

MANAGEMENT ANALYST SUPERVISOR 2

KIND OF WORK

Advanced professional-supervisory organization and administrative analysis work.

NATURE AND PURPOSE

Under limited supervision/procedural control, conduct studies of departmental organization, methods and systems to recommend and install new work methods and procedures by determining and monitoring the overall study process and making final recommendations for state-wide or department-wide programs in areas such as records and publications management; policy and procedures development/analyses; organization of office space; work and information flow; systems analysis/design; data processing; fiscal and budgetary analysis; cost/benefit analysis; review of legislation; and analysis of organizational structure may direct the work of other personnel temporarily assigned from other operating divisions who are assisting in the studies; performs related work as required.

This advanced-level professional-supervisory class builds upon the foundation of the principles of a general field of knowledge sufficient to critique and evaluate the activities and outcomes of the professional work of others to assure quality and to continually improve work processes with strong awareness of immediate and sustained effects on customer satisfaction.

The "Series-at-a-Glance" Chart distinguishes Management Analyst Supervisor 2 from adjacent classes of Management Analyst Supervisor 1 and Management Analyst Supervisor 3. When work activities (e.g., modify current procedures/policies) overlap several adjacent job classes within this series, the importance, autonomy, and frequency of these activities impact the final classification decision.

EXAMPLES OF WORK (A position may not include all the work examples given, nor does the list include all that may be assigned.)

Supervisory responsibility includes assigning and controlling the work of subordinate staff, training employees, effectively recommending hiring and disciplinary actions and conducting performance evaluations as per M.S. 179A.03, Subd. 17.

Evaluates policy, rules, operations, work procedures and/or work methods in the department to provide assistance in solving managerial and procedural problems by defining needs and determining the methodology to be used to monitor, audit and review operations in assigned department-wide/state-wide projects or operational areas; by developing objectives and determining the resources required; by directing the work of individuals from other operating divisions/agencies who may be temporarily assigned to assist with projects; and by developing work plans and assigning priorities and time limits.

Writes or coordinates the writing of reports to provide documentation of findings and to present recommendations by serving as the consultant/coordinator for others assisting in the study; by reviewing the information for accuracy; and by identifying alternatives and options in preparing final recommendations.
