

FY 2021/22 Key Achievements & Milestones

Lenovo

“Although last year was challenging for the world, with the accelerated global digital and intelligent transformation, Lenovo delivered a record year of profit and revenue. All our main businesses are now profitable for the full year, and our new growth engines – SSG, ISG and Mobile – are showing strong momentum. We will capture this window of opportunity, double our R&D investment, drive service-led transformation, realize our ESG goals, and stay flexible and resilient to bring the entire company to new heights.”

Yuanqing Yang
Lenovo Chairman and CEO
