

PUBLIC WORKS TRUST FUND (P WTF)

CONSTRUCTION LOAN

Purpose: Design and construction of sanitary sewer, domestic water, stormwater, roads, bridges, solid waste/recycling systems, and water reuse
Amount: Up to \$200M may be available in July 2015 subject to legislative approval
Local Match: TBD
Principal Criteria: The PWB is in the process of developing evaluation criteria, the selection process, maximum loan amount, and loan terms and conditions.

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG-GP)

GENERAL PURPOSE GRANT

Purpose: Provide grant funds for community and economic development projects that principally benefit LMI persons
Amount: Varies, max. \$750,000, \$1M may be available if higher funding criteria are met, maximum \$25,000/household or job created/retained
Local Match: None required; viewed favorably
Principal Criteria: Benefit LMI persons; address public health & safety hazards and/or a regulatory order; economic development; financial need; readiness to proceed; funding partners

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG-POG)

PLANNING-ONLY GRANT

Purpose: Assist communities plan implementation of community and economic development projects that benefit low- to moderate-income persons: comprehensive plans, infrastructure plans, feasibility studies, community action plans, etc.
Amount: \$24,000-\$35,000 for single jurisdictions; \$40,000 for multiple jurisdictions
Local Match: None required; viewed favorably
Principal Criteria: Benefit LMI persons; address public health & safety hazards and/or a regulatory order; economic development; financial need; readiness to proceed

WATER / WASTE PROGRAM (USDA RURAL DEVELOPMENT)

GRANT & LOAN

Purpose: Design and construction of water, sanitary wastewater, & stormwater capital improvements
Amount: No specified max; loan interest and term varies with market; grants available for low-income communities where rates exceed or will exceed those of similar systems; up to 40 year term
Local Match: None required, viewed favorably
Principal Criteria: Rural community; demonstrated inability to secure other funding at reasonable rates; funding partners; grants are considered only after RD determines the maximum amount of loan a community can afford and still make reasonable user rates.

ENERGY EFFICIENCY & SOLAR GRANTS FOR PUBLIC BUILDINGS

GRANT

Purpose: For design and construction of facilities improvements and related projects that result in energy and operational cost savings.
Amount: 18M for fiscal year (FY) 2014; 7M for FY 2015
Local Match: None; however, projects with local match will score higher - applications are competitively ranked on ratio of non-state funding sources to state grant funds
Principal Criteria: Performance-based grant agreements with measureable performance of, and capacity to deliver energy savings and/or resource conservation; fund projects that wouldn't happen on their own; projects ranked on amount of energy savings and local contribution

TRANSPORTATION IMPROVEMENT BOARD (TIB)

SMALL CITY PROGRAM GRANTS

Purpose: Design and construction for reconstructing or maintaining transportation infrastructure. Small City Arterial Program - (SCAP), Sidewalk Program (SCSP), and the Small City Preservation Program (SCPP)
Amount: SCSP - \$125,000 max.; SCAP - \$300,000-\$700,000; SCPP - Based on assessed valuation (AV) - 0%-10%
Local Match: <1,000 population = 0%; >1,000 population = min. 5%
Principal Criteria: Pedestrian safety; pavement condition; local support; pedestrian movement; sustainability; within city/town limits; ADA guidelines; min. width 5ft clear; curb or physical barrier separation between pedestrians & traffic; economy of scale

SURFACE TRANSPORTATION & TRANSPORTATION ALTERNATIVES (STP, TAP)

GRANTS

Purpose: TAP: projects that expand transportation choices and enhance the transportation experience by strengthening the cultural, aesthetic or environmental aspects of intermodal transportation systems; STP: federal funds for metropolitan highway, bridge, transit, bicycle, pedestrian, and recreational trails improvements
Amount: Varies depending on state allocations and year
Local Match: Not required, but preference is given to projects providing match
Principal Criteria: Criteria varies according to regional/local priorities; WSDOT allocates TAP funds to Regional Transportation Planning Organizations (RTPO) and STP funds to Metropolitan Planning Organizations (MPOs) and County Lead Agencies for prioritizing and selecting projects that align with their respective area priorities; TAP projects must meet one or more of 12 eligible activities related to surface transportation, and must be programmed in a MPO's TIP and the Statewide TIP; STP: most flexible highway program; must be programmed in the statewide TIP

WSDOT - SAFE ROUTES TO SCHOOL; PEDESTRIAN AND BICYCLE SAFETY

GRANTS

Purpose: Engineering, education, encouragement and enforcement activities to enhance safety and mobility for walkers and bikers. Safe Routes Program (SRTS): provide children a safe, healthy alternative to the bus or being driven to school.
Amount: Varies depending on program and year (provided federal funds are available to WA state)
Local Match: Not required, but preference is given to projects that provide match
Principal Criteria: Demonstrated need to increase pedestrian and bicycle mobility and safety, (for Safe Routes, must be within 2 miles of K-8 schools); existing conditions; fully-funded; min. 10% of Safe Routes grants must be used for education, encouragement of biking and walking, or enforcement activities

CENTENNIAL CLEAN WATER PROGRAM (CCWP)

GRANT & LOAN

Purpose: Planning, design and construction of sanitary sewer or other water pollution control facilities and nonpoint activities that prevent and control pollution in ground and surface waters; for stormwater, only non-facility projects (mapping, education, etc.) for non-permit holders
Amount: Facilities: \$13M (loan/hardship grant); Activities: \$7M (grant/loan). Interest rates: 30% or 60% of market rate (MR) depending on loan terms. Hardship rates: 0%-40% of MR based on sewer fees as a % of MHI
Local Match: 25% match required for grants; requirements for hardship grants vary
Principal Criteria: Activities to protect or restore water quality; GMA compliance; achieves regulatory compliance; IGEA required of most funded projects

CLEAN WATER ACT SECTION 319 NON-POINT SOURCE FUND (SECT 319)

GRANT

Purpose: Non-point source activities identified in Washington's Water Quality Management Plan to Control Nonpoint Source Pollution
Amount: Up to 75% of eligible project costs up to \$500,000
Local Match: 25% local match
Principal Criteria: Prevention and control of water pollution where pollution source is nonpoint; address public health hazards due to water pollution; meet specific purpose of Section 319 of the Clean Water Act

WATER POLLUTION CONTROL STATE REVOLVING FUND PROGRAM (WPCSRF) LOAN & SUBSIDY

Purpose: Planning, design and construction of sanitary sewer, stormwater and other water pollution control facilities and nonpoint activities that prevent and control pollution in ground and surface waters; Pre-construction set-aside for jurisdictions less than 25,000 in size and whose MHI's are below the statewide MHI
Amount: 180M available; Max. 50% of fund to any one applicant; Approximately 5M for pre-construction set-aside; GPR and hardship subsidy available depending on the federal award; Interest: 2.7% on 20 yr loan; 1.4% on 5 yr loan; Pre-construction loans: up to 50% subsidy; same interest rates and terms; Hardship assistance may be available in the form of a reduced interest rate or an extended term; subsidy for hardship and GPR
Local Match: None
Principal Criteria: Facilities and activities projects that protect or restore water quality; cost effectiveness; GMA compliance; prevention or control of water pollution; achieves regulatory compliance; IGEA required of most funded projects

DRINKING WATER STATE REVOLVING FUND (DWSRF)

LOAN & SUBSIDY

Purpose: Design and construction of drinking water system improvements aimed at increasing/protecting public health and natural resource conservation
Amount: Max. \$12M/jurisdiction/year; \$24M for jointly-owned projects; 1% loan fee for some; 1%-1.5% interest; 20 years; Subsidy available for selected disadvantaged communities and water system restructuring/consolidation projects.
Local Match: None
Principal Criteria: Current Water System Plan; increase or protect public health; meet or maintain drinking water regulation compliance; up to 50% principal forgiveness for qualifying communities; IGEA required when applicable
