

MNsure and Other Public Marketplaces: Coverage Options and Your Health Coverage

Part A: General Information

Health Insurance Marketplaces offer citizens a set of health care plans from which they may choose to purchase a health insurance policy and may be able to obtain a federal tax credit to lower the monthly premium. State of Minnesota employees who receive the full employer contribution towards coverage offered through SEGIP will generally not be eligible for a tax credit. However, employees who work part-time, and are not offered the full employer contribution, may qualify for a tax credit to buy coverage through a Marketplace.

What is MNsure?

MNsure is the Marketplace for Minnesota citizens. It gives you "one-stop shopping" to find and compare private health insurance options. You may be eligible for a tax credit that lowers your monthly premium for health insurance plans sold through MNsure, or for free or low-cost insurance from Medical Assistance or MinnesotaCare. Visit the MNsure website at www.mnsure.org for more information.

Does Employer Health Coverage Affect Eligibility for Tax Credits through the Marketplace?

Yes. If you have an offer of health coverage from your employer that meets certain standards, you will not be eligible for a tax credit through the Marketplace and you may wish to enroll in your employer's health plan. However, if your employer's offered coverage does not meet those standards you may be eligible for a tax credit that lowers your monthly premium, or a reduction in certain cost-sharing, or MinnesotaCare.

Your employer's health coverage meets the standards if the cost of a plan offered to you (coverage for only you, the employee) is not more than 9.66% of your household income for the year (this is the 2016 percent and it increases annually; and if the plan pays at least 60 percent of total allowed benefit costs (referred to as "minimum value"). The coverage the State offers employees receiving the full employer contribution meets both of these standards. State employees who receive a partial employer contribution, no contribution, or no offer of coverage may qualify for a tax credit through a Marketplace.

If you are seeking help paying for health coverage through MNsure, you will need to provide information about your employer's coverage on your application. Ask your Human Resources department to complete the Health Coverage from Jobs (Appendix A) form. If you are not offered health coverage through your employment, you do not need to complete this form.

How Can I Get More Information?

A Marketplace can help you evaluate your coverage options, including your eligibility for coverage through the Marketplace and its cost. The information you may need is available at:

- If you live in Minnesota please visit www.mnsure.org or call 1-855-3MNsure (1-855-366-7873).
- To find your Marketplace if you do not live in Minnesota please visit www.HealthCare.gov.
- Your Human Resources department can explain your eligibility for health coverage offered through your State employment.
- For information about your dependents' eligibility or about the health coverage offered through State employment see the summary plan description at mn.gov/mmb/segip or call SEGIP at 651.355-0100.
