Introduction

The following tables and paragraphs are provided by the University of Minnesota in response to reporting requirements under Minnesota Statutes, Section 135A,031, Subdivision 7. Expenditure and revenue data are either directly from the audited Financial Statements or a query from the general ledger for the years indicated. In some cases, the tables include adjusting information to make the displays clearer for the general reader. While not all nuances or definitions of the data can be footnoted in a report like this, there are a few points that are important to understand when reviewing the following tables:

- In the audited financial statements for the University, adjustments are made to certain revenues and expenditures related to scholarship/student aid spending, to reflect accrual accounting requirements for institutions of higher education. Specifically, in each year, the total amount of revenue recorded in the ledger for tuition, auxiliary and other sales revenues generated from student payments, are reduced equal to the amount of scholarships that were used to pay those “bills “. Similarly, that same scholarship expenditure is also then eliminated. This set of adjustments has the impact of reducing recorded revenues and expenditures in the exact same amount, and results in a more accurate display of net activity. An example of the resulting flow of transactions may be helpful:
 1. A gift received by a University department for scholarships - \$10,000 is recorded by the University as gift revenue
 2. Tuition is charged to student (before financial aid awards) - \$10,000 is recorded as gross tuition revenue by the University, and as tuition owed by the student
 3. The gift revenue is spent by the department when scholarships are awarded for merit aid - \$10,000 is recorded as scholarship expenditure when tuition is billed to the student and then credited to his/her student finance account
 4. Tuition revenue earned in step 3 is spent by department - \$10,000 is recorded as instructional salaries/supplies expenditures

In this example, the \$10,000 scholarship expense (noted in step 3) is offset against the \$10,000 gross tuition revenue (noted in step 2), to eliminate “double counting” of the same \$10,000 – as both gift and tuition revenue, and as both scholarship and salaries/supplies expenditures. What remains in the totals are the original gift revenue received and the final expenditure for salaries/supplies.

- A second point to note is that the audited financial statements do not report the expenditures for capital assets. Rather, the annual depreciation of capital asset purchases is reported as the expense, rather than the actual asset purchase. Therefore, the “Depreciation” line of table 7-1 represents the annual expense for capital assets. Additional descriptive information, as requested in the legislation or to clarify data presented in the tables, is included in the subdivision sections below as appropriate

Subdivision 7(1): Expenditures

University of Minnesota, Fiscal Years 2015 to 2019

Table 7-1i: Expenditures by Functional Area

	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Instruction	\$ 770,325	\$ 785,085	\$ 827,780	\$ 827,200	\$ 801,626
Research	\$ 700,208	\$ 688,240	\$ 763,410	\$ 768,137	\$ 720,614
Public Services	\$ 248,451	\$ 256,376	\$ 304,268	\$ 285,251	\$ 243,734
Academic Support	\$ 366,992	\$ 384,476	\$ 461,542	\$ 465,319	\$ 401,418
Student Services	\$ 116,016	\$ 116,751	\$ 144,826	\$ 142,865	\$ 122,009
Institutional Support	\$ 243,153	\$ 259,120	\$ 297,379	\$ 314,769	\$ 238,655
Scholarships & Fellowships*	\$ 57,879	\$ 60,415	\$ 62,060	\$ 64,589	\$ 64,524
Auxiliary Enterprises	\$ 256,271	\$ 256,431	\$ 292,784	\$ 297,711	\$ 269,780
Operations/Maintenance of Plant	\$ 276,783	\$ 290,691	\$ 288,588	\$ 310,674	\$ 268,839
Depreciation	\$ 218,565	\$ 212,969	\$ 208,645	\$ 221,797	\$ 214,336
Other (net)	\$ 93	\$ 157	\$ 294	\$ 120	\$ 1,070
Total	\$ 3,254,736	\$ 3,310,711	\$ 3,651,576	\$ 3,698,432	\$ 3,346,605

(Dollars in Thousands) – source: Audited Financial Statements Fiscal Years 2015 through 2019

*Due to the methodology required by the audited financial statements for the elimination of tuition and other revenues supported by scholarships, and the corresponding elimination of scholarship expenditures, the following scholarship amounts are excluded – all dollars in thousands: \$263,707 (FY15); \$275,112 (FY16); \$290,725 (FY17); \$306,246 (FY18); and \$315,125 (FY19)

Table 7-1ii: Expenditures by Object of Expenditure

	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Salaries	\$ 1,576,587	\$ 1,632,614	\$ 1,687,080	\$ 1,726,356	\$ 1,772,668
Fringe Benefits*	\$ 447,768	\$ 429,175	\$ 778,743	\$ 695,946	\$ 311,128
Student Aid**	\$ 44,017	\$ 46,643	\$ 48,840	\$ 51,209	\$ 54,009
Purchased Services	\$ 410,489	\$ 406,425	\$ 404,309	\$ 406,814	\$ 417,116
Supplies	\$ 213,447	\$ 228,720	\$ 205,567	\$ 237,988	\$ 229,553
Repairs, Maintenance	\$ 160,281	\$ 173,525	\$ 133,967	\$ 185,291	\$ 178,327
Depreciation	\$ 218,565	\$ 212,969	\$ 208,645	\$ 221,797	\$ 214,336
Grants to Other Organizations	\$ 127,120	\$ 125,196	\$ 127,812	\$ 116,175	\$ 112,837
Other Expense	\$ 56,462	\$ 55,444	\$ 56,613	\$ 56,856	\$ 56,631
Total	\$ 3,254,736	\$ 3,310,711	\$ 3,651,576	\$ 3,698,432	\$ 3,346,605

(Dollars in Thousands) – source: Audited Financial Statements Fiscal Years 2015 through 2019

*Effective FY15 and fiscal years going forward, the University is required to record an adjustment for GASB 68/71 (net pension liability) for its percentage share participation in state pension plans (MSRS and PERA). This adjustment affects the fringe benefits line item in Table 7-1ii.

**Due to the methodology required by the audited financial statements for the elimination of tuition and other revenues supported by scholarships, and the corresponding elimination of scholarship expenditures, the following scholarship amounts are excluded – all dollars in thousands: \$263,707 (FY15); \$275,112 (FY16); \$290,725 (FY17); \$306,246 (FY18); and \$315,125 (FY19).

One category of spending in the table above had a material decrease in the most recent biennium: fringe benefits decreased \$82.8 million, or 11%, from FY17 to FY18 and \$384.8 million, or 55% from FY18 to FY19. The magnitude of these changes are due to the required GASB 68/71 net pension liability entry as explained in the footnote to the table. Without that adjustment, for example, the growth from FY18 to FY19 would have been 5%. In addition, two categories of spending experienced a material increase from FY17 to FY18: supplies increased \$32.4 million, or 16% and repairs and maintenance increased \$51.3m, or 38%. The increases in both rows primarily related to the same categories of purchases that were more significant than in the previous year: capital projects (including asbestos and lead abatement/remediation projects), non-capital furnishings, an upgrade of the University’s technology network, software maintenance/licenses/access & service fees, research grants, and accounting process changes. In general, these two categories of spending (supplies and repairs/maintenance) can experience larger variances as there are a significant number of one-time purchases or costs that ebb and flow differently across fiscal years. A larger capital project or significant facility renovations in one year, for example, can be followed by a fiscal year with more moderate or small projects.

Subdivision 7(2): Instructional Expenditures by FYE Student

University of Minnesota, Fiscal Years 2014 to 2018

Below are the direct instructional costs (salaries, supplies etc. directly associated with delivering instruction; excludes overhead or indirect costs) per full-year equivalent student, using data provided through annual IPEDS reporting. Though the University has begun to conduct its own study of the fully allocated (direct and indirect) cost of mission (instruction, research, and public service), it does not have five consecutive years of analysis available. Therefore, the next best option is to provide direct instructional costs using IPEDS data. The use of the instruction function code as required by IPEDS and other federal reporting requirements is the same base data used for the University’s broader cost of mission study.

<i>Undergraduate</i>	2013-14	2014-15	2015-16	2016-17	2017-18
UM - Crookston	\$ 6,197	\$ 6,424	\$ 6,877	\$ 6,937	\$ 6,858
UM - Duluth	\$ 6,904	\$ 6,766	\$ 6,970	\$ 7,067	\$ 6,647
UM - Morris	\$ 8,474	\$ 9,136	\$ 9,566	\$ 9,634	\$ 10,576
UM - Rochester	\$ 7,057	\$ 7,657	\$ 8,129	\$ 7,631	\$ 8,235
UM - Twin Cities	\$ 11,227	\$ 11,243	\$ 11,595	\$ 11,709	\$ 11,412

<i>Graduate/Professional</i>	2013-14	2014-15	2015-16	2016-17	2017-18
UM - Duluth	\$ 12,583	\$ 13,554	\$ 14,111	\$ 14,489	\$ 13,186
UM - Twin Cities	\$ 24,681	\$ 24,691	\$ 24,842	\$ 24,822	\$ 25,102

Two points should be noted when viewing these data:

1. These costs represent the direct instructional costs on each campus. No attempt in this analysis was made to allocate the indirect or support costs of instruction.
2. Given the limitations of the IPEDS data, the University was unable to distinguish between lower division and upper division coursework at the undergraduate level.

Subdivision 7(3): Revenues

University of Minnesota, Fiscal Years 2015 to 2019

	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
O&M State Appropriation	\$ 529,511	\$ 559,111	\$ 560,011	\$ 590,248	\$ 580,198
Tuition (gross)*	\$ 901,625	\$ 920,295	\$ 947,448	\$ 980,003	\$ 1,001,400
State Specials	\$ 95,031	\$ 90,963	\$ 90,981	\$ 94,240	\$ 94,224
Sales, Fees, Misc. Income	\$ 349,058	\$ 371,519	\$ 359,113	\$ 375,585	\$ 400,481
Indirect Cost Recovery	\$ 142,624	\$ 144,441	\$ 144,076	\$ 152,873	\$ 165,142
Auxiliary Enterprises	\$ 354,334	\$ 355,296	\$ 354,838	\$ 383,210	\$ 389,488
Federal Appropriations	\$ 23,930	\$ 17,302	\$ 10,533	\$ 17,463	\$ 19,610
Gifts & Endowment Income	\$ 234,748	\$ 264,788	\$ 258,618	\$ 258,162	\$ 287,380
Restricted Grants/Contracts	\$ 341,085	\$ 337,131	\$ 367,780	\$ 355,282	\$ 394,486
Sponsored Grants	\$ 529,137	\$ 558,862	\$ 560,974	\$ 581,238	\$ 600,939
Scholarship Adjustment*	\$ (263,707)	\$ (275,112)	\$ (290,725)	\$ (306,246)	\$ (315,125)
Total	\$ 3,237,376	\$ 3,344,596	\$ 3,363,647	\$ 3,482,058	\$ 3,618,223

(Dollars in Thousands) – source: University Budget Office ledger query and Audited Financial Statements Fiscal Years 2015 through 2019

*For this display of revenues, tuition represents gross tuition charges. It has not been reduced to “net tuition” after scholarship expenditures (and the same is true for other sources which are paid by scholarships, such as auxiliary room and board charges). Instead, the “Scholarship Adjustment” line has been included to result in a total revenue amount that corresponds to the total expenditure lines in the tables under Subdivisions 7(1) and 7(2).

Subdivision 7(4): Allocation Method

University of Minnesota, Fiscal Years 2020 and 2021 Combined

Allocation of the state appropriations from the current biennium (FY20 plus FY21):

Unit	O&M Appropriation	General Fund State Special Appropriation	Health Care Access Fund Allocation	Cigarette Tax Allocation
UM - Crookston	\$ 25,191,048	\$ -	\$ -	\$ -
UM - Duluth	\$ 97,362,713	\$ 8,905,892	\$ -	\$ -
UM - Morris	\$ 47,591,807	\$ -	\$ -	\$ -
UM - Rochester	\$ 15,710,446	\$ -	\$ -	\$ 900,000

UM - Twin Cities Academic:

Academic Clinical Affairs	\$ 65,724,532	\$ 11,154,700	\$ -	\$ 9,020,324
Ag Experiment Station	\$ 6,508,885	\$ 4,214,658	\$ -	\$ -
Biological Sciences	\$ 48,724,951	\$ 719,602	\$ -	\$ -
Carlson School of Management	\$ 15,923,505	\$ 1,613,052	\$ -	\$ -
Continuing and Professional Studies	\$ 12,368,211	\$ -	\$ -	\$ -
Dentistry	\$ 27,202,994	\$ 200,000	\$ -	\$ 288,000
Design	\$ 14,831,319	\$ 902,888	\$ -	\$ -
Education & Human Dev	\$ 41,736,967	\$ 1,975,314	\$ -	\$ -
Food, Ag, Nat. Resource Sciences	\$ 71,867,775	\$ 43,986,108	\$ -	\$ -
Humphrey School of Public Affairs	\$ 12,382,044	\$ 183,884	\$ -	\$ -
Law	\$ 28,560,557	\$ -	\$ -	\$ -
Liberal Arts	\$ 92,663,522	\$ -	\$ -	\$ -
Medicine	\$ 187,775,780	\$ 1,531,612	\$ 4,314,000	\$ 29,795,676
MN Extension	\$ 26,021,676	\$ 31,671,472	\$ -	\$ -
Nursing	\$ 11,373,528	\$ 148,000	\$ -	\$ 888,000
Pharmacy	\$ 8,972,157	\$ -	\$ -	\$ 2,888,000
Public Health	\$ 14,681,526	\$ 681,486	\$ -	\$ -
Science & Engineering	\$ 120,561,168	\$ 2,280,000	\$ -	\$ -
Veterinary Medicine	\$ 37,756,541	\$ 6,001,250	\$ -	\$ 720,000
Total Twin Cities Academic	\$ 845,637,638	\$ 107,264,026	\$ 4,314,000	\$ 43,600,000

President's Office	\$ 771,890	\$ -	\$ -	\$ -
TC Intercollegiate Athletics	\$ 13,583,518	\$ -	\$ -	\$ -
VP Research	\$ 52,642,463	\$ 1,407,366	\$ -	\$ -

Executive VP & Provost:

Executive VP & Provost	\$ 25,280,933	\$ 1,970,994	\$ -	\$ -

--------------------------	-------------------------	-----------------------	---------------------	----------------------

Allocation of state appropriations to the units within the University is done in accordance with state law for the restricted state specials, and as part of the internal budget development process for the remainder. The allocation of the Operations & Maintenance appropriation is not determined by formula, but instead is a set of discrete leadership decisions made every year as part of a comprehensive review under a base +/-, or “incremental budgeting” process. The budget model of the University incorporates the base +/- process for unrestricted state appropriations, and revenue and expense forecasting for all other funding sources. Decisions are made in the context of an all-funds resource review of each unit, incorporating an analysis of available revenues from tuition, sales, clinical income and so forth before determining final reallocation expectations and the distribution of unrestricted state appropriations. The model is transparent, responsive, supportive of the values of the institution, allows for long-term financial investments, and addresses the overhead needs of the University while providing reliable, stable, and predictable incentives for sound financial planning and strong fiscal management.

Subdivision 7(5): Reallocations

University of Minnesota

Internal reallocation of resources from lower priority to higher priority items is an important and consistent part of the University’s budgeting process. Each year, most units are required to reallocate to pay for a portion of known cost increases related to compensation, facilities, programmatic expansions, and so forth. Reallocation is considered one resource available to balance the annual budget, in addition to projected revenue increases from tuition, gifts, research grants, endowment earnings, sales income and so on. The most significant reallocations each year are achieved in the “O&M” budget: spending supported by the pool of unrestricted resources that includes the Operations and Maintenance state appropriation and tuition. During the budget process, each Twin Cities college, system campus and major support unit is required to

provide descriptive plans on proposed actions and impacts in response to potential reallocation targets. Leadership then considers those plans, the projected revenue increases from all sources, and the projected costs and desirable investments in each unit before finalizing the required reallocation. Incremental revenue increases and final reallocation targets are considered in total as available to fund the increased costs and investments within each unit. As a result, individual revenue changes or reallocation decisions are not directly aligned with a specific cost or investment increase: the combined resource changes pay for the combined cost increases/initiatives.

As part of the FY20 annual approved operating budget, \$16.7 million was reallocated to balance the “O&M” budget (operations & maintenance appropriation plus tuition) and to reduce costs in other funds as follows:

Unit Type	Direct Mission Activities	Mission Support & Facilities and Leadership & Oversight	Assigned: Not Yet Reported	Total
Campuses/Colleges, Auxiliaries	\$ 6,900,000	\$ 4,800,000	\$ 2,100,000	\$ 13,800,000
Twin Cities/System Support Units	\$ 300,000	\$ 2,600,000	\$ -	\$ 2,900,000
Total	\$ 7,200,000	\$ 7,400,000	\$ 2,100,000	\$ 16,700,000

Because the University’s total revenues grew in FY20, most major units, whether academic or support, did receive additional revenues or remained stable. Individual departments within those units experienced increases or decreases in resources depending on their unique circumstances. An itemized list of all reallocations implemented in FY20 will be finalized by the University Budget Office over the next several months. The categorical breakdown of reallocations already identified as either “Direct Mission” or “Mission Support & Facilities and Leadership & Oversight” is in line with an internal University cost-benchmarking analysis that resulted in defining all expenditures based on their primary purpose. Amounts in the “Net Yet Reported” column will be identified within those same categories as the information is processed. The three categories of spending are defined as follows:

- Direct Mission Delivery – the expenses of the ‘doers’ of the mission (faculty, scientists, health science professionals, etc., plus the corresponding equipment, supplies etc. coded as for instruction, research and public service)
- Mission Support & Facilities – the expenses to ‘support’ the delivery of mission activities (advisors, librarians, finance and technology personnel, skilled trades, etc. – all nonsupervisory – plus supplies, services and so forth coded as for academic support, institutional support, facility operations, etc.)
- Leadership & Oversight – the expenses for the ‘leadership, direction, control and management’ of the mission (President, vice presidents, deans, chancellors, directors, all supervisory/management positions throughout the University plus their associated proportion of supplies and equipment)

The cost benchmarking analysis was developed to build a common understanding of how expenditures would be analyzed for purposes of managing the reallocation process and providing direction to units on the annual expectations or target for changes in spending. As part of the FY20 approved budget, many reallocations were implemented across a variety of functions. Examples include:

- Elimination of positions – a fellow position and a human resource position in the Humphrey School of Public Affairs; three positions in learning technologies/community relations/communications in MN

Extension; faculty and diagnostic positions in the College of Veterinary Medicine; a support position in the branch libraries on the Twin Cities campus; and so forth.

- Reduction of staff costs without eliminating positions – salary savings through phased retirements in the Law School; consolidation of delivery routes and the downsizing of specialty services in campus mail; replacing positions through attrition at lower salaries throughout; and so forth.
- Reduction of general operating budgets throughout – decreased spending on supply purchases, project management costs, temporary/consulting services, travel, good, equipment, and so forth, as well as unit specific actions such as a reduction in library collections acquisitions through electronic content purchasing efficiencies, a reduction in funding for tree and turf materials and well as maintenance and land-care equipment on the Twin Cities campus, and a reduction in creative services support provided through University Relations.

For the FY21 annual budget, \$19.9 million in planned reallocations were approved to balance the “O&M” budget (operations and maintenance appropriation plus tuition) and to reduce costs in other funds as follows:

Unit Type	Direct Mission Activities	Mission Support & Facilities and Leadership & Oversight	Assigned: Not Yet Reported	Total
Campuses/Colleges, Auxiliaries	\$ 8,000,000	\$ 6,200,000	\$ 2,500,000	\$ 16,700,000
Twin Cities/System Support Units	\$ 700,000	\$ 2,400,000	\$ 100,000	\$ 3,200,000
Total	\$ 8,700,000	\$ 8,600,000	\$ 2,600,000	\$ 19,900,000

During the FY21 fiscal year, actual implementation of the planned reallocations will be tracked and final results summarized. Total revenues for the University across all funding sources were projected to remain relatively flat for FY21 compared to FY20 at the time the FY21 budget was approved. At this point, revenue activity is being re-evaluated and will likely be slightly reduced from the prior year due to the impacts of COVID-19. Individual departments within units will experience increases or decreases in resources depending on their unique circumstances, and final reallocations will likely exceed those planned in the approved budget for some of those units.

Examples of planned reallocations as part of the FY21 approved budget (specified as of this date) include:

- Elimination of positions – a gift officer in the College of Liberal Arts; three positions within the College of Continuing & Professional Studies; a reduction in support positions in the Carlson School of Management; several financial administrative positions in the School of Dentistry; a mechanic position in Facilities Management; and so forth.
- Reduction of staff costs without eliminating positions – replacing retiring faculty with assistant professor appointments in the Carlson School of Management; salary savings through phased retirements in the School of Public Health; restructuring the BIOGEN Administrative Center in the College of Biological Sciences/Medical School; replacing positions through attrition at lower salaries throughout; and so forth.
- Reduction of general operating budgets throughout – decreased spending on utilities and facility operations, supply purchases, professional services, travel, good, equipment, and so forth, as well as unit specific actions such as a reduction in project investments in Health Informatics and

decommissioning an electron microscope in the College of Science and Engineering; and reducing the number of installed public computers within University Libraries.

Subdivision 7(6): Tuition History and Comparisons

University of Minnesota

The University of Minnesota establishes a peer group for each of its campuses, except for the Rochester campus which is still in its formative stage and fulfills an important but unique mission. For each campus, 10 years of tuition and fee data is provided as reported to IPEDS for the University of Minnesota campuses and their peer groups, at the undergraduate level. Provided as well are separate resident and non-resident tuition and fee rate comparisons. Finally, national averages for undergraduate tuition and fees are provided for all public bachelor-degree granting institutions in all 50 states.

Tables can be found in Appendix A labeled [Subdivision 7\(6\) – Tuition History and Comparisons](#).

Subdivision 7(7): Graduation Rates

University of Minnesota

Appendix tables show four, five, and six-year graduation rates by campus, by gender and by race/ethnicity, for the most recent eight reporting years in the Integrated Postsecondary Education Data System (IPEDS). These data are arrayed by entering year cohort, taking the first time – full time cohort of freshman students on each campus and then showing the number and percent of the cohort graduating four, five, and six years later. Following IPEDS reporting rules, only new freshman starting and graduating from the campus are counted in these totals. Transfer students, even students that may start at one University of Minnesota campus and finish at another, are not counted in these graduation totals. The University reports on retention and graduation annually through its Plan, Performance, and Accountability report, the latest of which can be found at: <https://conservancy.umn.edu/handle/11299/174174>

Tables can be found in Appendix B labeled [Subdivision 7\(7\) – Graduation Rates](#).

Subdivision 7(8): Under-Represented Students

University of Minnesota

Beyond gender and diversity measures, the University has studied and concentrated on ensuring that traditionally under-represented lower-income and first-generation students are enrolled and retained. Attached tables detail enrollment changes of the past five years for both Pell eligible students and first-generation students on each of our campuses. The tables can be found in Appendix C labeled [Subdivision 7\(8\) – Under-represented students](#).

The University has as one of its Progress Card goals to increase four-year graduation rates of Pell eligible students' system wide. That rate currently stands at 54.3%, an increase of nearly fifteen percentage points over the past seven years.

Subdivision 7(9): Support of Research/Technology Commercialization

University of Minnesota

The University of Minnesota contributes more than \$8.6 billion a year in economic activity to the state of Minnesota— supporting more than 77,000 jobs across Minnesota and generating more than \$470 million in state taxes. The University is the state's fifth largest employer with more than 33,207 employees statewide (both full- and part-time). Competing against higher education institutions across the country, and around the world, the University generates more than \$1.2 billion in research impact, the highest amount of which (more than \$400 million) was in medical and healthcare research advancing human health.

The University's Twin Cities campus posted \$1.013 billion in R&D spending in FY19, the latest available figure. The well-respected NSF HERD survey, which compares research expenditures at US colleges and universities, consistently ranks the Twin Cities campus among the top 10 US public research institutions. The survey requires the University to report Twin Cities alone, but when all UMN campuses' expenditures were combined, the FY2019 total was \$1.04 billion.

Sources for total R&D spending during FY19 (Twin Cities) as reported to the National Science Foundation for the Higher Education R&D (HERD) Survey:

U.S. Federal Government	\$ 494,549
State and Local Government	\$ 79,587
Business	\$ 50,423
Nonprofit Organizations	\$ 40,928
Institutional Funds (research plus overhead)	\$ 321,652
All Other (such as foreign governments, gifts, etc.)	\$ 25,973
Total Reported FY19	\$ 1,013,112

(Dollars in Thousands)

Over the past five years, the University's Technology Commercialization (TC) office has experienced a positive growth trend in nearly every important measure of technology transfer success, including: new licenses, invention disclosures, new U.S. patents and number of start-ups (see 2019 TC Annual Report <https://drive.google.com/file/d/1GjTNP11iy9bJLz5SS8gdEXz3FEpCBkZw/view>).

The University's technology transfer work has been recognized for its excellence in several national and global rankings, including:

- Reuters – Ranked 22nd globally in their 2019 World's Most Innovative Universities ranking and 2nd among Big Ten's public institutions, <https://www.reuters.com/innovative-universities-2019>,
- The George W Bush Institute - UMN was ranked 8th in the US for "innovation impact" and 2nd among Big Ten Public Institutions, <https://www.bushcenter.org/publications/resources-reports/reports/universities-innovation-impact.html>, and
- National Academy of Inventors - UMN was ranked 17th in the world for Universities Granted US Utility Patents and 4th among Big Ten public institutions, <https://academyofinventors.org/wp-content/uploads/2020/05/2020-2019-top-100.pdf>.

Systemwide Strategic Plan (SWSP): Research and Discovery

Research and discovery are key components of the University of Minnesota MPACT 2025 systemwide strategic plan, and in particular with respect to Commitments 2 and 3, “Discovery, Innovation, and Impact” and “MNtersections”, The Vice President for Research has identified three strategic priorities that will be used to evaluate both support, infrastructure needs as well as potential new initiatives by assessing the degree to which they

- Enhance Research Excellence
- Promote and Sustain Research Integrity
- Accelerate the Transfer of Knowledge for the Public Good

To ensure research integrity, we work closely with external accrediting bodies, federal agencies, and internal experts to ensure University research remains in compliance with all relevant ethical and regulatory standards (and, indeed, we seek to be at the forefront of defining optimal ethical practice in the face of emerging challenges and opportunities). To operationalize these strategic priorities, we craft an internal control structure that ensures good fiscal stewardship (Commitment 5 of the Systemwide Strategic Plan) while minimizing administrative burden; we seek to both protect and reduce administrative burden for our researchers so that they are free to engage in the advancement of scholarship and discovery. Finally, mindful of our responsibility to translate our discoveries to the public as quickly as possible in order to advance the common weal, we work with researchers to facilitate the dissemination and development of their findings, which in some instances may include pursuing commercialization of inventions and technologies. This latter activity has the potential to generate income for the University, as well as the academic unit(s) of the inventor(s), although annual “profits” are not guaranteed, and indeed are extremely volatile in magnitude when accrued.

Subdivision 7(10): Consulting Contracts

University of Minnesota, Fiscal Years 2019 and 2020

In some circumstances each fiscal year, hiring consultants to perform work for the University is the most effective and most efficient way to achieve business goals. Generally, this is done in the following circumstances when the work involved:

- addresses a one-time or nonrecurring need
- is to be completed over a defined time period
- requires a skill set or expertise that is not needed at the University on an ongoing basis and is therefore not currently held by existing University employees
- requires a skill set or expertise that is not currently available through reassigning existing University employees
- is less expensive purchased from experts in the field outside the University compared to hiring, training, and maintaining a position or group of positions as University employees

In the last two completed fiscal years, one consulting contracts met the required reporting characteristics (exceeding \$500,000 and for “management, investment and financial advisory services, project management, computer/technology advisory services and construction project management”). It was initiated in FY20. No contracts meeting these criteria were initiated in FY19.

FY20 - Consultant/Supplier	Value of Contract	Description of Work
Dunn Solutions Group Inc.	\$ 1,137,000	Consulting services for the retrofit of SAP Business Intelligence Reporting for the first Enterprise Asset Management System at the University; designed to optimize management of the physical assets of all campuses, including portfolio management, work requests, real estate, operations and maintenance, space management, capital projects and sustainability.

(note-contracts reported in the fiscal year the contract is first initiated)

Subdivision 7(11): Aggregate Data

University of Minnesota

11-i: Student Demographics

Official University census enrollments, by campus, displayed by ethnicity and gender consistent with subdivision 7(7) of this report. These data may be found in Appendix D labeled [Subdivision 7\(11\)-i Student Demographics](#).

11-ii: Student Enrollment by Legislative District

Three tables in this section display University official student headcount, by home location (i.e., the student's original address at the time of initial application to the University), and our best attempt to match home location zip code data to congressional districts, and state senate and house districts. Where zip code data overlap with two or more legislative districts, a proportionality algorithm was used to assign students to districts.

Note that there are "Unknown" categories at the bottom of each table. These represent students where zip code data was not present in the data files. "Minnesota unknowns" are students that we can identify as being from Minnesota but cannot accurately place in a legislative district. A high majority of these students are likely College in Schools students, where we collect data through an alternate process to our standard admissions systems. This data may be found in Appendix E labeled [Subdivision 7\(11\)-ii Student Enrollment by Legislative District](#).

11-iii: Student Debt

As reported to the Office of Higher Education and displayed on its web site (http://www.ohe.state.mn.us/sPages/grad_debt.cfm):

Graduate Median Debt by Academic Award Received – weighted average of the cumulative median debt for graduates by award level. Graduates with no debt are not included in the calculation.

	Sub Baccalaureate Certificate	Bachelor's Degree	Master's Degree	Doctoral Degree	First Professional Degree
2015	\$ 22,035	\$ 24,567	\$ 35,906	\$ 44,760	\$ 152,551
2016	\$ 23,501	\$ 24,135	\$ 35,941	\$ 54,562	\$ 165,693
2017	\$ 20,552	\$ 23,745	\$ 36,817	\$ 61,111	\$ 166,926
2018	\$ 21,523	\$ 23,546	\$ 39,164	\$ 58,565	\$ 169,967
2019	\$ 16,162	\$ 23,228	\$ 39,823	\$ 58,507	\$ 173,069

Percent of Graduates with Debt by Academic Award Received:

	Sub Baccalaureate Certificate	Bachelor's Degree	Master's Degree	Doctoral Degree	First Professional Degree
2015	7%	64%	49%	35%	84%
2016	8%	61%	48%	31%	81%
2017	5%	61%	46%	32%	85%
2018	5%	60%	45%	30%	84%
2019	7%	59%	45%	26%	80%

11-iv: **Mandatory Student Fees**

	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Crookston	\$ 1,438	\$ 1,466	\$ 1,520	\$ 1,533	\$ 1,539
Duluth	\$ 1,122	\$ 1,184	\$ 1,242	\$ 1,327	\$ 1,351
Morris	\$ 863	\$ 950	\$ 950	\$ 1,056	\$ 1,171
Rochester	\$ 636	\$ 636	\$ 636	\$ 636	\$ 636
Twin Cities	\$ 1,500	\$ 1,552	\$ 1,596	\$ 1,620	\$ 1,635

The fees in the table above represent totals for the full academic year and are charged to all students unless granted a specific waiver. The activities and items funded by these fees varies by campus but generally fall within three categories:

1. Student Services Fees: as allowed by Board of Regents Policy - https://regents.umn.edu/sites/regents.umn.edu/files/policies/Student_Services_Fee.pdf Each campus has its own autonomous review and recommendation process, and each is governed by a student-majority committee appointed by the student association on that campus. Recommendations from the committees are submitted to the Provost and the President for potential inclusion in the President's annual operating budget, ultimately approved by the Board of Regents. On all campuses these fees provide funds for student clubs and organizations, student unions/centers, health services and recreational sports. In addition, for Crookston, Duluth, and Morris these fees encompass their campus "athletic fees" in support of intercollegiate athletics.
2. Campus/Collegiate/Durable Goods Fees: as allowed by Board of Regents Policy – Subdivision 3. Academic Fees.
 - a) **Campus/Collegiate Fees** - Campus/collegiate fees are campus- and college-wide fees that may be assessed to all students enrolled on a campus or in a college for goods and services that directly

benefit students but that are not part of actual classroom instruction. Allowable goods and services include advising, career services, computer labs, special equipment, orientation activities, and other goods or activities intended to enhance the student experience outside of actual classroom instruction. Each campus shall assess no more than one campus-wide fee and each college shall assess no more than one college-wide fee.

- b) **Durable Goods Fees** - Durable goods fees may be charged by a campus or a college to their enrolled students (or any cohort or subset of their enrolled students) for educational materials and equipment that will be owned by, potentially owned by, or assigned to a specific student for their use during the entire term. Durable goods fees may not be charged for services, or for use of any equipment owned and retained by the University, except for computer or other specialized equipment assigned for a full term to a specific student.”

Where these fees differ by college (on the Duluth and Twin Cities Campuses) the amounts in the table above represent an average of the undergraduate programs for six or more credits.

Other Required Fees: charged only on two campuses. They include a transportation fee on the Duluth Campus, and the MN Student Association fee, the capital enhancement fee, the stadium fee and a transportation fee on the Twin Cities Campus.

11-v: **Employee Headcount & Demographics**

Official University of Minnesota employee headcounts are taken on the 9th payroll period annually (usually late October). The tables provided do not include undergraduate student employees, graduate student employees, or other fellows or professionals in training. These data may be found in Appendix F labeled [Subdivision 7\(11\)-v Employee Headcounts and Demographics](#).

11-vi: **Facilities**

1. Physical Space Overview

University of Minnesota facilities comprise nearly thirty-one million gross square feet (GSF) across five campuses and nineteen Research and Outreach Centers and Field Stations. These 900 buildings are home to the classrooms, research labs, clinics, office, and libraries needed to deliver the University’s mission. While impressive due to magnitude and reach, the facility portfolio requires significant ongoing renewal to keep buildings safe and reliable for students, faculty, staff, and visitors. Fifty percent of buildings are now 50 years old or more; combined with current levels of funding, the backlog of deferred renewal and projected upkeep for the next 10 years is \$2.6 billion and \$4.9 billion, respectively.

Managing this magnitude of need across a large and diverse portfolio starts with a thorough understanding of what is owned, what shape it is in, and what level and type of resources are needed to keep it functioning. To this end, the U employs a third-party Facility Condition Assessment (FCA) advisor to evaluate the condition and quality of facilities and infrastructure, culminating in prioritized recommendations for renewal.

Multiple funding strategies are used to address facility renewal. HEAPR is the primary source, followed by other stand-alone state investments in major facility renovation projects. In addition, the University invests its own funds through major renewal projects, repair & replacement funds from the operating budget, utility infrastructure renewal projects from self-assessed utility charges, and self-generated auxiliary funds that are reinvested in auxiliary-supported buildings (note – auxiliary activities are those that generate income from sales of goods and services to the “public”, such as housing, food service,

bookstores, parking, athletics and so forth). Furthermore, the University has embarked on a renewal cost avoidance program by investing its own funds in the demolition of obsolete facilities.

Combined, these sources of funding fall short of identified need. During the past ten years (FY12 – FY21), enterprise renewal investments from all sources had an impact averaging \$104 million per year. This level of reinvestment translates to approximately \$3.50 per square foot, while the FCA has identified a target of \$8 per square foot to simply maintain existing condition. The University’s mission will be compromised without continued, sustained investment in buildings and infrastructure.

2. Square Footage by Campus and by DEED Economic Development Region:

Campus	City	County	DEED Econ Dev Region	Bldg Count	GSF

(Dollars in Thousands)

4. Capital Bonding Requested and Received (2020 session)

Project Name	Project Total	University/Non-State Investment	Request	Received
Higher Ed Asset Preservation & Replacement	\$ 200.0	\$ -	\$ 200.0	\$ 38.5
Child Development Building Replacement	\$ 43.8	\$ 14.6	\$ 29.2	\$ 29.2
A.B. Anderson Hall Capital Renewal	\$ 6.6	\$ 2.2	\$ 4.4	\$ 4.4
Chemistry Undergraduate Teaching Laboratory	\$ 98.4	\$ 32.8	\$ 65.6	\$ 3.3

Clinical Research Facility – Design	\$ 27.0	\$ 9.0	\$ 18.0	See note
Total	\$ 375.8	\$ 58.6	\$ 317.2	\$ 75.4

(Dollars in Millions)

Note: Debt refinancing to allow for design, site acquisition and preconstruction of a clinical research facility; under current terms the savings from refinancing is estimated at approximately \$28.9m.

11-vii: Administrative Costs

In 2012 the University of Minnesota developed a “cost benchmarking analysis” for the purpose of defining and categorizing the University’s costs to build a shared understanding of University expenditures and improve the University’s ability to set spending benchmarks and monitor changes in spending over time. The analysis is conducted and reported on annually. In part, it was created to answer questions related to “administrative costs” at the University. Prior to this analysis, there was no shared definition of those costs, so there was no accepted and standard way to answer questions related to them. Through a consultative process involving stakeholders throughout the institution, the analysis was shaped in a way to define mission related spending separately from all other spending on support functions and basic infrastructure. Within the analysis, categories of spending are identified as the following:

- Direct Mission Delivery – the expenses of the ‘doers’ of the mission
- Mission Support & Facilities – the expenses to ‘support’ the delivery of mission activities
- Leadership & Oversight – the expenses for the ‘leadership, direction, control and management’ of the mission

Expenses in all three categories occur throughout the organization (in academic and support units) and are supported by multiple funding sources. The benchmarking analysis focuses on current operating funds, including sponsored research activity. The intent is to categorize expenditures that relate to the regular ongoing operations of the University supported by annual revenues. As a result, it excludes non-current and agency funds, internal service organization (ISO) funds, and other cross-unit charges (except for transfers for facility projects).

Within the analysis, cost types are distributed among the spending categories in different ways. Personnel costs are distributed based on job code: each individual job code has been reviewed and assigned to one of the three spending categories based on the definitions of those categories and a reasonable judgement of the function represented by the job code description. Non-personnel expenditures are distributed based on a combination of function designation (research, instruction, etc.) and/or account code definition (consulting, supplies, etc.). Examples of the types of expenditure included in each spending category are noted in the table below. Note that direct student aid is treated as a separate category related to but not included in the delivery of mission.

Expenditures by Expense Category

Direct Mission Delivery: “doers” of the mission

Personnel: tenured and tenure-track professors, adjunct instructors, lecturers, clinical professors, extension educators, health science professionals, scientists and laboratory technicians, students in teaching assistant, research assistant or fellowship roles

Non-personnel: all non-personnel expenses with instruction, research, or public service function codes in the general ledger (excludes facility related activity: utilities, rents, leases and repairs & maintenance)

Mission Support & Facilities: “support” the delivery of the mission

Personnel (non-supervisory): audit/finance/HR/info tech/legal, clerical support, advisors, librarians, curators, child care workers, coaches, coordinators, analysts, building and grounds workers, skilled trades, engineers, safety technicians, environmental health and safety workers, police, temporary and casual workers

Non-personnel: prorated share of supplies and services, etc. in non-mission functions; equipment purchases in non-mission functions, all consulting in non-mission functions, facilities costs (utilities, rents, leases, repairs & maintenance, transfers for facility projects, debt).

Leadership & Oversight: “leadership, direction, control and management” of the mission

Personnel: executive leadership – president, vice presidents, chancellors, provost, vice provosts; academic leadership – deans, associate deans, department chairs; directors – program, department, campus and system-wide; supervisor and managerial titles across the organization

Non-Personnel: prorated share of supplies and services, non-capital equipment, etc. in non-mission functions.

Note that the definition for Leadership & Oversight encompasses all supervisory and manager positions regardless of their function in the institution. For example, job codes that designate someone as a manager of x are included in that category, rather than in the Mission Support & Facilities category, for example, where their “functional” home might be.

Currently, the Leadership & Oversight category of expenditures in this analysis best corresponds to the request for total administrative costs at the University for purposes of responding to the statutory reporting requirements of M.S. 135A in coordination with the MN State system. In FY19, the most recent completed year of the cost benchmarking analysis (FY20 will be final in December 2020), the totals associated with that category of spending were as follows:

- Total Leadership & Oversight expenditures = \$325.9 million
- Total Leadership & Oversight expenditures as a percent of total expenditures = 8.8%
- Total Leadership & Oversight headcount = 2,036 (fall 2018 point in time)
- Total Leadership & Oversight headcount as a percent of total headcount = 7.5%

Note: The University is embarking on a revitalized effort to review administrative and support functions once again in 2021 with the goal of gaining efficiencies and improving the quality and timing of service delivery throughout the institution. Through that process, a new understanding and definition of “administrative costs” may surface, which would change the response provided under section 11-vii. If so, that change will be reviewed with Minnesota Management and Budget and the Office of Higher Education prior to inclusion in the 2022 submission of this report.

11-viii: University Operating Budget

The Board of Regents of the University of Minnesota approves the annual operating budget for the institution in June of each year. Those documents can be accessed from the University Budget Office web site (http://finance.umn.edu/budget_anops.html). For the current biennium, the approved revenue and

expenditure estimates (including “internal sales”) were as follows at the time the budgets were approved (June of 2019 and June of 2020):

	FY 2020	FY 2021
Revenues:		
Operations & Maintenance Appropriation	\$ 601,078,000	\$ 602,818,000
Gross Tuition	\$ 1,023,383,608	\$ 1,023,279,127
State Special Appropriations	\$ 92,995,000	\$ 92,995,000
Indirect Cost Recovery	\$ 158,659,888	\$ 166,218,904
Federal Appropriations	\$ 17,625,000	\$ 17,565,000
Grants & Contracts (non-sponsored)	\$ 320,401,946	\$ 305,500,382
Private Practice	\$ 101,768,752	\$ 123,414,359
Gifts & Endowment Income	\$ 271,575,618	\$ 273,300,000
Auxiliary Enterprise Revenue	\$ 387,597,461	\$ 354,687,765
Internal Sales	\$ 249,605,197	\$ 237,478,934
Sales, Fees, Misc. Unrestricted	\$ 382,004,123	\$ 374,229,514
Sponsored Grants (revenue = reimbursed expenses)	\$ 586,000,000	\$ 600,000,000
Total Revenue	\$ 4,192,694,593	\$ 4,171,486,985

Expenditures:		
Instruction	\$ 882,059,505	\$ 872,151,459
Research	\$ 335,912,705	\$ 358,595,906
Public Service	\$ 200,566,748	\$ 200,420,782
Academic Support	\$ 565,451,972	\$ 560,455,223
Student Services	\$ 163,876,431	\$ 156,646,521
Institutional Support	\$ 265,867,674	\$ 252,924,737
Operations & Maintenance of Plant	\$ 326,833,175	\$ 326,186,155
Scholarships/Fellowships	\$ 340,144,615	\$ 350,615,860
Auxiliary Enterprises	\$ 321,073,435	\$ 312,663,657
Sponsored Grants	\$ 586,000,000	\$ 600,000,000
Total Expenditures	\$ 3,987,786,260	\$ 3,990,660,300
