FORTINET

NSE Certification Program

Exam Description

FortiAnalyzer Administrator

Certification

This exam is part of the Fortinet Certified Professional - Network Security certification track. This certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet network security products.

Visit the Cybersecurity Certification page for information about certification requirements.

Exam

The *Fortinet NSE 6 - FortiAnalyzer 7.2 Administrator* exam evaluates your knowledge of and expertise with FortiAnalyzer.

The exam tests applied knowledge of FortiAnalyzer configuration, operation, and day-to-day administration, and includes operational scenarios, system configuration, device registration, and troubleshooting.

Once you pass the exam, you will receive the following exam badge:

FORTINET
NSE EXAM

FortiAnalyzer
Administrator
