FortiSASE Administrator

In this course, you will learn how to use FortiSASE features, including policy types and security profiles. You will explore FortiSASE deployment, user authentication, use cases, and monitoring. You will also learn how to protect your web traffic and SaaS applications using content inspection, such as antivirus, web filtering, application control, and logging.

Product Version

- FortiSASE 23
- FortiOS 7.2
- FortiClient 7.0
- FortiAuthenticator 6.5

Course Duration

- Lecture time (estimated): 5 hours
- Lab time (estimated): 4 hours
- Total course duration (estimated): 9 hours
  - 2 full days or 2 half days

Who Should Attend

Networking and security professionals involved in the design, administration, and management of FortiSASE based network deployment should attend this course.

Certification

This course is intended to help you prepare for the *Fortinet FCSS—FortiSASE 23 Administrator* certification exam. This exam is part of the Fortinet Certified Solution Specalist - Secure Access Service Edge certification track.

Prerequisites

You must have an understanding of the topics covered in the following courses, or have equivalent experience:

- *FCP FortiGate Administrator*
- *FCP FortiClient EMS Administrator*

Agenda

1. SASE Overview
2. Deployment
3. Authentication
4. Endpoint Components and Security Policy
5. Use Cases
6. Dashboards and Analytics

Objectives

After completing this course, you will be able to:

- Understand the SASE architecture
- Construct FortiSASE deployment cases
- Identify the SASE components
- Understand the Fortinet SASE solution
- Integrate FortiSASE into a hybrid network
- Understand the different FortiSASE solutions
- Understand different authentication methods on FortiSASE
- Configure zero-trust network access (ZTNA) with FortiSASE
- Configure security profile groups and security components
- Configure different types of FortiSASE policies
- Deploy supported FortiSASE use cases
- Configure FortiView monitors
- Configure and generate reports
- Configure dashboards

Training Delivery Options and SKUs

Instructor-Led Training

Includes standard NSE training content delivered in person onsite, or live online using a virtual classroom application. Training is delivered within public classes or as a private class. Private requests are scoped, quoted, developed, and delivered by Fortinet Training (minimum quantities apply).

Use the following ILT Training SKU to purchase scheduled public classes of this course through Fortinet Resellers or Authorized Training Partners:

FT-SASE

Self-Paced Training

Includes online training videos and resources through the Fortinet Training Institute library, free of charge.

See Purchasing Process for more information about purchasing Fortinet training products.

ISC2

- CPE training hours: 5
- CPE lab hours: 4
- CISSP domains: Security Operations
