied to degrees, but can also be used in other occupations that have degree cultures but not requirements. Apprenticeship programs provide an opportunity to serve the State’s workforce and economic goals as well as expand pathways toward attainment of the State’s 55% educational completion goal. There are minor degree apprenticeships in Maryland but not at scale and not in the largest markets – health care and education. Therefore, the committees additionally request that USM convene MACC, UMGC, MSDE, MDL, and the Maryland CTE Committee and jointly submit a report with MDL on the feasibility of creating degree apprenticeship programs for students starting in high school and any changes in law, college policies, and resource allocations that will be required to develop two pilot programs in fiscal 2024. The report should be submitted by December 1, 2022.

**Budget Amendments**

Amend the following language:

Provided that \$750,000 of this appropriation made for the purpose of personnel may only be used to increase employment within the Information Technology and Communications Division and Division of Capital Construction and Facilities Maintenance. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** Staffing is low in the executive programs of the Department of Public Safety and Correctional Services (DPSCS) responsible for carrying out information technology, capital construction, and facilities maintenance projects. Staffing deficiencies have led to project delays and cost increases. This language requires DPSCS to use new personnel funds to increase employment in the Information Technology and Communications Division and Division of Capital Construction and Facilities Maintenance.

Add the following language:

Further provided that \$9,815,178 of the appropriation for substance use disorder (SUD) treatment services subprograms may only be expended in those subprograms. Funds may be transferred between SUD treatment services subprograms throughout the Department of Public Safety and Correctional Services. Funds unexpended for this purpose at the end of the fiscal year shall revert to the General Fund or be canceled.

**Explanation:** Chapter 532 of 2019 directs the Department of Public Safety and Correctional Services (DPSCS) to create a medication assisted treatment program within the confines of the Baltimore Pretrial Complex as well as apply for funding to support local detention centers required to create their own treatment programs. DPSCS has historically underspent the appropriation for SUD services and does not have a contract in place for these services. This language ensures that funds for SUD services will only be spent for that purpose or shall revert to the General Fund or be canceled at the end of the fiscal year.

**Q00B01.01 General Administration**

Add the following language to the general fund appropriation:

. provided that \$100,000 of this appropriation made for the purpose of General Administration may not be expended until the Department of Public Safety and Correctional Services submits the second of four quarterly hiring and attrition reports to the budget committees. The reports shall include a breakdown of all hires and separations for each of the three months in question by category of employee (correctional officer, community supervision agent, or administrative employee) and by reason for separation. The report shall also include narrative summarizing all hiring events and changes to the hiring process that occurred during the quarter; the quantity, type, and cost of bonuses disbursed; as well as overall applications received, tested, and interviewed. The first quarterly report shall be submitted to the budget committees no later than October 12, 2022, and the second report shall be submitted to the budget committees no later than January 12, 2023. The budget committees shall have 45 days from the date of the receipt of the second quarterly report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** Hiring within the Department of Public Safety and Correctional Services (DPSCS) has improved after years of unsustainable employment decline. The quarterly reports requested in fiscal 2023 will continue the cooperation between DPSCS and the budget committees to track all departmental hiring, the success of recent initiatives, and the impact of COVID-19 on public safety staffing.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

## **Q00B**

**Explanation:** The General Assembly passed legislation in 2020 and overrode an executive veto in 2021 to require the establishment of a new Women's Prerelease Center. The Department of Public Safety and Correctional Services receives \$150,000 in fiscal 2023 to begin planning for this project. **Q00C01.01 General Administration and Hearings**

Add the following language to the general fund appropriation:

. provided that \$250,000 of this appropriation made for the purpose of General Administration may not be expended until the Department of Public Safety and Correctional Services (DPSCS) submits a report on offender victimization while on supervision. The report shall provide information on the following:

- (1) activities taken by DPSCS to reduce the number of murders involving offenders who are supervised by the Division of Parole and Probation (DPP);
- (2) actions taken by DPSCS to examine and review murders involving offenders who are supervised by DPP;
- (3) the policies and programs recommended to prevent such murders; and
- (4) the number of offenders supervised by DPP that were shooting victims, homicide victims, or charged with or identified as suspects in a homicide, nonfatal shooting, robbery, rape, police-involved shooting or any crime involving the offender's use of a firearm.

The report shall be submitted to the budget committees no later than October 15, 2022. The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

Further provided that it is the intent of the General Assembly that DPP examine and review murders committed by offenders under the supervision of DPP and murders of offenders under the supervision of DPP for the purpose of advising the Secretary on policies and programs to prevent such murders.

**Explanation:** In compliance with fiscal 2022 Budget Bill language, DPSCS provided a summary of data regarding the number of DPP supervisees involved as a suspect or victim in a homicide or shooting from fiscal 2019 to 2021. In total, supervisees are about twice as likely to be victims compared to suspects of these two violent crimes. There was an average of 71 homicide suspects, 119 homicide victims, 73 shooting suspects, and 255 shooting victims per year who were on active DPP supervision, totally 1.15% of DPP supervisees. This budget bill language requires DPP to report on the number of supervisees involved in a murder or shooting and take action to reduce those cases. This language also includes legislative intent that DPP

**Report on Virtual Learning:** Due to COVID-19 school closures in March 2020, the Maryland State Department of Education (MSDE) allowed local education agencies to implement virtual learning in place of in-person learning. To understand the impact and monitor the continued expansion of virtual learning across the State, the committees request that MSDE provide an updated report by December 1, 2022, on actions taken in calendar 2022 to facilitate virtual learning for teachers and students across the State. This report should have:

- updated information on virtual learning and the activity of the Digital Learning Stakeholder Committee;
- costs for State virtual learning in fiscal 2021 and 2022, and anticipated expenditures in fiscal 2023 and 2024, by fund source and program; and
- detailed information on the status of virtual learning programs and activities, including but not limited to:
  - State Learning Management System implementation, including additional licenses, migration of courses, training, and information technology services;
  - Maryland Virtual Learning Opportunities courses and vendors;
  - professional development courses, training, and vendors;

## R00A01

- development and implementation of e-communities and their anticipated impact on virtual learning; and
- development and implementation of a State virtual school.

**Status Report on Maryland School for the Deaf (MSD):** Despite significant progress on issues identified in a 2019 audit, the committees remain concerned that noncompliance remains with MSD's development of measurable academic and functional Individual Educational Plan (IEP) goals, documentation of parent concerns, and other IEP meeting protocols. The committees are also concerned about the outdated memorandum of understanding (MOU) between the Maryland State Department of Education (MSDE) and MSD. The committees request that MSDE and MSD submit an update by August 1, 2022, on progress by both agencies to resolve these remaining issues and update their MOU.

**Report on Personnel and Vacancies:** The committees are concerned about personnel vacancies throughout the Maryland State Department of Education (MSDE) and its independent units, along with efforts to hire personnel specifically for the fulfillment of Chapter 36 of 2021 requirements. The committees request that by October 1, 2022, MSDE report the following information:

- an assessment of the primary factors contributing to the over 200 vacant positions throughout the department;
- strategies for the recruitment, reclassification, or abolishment of positions to bring fiscal 2023 vacancies in line with budgeted turnover;
- detail on personnel for Chapter 36 implementation by classification, salary, and program, along with information on how requirements are successfully being met with less staff than the estimated need identified at the time of legislative enactment; and
- costs associated with these actions for fiscal 2022, 2023, and 2024.

**Report on High School Athletic Trainers:** The committees are concerned about employment, funding, and requirements for athletic trainers in Maryland high schools. The committees request that by August 1, 2022, the Maryland State Department of Education (MSDE) report the following information on athletic trainers employed at Maryland high schools in the 2021-2022 and 2022-2023 school years:

- a list of all Maryland high schools and the number of athletic trainers employed at each school;
- employment status (such as part-time, full-time, contractual, or hourly);
- certification status (such as certified teacher, staff, or permanent substitute);
- annual average salary and/or average hourly wage;
- average hours worked per month;
- hiring requirements (such as certified athletic trainer, physical education certification, or availability on nights and weekends);
- sports teams that employ an athletic trainer, disaggregated by gender and sport (such as girls' volleyball or boys' basketball);
- source of funding for athletic trainers; and
- any additional information that would inform the committees on the funding and requirements needed for each Maryland high school to employ at least one athletic trainer.

COVID-19 pandemic and are interested in better understanding impacts of these disruptions on learning loss, virtual learning, new assessment development, and increased costs for MCAP assessments in the next few years. The committees request that by November 1, 2022, the Maryland State Department of Education (MSDE) submit a status update on MCAP assessments and expenditures including, but not limited to:

- a timetable for MCAP administration for all assessments for school year 2022-2023 and 2023-2024, including field testing and pilots for new assessments;
- details on MCAP measurement of student learning loss in school year 2021-2022 by local education agency (LEA), subject area, grade level, and assessment, as well as additional steps taken, if any, by MSDE at the State level to measure student learning loss;
- details on MCAP administration in school year 2021-2022 for virtual school students by LEA, program, grade level, and assessment, including alternative assessments and Kindergarten Readiness; and anticipated changes, if any, to assessments for virtual school students in school year 2022-2023 and 2023-2024;
- expenditures in fiscal 2022 and 2023, and anticipated allowances for fiscal 2024, for each MCAP assessment and assessments under development; and
- contractual expenditures by vendor for fiscal 2022 and 2023, and anticipated contractual expenditures in fiscal 2024, for costs associated with assessment development and administration.

### R00A01.10 Division of Early Childhood Development

**Child Care Stabilization Grant Awards:** Maryland received more than \$500 million in federal aid through the American Rescue Plan Act to support the child care industry and overall early childhood system as the COVID-19 pandemic has greatly impacted these programs. More than half of this funding was allocated for short-term stabilization grants to child care providers, and a proposed fiscal 2022 deficiency would allocate \$50 million in State funds to distribute additional grants.

The committees are interested in receiving information about how federal aid and State funding have been spent to assist the State's child care system. The committees request that the Maryland State Department of Education (MSDE) submit a report by November 1, 2022, that provides

## R00A01

stabilization grant allocations by jurisdiction, grant allocations by child care program type (child care centers and family child care programs), the number of child care providers that received stabilization grants in each application cycle, and a summary of how child care providers spent the grants across specific uses (i.e., wages for employees, staff bonuses or paid leave, rent, transportation costs for staff, personal protective equipment, and other allowable uses). In the report, MSDE should also discuss any new programs or funding streams that it will administer to support child care programs with personnel retention, recruitment, and operating costs once the stabilization grant term ends.

**Early Childhood Data System Modernization Project:** Due to the availability of one-time federal funds to aid the early childhood education system in Maryland, the Maryland State Department of Education (MSDE) has redesigned its Child Care Administration Tracking System replacement project to include multiple early childhood data systems. Before September 1, 2022, MSDE, in consultation with the Department of Information Technology (DoIT), should submit a report to the committees including:

- a list of early childhood data systems and early childhood programs that will be affected by this project;
- the federal funding sources for this project with funds from each federal grant shown by fiscal year;
- a description of major improvements planned for each early childhood program and benefits to relevant stakeholders;
- specific issues with legacy early childhood systems that will be improved with this major information technology project, including cybersecurity issues like ensuring independent security review (particularly System and Organization Controls reviews (SOC Type 2));
- an update on whether any early childhood systems will be integrated to the Maryland Total Human-services Integrated Network;
- the status of all applications completed or in the process of being completed; and

## R00A01

- the capability of new tracking systems to collect and report data on enrollment in individual child care programs, staffing of individual child care programs, and demographic data pertaining to the families and children participating in child care programs.

**Child Care Stabilization Grant Processing Times:** After slight delays in processing the stabilization grants during the first round of applications, the Maryland State Department of Education (MSDE) streamlined the application and offered virtual customer service sessions to providers. The committees are interested in tracking the timely processing of child care stabilization grants considering the importance of these grants in helping child care programs remain open. The committees request that MSDE submit a report by July 1, 2022, providing information on the processing times for distributing the second round and any subsequent rounds of stabilization grants. MSDE should also provide an update on stabilization grants funded with State funds, including the amount of grant awards that have been distributed and a timeline for allocating any remaining funds for stabilization grants.

**Report on Environmental Literacy Standards:** The committees are concerned about current revisions to the Maryland Environmental Literacy standards and their attention to environmental sustainability, climate resilience, and the mitigation of climate change impacts. The committees request that the Maryland State Department of Education (MSDE) report by October 1, 2022, on the current process to update these standards and include the following information:

- a list of individuals and their representative organizations involved in the revision process including external organizations, local education agencies (LEA), and MSDE staff and/or leadership;
- examples of national, State, and local exemplary environmental literacy curricula reviewed during the revision process;

## R00A01

- a side-by-side comparison of previous standards to updated standards, either completed or in progress, with specific attention to curriculum revisions related to environmental sustainability, climate resilience, and the mitigation of climate change impacts;
- a plan for professional development on the updated standards;
- a timetable for implementation, including updates to Code of Maryland Regulations and integration into LEA curriculum; and
- integration and implementation, if any, of these standards into Maryland Comprehensive Assessment Program Science assessments and a timetable for that process.

**Report on Certification for Sign Language Interpreters:** The committees are concerned about the certification status of sign language interpreters in Maryland public schools. The committees request that by November 1, 2022, the Maryland State Department of Education (MSDE) report on the cost of developing and implementing a certification program for sign language interpreters who work in public schools. This report should contain the following information:

- information on deaf education teacher or sign language interpreter preparation programs in Maryland;
- current procedures or alternative pathways, if any, for prospective teachers and interpreters to obtain sign language interpreter certification in Maryland;
- the cost to develop a certification program for individuals who may want to be employed in Maryland public schools, either as sign language interpreters or classroom teachers;
- plans to implement such a program in a timely manner; and
- regulations that may be needed from the State Board of Education and/or the Professional Standards and Teacher Education Board to implement this program.

**Report on the Nonpublic Placement Program:** The committees are concerned about delays in the reimbursement schedule for the Nonpublic Placement program providers and actions taken by the Maryland State Department of Education (MSDE) to rectify these issues. MSDE reports that the agency is moving forward with a new framework and procedures that should speed up the reconciliation process but that a lag remains between expenditures, reimbursements, and reporting of these items. The committees request that MSDE submit a report by November 1, 2022, with the following information:

- program closeout for fiscal 2022 on enrollment by provider, annual reimbursement costs, and documentation on potential remaining discrepancies at the end of the fiscal year;
- detailed information on the proposed framework for more timely reimbursements to nonpublic placement providers; and
- actions taken in fiscal 2021 and 2022 by the agency to reimburse nonpublic placement providers in a timelier manner ahead of the implementation of the new framework.

**Report on the Autism Waiver Program:** The committees are concerned about the administration of the autism waiver program and waitlist, which is managed by the Maryland State Department of Education (MSDE) and the Maryland Department of Health (MDH). The program continues to have a waitlist of more than 6,000 individuals with estimated program costs expected to increase by approximately \$2.5 million annually through fiscal 2027. The committees request that by September 1, 2022, MSDE and MDH submit the following information on this program:

- plans and procedures to manage waitlist eligibility that reflect federal guidelines, current national practices, and allow for an accurate accounting of individuals in Maryland who qualify for both for autism waiver services and the autism waiver waitlist;
- procedures to contact and identify individuals who may qualify for autism waiver services and/or the autism waiver waitlist;

## R00A02

- plans to contact all currently waitlisted individuals for a review of their eligibility for the autism waiver waitlist;
- a timeline for these actions;
- anticipated administrative costs for these actions;
- an update on the number of individuals in the autism waiver program and on the autism waiver waitlist as of the date of the report; and
- projected costs for autism waiver services considering anticipated changes in the management and funding of this program for fiscal 2023 through 2027.

### R00A02.13 Innovative Programs

**Status Update on the Pathways in Technology Early College High School (P-TECH) Program:** The committees are concerned about increasing costs for the P-TECH program, which is managed by the Maryland State Department of Education (MSDE) and local education agencies (LEA). Costs for the P-TECH program are determined by a variety of factors, including student enrollment in community college courses and the costs for those courses in any given year. MSDE admits that the agency does not have a systematic method for collecting those costs on an annual basis, although the agency is working with LEAs and community colleges to resolve this issue. The committees request that MSDE submit a status update on the P-TECH program by August 1, 2022, that provides the following information regarding this issue:

- current enrollment in all P-TECH programs by high school, community college, cohort, and entry year;
- projected enrollment in all P-TECH programs in the 2022-2023 and 2023-2024 school years;
- the total number of students who left the program in any given year and reasons for departure;
- the total number of students who have graduated by program and the percentage completion rate;

## R00A02

- community college courses attended by P-TECH students with a cost per course per semester;
- current cost for the program in fiscal 2023 and total projected cost for the program in fiscal 2024;
- average cost by student, program, and LEA for fiscal 2022; and

### Supplemental Budget No. 4

#### R00A02.13 Innovative Programs

Add the following language to the federal fund appropriation:

, provided that, to the extent allowable under federal law, this appropriation may only be provided to award grants to nonpublic schools that were eligible to participate in the Aid to Non-Public Schools R00A03.04 (for the purchase of textbooks or computer hardware and software for loans to students in eligible nonpublic schools) during the 2021-2022 school year or nonpublic schools that serve students with disabilities through the Non-Public Placement Program R00A02.07 Subprogram 0762.

**Explanation:** This language specifies eligibility requirements for federal funds appropriated to nonpublic schools, including schools participating in the Non-Public Schools Nursing Program.

### Supplemental Budget No. 5

#### R00A02.57 At-Risk Early Childhood Grants

Add the following language to the general fund appropriation:

, provided that \$3,700,000 of this appropriation made for the purpose of the Therapeutic Child Care Program may be expended only to increase the grant per child served by therapeutic child care programs to \$45,000. Funds not used for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

## R00A02

**Explanation:** This action requires that \$3.7 million in general funds budgeted under the Maryland State Department of Education for the Therapeutic Child Care Program be used to increase the grant per child for therapeutic child care programs to \$45,000.

### Budget Amendments

#### R00A02.59 Child Care Assistance Grants

Amend the following language:

R00A02.59 Child Care ~~Assistant~~ Assistance Grants

**Explanation:** This action is a technical amendment to correct a program title.

### Committee Narrative

**Child Care Scholarship (CCS) Program Quarterly Reports:** The COVID-19 pandemic has led to reduced enrollment in the CCS Program, while significant federal aid and State funding has become available for child care programs. The Maryland State Department of Education (MSDE) allocated part of the one-time funding to expand CCS through higher income eligibility thresholds and increased provider reimbursement rates. Additionally, the committees are concerned about the agency's performance in providing customer service for the CCS Program. Considering these programmatic changes and concerns about customer service and responsiveness, the committees request that MSDE submit quarterly reports with the following information:

- CCS expenditures, including Child Care and Development Fund spending that was carried over from prior fiscal years, the amount of newly authorized federal funds expended (with federal awards for COVID-19-related uses listed separately), and general fund spending;
- CCS expenditures disaggregated by federal and State funding used directly for scholarships and funding used by MSDE Headquarters for administrative costs and activities to improve provider quality, specified by purpose;
- quarterly updates on the provider reimbursement rate as a percentile of the market rate, statewide and by region;
- the total number of children and families receiving CCS per month statewide and by jurisdiction, including the number of children and families who became eligible when income eligibility thresholds were raised to 65% of the State median income (SMI) and

## R00A02

the number of children and families who become eligible once income eligibility is raised to 75% SMI (or higher if applicable);

- quarterly updates on whether the department is maintaining a CCS waiting list and, if so, which income categories are impacted and how many children and families have applied for CCS benefits and been added to the waiting list;
- actual performance on measures and requirements included in the State's customer service contract for the CCS Program and, if not included in those measures, actual performance on average response time, actual time to review and approve or reject an application for a child care scholarship, actual time between invoice submission and payment to child care providers, the number of resubmissions needed for provider invoices and parent applications, average time per call, average hold time, dropped call rate, actual and average times needed to close open customer service tickets, and rates on individuals ending a call while waiting; and
- quarterly updates on the top five customer service issues related to the CCS Program being handled by the Office of Child Care.

In its August 2022 report, MSDE should include actual data as it related to the CCS Program in the final quarter of fiscal 2022 and aggregate fiscal 2022 data.

**Funding Adequacy in the Child Care Scholarship (CCS) Program:** The fiscal 2023 allowance includes \$10.0 million in new general fund support for the CCS Program in a period when the COVID-19 pandemic has caused a significant reduction in enrollment, and additional federal aid has become available to support the State's child care system. The committees request that the Maryland State Department of Education (MSDE) submit a report providing projected spending and cost estimates related to recent programmatic changes affecting CCS Program expenditures and a discussion of whether these changes are expected to be ongoing. The report should be submitted by September 15, 2022, and should include:

- actual fiscal 2022 federal fund expenditures used to expand program income eligibility thresholds and increase reimbursement rates and the amount of federal funds being carried over into future fiscal years;

## R00A02

- actual costs in fiscal 2022 and total projected costs in fiscal 2023 for the CCS Program, separately identifying costs related to these programmatic changes;
- a discussion of whether these programmatic changes are expected to continue after the one-time federal funding sources are fully expended, including cost estimates for fiscal 2024 and 2025 for these programmatic changes if the changes are expected to continue; and
- if the planned changes are expected to continue, the planned funding sources that would be made available for ongoing program costs after one-time federal funding sources for child care purposes are fully expended.

### Fiscal 2022 Deficiency

#### R00A02.59 Child Care Assistance Grants

Add the following language to the general fund appropriation:

, provided that \$50,000,000 of this appropriation made for the purpose of administering child care stabilization grants to provide financial support to child care providers that have faced a financial hardship or a burden in operations during the COVID-19 pandemic may be expended only for that purpose and shall be prioritized to distribute grants to the following providers, in order of priority:

- (1) providers that have a demonstrated financial hardship that poses significant risk to the provider's business closing in the next 12 months;
- (2) providers that have not received a stabilization grant in a prior application cycle;
- (3) providers that participate in the Child Care Scholarship Program;
- (4) providers located in areas designated by the State Department of Education as lacking child care slots;
- (5) providers that serve primarily low-income populations in areas of high poverty;

## R00A02

(6) providers that serve children with special needs; and

(7) providers that serve children ages two and under.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** This language restricts a fiscal 2022 deficiency appropriation allocated for an additional round of stabilization grants to child care providers to be used only for that purpose and prioritized (in the listed order) for providers with certain characteristics, such as demonstrating a financial hardship that poses significant risk to the provider's business closing in the next 12 months.

### Supplemental Budget No. 5

#### R00A02.59 Child Care Assistance Grants

Add the following language to the federal fund appropriation:

, provided that \$2,000,000 of this appropriation made for the purpose of the Child Care Scholarship Program may be expended only to cover the cost of waiving parental copays for qualifying families participating in the Child Care Scholarship Program, contingent on the enactment of SB 920 or HB 995. Funds not used for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled.

**Explanation:** This action requires that \$2.0 million in federal funds budgeted under the Maryland State Department of Education for the Child Care Scholarship Program be used to cover the cost of waiving parental copays for qualifying families participating in the program, contingent on the enactment of SB 920 or HB 995.

**Budget Amendments**

**R00A03.04 Aid to Non-Public Schools**

Amend the following language to the special fund appropriation:

, provided that this appropriation shall be for the purchase of textbooks or computer hardware and software and other electronically delivered learning materials ~~as permitted under Title II, Section 2416(b)(4), (6), and (7), of the No Child Left Behind Act~~ for loan to students in eligible nonpublic schools with a maximum distribution of \$65 per eligible nonpublic school student for participating schools, except that at schools where ~~at least 20%~~ from 20% to 40% of the students are eligible for the free or reduced-price lunch program there shall be a distribution of \$95 per student, and at schools where more than 40% of the students are eligible for the free or reduced-price lunch program there shall be a distribution of \$155 per student.

**Explanation:** This action amends language modifying the distribution of funding for the Aid to Non-Public Schools Program so that schools where more than 40% of the students are eligible for the free or reduced-price lunch program receive \$155 per student. Similar language has been included in the budget since fiscal 2017. It also strikes language regarding the No Child Left Behind Act due to technical differences with the reauthorized Elementary and Secondary Education Act.

Amend the following language to the special fund appropriation:

- (2) Not charge more tuition to a participating student than the statewide average per pupil expenditure by the local education agencies, as calculated by the department, with appropriate exceptions for special education students as determined by the department; ~~and~~
- (3) Comply with Title VI of the Civil Rights Act of 1964, as amended; and
- (4) Submit its student handbook or other written policy related to student admissions to the Maryland State Department of Education for review to ensure compliance with program eligibility requirements.

**Explanation:** This action requires schools that participate in the Aid to Non-Public Schools Program to submit a student handbook or policy on student admissions to the Maryland State Department of Education to ensure compliance with program eligibility requirements.

## R00A03

Add the following language:

Further provided that a nonpublic school participating in the Aid to Non-Public Schools Program R00A03.04 shall certify compliance with Title 20, Subtitle 6 of the State Government Article. A nonpublic school participating in the program may not discriminate in student admissions, retention, or expulsion, or otherwise discriminate against any student on the basis of race, color, national origin, sexual orientation, or gender identity or expression. Nothing herein shall require any school or institution to adopt any rule, regulation, or policy that conflicts with its religious or moral teachings. However, all participating schools must agree that they will not discriminate in student admissions, retention, or expulsion or otherwise discriminate against any student on the basis of race, color, national origin, sexual orientation, or gender identity or expression. Any school found to be in violation of the requirements to not discriminate shall be required to return to the Maryland State Department of Education all textbooks or computer hardware and software and other electronically delivered learning materials acquired through the fiscal 2023 allocation. The only other legal remedy for violation of these provisions is ineligibility for participating in the Aid to Non-Public Schools Program. Any school that is found in violation of the nondiscrimination requirements in fiscal 2022 or 2023 may not participate in the program in fiscal 2023. It is the intent of the General Assembly that a school that violates the nondiscrimination requirements is ineligible to participate in the Aid to Non-Public Schools Program, the Broadening Options and Opportunities for Students Today Program, the James E. “Ed” DeGrange Nonpublic Aging Schools Program, and the Nonpublic School Security Improvements Program in the year of the violation and the following two years.

**Explanation:** This action requires a nonpublic school participating in the Aid to Non-Public Schools Program to certify compliance with Title 20, Subtitle 6 of the State Government Article (Discrimination in Employment). It also specifies that a participating school may not discriminate in student admissions on the basis of race, color, national origin, sexual orientation, or gender identity or expression. Violation of these provisions means that a school will be ineligible for the program. Similar language has been included in the budget since fiscal 2017. This action also specifies that schools that violate the provisions must return all textbooks and technology received through the program to the Maryland State Department of Education. It also states that a school that violates the nondiscrimination requirements in fiscal 2022 or 2023 is not eligible to participate in the program in fiscal 2023 and states legislative intent that any school that violates the nondiscrimination requirements is ineligible to participate in any program that provides funding to nonpublic schools for a total of three years.

### Committee Narrative

**Report on Emergency Assistance to Nonpublic Schools (EANS) Grant Program:** In January 2021, the Governor announced \$35.8 million for Maryland nonpublic schools as part of the Coronavirus Response and Relief Supplemental Appropriation Act, EANS grant program. In March 2021, the American Rescue Plan Act added \$39.2 million to EANS, for a total of \$75.0 million. In calendar 2021, the Maryland State Department of Education (MSDE) reported

## R00A03

that the agency continues to distribute funds for these programs. The committees request that by September 1, 2022, MSDE report on allocations and expenditures of EANS grants. This report should include:

- amount awarded to each nonpublic school in all distribution rounds;
- aggregate expenditures for fiscal 2021 and 2022 on specific safe reopening needs by type, including but not limited to air quality monitoring or air purification devices, personal protective equipment, health room equipment or supplies, social distancing, transportation, and personnel;
- administrative expenses by object; and

### Budget Amendments

#### R00A03.05 Broadening Options and Opportunities for Students Today

Amend the following language:

- (a) ~~participate~~ have participated in Program R00A03.04 Aid to Non-Public Schools Program for textbooks and computer hardware and software administered by MSDE; during the 2021-2022 school year;

**Explanation:** This language specifies that to participate in the Broadening Options and Opportunities for Students Today (BOOST) Program during the 2022-2023 school year, a nonpublic school must have already participated in the Aid to Non-Public Schools Program during the 2021-2022 school year. This language eliminates ambiguity for the Maryland State Department of Education, specifying that nonpublic schools are eligible for BOOST for the 2022-2023 school year by participating in the Aid to Non-Public Schools Program in the previous school year.

## R00A03

Amend the following language:

- (c) ~~administer assessments to all students in accordance with federal and State law; and~~ administer national, norm-referenced standardized assessments chosen from the list of assessments published by the U.S. Department of Education to qualify nonpublic schools for the National Blue Ribbon Schools Program. The nonpublic schools must administer the assessments to all students as follows:
- (i) English/language arts and mathematics assessments each year for students in grades 3 through 8, and at least once for students in grades 9 through 12; and
  - (ii) a science assessment at least once for students in grades 3 through 5, at least once for students in grades 6 through 9, and at least once for students in grades 10 through 12; and
- (d) comply with Title VI of the Civil Rights Act of 1964 as amended, Title 20, Subtitle 6 of the State Government Article, and not discriminate in student admissions, retention, or expulsion or otherwise discriminate against any student on the basis of race, color, national origin, ~~or~~ sexual orientation, or gender identity or expression. Nothing herein shall require any school or institution to adopt any rule, regulation, or policy that conflicts with its religious or moral teachings. However, all participating schools must agree that they will not discriminate in student admissions, retention, or expulsion or otherwise discriminate against any student based on race, color, national origin, ~~or~~ sexual orientation, or gender identity or expression. If a nonpublic school does not comply with these requirements, it shall reimburse MSDE all scholarship funds received under the BOOST Program for the 2022-2023 school year and may not charge the student tuition and fees instead. The only other legal remedy for violation of this provision is ineligibility for participating in the BOOST Program.
- (2) MSDE shall establish procedures for the application and award process for scholarships for students who are eligible for the free or reduced price lunch program. The procedures shall include consideration for award adjustments if an eligible student becomes ineligible during the course of the school year.
- (3) MSDE shall compile and certify a list of applicants that ranks eligible students by family income expressed as a percent of the most recent federal poverty levels.
- (4) MSDE shall submit the ranked list of applicants to the BOOST Advisory Board.
- (5) There is a BOOST Advisory Board that shall be appointed as follows: 2 members appointed by the Governor, 2 members appointed by the President of the Senate,

## R00A03

2 members appointed by the Speaker of the House of Delegates, and 1 member jointly appointed by the President and the Speaker to serve as the chair. A member of the BOOST Advisory Board may not be an elected official and may not have any financial interest in an eligible nonpublic school.

- (6) The BOOST Advisory Board shall review and certify the ranked list of applicants and shall determine the scholarship award amounts. The BOOST Advisory Board shall take into account the needs of students with disabilities on an Individualized Education Plan or 504 Plan when determining scholarship award amounts.
- (7) MSDE shall make scholarship awards to eligible students as determined by the BOOST Advisory Board.
- (8) ~~The~~ Unless the student has special needs due to a disability, the amount of a scholarship award may not exceed the lesser of:
  - (a) the statewide average per pupil expenditure by local education agencies, as calculated by MSDE; or
  - (b) the tuition of the nonpublic school.
- (9) In order to meet its BOOST Program reporting requirements to the budget committees, MSDE shall specify a date by which participating nonpublic schools must submit information to MSDE so that it may complete its required report. Any nonpublic schools that do not provide the necessary information by that specified date shall be ineligible to participate in the BOOST Program.
- (10) Students who received a BOOST Program scholarship award in the prior year who still meet eligibility criteria for a scholarship shall receive a scholarship renewal award. For students who are receiving a BOOST Program scholarship for the first time, priority shall be given to students who attended public schools in the prior school year.

Further provided that the BOOST Advisory Board shall make all scholarship awards no later than December 31, 2022, for the 2022-2023 school year to eligible individuals. Any unexpended funds not awarded to students for scholarships shall be encumbered at the end of fiscal 2023 and available for scholarships in the 2023-2024 school year.

Further provided that \$700,000 of this appropriation shall be used only to provide an additional award for each student with special needs that is at least equal in amount to the BOOST Program scholarship award that a student is awarded in accordance with paragraph (6) above.

Further provided that MSDE shall submit a report to the budget committees by January 15, 2023, that includes the following:

- (1) the number of students receiving BOOST Program scholarships;

## R00A03

- (2) the amount of the BOOST Program scholarships received;
- (3) the number of certified and noncertified teachers in core subject areas for each nonpublic school participating in the BOOST Program;
- (4) the assessments being administered by nonpublic schools participating in the BOOST Program and the results of these assessments. MSDE shall report the assessment results reported by nonpublic schools to the budget committees in an aggregate manner that does not violate student data privacy;
- (5) in the aggregate, for each BOOST Program scholarship awarded (a) the nonpublic school and grade level attended by the student; (b) the school attended in the 2021-2022 school year by the student; and (c) if the student attended the same nonpublic school in the 2021-2022 school year, whether, what type, and how much nonpublic scholarship aid the student received in the 2021-2022 school year and will receive in the 2022-2023 school year;
- (6) the average household income of students receiving BOOST Program scholarships;
- (7) the racial breakdown of students receiving BOOST Program scholarships;
- (8) the number of students designated as English language learners receiving BOOST Program scholarships;
- (9) the number of special education students receiving BOOST Program scholarships;
- (10) the county in which students receiving BOOST Program scholarships reside;
- (11) the number of students who were offered BOOST Program scholarships but declined them as well as their reasons for declining the scholarships and the breakdown of students attending public and nonpublic schools for students who declined scholarships;
- (12) the number of students who received BOOST Program scholarships for the 2021-2022 school year who are attending public school for the 2022-2023 school year as well as their reasons for returning to public schools; and
- (13) the number of students who received BOOST Program scholarships for the 2021-2022 school year who withdrew or were expelled from the nonpublic schools they were attending and the reasons for which they withdrew or were expelled; the schools they withdrew or were expelled from; and the length of time students receiving BOOST Program scholarships were enrolled at a nonpublic school before withdrawing or being expelled.

**Explanation:** This language specifies priorities for the Broadening Options and Opportunities for Students Today (BOOST) scholarship awards and makes nonpublic schools that do not

provide required information to the Maryland State Department of Education (MSDE) by a certain date ineligible for participating in the BOOST Program. The language also provides that for the 2022-2023 school year, the BOOST Advisory Board shall make all scholarship awards no later than December 31, 2022, and any unexpended funds not awarded to students shall be encumbered for scholarships in the next year. This language also requires MSDE to report by January 15, 2023, on the distribution of the BOOST scholarships; information on the students receiving BOOST scholarships; teacher certifications for nonpublic schools participating in the BOOST Program; and assessments being administered in nonpublic schools participating in the BOOST Program, including student performance. The language also requires that MSDE report on students who choose to decline scholarships or attend public schools after participating in the BOOST Program in the past, along with their reasons for doing so, and information on students receiving scholarships for the 2021-2022 school year who withdrew or were expelled from the nonpublic schools that they were attending. Finally, the language requires that the BOOST Advisory Board shall take into account the special needs of students with disabilities as it is determining scholarship award amounts and that \$700,000 of the BOOST appropriation shall be used to provide higher awards for these students.

Reduce appropriation for the purposes indicated:	<u>Funds</u>	<u>Positions</u>
1. Delete general fund appropriation for the Non-Public School Nursing Program due to the availability of significant federal funds to assist nonpublic schools. **R00A07.01 Interagency Commission on School Construction**

Add the following language to the general fund appropriation:

, provided that \$300,000 of this appropriation may not be expended until the Interagency Commission on School Construction (IAC) submits to the budget committees two reports on Chapter 14 of 2018 implementation requirements related to the Statewide Facilities Assessment, the Integrated Master Facility Asset Library (IMFAL), and recommendations from the Workgroup on the Assessment and Funding of School Facilities. The first report shall be submitted by July 15, 2022, and include:

- (1) detailed information on steps taken by IAC to resolve outstanding data and dataset issues with the Department of Legislative Services and local education agencies (LEA) including, but not limited to:
  - (a) receipt of requested datasets;
  - (b) development of a data dictionary;
  - (c) confirmation of the accuracy of the facility condition index at the school, system, and LEA level; and
  - (d) calculations for, and confirmation of, the accuracy of the enrollment growth index;
- (2) revisions to Maryland Educational Sufficiency Standards and details as to how those standards will be used in future school facility assessments starting in fiscal 2022;
- (3) regulations adopted by IAC that support workgroup decisions involving the use of assessment data and revised sufficiency standards; and
- (4) progress on IMFAL, including the implementation schedule for the business processing system; system costs for fiscal 2022, 2023 and 2024; and progress on other key system software and/or components needed to integrate school construction data for LEA use.

The second report should be submitted by December 15, 2022, and include additional actions taken by IAC in calendar 2022 to complete the aforementioned tasks and fulfill workgroup recommendations, including progress made on items submitted as part of the July 15, 2022, report and, if enacted, implementation of HB 1290. The budget committees shall have 45 days from the date of the receipt of the second report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any

## R00A07

other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** Chapter 14 requires IAC to conduct a Statewide Facilities Assessment, build an IMFAL, and work with the Workgroup on the Assessment of Funding of School Facilities on recommendations related to the use of assessment data for funding decisions. The workgroup completed its work in December 2021 and provided IAC with recommendations on Chapter 14 implementation and alignment of those recommendations with Chapter 20 of 2020 and Chapters 36, 55, and 698 of 2021. This language directs IAC to submit two reports to provide the committees with timely information on IAC's progress to implement workgroup recommendations, including, if enacted, implementation of HB 1290.

Add the following language to the general fund appropriation:

Further provided that \$50,000 of this appropriation for the Interagency Commission on School Construction (IAC) may not be expended until the agency submits a study to the budget committees by December 31, 2022, on public charter and public contract school facilities. IAC, in consultation with the Maryland Association of Public Charter Schools, shall provide the following information on all charter school facilities in Maryland:

- (1) local education agency (LEA), school name, charter school vendor, and years in current building;
- (2) history of building acquisition, status, and use including:
  - (a) age;
  - (b) acquisition process;
  - (c) current ownership status (rented, leased, privately owned);
  - (d) contract status with LEA, third-party vendor, or local jurisdiction; and
  - (e) anticipated length of tenure in building;
- (3) current replacement value based on the most recent facility assessment either by IAC, a third-party contractor, or LEA;

## R00A07

- (4) current maintenance condition based on the most recent assessment conducted either by IAC, a third-party contractor, or LEA;
- (5) average annual cost from fiscal 2017 to 2021 for lease/rental, facility maintenance, and building use, including both capital and non-capital expenses;
- (6) total cost in fiscal 2022, and anticipated costs in fiscal 2023, for lease/rental, facility maintenance, and building use including both capital and non-capital expenses;
- (7) breakout of costs, if needed, for capital and non-capital expenses shared between LEAs, county governments, charter school vendors, and/or third-party investors; and
- (8) any other information valuable to the budget committees regarding local or Statewide charter school facility conditions or expenses.

The budget committees shall have 45 days from the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** The committees are concerned that a previous study of charter school facility funding did not occur and that information on public charter school facility condition is not complete. This study is intended to provide up-to-date information to the committees on the condition of Maryland public charter school buildings, and facility expenses incurred by charter schools, to provide facilities for charter school students. It is the intent of the committees that this review also include schools commonly referred to as public contract schools.

### Committee Narrative

**Report on Renewable Energy-fueled School in Western Maryland:** The committees are concerned about the detrimental impact of the closure of the Luke papermill on Western Maryland. To mitigate this impact, the committees are interested in the construction of a public school fueled with forest biomass, which is an abundant renewable energy source in this area. The committees request that by January 1, 2023, the Interagency Commission on School Construction (IAC) submit a preliminary report investigating the feasibility of a school fueled with forest biomass with the following information:

- sites for the school in Western Maryland identified by jurisdiction;

## R00A07

- examples of other schools nationally, if any, that use forest biomass for energy and the successes or challenges of this model;
- an initial plan for the building including design and funding; and
- alignment and compliance of this plan with Chapter 175 of 2009.

### Budget Amendments

#### R00A07.03 School Safety Grant Program

Add the following language to the general fund appropriation:

, provided that \$3,500,000 of this appropriation made for the purpose of funding security improvements in nonpublic schools may be provided only to nonpublic schools that were eligible to participate in the Aid to Non-Public Schools R00A03.04 (for the purchase of textbooks or computer hardware and software for loans to students in eligible nonpublic schools) during the 2021-2022 school year or nonpublic schools that serve students with disabilities through the Non-Public Placement Program R00A02.07 Subprogram 0762, with a maximum amount of \$65 per eligible nonpublic school student for participating schools, except that at schools where at least 20% of the students are eligible for the free or reduced-price meal program or for schools that service students with disabilities through the Non-Public Placement Program, there shall be a distribution of \$85 per student, and no individual school may receive less than \$5,000. Payment for work completed under this program will be through reimbursement to the grant recipient.

**Explanation:** This language recognizes the intent as stated in the proposed fiscal 2023 Budget Bill that \$3.5 million of the \$13.5 million allowance for the School Safety Grant Program is provided for the Nonpublic School Security Improvement Program, which has been authorized and funded since fiscal 2019 in either the capital or operating budget. This action also reinstates language for this program from the fiscal 2022 Budget Bill.

### Committee Narrative

**Report on Public and Nonpublic School Safety Grants:** The committees are concerned about recent changes in the School Safety Grant Program (SSGP) and the Nonpublic School Security Improvement Program (NSSI). For the first time in fiscal 2023, these programs receive general funds in the operating budget; therefore, eligible projects will no longer need to meet the 15-year lifespan requirement for capital improvements. Due to these changes, the committees request that the Interagency Commission on School Construction (IAC) and the Maryland Center for School Safety (MCSS) submit a joint update on both programs by December 1, 2022. This update should include:

- the criteria for distribution of SSGP and NSSI grants to local education agencies in fiscal 2023 and amounts allocated;
- changes to administrative guides to reflect the new fund source; and
- for SSGP, documentation of regulations aligned with new grant requirements.

The applications for the program have increased every year; however, cohorts are limited to 25 students. The committees are interested in FSU increasing the number of students in its PA program and request that FSU submit a report identifying obstacles to increasing enrollment and recommendations to grow the size of the cohort groups. **R62I00.01    General Administration**

Add the following language to the general fund appropriation:

, provided that since the Maryland Higher Education Commission (MHEC) has had four or more repeat findings in the most recent fiscal compliance audit issued by the Office of Legislative Audits (OLA), \$100,000 of this agency’s administrative appropriation may not be expended unless:

- (1) MHEC has taken corrective action with respect to all repeat audit findings on or before November 1, 2022; and
- (2) a report is submitted to the budget committees by OLA listing each repeat audit finding along with a determination that each repeat finding was corrected. The budget committees shall have 45 days from the date of the receipt of the report to review and comment to allow for funds to be released prior to the end of fiscal 2023.

**Explanation:** The Joint Audit and Evaluation Committee has requested that budget bill language be added for each unit of State government that has four or more repeat audit findings in its most recent fiscal compliance audit. The audit was released in June 2021, in which of the eight findings, five were repeat audit findings that pertain to Financial Assistance Program (R64I00.10) and Aid to Community Colleges (R62I00.06). However, these programs do not have administrative funds from which funding may be restricted. As a result, this language restricts a portion of its administrative budget within MHEC pending the adoption of corrective actions by MHEC and a determination by OLA that each finding was corrected. OLA shall submit reports to the committees on the status of repeat findings.

#### **Institutional Aid, Pell Grants, and Loan Data by Expected Family Contribution (EFC)**

**Category:** In order to more fully understand all types of aid available to students, the committees request that data be submitted for each community college, public four-year institution, and independent institution on institutional aid, Pell grants, and student loans. Data should include, by EFC, the number of loans and average loan size of federal subsidized and unsubsidized loans and loans from private sources as reported to the Maryland Higher Education Commission (MHEC). Additionally, data should be provided on Pell grants, including the number and average award size by EFC. Finally, data should include the number of institutional aid awards and average award size by EFC for institutional grants, institutional athletic scholarships, and other institutional scholarships. The data in the response should differentiate between need-based aid and merit scholarships. Data should also include the number of institutional aid awards and average award size by EFC for tuition waivers/remissions of fees to employees and dependents and students. Waiver information for students should be reported by each type of waiver in State law. This report should cover fiscal 2021 data received by MHEC from State institutions and is to be submitted in an electronic format (Excel file).

**Report on Best Practices and Annual Progress Toward the 55% Completion Goal:** The committees understand that in order to meet the State's goal to have at least 55% of Maryland's residents age 25 to 64 holding at least one degree credential by 2025, accurate and timely information on degree progression and best practices is needed to ensure that the State is on track to meet the goal. The committees request that the Maryland Higher Education Commission (MHEC) annually collect and analyze student- and transcript-level data on progression,

graduation, and other relevant metrics from each public institution of higher education, including community colleges and regional higher education centers. MHEC should submit a report by December 15 each year that analyzes the data and shows each institution's progress toward the State and institutional goals in 2025. The report should also include a summary of best practices and findings on the effectiveness of institutions' programs as well as any concerns regarding lack of progress or best practices that are not being implemented by institutions.

**Report on Increasing Participation in Postsecondary Education:** Overall, approximately half of Maryland high school graduates do not immediately enroll in college. Some graduates may pursue a postsecondary education in later years, enlist in the military, participate in an apprenticeship program, or enter the workforce. While the number of high school graduates increased during the pandemic, the number who immediately enrolled in college decreased. In 2020 alone, there were nearly 4,600 fewer Maryland high school graduates that did not immediately enroll in college. The committees are concerned about the decreasing number of high school graduates immediately enrolling in college. The committees request that the Maryland State Department of Education (MSDE) and the Maryland Higher Education Commission (MHEC) establish a workgroup comprised of various stakeholders to identify programs and initiatives to encourage more students to pursue a postsecondary education immediately after high school and request that MHEC submits a report by December 1, 2022, containing the findings and recommendations from the workgroup.

### **R62I00.03 Joseph A. Sellinger Formula for Aid to Non-Public Institutions of Higher Education**

**Report on Supporting the State's Higher Education Goals:** Given the significant increase in funding for the Joseph A. Sellinger formula, the committees are interested in how the increase in funds will be used to support the State's higher education goals. The committees request that the Maryland Independent College and University Association (MICUA) submit a report detailing, for each institution, how the additional funds provided in fiscal 2023 will be used to support the State's higher education goals including how institutions are (1) ensuring equitable access to affordable higher education; (2) targeting financial aid to those with the greatest need and/or increasing diversity; (3) closing the achievement gap; and (4) helping the State to meet

## R62I00

its workforce needs by increasing the number degrees awarded in workforce shortage areas including the areas of science, technology, engineering, and mathematics (STEM); nursing; and teaching. The report should specify how much of the additional funding each institution plans to allocate to expand (1) the number and the amount of the need-based awards; (2) activities supporting closure of the achievement gap; and (3) activities designed to increase the number of degrees awarded in workforce shortage areas including the areas of STEM, nursing, and teaching. To the extent feasible, the identification of funding for each should denote any portion of the funding that is specifically targeted to increasing diversity. **Explanation:** This language authorizes the transfer of \$2,000,000 of the fiscal 2023 general fund appropriation for the Maryland Loan Assistance Repayment Program for Nurses and Nursing Assistants to the MDH Office of Health Improvement, contingent upon the enactment of SB 696 or HB 975, establishing the Maryland Loan Assistance Repayment Program for Nurses and Nursing Workers within MDH.

**Impact of Credit Completion Requirement on Financial Aid Awards:** Beginning in the 2018-2019 academic year and in a student's third academic year, students receiving the Educational Excellence Award (EEA) must successfully complete 30 credit hours in the prior academic year in order to receive the full award amount. Students who completed at least 24 credit hours but less than 30 credit hours will have their awards prorated, and those who do not complete at least 24 credit hours will lose their award. The committees are interested in the

## R62I0010

impact that the 30 credit hour requirement had on students in the 2021-2022 academic year and the 2022-2023 awarding year, specifically if students are meeting the requirement in order to receive the full amount of award, how many students had their awards prorated, and how many students lost eligibility. The report should also include the graduation rates of students who completed 30 credit hours compared to those who completed less than 30 credit hours. The report should provide summary data by segment (community colleges, four-year public, and independent institutions) and by institution. The report should also identify how the Maryland Higher Education Commission (MHEC) alerts community college EEA recipients that they are in danger of losing their award as this group was the most severely impacted by the credit completion requirement. The report should identify the updated funding disbursement, by EEA award type and by total credit attainment grouping, for the students from the most recent review cycle as well as what the total funding amount was, by EEA award type, prior to those students having their award funding amounts revised.

The committees remain interested in determining how many NGS students met the eligibility requirements and later enrolled in a postsecondary institution. The report should identify the number of NGS seniors for the 2021-2022 academic year, the number of NGS seniors who successfully met all of the eligibility requirements, the number of eligible NGS seniors receiving a guaranteed access award, and the number of seniors who later enrolled in a postsecondary institution of higher education in either the summer 2022 session or the fall 2022 semester and identify to which higher education segment those students enrolled.

**Realignment Plan Status Update:** Baltimore City Community College (BCCC) has begun implementing realignment tasks as a result of the required institutional realignment. A status report was provided October 1, 2021, which identified the progress that BCCC has achieved in meeting the 12 required realignment tasks. The committees request a report on the institutional realignment plan that further documents progress toward completion of the realignment plan’s objectives.

**Information Technology (IT) Infrastructure Renovations:** Baltimore City Community College (BCCC) has faced numerous difficulties in updating its IT infrastructure. This has resulted in many IT shortcomings for BCCC, including but not limited to, being unable to procure a new Enterprise Resource Planning (ERP) system, being unable to properly safeguard student data, and not adequately providing malware protection for its computers. In November 2020, BCCC received approval from the Board of Public Works to proceed with the acquisition and implementation of its identified ERP system, Banner by Ellucian. To date, BCCC has begun the process of implementing departmental modules, with the final module to be implemented by December 2022. The committees request a report that documents the status of the implementation of the IT infrastructure renovation, including whether internal timelines were met and the accuracy of cost estimates as well as any additional findings that occurred as a result of the upgrade process.

**Enrollment and the Mayor’s Scholars Program (MSP):** Baltimore City Community College (BCCC) saw decreases in enrollment for full-time equivalent students (FTES) from 2011 through 2020. The committees request a report on MSP that includes updated information on MSP for the 2021-2022 academic year and that identifies what additional actions are being taken to increase enrollment per FTES. Additionally, the report should provide the following information on MSP: (1) the number of applications received for the first, second, third, fourth, and fifth cohort; the number of students who enrolled each semester, and the number of first-year students who enrolled in the second, third, and fourth year (where applicable); (2) the number of students who participated in the Summer Bridge program for the first, second, third, fourth, and fifth cohort; (3) the number of students in the first, second, third, and fourth cohort who have successfully completed at least 15 credits each semester, or a total of 30 credits in their academic

**Report on Full-time Faculty, the College’s Faculty Contract System, and the Implementation of Task 6 of the College’s Realignment:** The committees recognize that all full-time faculty are on fixed-term renewable contracts of either one, two, or three years. The committees also recognize the research firm EdBridge, contracted in 2018 to make suggestions regarding comprehensive review of all positions at the college, has recommended the phasing out of 7 degree or certificate programs, the potential for downsizing 14 other degree or certificate programs, and the direct elimination of at least 48 positions at the college.

The committees are interested in receiving a detailed plan from the administration of Baltimore City Community College (BCCC) regarding the implementation of Realignment Task 6 (engage in a comprehensive review of all positions, faculty, and staff at BCCC), as required by Chapter 847 of 2017. In particular, the committees are interested in receiving information on the implementation of these plans and how this will be done in the most equitable manner possible. The report should include the exact number of faculty on one-, on two-, and on three-year contracts, broken down by degree or certificate program. The report should also detail the extent to which faculty have participated in the construction of a plan to implement this realignment task. The report should also contain any plans to offer faculty impacted by a degree or certificate program slated for phase out or reduction a similar position elsewhere in the college, and how the college proposes to respect faculty seniority in layoff or reinstatement matters.

**Adaptive Reuse of Vacant Commercial Spaces:** The committees are interested in the potential to increase the availability of affordable housing stock in the State through the conversion of vacant or underutilized commercial spaces into residential or mixed-use spaces. The Department of Housing and Community Development (DHCD) should study the feasibility and limitations of an adaptive reuse program and report the findings to the committees. The report should include:

- potential sources of State funds available to award to developers for the conversion of vacant spaces for affordable housing purposes, including any conditions related to the receipt and use of those funds;
- information on programs developed in other states to convert commercial spaces into affordable housing; and
- recommendations regarding legislation necessary to facilitate the conversion of vacant or underutilized commercial spaces into residential or mixed-use spaces.

The committees are interested in understanding how these supplemental funds will be used. DHCD should prepare a report that describes in detail how local Continuums of Care (CoC) spent the fiscal 2022 awards and the plan to spend their fiscal 2023 awards from the State. The report should include the amount of funding awarded to each CoC separately by fiscal year. The report should clearly indicate the impact of the additional funding provided in fiscal 2023. Further, the report should include a summary of how local non entitlement jurisdictions spent their

#### **S00A24.02 Neighborhood Revitalization – Capital Appropriation**

Add the following language to the general fund appropriation:

, provided that \$2,500,000 of this appropriation made for the purpose of the Strategic Demolition Fund may only be used to provide grants as follows:

- (1) \$1,000,000 for the Baltimore City Department of Recreation and Parks for the acquisition, planning, design, construction, repair, renovation, reconstruction, site improvement, and capital equipping of the Solo Gibbs Recreation Center project;
- (2) \$750,000 for the Cherry Hill Development Corporation for the acquisition, planning, design, construction, repair, renovation, reconstruction, site improvement, and capital equipping of community redevelopment projects in Cherry Hill; and
- (3) \$750,000 for the Board of Trustees of Washington College for the acquisition, planning, design, construction, repair, renovation, reconstruction, site improvement, and capital equipping of student housing and mixed-use residential and commercial space at Washington College.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** This language restricts funding in the Strategic Demolition Fund to be used only for the Solo Gibbs Recreation Center and Cherry Hill community redevelopment projects in Baltimore City and the Washington College project in Kent County.

## S00A

### Supplemental Budget No. 1

#### S00A24.02 Neighborhood Revitalization – Capital Appropriation

Add the following language to the federal fund appropriation:

, provided that \$900,000 of this appropriation made for the purpose of the Homeownership Works pilot program may not be expended until the Department of Housing and Community Development submits regulations to the Joint Committee on Administrative, Executive, and Legislative Review to establish an application process consistent with Chapters 702 and 703 of 2021 and submits a letter to the budget committees confirming the submission of regulations. The letter shall be submitted within 5 days of the submission of regulations, and the budget committees shall have 45 days from the date of the receipt of the letter to review and comment. Funds restricted pending the receipt of the letter may not be transferred by budget amendment or otherwise to any other purpose and shall be canceled if the letter is not submitted to the budget committees. Further provided that a budget amendment may not be authorized to replace the restricted funds if the regulations are not submitted.

**Explanation:** Chapters 702 and 703 established the Appraisal Gap From Historic Redlining Financial Assistance Program in the Department of Housing and Community Development (DHCD). This language restricts funding in Supplemental Budget No. 1 for the Homeownership Works pilot program until DHCD submits regulations to implement the program consistent with Chapters 702 and 703 and also submits a letter confirming the submission of regulations. This language also prohibits a budget amendment from being processed to replace the funding if the required regulations are not submitted.

**OFFICE OF THE SECRETARY**

**T00A00.01 Office of the Secretary**

Add the following language to the general fund appropriation:

. provided that \$100,000 of this appropriation made for the purpose of administration may not be expended until the Department of Commerce submits a report to the budget committees on Commerce’s equity plan or efforts to develop such a plan. Specifically, the report shall include:

- (1) a copy of the department’s equity plan, if such a plan exists; or
- (2) detailed actions Commerce plans to take to develop an equity plan, including a timeline for development of the plan.

The report shall be submitted by September 1, 2022, and the budget committees shall have 45 days from the date of receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

**Explanation:** This language restricts \$100,000 pending the receipt of a report from Commerce on the development of an equity plan for the department. An equity plan is a document that guides an institution in its efforts to understand and address racial and other disparities in outcomes, both within the institution and in the population it serves. An equity plan should include an assessment of current gaps, measurable outcomes, recommended actions, and methods for tracking progress and accountability, and the plan should reflect participation in the planning process by impacted communities.

for the current interpretation of the required calculation method under statute as it applies to the MSAC general fund appropriation. The report shall be submitted by August 1, 2022, and the budget committees shall have 45 days from the date of receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted.

**Explanation:** This language restricts \$100,000 in the Office of the Secretary pending the receipt of a report from Commerce, in consultation with the Department of Budget and Management (DBM), on the calculation method for the MSAC general fund appropriation. The report should include a written review of the applicable statute by the Commerce Attorney General.

##### T00G00.03 Maryland Tourism Development Board

Add the following language to the general fund appropriation:

. provided that \$850,000 of this appropriation made for the purpose of Maryland Tourism Development Board grants may not be used for that purpose but instead may be used only to provide the following grants in the specified amounts:

- (1) \$200,000 to the Military Bowl Foundation to support the 2022 Military Bowl Game and events;
- (2) \$100,000 to Visit Baltimore for wayfinding signs for the National Great Blacks in Wax Museum, the Reginald F. Lewis Museum of Maryland African American History and Culture, Arena Players, Inc., and the Eubie Blake National Jazz Institute and Cultural Center, Inc.;
- (3) \$300,000 to Prince George's Financial Services Corporation to support business development in Prince George's County; and
- (4) \$250,000 to Employ Prince George's, Inc. to support business development in Prince George's County.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund. Further provided that these funds are intended to supplement rather than supplant other funding provided by the Office of Tourism Development to Visit Baltimore and to support the Military Bowl.

**Explanation:** This language restricts funding in the Maryland Tourism Development Board for a grant to Visit Baltimore for wayfinding signs and to the Military Bowl Foundation. These funds are intended to supplement rather than supplant other grant funding provided by the Office of Tourism Development to Visit Baltimore and to support the Military Bowl. This language also restricts \$550,000 in the Maryland Tourism Development Board for grants to Prince George's Financial Services Corporation (doing business as FSC First) and Employ Prince George's, Inc. to support business development in Prince George's County.

**Budget Amendments**

**T50T01.01 Technology Development, Transfer and Commercialization**

Add the following language to the general fund appropriation:

, provided that \$250,000 of this appropriation made for the purpose of administration may be used only for the Maryland Technology Development Corporation (TEDCO) to conduct a report on the effectiveness and impact of the State's current economic development strategy as it relates to specific areas, including financial, policy, and governance recommendations for the establishment of a Maryland Equitech Growth Fund. Specifically, the report shall include:

- (1) an analysis of Maryland's national competitiveness in cyber, biohealth, and advanced and emerging technology industries, with recommendations to achieve a 10-year goal of making Maryland among the top 10 fastest-growing states in advanced technology industries;
- (2) an examination of publicly financed advanced industry investment funds in other states, including the role and results of public funds to induce private sector growth;
- (3) an analysis of current minority participation in Maryland's advanced technology industry careers, with recommendations to achieve a 10-year goal that the share of jobs at all skill levels, including high skilled jobs, for minority workers will equal their overall workforce representation;
- (4) an assessment of the connection between postsecondary science, technology, engineering, and math (STEM) education and career development for advanced industry jobs with recommendations to achieve a 10-year goal of raising STEM degrees and experiential learning opportunities for minority students equal to their overall presence in the workforce;
- (5) an evaluation of the current state of advanced industry startups and recommendations to achieve a 10-year goal of minority entrepreneurs participating in startups at levels equal to their overall workforce representation;
- (6) an analysis of community wealth in minority communities with recommendations to achieve a 10-year goal of raising levels of resident-owned businesses and housing in surrounding neighborhoods;
- (7) recommendations for a Maryland Equitech Growth Fund governance structure to include a diverse and representative board involving public and private sector leaders from industry, university, minority communities, and State government; and

## T50T01

- (8) draft legislation to create a Maryland Equitech Growth Fund within TEDCO addressing the above areas and goals, with recommended public financial support of not less than \$500,000,000 over a 10-year period, drafted in consultation with the Maryland Economic Development Corporation, the Maryland Small Business Development Financing Authority, industry, university, and representative community groups.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund. The resulting report shall be submitted by September 15, 2022, to the President of the Senate, the Speaker of the House, the Senate Finance Committee, the Senate Budget and Taxation Committee, and the House Appropriations Committee.

**Explanation:** While Maryland has a highly specialized concentration of cyber and biohealth industries, the State faces increasing competition nationally and globally to remain a leader in advanced technology industries. Other jurisdictions have successfully invested public funds to induce significant private sector economic and job growth. Additionally, Maryland’s strength of its diverse population necessitates an economic development strategy to address inequities in underrepresented communities in advanced industries. The budget committees seek an impactful, inclusive, and measurable long-term economic development strategy in advanced technology industries to accelerate Maryland’s growth. This language restricts \$250,000 in TEDCO to be used only for a study on the establishment of a Maryland Equitech Growth Fund. The language requires a copy of the resulting report be submitted to the General Assembly.

- study and make recommendations regarding amending Title 26, Subtitle 4 of COMAR to base the minimum septic reserve area required for residential projects on projected flow rather than the number of dwelling units;
- develop and make available standardized permit forms for the installation of OSDS;
- provide applicants for the installation of an OSDS with information on how to appeal the decision if an application is denied;
- promote consistent standards and regulations for OSDS across jurisdictions; and
- host quarterly informational meetings on the interpretation and application of Environment Article Title 9 and corresponding regulations for local government employees who are or work with environmental health specialists.

The findings of the study should be submitted by October 30, 2022, and include the following:

- a summary of existing MDE rules or guides that specifically address the implementation of the ASHRAE 188 standard and testing for Legionella pneumophila in publicly owned buildings and the occurrence of Legionella pneumophila in public drinking water systems;
- the location and testing results for Legionella pneumophila bacteria from publicly owned buildings and public water systems during calendar 2021; and
- recommendations from MDE on the minimum requirements to implement ASHRAE 188 in the most cost-effective and reasonable manner for publicly owned buildings, measures public water systems can take to reduce the occurrence of Legionella pneumophila in high-risk areas of the public water distribution system, and public education and outreach.

**Reduction of State Building Operating Costs and Greenhouse Gas Emissions Through District Energy:** The committees are interested in learning more about how district energy – energy production and/or storage and distribution in a distributed manner – can be used as a tool to reduce both the operational costs and greenhouse gas emissions of the State’s building inventory. Therefore, the Maryland Department of the Environment (MDE), in consultation with the Department of General Services’ Maryland Green Building Council, the Department of Budget and Management (DBM), and the Maryland Energy Administration (MEA), shall report on how district energy can do the following: reduce capital and operational costs of the State’s buildings inventory; reduce costs of new State building construction; reduce greenhouse gas emissions from State buildings in support of the State’s greenhouse gas reduction goals; and support Leadership in Energy and Environmental Design certification and Green Globe certification for State buildings. #### COORDINATING OFFICES

##### U00A10.01 Coordinating Offices

Add the following language to the general fund appropriation:

. provided that \$100,000 of this appropriation made for the purpose of general administrative expenses may not be expended until the Maryland Department of the Environment (MDE), in cooperation with the Department of Budget and Management, submits a confirmatory letter to the budget committees indicating that MDE's prior year actual personnel expenditures up to and including fiscal 2022 are budgeted in the correct statewide subobjects. The confirmatory letter shall be submitted with the fiscal 2024 budget submission, and the budget committees shall have 45 days from the date of the receipt of the confirmatory letter to review and comment. Funds restricted pending the receipt of a confirmatory letter may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the confirmatory letter is not submitted to the budget committees.

**Explanation:** MDE's fiscal 2021 actual budget data incorrectly reflects the allocation of funding for personnel expenditures despite 2021 Joint Chairmen's Report committee narrative requesting that the budget data be correctly reflected with the fiscal 2023 budget submission. The fringe benefit expenditures – health insurance, pension contributions, and turnover adjustments, among others – are almost entirely reflected as Social Security contributions, which makes it difficult to do historical data comparisons. Therefore, funding is restricted until MDE and the Department of Budget and Management (DBM) submit a confirmatory letter with the fiscal 2024 budget submission indicating that prior year actual personnel expenditures up to and including fiscal 2022 are budgeted in the correct statewide subobjects.

### Committee Narrative

**Environmental Investment in Overburdened and Low-income Communities:** The committees are concerned about the lack of environmental investment in overburdened and low-income communities in Maryland. Overburdened and low-income communities are defined as follows:

- any census tract in accordance with the most recent census information in which the median household income is at or below 200% of the federal poverty guidelines; and

## U00A

- according to data obtained from the Maryland Department of the Environment (MDE), the U.S. Environmental Protection Agency, the Maryland Department of Agriculture (MDA), the Department of Natural Resources (DNR), or other State agency, three or more of the following environmental indicators are above the seventy-fifth percentile statewide: particulate matter (PM) 2.5; ozone; National Air Toxics Assessment (NATA) diesel PM; NATA cancer risk; NATA respiratory hazard index; NATA neurological risk index; traffic proximity; lead paint indicator; Superfund proximity; risk management plan facilities proximity; hazardous waste proximity; proximity to a Toxic Release Inventory facility; proximity to a brownfield; proximity to a concentrated animal feeding operation; percent population lacking broadband coverage; asthma emergency room discharges; myocardial infarction discharges; low birth weight infants; proximity to power plants; proximity to mining operations; proximity to hazardous waste landfills; and proximity to an unincorporated community.

Therefore, it is the intent of the committees that MDE do the following to address the lack of environmental investment in overburdened and low-income communities:

- identify overburdened communities in the State using the overburdened communities definition noted above, criteria and methods established for this purpose, and the Maryland Environmental Justice Screen Tool in coordination with the Community Engagement, Environmental Justice, and Health Laboratory (CEEJH) in the Maryland Institute for Applied Environmental Health;
- conduct public information-gathering sessions in all regions of the State and in both urban and rural areas to solicit input from overburdened and low-income communities and the public as informed by the results of the overburdened communities identification process and in coordination with the Commission on Environmental Justice and Sustainable Communities (CEJSC); and
- develop specific recommendations to identify and provide assistance to overburdened communities, including legislative and regulatory changes to achieve at least 40% of overall spending in the following programs, projects, and investments in coordination with the Department of Budget and Management (DBM):
  - green infrastructure; climate change; clean energy and energy efficiency; clean transportation; affordable and sustainable housing; training and workforce development related to climate, natural disasters, the environment, clean energy, clean transportation, housing, water and wastewater infrastructure, and legal pollution reduction; remediation and reduction of legacy pollution; and critical clean water and waste infrastructure;
  - the Department of Commerce's (Commerce) Small, Minority, and Women-Owned Businesses Account in § 5-1501 of the Economic Development Article;

## U00A

- the Maryland Department of Labor’s (MDL) Clean Energy Workforce Account in § 11-708.1 of the Labor and Employment Article;
- the Maryland Energy Administration’s (MEA) Jane E. Lawton Conservation Loan Program, the Maryland Strategic Energy Investment Program, and the Maryland Offshore Wind Business Development Fund in Title 9 of the State Government Article;
- federal funds appropriated in the relevant programs within MEA, MDE, MDL, the Department of Human Services, the Maryland Department of Transportation, Commerce, the Military Department, DNR, MDA, the Maryland Department of Health, and any other relevant agencies and programs; and
- any other relevant State and local governmental unit programmatic resources, in consultation with CEEJH, the Public Service Commission, and MEA.

The committees request that MDE submit a status report by December 1, 2022, on the results of the initial overburdened communities’ identification process and public information sessions, in coordination with CEEJH and CEJSC. In addition, the committees request that MDE submit a final report by June 30, 2023, on specific recommendations to identify and provide assistance to overburdened communities, including legislative and regulatory changes to achieve at least 40% of overall spending in the noted programs, projects, and investments, in coordination with DBM.

Therefore, the committees request that MDE submit a report indicating the level of match funding that MDE has secured from non-State funding sources no later than 30 days after the match funding from non-State funding sources has been secured. The committees also request that MDE submit a report on how it plans to spend the \$25,000,000 in fiscal 2023 funding no later than 30 days before the fiscal 2023 funding is spent. In addition, it is the intent of the committees that the appropriation be used only for the purchase

**Oversight Failures at Back River and Patapsco Wastewater Treatment Plants:** The committees are concerned about the precipitous decline in the proper maintenance and operation of the Back River and Patapsco Wastewater Treatment Plants, which risk catastrophic failure that may result in environmental harm as well as adverse public health and comfort effects. This decline was well documented, particularly for the Back River Wastewater Treatment Plant with effluent violations noted as early as August 2020, and eventually led the Maryland Department of the Environment (MDE) to issue a directive to the Maryland Environmental Service (MES) on March 27, 2022, to take charge of the Back River Wastewater Treatment Plant, including its operations, maintenance, and improvements functions. A similar outcome is possible for the Patapsco Wastewater Treatment Plant. Therefore, the committees request that three reports be submitted as follows.

- MDE is requested to provide a report describing and evaluating its oversight failures for the Back River and Patapsco Wastewater Treatment Plants. The report is requested to include a detailed evaluation of the decision making process underpinning MDE's failure to provide timely assistance and constructive oversight despite a pattern of well-documented permit violations at the plants.
- MDE and MES are requested to provide biweekly status reports on the Back River and the Patapsco Wastewater Treatment Plants' deficiencies and the steps taken to address these deficiencies, including a breakdown of the daily staffing levels of both Baltimore City Department of Public Works and MES employees, a description of any supply chain issues experienced and their impacts, and details on any corrective actions taken. The biweekly reports are requested to begin as soon as practicable, to continue until the later of the MDE directive being terminated or the end of Patapsco Wastewater

Treatment Plant permit violations, and to be posted on MDE’s website by the close of business of the next Friday.

- MDE and MES are requested to submit to the committees by June 6, 2022, a joint report on the Back River and Patapsco Wastewater Treatment Plants. This report is requested to be based on the report required in the March 27, 2022 directive and to include MES’s findings and recommendations – pursuant to a comprehensive evaluation and assessment of the Back River and Patapsco Wastewater Treatment Plants’ operation, maintenance, staffing, and equipment – including a comprehensive list of needed improvements, ranked by their impact on compliance with discharge permit effluent limitations.

**Maryland Environmental Service (MES) Funding Statement:** The committees request that MES continue to provide a report on the following:

- undesignated unrestricted net assets for fiscal 2022, 2023, and 2024 estimated and an explanation for any changes between each of these years, including revenues credited to and expenditures debited from the net assets;
- overhead rate for fiscal 2022, 2023, and 2024 estimated, including a separate calculation for the water and wastewater overhead rate for each fiscal year from fiscal 2016 through 2024;
- project reserve fund status by beginning balance, approved retainage, funds used, and interest earned for fiscal 2022 and 2023 for the State Reimbursable Project Contingency Fund, the Eastern Correctional Institution (ECI) Steam Turbine Contingency Fund, the Department of Natural Resources Project Contingency Fund, ECI Energy Upgrade Project Reserve Fund, and any other project reserve funds created by MES; and
- justification for the changes in reimbursable project funding for fiscal 2022, 2023, and 2024 estimated based on a discussion about how MES' undesignated unrestricted net assets allow for reducing MES' overhead rate for State reimbursable projects and how project reserve funds are available for any underbudgeting.

The report should be submitted in coordination with the Department of Budget and Management (DBM) with the fiscal 2024 budget submission.

**Conowingo Dam Dredging:** The committees are concerned that insufficient information is known about the background of the \$6,000,000 in fiscal 2023 funding for the Conowingo Dam dredging project to be implemented by the Maryland Environmental Service (MES). Therefore, the committees request that MES submit a report to the committees by July 1, 2022, that includes the following:

## U10B00

- the results of the Conowingo Sediment Characterization and Innovative and Beneficial Reuse Pilot;
- the status of whether the removal of sediment and associated pollutants from the Conowingo Pool by dredging is approved as a best management practice by the U.S. Environmental Protection Agency and the Chesapeake Bay partnership; and
- documentation on whether the dredging of sediment behind the Conowingo Dam provides a more cost-effective means of removing nitrogen, phosphorus, and sediment entering the mainstem of the Chesapeake Bay than implementation of other approved best management practices in the Susquehanna River watershed.

**Adding Educational Outcome Performance Measures:** The committees are interested in securing the best educational outcomes for all youth in Department of Juvenile Services (DJS) detention and residential facilities. Chapter 147 of 2021 transfers the responsibility of implementing educational programming from the Maryland State Department of Education to the Juvenile Services Education Board and Program (JSEP). As such, the committees direct DJS to develop objectives specific to JSEP and educational outcome performance measures for the Managing for Results (MFR) section of the Governor’s Fiscal 2024 Budget Books and for subsequent fiscal years. The committees also direct DJS to submit a draft of the department’s MFR submission not later than October 31, 2022.

**DEPARTMENTAL SUPPORT**

**V00D02.01 Departmental Support**

Add the following language to the general fund appropriation:

. provided that \$250,000 of this appropriation made for the purpose of providing administrative support may not be expended until the Department of Juvenile Services (DJS) submits a report to the budget committees detailing updates on the operations of the Baltimore City Strategic Partnership. This report shall:

- (1) identify the entities participating in this partnership and the respective role and responsibilities of each;
- (2) detail the processing of cases under this partnership;
- (3) identify performance measures demonstrating the efficacy of this partnership and provide relevant performance data;

## V00A

- (4) comment on how the partnership will impact juvenile caseloads; and
- (5) identify the funding associated with this partnership in DJS's fiscal 2021, 2022, and 2023 budgets.

The report shall be submitted by December 31, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** Governor Lawrence J. Hogan, Jr. and DJS announced the Baltimore City Strategic Partnership in December 2019 with the goal to improve early intervention efforts for low-offending youth. This language requests an update on the operations of this partnership, its impact on juvenile caseloads, relevant performance data, and the amount of departmental funds directed toward partnership programming.

Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

**Explanation:** This language restricts general funds provided in Supplemental Budget No. 1 for the purposes of helicopter maintenance to only be used for that purpose. General funds are appropriated for this purpose in lieu of special funds in order to extend the solvency of the Maryland Emergency Medical System Operations Fund.

**Implementation of the Workforce Diversity Action Plan:** During the 2021 session, the General Assembly expressed concern with the allegations of racial insensitivity and lack of diversity among the Department of State Police (DSP) workforce. DSP was directed to convene a diversity study group to develop an action plan to address these concerns containing specific and measurable goals and to submit the action plan to the General Assembly, along with metrics detailing the current degree of diversity in the department. In continuing to monitor the department's progress in addressing this issue, the committees request an update on the further

## W00A

development and implementation of the Workforce Diversity Action Plan, providing the following information:

- progress that has been made related to implementing the four recommendations of the diversity study group that met in 2021;
- specific and measurable goals for achieving diversity among civilian and sworn employees based on the feedback that the department receives from its internal focus groups and external focus groups with community partners, including a date or dates by which the department hopes to achieve these goals;
- a demographic breakdown of the department's civilian and sworn employees for the previous year for each division;
- a demographic breakdown of the department's attrition rate for the previous year;
- a demographic breakdown of the department's managerial and leadership positions for the previous year;
- a demographic breakdown of the Maryland State Police Academy classes for the previous year;
- the number of reported incidents of racially insensitive behavior among departmental personnel for the previous three years; and
- a demographic breakdown of the disciplinary actions for civilian and sworn personnel over the previous year.

In any instance where "demographic" data is requested, this should include data categorized by both race and gender. In addition to the official report, data shall be provided in an electronic format subject to the concurrence of the Department of Legislative Services.

Additionally, to create a greater understanding of the Workforce Diversity Action Plan's impact on departmental diversity, equity, and inclusion, the committees request that specific outcome performance measures be developed for the Managing for Results (MFR) section of the Governor's Fiscal 2024 Budget Books and for subsequent fiscal years.

The first report on the implementation of the action plan is to be submitted to the committees on September 1, 2022, with the draft of the department's diversity performance measures to be submitted not later than October 31, 2022.

### Budget Amendments

#### Y01A01.01 Revenue Stabilization Account

Add the following language to the general fund appropriation:

, provided that \$69,000,000 of this appropriation made for the purpose of increasing the fund balance in the Revenue Stabilization Account (Rainy Day Fund) may not be expended for that purpose and instead may only be transferred as follows:

- (1) \$9,000,000 to support strategies for reducing statewide greenhouse gas emissions and addressing climate impacts, contingent upon the enactment of SB 528 to be allocated as follows:
  - (a) \$3,750,000 to program D13A13.08 Renewable and Clean Energy Programs to be used for a grant to the Maryland Clean Energy Center to establish and administer the Climate Catalytic Capital Fund;
  - (b) \$3,750,000 to program S00A25.15 Housing and Building Energy Programs – Capital Appropriation for energy conservation projects and projects to install renewable energy generating systems in covered buildings that house primarily low- to moderate-income households;
  - (c) \$1,125,000 to program K00A12.06 Monitoring and Ecosystem Assessment for a grant to the Chesapeake Bay Trust for the Chesapeake Conservation Corps; and
  - (d) \$375,000 to program L00A15.02 for the Maryland Healthy Soils Program;
- (2) \$10,000,000 to program P00A01.01 Executive Direction, contingent on the enactment of SB 275 or HB 496, establishing the Family and Medical Leave Insurance (FAMLI) program and FAMLI Fund;
- (3) \$40,000,000 to program T00F00.04 Office of Business Development for the Cannabis Business Assistance Fund, contingent on the enactment of HB 837 establishing the fund and the ratification of a constitutional amendment authorizing adult use and possession of cannabis;
- (4) \$5,000,000 to program M00F03.04 Family Health and Chronic Disease Services for the Cannabis Public Health Fund, contingent on the enactment of HB 837 establishing the fund and the ratification of a constitutional amendment authorizing adult use and possession of cannabis;
- (5) \$1,500,000 to program Q00A01.02 Information Technology and Communications

Division, contingent upon enactment of HB 837 and the ratification of a constitutional amendment authorizing adult use and possession of cannabis, to fund Criminal Justice Information System enhancements necessary to comply with changes to statutory expungement provisions; and

- (6) \$3,500,000 to program M00F03.04 Family Health and Chronic Disease Services for the Abortion Care Clinical Training Program Fund, contingent on the enactment of HB 937 or SB 890 establishing the fund.

Funds not used for these restricted purposes may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund.

Further provided that nothing in this Section shall limit the Governor's ability to decide which, if any, restriction to implement in whole or in part.

Further provided that the Department of Budget and Management shall report to the budget committees by August 15, 2022, and February 1, 2023, on which, if any, restriction has been implemented.

**Explanation:** This language restricts \$69 million in general funds from the appropriation to the Rainy Day Fund to address legislative priorities, leaving the estimated closing fund balance for fiscal 2023 at approximately 10% of general fund revenues.

### Supplemental Budget No. 5

Add the following language to the general fund appropriation:

. provided that no less than \$317,031,817 of this appropriation shall be transferred by budget amendment by July 1, 2022, in accordance with the programs and funding amounts allocated in the purpose detail of this supplemental appropriation. Funds for apprenticeships and development of a new unified financial aid system for higher education along with \$20,000,000 of the funds for expansion of the autism waiver shall be transferred when agencies incur related expenses.

Further provided that no more than \$250,000 of the appropriation made for apprenticeships shall be used to support fiscal 2023 administrative costs associated with public safety, transportation, health care, and higher education apprenticeship workgroups operated by the Maryland Department of Labor.

Further provided that at least \$10,000,000 of the appropriation made for autism waiver expansions shall be transferred by budget amendment in fiscal 2023 to program R00A02.07 Students with Disabilities. It is the intention of the legislature that the Maryland Department of Health and the Maryland State Department of Education shall apply to the Centers for Medicare & Medicaid Services for an addendum to expand the current waiver by 1,350 slots.

## Y01A

Further provided that the \$50,000,000 appropriation made for program M00A01.01 Executive Direction for the purpose of hospital assistance/workforce support shall be allocated to acute and psychiatric care hospitals based on a plan developed by the Health Services Cost Review Commission.

Further provided that the \$40,000,000 appropriation made for program T00G00.05 Maryland State Arts Council for the purpose of supporting Arts Grants shall be allocated by the Maryland State Arts Council and can include, but should not be limited to, entities traditionally funded by the council. The funds shall not be included in the fiscal 2024 calculation of Arts Council formula funding.

Further provided that the \$35,000,000 appropriation made for program N00G00.08 Assistance Payments shall be used to provide a \$45 per recipient per month additional benefit for Temporary Cash Assistance and Temporary Disability Assistance Program recipients.

Further provided that the \$20,000,000 appropriation made for program T00F00.29 Rural Maryland Economic Development shall be used to provide a grant to the Western Maryland Economic Future Investment Board for the Western Maryland Economic Future Investment Fund to be used for grants and loans for capital infrastructure projects and business development projects that improve economic conditions in the region and expenses necessary to administer the grants and loans contingent upon enactment of SB 474 or HB 838 establishing the fund.

Further provided that the \$10,000,000 appropriation made for program D40W01.12 Maryland Historic Revitalization Tax Credit shall be used to provide continued and expanded funding for the Historic Revitalization Tax Credit Program.

Further provided that the \$8,000,000 appropriation made for program R00A01.01 Office of the State Superintendent shall be used to provide noncertificated education support professionals with a \$500 bonus.

Further provided that the \$4,000,000 appropriation made for program T00F00.15 Small, Minority, and Women-Owned Businesses Account shall be split equally among the fund managers.

Further provided that the \$5,000,000 appropriation made for program M00A01.01 Executive Direction to provide pediatric cancer research grants shall be contingent upon enactment of SB51 or HB775 establishing the Maryland Pediatric Cancer Fund.

Further provided that the \$1,000,000 appropriation made for program R62I00.54 to fund Loan Assistance Repayment Programs For Nurses and Nursing Assistants shall be transferred, contingent upon the enactment of SB 696 or HB 975 establishing the program within the Maryland Department of Health, instead to program M00F02.01 Office of Population Health Improvement for the Maryland Loan Assistance Repayment Program for Nurses and Nursing Workers.

## Y01A

Further provided that the \$3,500,000 appropriation made for program M00F03.04 Family Health and Chronic Disease services to provide funding for enhanced Alzheimer's services and research shall be expended in a manner consistent with the implementation of the recommendations of the Virginia I. Jones Alzheimer's Council.

Further provided that the \$3,400,000 appropriation made for program W00A01.03 Criminal Investigation Bureau to establish the Maryland State Police Gun Center within the Department of State Police shall be contingent upon the enactment of SB 861.

Further provided that the \$1,200,000 appropriation made for program R62I00 to fund the Formerly Incarcerated Youth Grant Program, providing such students who receive Pell Grants with an additional grant award of up to \$3,000, shall be contingent upon enactment of SB 904.

Further provided that \$40,000 of the appropriation made for program S00A24.02 Neighborhood Revitalization – Capital for the Baltimore Regional Neighborhood Initiative may be expended only for a grant to Southeast Community Development Corporation.

Further provided that the \$600,000 appropriation made for program C00A00.06 Administrative Office of the Courts shall be contingent upon enactment of SB 763 or HB 1429.

Further provided that the \$500,000 appropriation made for program D05E01.11 Miscellaneous Grants to Local Governments may only be expended to provide a grant to the Baltimore City Department of Planning for the creation of a redevelopment plan for State Center.

Further provided that the \$323,000 appropriation made for program Q00C02.01 Division of Parole and Probation – Support Services may only be used to support new personnel assigned to examine and review murders involving offenders who are supervised by the division. Further provided that by December 31, 2022, and annually thereafter, the division must report to the budget committees, along with the Senate Judicial Proceedings Committee and the House Judiciary Committee, on (1) agency activities intended to reduce the number of murders involving supervised offenders; (2) actions taken to examine and review murders, including policy and program recommendations made to the Secretary; and (3) the number of supervised offenders who were shooting victims, homicide victims, or charged with or identified as suspects in specified crimes.

Further provided that the \$175,000 appropriation made for program T00F00.04 Office of Business Development may only be expended to fund operating expenses associated with establishing the Maryland New Start Grant Program and Maryland New Start Microloan Program contingent upon enactment of SB 554 or HB 158.

Further provided that the \$15,368,715 appropriation made for program A15O00.01 Disparity Grants may only be expended to provide supplemental funding allocated in the following amounts:

## Y01A

- (a) \$11,316,425 to Baltimore City;
- (b) \$726,821 to Caroline County;
- (c) \$1,386,458 to Cecil County;

### Budget Amendments

Amend the following section:

SECTION 2. AND BE IT FURTHER ENACTED, That in order to carry out the provisions of these appropriations the Secretary of Budget and Management is authorized:

(a) To allot all or any portion of the funds herein appropriated to the various departments, boards, commissions, officers, schools and institutions by monthly, quarterly or seasonal periods and by objects of expense ~~and may place any funds appropriated but not allotted in contingency reserve available for subsequent allotment. Upon the Secretary's own initiative or upon the request of the head of any State agency, the Secretary may authorize a change in the amount of funds so allotted.~~

The Secretary shall, before the beginning of the fiscal year, file with the Comptroller of the Treasury ~~a schedule of allotments, if any~~ a list limited to the appropriations restricted in this Act to be placed in contingency reserve. The Comptroller shall not authorize any expenditure or obligation in excess of the allotment made and any expenditure so made shall be illegal.

~~(b) To allot all or any portion of funds coming into the hands of any department, board, commission, officer, school and institution of the State, from sources not estimated or calculated upon in the budget.~~

~~(e)~~ (b) To fix the number and classes of positions, including temporary and permanent positions, or person years of authorized employment for each agency, unit, or program thereof, not inconsistent with the Public General Laws in regard to classification of positions. The Secretary shall make such determinations before the beginning of the fiscal year and shall base them on the positions or person years of employment authorized in the budget as amended by approved budgetary position actions. No payment for salaries or wages nor any request for or certification of personnel shall be made except in accordance with the Secretary's determinations. At any time during the fiscal year the Secretary may amend the number and classes of positions or person years of employment previously fixed by the Secretary; the Secretary may delegate all or part of this authority. The governing boards of public institutions of higher education shall have the authority to transfer positions between programs and campuses under each institutional board's jurisdiction without the approval of the Secretary, as provided in Section 15-105 of the Education Article.

~~(d)~~ (c) To prescribe procedures and forms for carrying out the above provisions.

**Explanation:** This language limits the amount of appropriations that can be placed into contingency reserve to only those items restricted by the Maryland General Assembly.

## Sections

Amend the following section:

SECTION 17. AND BE IT FURTHER ENACTED, That funds appropriated to the various State agency programs and subprograms in Comptroller Objects 0152 (Health Insurance), 0154 (Retirees Health Insurance Premiums), 0175 (Workers' Compensation), 0217 (Health Insurance), 0305 (DBM Paid Telecommunications), 0839 (HR Shared Services), 0874 (Office of Attorney General Administrative Fee), 0876 (DoIT IT Services Allocation), 0894 (State Personnel System Allocation), 0897 (Enterprise Budget System Allocation), and 1303 (rent paid to DGS) are to be utilized for their intended purposes only. ~~The expenditure or transfer of these funds for other purposes requires the prior approval of the Secretary of Budget and Management.~~ Notwithstanding any other provision of law, the Secretary of Budget and Management may transfer amounts appropriated in Comptroller Objects 0152, 0154, 0217, 0305, and 0876 between State departments and agencies by approved budget amendment in fiscal 2022 and fiscal 2023. All funds budgeted in or transferred to Comptroller Objects 0152 and 0154 and any funds restricted in this budget for use in the employee and retiree health insurance program that are unspent shall be credited to the fund as established in accordance with Section 2-516 of the State Personnel and Pensions Article.

Further provided that each agency that receives funding in this budget in any of the restricted Comptroller Objects listed within this section shall establish within the State's accounting system a structure of accounts to separately identify for each restricted Comptroller Object, by fund source, the legislative appropriation, monthly transactions, and final expenditures. It is the intent of the General Assembly that an accounting detail be established so that the Office of Legislative Audits may review the disposition of funds appropriated for each restricted Comptroller Object as part of each closeout audit to ensure that funds are used only for the purposes for which they are restricted and that unspent funds are reverted or canceled.

**Explanation:** This language pertaining to restricted objects of expenditures is amended to disallow transfers to other purposes and makes it possible for the Office of Legislative Audits to track the disposition of funds in restricted statewide subobjects.

Add the following section:

SECTION 23. AND BE IT FURTHER ENACTED, That all across-the-board reductions applied to the Executive Branch, unless otherwise stated, shall apply to current unrestricted and general funds in the University System of Maryland, St. Mary's College of Maryland, Morgan State University, and Baltimore City Community College.

**Explanation:** This section explicitly applies reductions intended for the full Executive Branch to the University System of Maryland, St. Mary's College of Maryland, Morgan State University, and Baltimore City Community College unless their exclusion is specifically stated.

### Section 24 Reporting Federal Funds

SECTION 24. AND BE IT FURTHER ENACTED, That the Governor’s budget books shall include a summary statement of federal revenues by major federal program sources supporting the federal appropriations made therein along with the major assumptions underpinning the federal fund estimates. The Department of Budget and Management (DBM) shall exercise due diligence in reporting this data and ensure that they are updated as appropriate to reflect ongoing congressional action on the federal budget. In addition, DBM shall provide to the Department of Legislative Services (DLS) data for the actual, current, and budget years listing the components of each federal fund appropriation by Catalog of Federal Domestic Assistance number or equivalent detail for programs not in the catalog. Data shall be provided in an electronic format subject to the concurrence of DLS.

**Explanation:** This annual language provides for consistent reporting of federal monies received by the State.

SECTION 25. AND BE IT FURTHER ENACTED, That in the expenditure of federal funds appropriated in this budget or subsequent to the enactment of this budget by the budget amendment process:

- (1) State agencies shall administer these federal funds in a manner that recognizes that federal funds are taxpayer dollars that require prudent fiscal management, careful application to the purposes for which they are directed, and strict attention to budgetary and accounting procedures established for the administration of all public funds.
- (2) For fiscal 2023, except with respect to capital appropriations, to the extent consistent with federal requirements:
  - (a) when expenditures or encumbrances may be charged to either State or federal fund sources, federal funds shall be charged before State funds are charged except that this policy does not apply to the Department of Human Services with

respect to federal Temporary Assistance for Needy Families funds to be carried forward into future years;

- (b) when additional federal funds are sought or otherwise become available in the course of the fiscal year, agencies shall consider, in consultation with the Department of Budget and Management (DBM), whether opportunities exist to use these federal revenues to support existing operations rather than to expand programs or establish new ones; and
- (c) DBM shall take appropriate actions to effectively establish the provisions of this section as policies of the State with respect to the administration of federal funds by executive agencies.

**Explanation:** This annual language defines the policies under which federal funds shall be used in the State budget.

Add the following section:

### **Section 26 Reporting on Budget Data and Organizational Charts**

SECTION 26. AND BE IT FURTHER ENACTED, That it is the intent of the General Assembly that all State departments, agencies, bureaus, commissions, boards, and other organizational units included in the State budget, including the Judiciary, shall prepare and submit items for the fiscal 2024 budget detailed by Comptroller subobject classification in accordance with instructions promulgated by the Comptroller of Maryland. The presentation of budget data in the Governor's budget books shall include object, fund, and personnel data in the manner provided for in fiscal 2023 except as indicated elsewhere in this Act; however, this may not preclude the placement of additional information into the budget books. For actual fiscal 2022 spending, the fiscal 2023 working appropriation, and the fiscal 2024 allowance, the budget detail shall be available from the Department of Budget and Management (DBM) automated data system at the subobject level by subobject codes and classifications for all agencies. To the extent possible, except for public higher education institutions, subobject expenditures shall be designated by fund for actual fiscal 2022 spending, the fiscal 2023 working appropriation, and the fiscal 2024 allowance. The agencies shall exercise due diligence in reporting this data and ensuring correspondence between reported position and expenditure data for the actual, current, and budget fiscal years. This data shall be made available on request and in a format subject to the concurrence of the Department of Legislative Services (DLS). Further, the expenditure of appropriations shall be reported and accounted for by the subobject classification in accordance with the instructions promulgated by the Comptroller of Maryland.

Further provided that due diligence shall be taken to accurately report full-time equivalent (FTE) counts of contractual FTEs in the budget books. For the purpose of this count, contractual FTEs are defined as those individuals having an employee-employer relationship with the State. This

count shall include those individuals in higher education institutions who meet this definition but are paid with additional assistance funds.

Further provided that DBM shall provide to DLS with the allowance for each department, unit, agency, office, and institution, a one-page organizational chart in Microsoft Word or Adobe PDF format that depicts the allocation of personnel across operational and administrative activities of the entity.

Further provided that for each across-the-board reduction to appropriations or positions in the fiscal 2024 Budget Bill affecting fiscal 2023 or 2024, DBM shall allocate the reduction for each agency in a level of detail not less than the three-digit R\*Stars financial agency code and by each fund type.

Further provided that DBM shall provide to DLS special and federal fund accounting detail for the fiscal year last completed, current year, and budget year for each fund. The account detail, to be submitted with the allowance, should at a minimum provide revenue and expenditure detail, along with starting and ending balances.

Further provided that DBM shall provide to DLS by September 1, 2022, a list of subprograms used by each department, unit, agency, office, and institution, along with a brief description of the subprograms' purpose and responsibilities.

**Explanation:** This annual language provides for consistent reporting of fiscal 2022, 2023, and 2024 budget data and provides for the submission of department, unit, agency, office, and institutions' organizational charts to DLS with the allowance. It also requires DBM to allocate across-the-board reductions to positions or funding to ensure transparency in budget allocations approved by the General Assembly. Finally, it requires DBM to provide information on special and federal fund accounts as well as a list and description of all subprograms used by State entities.

Further provided that DBM shall provide direction and guidance to all State agencies and public institutions of higher education as to the procedures and specific elements of data to be reported with respect to these interagency agreements, to include at a minimum:

- (1) a common code for each interagency agreement that specifically identifies each agreement and the fiscal year in which the agreement began;
- (2) the starting date for each agreement;
- (3) the ending date for each agreement;
- (4) a total potential expenditure, or not-to-exceed dollar amount, for the services to be rendered over the term of the agreement by any public institution of higher education to any State agency;
- (5) a description of the nature of the goods and services to be provided;
- (6) the total number of personnel, both full- and part-time, associated with the agreement;
- (7) contact information for the agency and the public institution of higher education for the person(s) having direct oversight or knowledge of the agreement;
- (8) total indirect cost recovery or facilities and administrative (F&A) expenditures authorized for the agreement;
- (9) the indirect cost recovery or F&A rate for the agreement and brief description of how the rate was determined;
- (10) actual expenditures for the most recently closed fiscal year;
- (11) actual base expenditures that the indirect cost recovery or F&A rate may be applied against during the most recently closed fiscal year;
- (12) actual expenditures for indirect cost recovery or F&A for the most recently closed fiscal year; and
- (13) total authorized expenditures for any subaward(s) or subcontract(s) being used as part of the agreement and a brief description of the type of award or contract.

Further provided that DBM shall submit a consolidated report to the budget committees and the Department of Legislative Services by December 1, 2022, that contains information on all agreements between State agencies and any public institution of higher education involving

potential expenditures in excess of \$100,000 that were in effect at any time during fiscal 2022.

Further provided that no new higher education interagency agreement with State agencies with a projected value in excess of \$500,000 may be entered into during fiscal 2023 without prior approval of the Secretary of Budget and Management.

**Explanation:** This annual language requires DBM to report on all interagency agreements between State agencies and public institutions of higher education having a total potential expenditure over the term of the agreement in excess of \$100,000. This applies only to agreements for the purchase of goods and/or services and does not apply to grants or space agreements. Further, it requires that no new higher education interagency agreement with State agencies with a projected value in excess of \$500,000 be entered into during fiscal 2023 without prior approval of the Secretary of Budget and Management.

### **Section 28 Budget Amendments**

SECTION 28. AND BE IT FURTHER ENACTED, That any budget amendment to increase the total amount of special, federal, or higher education (current restricted and current unrestricted) fund appropriations, or to make reimbursable fund transfers from the Governor's Office of Crime Prevention, Youth, and Victim Services or the Maryland Department of Emergency Management made in Section 1 of this Act shall be subject to the following restrictions:

- (1) This section may not apply to budget amendments for the sole purpose of:
  - (a) appropriating funds available as a result of the award of federal disaster assistance; and
  - (b) transferring funds from the State Reserve Fund – Economic Development Opportunities Account for projects approved by the Legislative Policy Committee (LPC).
- (2) Budget amendments increasing total appropriations in any fund account by \$100,000 or more may not be approved by the Governor until:
  - (a) that amendment has been submitted to the Department of Legislative Services (DLS); and

## Sections

- (b) the budget committees or LPC has considered the amendment or 45 days have elapsed from the date of submission of the amendment. Each amendment submitted to DLS shall include a statement of the amount, sources of funds and purposes of the amendment, and a summary of the impact on regular position or contractual full-time equivalent payroll requirements.
- (3) Unless permitted by the budget bill or the accompanying supporting documentation or by any other authorizing legislation, and notwithstanding the provisions of Section 3-216 of the Transportation Article, a budget amendment may not:

  - (a) restore funds for items or purposes specifically denied by the General Assembly;
  - (b) fund a capital project not authorized by the General Assembly provided, however, that subject to provisions of the Transportation Article, projects of the Maryland Department of Transportation (MDOT) shall be restricted as provided in Section 1 of this Act;
  - (c) increase the scope of a capital project by an amount 7.5% or more over the approved estimate or 5.0% or more over the net square footage of the approved project until the amendment has been submitted to DLS, and the budget committees have considered and offered comment to the Governor or 45 days have elapsed from the date of submission of the amendment. This provision does not apply to MDOT; and
  - (d) provide for the additional appropriation of special, federal, or higher education funds of more than \$100,000 for the reclassification of a position or positions.
- (4) A budget may not be amended to increase a federal fund appropriation by \$100,000 or more unless documentation evidencing the increase in funds is provided with the amendment and fund availability is certified by the Secretary of Budget and Management.
- (5) No expenditure or contractual obligation of funds authorized by a proposed budget amendment may be made prior to approval of that amendment by the Governor.
- (6) Notwithstanding the provisions of this section, any federal, special, or higher education fund appropriation may be increased by budget amendment upon a declaration by the Board of Public Works that the amendment is essential to maintaining public safety, health, or welfare, including protecting the environment or the economic welfare of the State.
- (7) Budget amendments for new major information technology projects, as defined by Sections 3A-301 and 3A-302 of the State Finance and Procurement Article, must include an Information Technology Project Request, as defined in Section 3A-308 of the State Finance and Procurement Article.

## Sections

- (8) Further provided that the fiscal 2023 appropriation detail as shown in the Governor's budget books submitted to the General Assembly in January 2023 and the supporting electronic detail may not include appropriations for budget amendments that have not been signed by the Governor, exclusive of the MDOT pay-as-you-go capital program.
- (9) Further provided that it is the policy of the State to recognize and appropriate additional special, higher education, and federal revenues in the budget bill as approved by the General Assembly. Further provided that for the fiscal 2024 allowance, the Department of Budget and Management shall continue policies and procedures to minimize reliance on budget amendments for appropriations that could be included in a deficiency appropriation.

**Explanation:** This annual language defines the process under which budget amendments may be used.

### **Section 29 Maintenance of Accounting Systems**

SECTION 29. AND BE IT FURTHER ENACTED, That:

- (1) The Secretary of Health shall maintain the accounting systems necessary to determine the extent to which funds appropriated for fiscal 2022 in program M00Q01.03 Medical Care Provider Reimbursements and M00Q01.10 Medicaid Behavioral Health Provider Reimbursements have been disbursed for services provided in that fiscal year and shall prepare and submit the monthly reports by fund type required under this section for that program.
- (2) The State Superintendent of Schools shall maintain the accounting systems necessary to determine the extent to which funds appropriated for fiscal 2022 to program R00A02.07 Students With Disabilities for nonpublic placements have been disbursed for services provided in that fiscal year and to prepare monthly reports as required under this section for that program.
- (3) The Secretary of Human Services shall maintain the accounting systems necessary to determine the extent to which funds appropriated for fiscal 2022 in program N00G00.01 Foster Care Maintenance Payments have been disbursed for services provided in that fiscal year, including detail by placement type for the average monthly caseload, average monthly cost per case, and the total expended for each foster care program, and to prepare the monthly reports required under this section for that program.
- (4) For the programs specified, reports must indicate by fund type total appropriations for fiscal 2022 and total disbursements for services provided during that fiscal year up

- (5) Reports shall be submitted to the budget committees, the Department of Legislative Services, the Department of Budget and Management, and the Comptroller beginning August 15, 2022, and submitted on a monthly basis thereafter.
- (6) It is the intent of the General Assembly that general funds appropriated for fiscal 2022 to the programs specified that have not been disbursed within a reasonable period, not to exceed 12 months from the end of the fiscal year, shall revert.

**Explanation:** This annual language requires the maintenance of accounting systems for certain programs, states the intent of the General Assembly that general funds not disbursed be reverted, and requires reporting of disbursements by the Maryland Department of Health (MDH), the Maryland State Department of Education (MSDE), and the Department of Human Services (DHS).

### **Section 31 The “Rule of 100”**

SECTION 31. AND BE IT FURTHER ENACTED, That the Board of Public Works (BPW), in exercising its authority to create additional positions pursuant to Section 7-236 of the State Finance and Procurement Article, may authorize during the fiscal year no more than 100 positions in excess of the total number of authorized State positions on July 1, 2022, as determined by the Secretary of Budget and Management. Provided, however, that if the imposition of this ceiling causes undue hardship in any department, agency, board, or commission, additional positions may be created for that affected unit to the extent that an equal number of positions authorized by the General Assembly for the fiscal year are abolished in that unit or in other units of State government. It is further provided that the limit of 100 does not apply to any position that may be created in conformance with specific manpower statutes that may be enacted by the State or federal government nor to any positions created to implement block grant actions or to implement a program reflecting fundamental changes in federal/State relationships. Notwithstanding anything contained in this section, BPW may authorize additional positions to meet public emergencies resulting from an act of God and violent acts of man that are necessary to protect the health and safety of the people of Maryland.

BPW may authorize the creation of additional positions within the Executive Branch provided that 1.25 contractual full-time equivalents (FTE) are abolished for each regular position authorized and that there be no increase in agency funds in the current budget and the next two subsequent budgets as the result of this action. It is the intent of the General Assembly that priority is given to converting individuals that have been in contractual FTEs for at least two years. Any position created by this method may not be counted within the limitation of 100 under this section. The numerical limitation on the creation of positions by BPW established in this section may not apply to positions entirely supported by funds from federal or other non-State sources so long as both the appointing authority for the position and the Secretary of Budget and Management certify for each position created under this exception that:

- (1) funds are available from non-State sources for each position established under this exception; and
- (2) any positions created will be abolished in the event that non-State funds are no longer available. The Secretary of Budget and Management shall certify and report to the General Assembly by June 30, 2023, the status of positions created with non-State funding sources during fiscal 2020 through 2023 under this provision as remaining, authorized, or abolished due to the discontinuation of funds.

SECTION 32. AND BE IT FURTHER ENACTED, That immediately following the close of fiscal 2022, the Secretary of Budget and Management shall determine the total number of full-time equivalent (FTE) positions that are authorized as of the last day of fiscal 2022 and on the first day of fiscal 2023. Authorized positions shall include all positions authorized by the General Assembly in the personnel detail of the budgets for fiscal 2022 and 2023, including nonbudgetary programs, the Maryland Transportation Authority, the University System of Maryland self-supported activities, and the Maryland Correctional Enterprises.

The Department of Budget and Management shall also prepare a report during fiscal 2023 for the budget committees upon creation of regular FTE positions through Board of Public Works action and upon transfer or abolition of positions. This report shall also be provided as an appendix in the Governor's Fiscal 2024 Budget Books. It shall note, at the program level:

- (1) where regular FTE positions have been abolished;
- (2) where regular FTE positions have been created;
- (3) from where and to where regular FTE positions have been transferred; and
- (4) where any other adjustments have been made.

Provision of contractual FTE information in the same fashion as reported in the appendices of the Governor's Fiscal 2023 Budget Books shall also be provided.

The data in this report should be consistent with the budget data submitted to the Department of Legislative Services. This accounting shall include:

- (1) any health plan receipts received from State agencies, as well as prescription rebates or recoveries, or audit recoveries, and other miscellaneous recoveries;
- (2) any health plan receipts received from employees and retirees, broken out by active employees, non-Medicare-eligible retirees, and Medicare-eligible retirees;
- (3) any premium, capitated, or claims expenditures paid on behalf of State employees and retirees for any health, mental health, dental, or prescription plan, as well as any administrative costs not covered by these plans, with health, mental health, and prescription drug expenditures broken out by medical payments for active employees,

The report shall be drafted subject to the concurrence of the Department of Legislative Services (DLS) in terms of both electronic format to be used and data to be included. The report shall include:

- (1) fiscal 2022 annual spending by fund, fund source, program, and State government agency; associated nutrient and sediment reductions; and the impact on living resources and ambient water quality criteria for dissolved oxygen, water clarity, and "chlorophyll a" for the Chesapeake Bay and its tidal tributaries to be submitted electronically in disaggregated form to DLS;
- (2) projected fiscal 2023 to 2025 annual spending by fund, fund source, program, and State government agency; associated nutrient and sediment reductions; and the impact on living resources and ambient water quality criteria for dissolved oxygen, water clarity, and "chlorophyll a" for the Chesapeake Bay and its tidal tributaries to be submitted electronically in disaggregated form to DLS;

- (3) an overall framework discussing the needed regulations, revenues, laws, and administrative actions and their impacts on individuals, organizations, governments, and businesses by year from fiscal 2022 to 2025 in order to reach the calendar 2025 requirement of having all best management practices in place to meet water quality standards for restoring the Chesapeake Bay, to be both written in narrative form and tabulated in spreadsheet form that is submitted electronically in disaggregated form to DLS;
- (4) an analysis of the various options for financing Chesapeake Bay restoration including public-private partnerships, a regional financing authority, nutrient trading, technological developments, and any other policy innovations that would improve the effectiveness of Maryland and other states' efforts toward Chesapeake Bay restoration;
- (5) an analysis on how cost effective the existing State funding sources, such as the Bay Restoration Fund, Chesapeake and Atlantic Coastal Bays 2010 Trust Fund, Water Quality Revolving Loan Fund, and Clean Water Commerce Account among others, are for Chesapeake Bay restoration purposes; and
- (6) updated information on the Phase III Watershed Implementation Plan implementation and how the loads associated with the Conowingo Dam infill, growth of people and animals, and climate change will be addressed.

The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

**Explanation:** This language restricts funding in the Maryland Department of Planning (MDP), the Department of Natural Resources (DNR), the Maryland Department of Agriculture (MDA), the Maryland Department of the Environment (MDE), and the Department of Budget and Management (DBM) until the agencies provide a report by December 1, 2022, on recent and projected Chesapeake Bay restoration spending and associated impacts and the overall framework to meet the calendar 2025 requirement of having all best management practices in place to meet water quality standards for restoring the Chesapeake Bay. In addition, the language expresses the intent that the report include information on policy innovations that improve the effectiveness of Maryland and other states' efforts toward Chesapeake Bay restoration; an analysis of how cost effective the State funding sources are that are being used; updated information on the Phase III Watershed Implementation Plan implementation; and how Conowingo Dam infill, people and animal growth, and climate change will be addressed.

Further provided that each agency or administration that funds or places children and youth in out-of-home placements shall assist CYD and comply with any data requests necessary for the timely production of the report. The report shall be submitted to the budget committees by January 1, 2023, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds not expended for this restricted purpose may not be transferred by budget amendment or otherwise for any other purpose. Should the report not be submitted by the requested date, the restricted funds shall revert to the General Fund.

**Explanation:** The out-of-home placements report is a report mandated by Human Services Article, Section 8-703(e). It is also annually requested to be submitted to the budget committees. This report is a useful evaluative tool to assess the well-being of Maryland's youth and families and to identify areas of concern related to youth placed out of home. This language restricts funds in each of the data reporting agencies and specifies the data of interest to the General Assembly, including agency-specific data for out-of-home and out-of-state placements.

### **Section 37 Uniform Crime Report**

SECTION 37. AND BE IT FURTHER ENACTED, That \$250,000 of the general fund appropriation within the Department of State Police (DSP) may not be expended until DSP submits the Crime in Maryland, 2021 Uniform Crime Report (UCR) to the budget committees. The budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of the report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the report is not submitted to the budget committees.

Further provided that, if DSP encounters difficulty obtaining, or validating the accuracy of, the necessary crime data by November 1, 2022, from local jurisdictions who provide the data for inclusion in the UCR, DSP shall notify the Governor's Office of Crime Prevention, Youth, and

## Sections

Victim Services (GOCPYVS). From each jurisdiction's third quarterly State Aid for Police Protection (SAPP) disbursement, the office shall withhold a portion, totaling at least 15% but no more than 50%, of that jurisdiction's SAPP grant for fiscal 2023 upon receipt of notification from DSP. GOCPYVS shall withhold SAPP funds until such a time that the jurisdiction submits its crime data to DSP, and DSP verifies the accuracy of the data. DSP and GOCPYVS shall submit a report to the budget committees indicating any jurisdiction from which crime data was not received by November 1, 2022, and the amount of SAPP funding from each jurisdiction.

**Explanation:** The annual language was originally added because DSP had not been submitting its annual crime report in a timely manner due to issues related to receiving crime data from the local jurisdictions. The 2017 UCR was not submitted until March 2019, and the 2018 UCR was not submitted until March 2020. The 2019 UCR and 2020 UCR were the first reports submitted on time in several years.

This language withholds a portion of the general fund appropriation until the budget committees receive the 2021 UCR. The language also specifies that GOCPYVS, upon receipt of notification from DSP, must withhold a portion of a delinquent jurisdiction's SAPP grant until certain crime data is received by DSP. Finally, DSP and GOCPYVS must submit a report to the budget committees that includes information on any jurisdiction that did not report crime data by November 1, 2022, and the amount of SAPP funding that is withheld from each jurisdiction.

### **Section 38 Youth-centered Behavioral Health Intervention and Prevention Programs**

SECTION 38. AND BE IT FURTHER ENACTED, That \$50,000 of the general fund appropriation made for the purpose of administration in the Department of Juvenile Services (DJS) Office of the Secretary (V00D01.01), \$50,000 of the general fund appropriation made for the purposes of program direction in the Maryland Department of Health (MDH) – Behavioral Health Administration Program Direction (M00L01.01), and \$50,000 of the general fund appropriation made for the purpose of general operating expenses in the Governor's Office of Crime Prevention, Youth, and Victim Services Children and Youth Division (D21A02.01) may not be expended until the agencies submit a report on:

- (1) a review of current practices and youth preventative programs supporting the behavioral health needs of youth, including those at risk of incarceration or recidivism;

## Sections

- (2) a review of youth-centered, youth co-designed behavioral health interventions and prevention models being implemented nationally and with evidence-based outcomes; and
- (3) recommendations for statutory, regulatory, or other changes that could allow for increased access and expansion of behavioral health programs in Maryland to best serve youth and families to prevent and divert from justice system involvement.

Further, DJS and MDH shall coordinate with the Behavioral Health and Criminal Justice Partnership and other stakeholders when applicable during the completion and submission of the report. The report shall be submitted by November 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund or be canceled if the report is not submitted to the budget committees.

**Explanation:** The committees are interested in better understanding the role of youth-centered behavioral health intervention and preventive programs as an evidence-informed model to reduce and prevent juvenile justice system involvement. This language restricts funds in DJS and MDH – Behavioral Health Administration (BHA) pending the submission of a report on youth-centered behavioral health intervention and preventative programs. This report shall include a review of current practices in the State, other models being implemented nationwide, and recommendations around youth-centered behavioral health intervention and prevention programs. The agencies shall coordinate with the Behavioral Health and Criminal Justice Partnership and other appropriate stakeholders to submit this report.

### **Section 39      Rebasing State Salary Scales**

SECTION 39. AND BE IT FURTHER ENACTED, That \$100,000 of the general fund appropriation in the Department of Budget and Management (DBM) and \$100,000 of the special fund appropriation in the Maryland Department of Transportation (MDOT) made for the purpose of general operating expenses may not be expended until DBM and MDOT develop a plan for

## Sections

the rebasing of the State employee and MDOT salary scales that would be effective July 1, 2023, and submit a report on the plans for rebasing.

DBM and MDOT shall determine the appropriate methodology for rebasing the scales with the intention of the base steps providing adequate salary to attract candidates to State positions while also incentivizing veteran employees to remain in State employment. DBM and MDOT shall each provide a report detailing the following:

- (1) the methodology used to rebase the salary scales;
- (2) the revised salary scales; and
- (3) the estimated cost of new salary scales for fiscal 2024.

The report shall be submitted by December 1, 2022, and the budget committees shall have 45 days from the date of the receipt of the report to review and comment. Funds restricted pending the receipt of a report may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund or be canceled if the report is not submitted to the budget committees.

It is the intent of the General Assembly that the Governor should regularly include increments in annual compensation actions in order to avoid salary compression among State employees.

**Explanation:** High levels of vacancies have led to State agencies hiring new employees at steps well above base. While necessary to attract new employees, the practice compresses the lower end of the salary scale which can lead to increased turnover.

This forecast shall estimate aggregate revenues, expenditures, and fund balances in each account for the fiscal year last completed, the current year, the budget year, and four years thereafter. ### **Section 41 Enforcement and Inspection Position Strength Assessment and Vacant Position Filling**

SECTION 41. AND BE IT FURTHER ENACTED, That \$200,000 of the general fund appropriation in the Maryland Department of the Environment (MDE) and \$200,000 of the general fund appropriation in the Maryland Department of Agriculture (MDA) made for the purpose of general operating expenses may be expended only for the purpose of filling vacant compliance and enforcement positions provided, however, that no funds may be expended until MDE and MDA jointly prepare and submit quarterly reports on July 1, 2022; October 1, 2022; January 1, 2023; and April 1, 2023, which shall include:

- (1) an evaluation of the adequacy of Maryland’s current authorized compliance and enforcement positions in the departments. In completing the assessment, the departments shall:
  - (a) provide information on the delegation of authority by the federal government to the departments, including any evaluations of this delegated authority, and on the delegation of authority by the departments to other entities; and
  - (b) assess the impact of the role that technology has played on compliance and enforcement responsibilities;
- (2) a comparison of the size, roles, responsibilities, and inspection workload of the departments’ compliance and enforcement positions to neighboring or similar states;
- (3) a list of all inspection activities conducted by the MDE Water and Science Administration, the Land and Materials Administration, the Air and Radiation Administration, and the MDA Office of Resource Conservation;

## Sections

- (4) the number of:
- (a) regular positions and contractual full-time equivalents associated with the inspections, including the number of vacancies for fiscal 2013 through 2022 actuals; and
  - (b) fiscal 2023 current and fiscal 2024 estimated appropriations;
- (5) PINs and titles for all positions filled with restricted funding, and how the positions are being used; and
- (6) a description of the use of and outcomes from any next generation compliance techniques to increase compliance with Maryland's environmental regulations.

Further provided that funding restricted for this purpose may be released quarterly in \$50,000 installments for each agency upon receipt of the required quarterly reports by the budget committees. The budget committees shall have 45 days from the date of the receipt of the reports to review and comment. Funds restricted may not be transferred by budget amendment or otherwise to any other purpose and shall revert to the General Fund if the reports are not submitted to the budget committees and the released funding is not used to fill vacant compliance and enforcement positions.

**Explanation:** This language restricts funding until the submission of quarterly reports from MDE and MDA to the budget committees on compliance and enforcement inspections and positions and then further restricts the funding for filling vacant compliance and enforcement positions. The 2021 Joint Chairmen's Report included the request for a similar report on compliance and enforcement inspections and positions for Chesapeake Bay restoration.

**Charles County Multicultural and Recreational Amphitheatre Facilities:** There is interest in Charles County to construct a Multicultural and Recreational Amphitheatre. Section 10-622 of the Economic Development Article allows the Maryland Stadium Authority (MSA) to prepare market and economic feasibility studies for local governments. It is the intent of the committees that MSA, in accordance with Section 10-622 of the Economic Development Article, examine the feasibility of constructing amphitheatres in Charles County. The study should examine potential economic benefits as well as possible funding sources.

**Maryland Department of Health**

**Committee Narrative**

**Report on the Impact of the Facilities Master Plan (FMP):** The Maryland Department of Health’s (MDH) new FMP recommended the closure and transitioning of services away from certain current State facilities over the next 20 years. However, the FMP was largely silent on the implications of this plan for community providers, overall capacity in the State, and current MDH employees. The committees request that MDH submit a report further considering the impact that the recommendations in the FMP will have in terms of reducing the State’s overall bed capacity, the extent to which community providers are currently able to increase their capacity to meet service needs, and any additional resources that MDH is able to provide to community providers during the transitioning period above what is outlined in the FMP. MDH should further provide consideration to how current MDH staff will be able to maintain State service during the transition away from current facilities, what opportunities for further State employment would currently be offered to MDH employees, and any amendments to the existing State Personnel Article to better facilitate realignment of MDH staff from facilities with services being reduced or transferred to those with longer term employment opportunities.

**Committee Narrative**

**Report on Meeting 2% Target:** Reducing the deferred maintenance backlog is a priority of the University System of Maryland (USM) Board of Regents and the Chancellor. USM’s policy sets a target that institutional spending on facilities renewal should equal 2% of the replacement value of State-supported facilities. While some institutions have met the goal, other institutions have made progress but still fall short of the target. Therefore, the committees request that for those institutions that have not met the goal in fiscal 2021 and 2022 that the University System of Maryland Office (USMO) submit a report on each institution’s plan to meet the target by fiscal 2025 and provide an annual status report on each institution’s progress toward meeting the target. The report should be submitted by December 31, 2022.

**Committee Narrative**

**Report on Facilities Renewal Policy:** Currently, St. Mary's College of Maryland (SMCM) does not have a Board of Trustees policy on facilities renewal that would address the backlog of deferred maintenance projects. In order to ensure that SMCM is taking measures to address its backlog, SMCM should adopt a facilities renewal policy modeled after the University System of Maryland's policy, which establishes an overall spending target on facilities renewal based on the replacement value of State facilities 10 years and older and incremental steps to achieve the target. SMCM should submit the adopted policy to the committees by December 31, 2022.

## RM00 Morgan State University

### Committee Narrative

**Report on Meeting 2% Target:** In November 2020, Morgan State University’s (MSU) Board of Regents (BOR) adopted a facilities renewal policy that establishes a target that funding for facilities renewal would be equal to 2% of the current replacement value of all facilities. However, this policy applies to all facilities including auxiliary and does not separate university spending and replacement value for State and non-State facilities. In order to ensure that MSU is making progress in addressing its maintenance backlog for its State facilities with the greatest need, BOR should revise its policy to reflect the 2% spending target be based on the replacement value of State facilities over 10 years old. In order to determine if progress is being made toward its goal, MSU should report to the committees in its annual facilities renewal report the total replacement value of its State facilities; the amount spending toward the 2% target; and expenditures on facilities renewal of State facilities broken down by source of funds, including institutional and general obligation bond funds.

**Committee Narrative**

**Issuance of Debt for Rear Dock Renovation Project:** The Maryland Food Center Authority (MFCA), a nonbudgeted State agency, acts as a landlord for tenants at the Maryland Wholesale Produce Market, among other facilities. Key goals of MFCA include maintain safe, sanitary, and efficiency facilities. MFCA is planning to undertake a three-year project to enclose dock space at the Wholesale Produce Market and add refrigeration to ensure cold chain compliance for tenants due to anticipated food safety regulations and existing tenant requests. MFCA is authorized under State law to issue debt. These issuances do not require approval of the General Assembly but do require approval by the Board of Public Works. In addition to the State support through general funds as included in the fiscal 2023 Budget Bill, MFCA plans to use cash and potentially issue debt to support the project. MFCA indicates it is researching with counsel the use of bonds for this project. The committees are interested in the use of MFCA issued debt for this project and request that MFCA submit a report on the final determination regarding the issuance of MFCA debt for this project including the amount and timing of any planned issuances.

**Committee Narrative**

**Local Jail Population Report:** The committees request that fiscal 2022 local jail average daily population (ADP) data be provided by the Department of Public Safety and Correctional Services (DPSCS). In addition to the Annual Summary of Maryland Local Jail Statistics, which shows ADP data by county, DPSCS should provide the following for each local jail or detention center:

- operational capacity at the end of each month, making note of specialized population beds that cannot be used by general population inmates;
- the ADP for each month, separated by male and female offenders;
- the number of days each facility exceeded operational capacity each month; and
- the peak inmate population at each facility per month.

## Section 1

ZF0105      Section 1 – Bond Premium .....      \$ 0

Add the following language:

- (11) Notwithstanding § 8-122.1 of the State Finance and Procurement Article, the principal amount of any loan authorized under this Act shall be reduced by the cash proceeds, excluding any accrued interest, received for the State bonds and allocated by the Comptroller to the loan.

**Explanation:** This language clarifies that the allocation of premium to a loan authorized under this Act will result in the reduction of the authorized principal amount of that same loan. This is necessary as the amount authorized under this Act includes anticipated estimated premium in the amount of \$260 million. Under §8-122.1 of the State Finance and Procurement Article, the authorized principal amount would only be reduced upon allocation of proceeds of the bonds constituting the principal amount of the bonds issued.
