

## Exam Description

# Secure Wireless LAN Administrator

## Certification

This exam is part of the Fortinet Certified Professional - Network Security certification track. This certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet network security products.

Visit the [Cybersecurity Certification](#) page for information about certification requirements.

## Exam

The FCP - *Secure Wireless LAN 7.4 Administrator* exam evaluates your knowledge and expertise with the FortiGate integrated and cloud wireless controller.

This exam tests your applied knowledge of the FortiGate integrated wireless controller configuration, operation, and day-to-day administration, and includes operational scenarios, configuration extracts, and troubleshooting captures. This exam also tests your knowledge of the FortiPresence product.

Once you pass the exam, you will receive the following exam badge:

## Audience

The FCP - *Secure Wireless LAN 7.4 Administrator* exam is intended for network and security professionals responsible for the configuration and administration of wireless solutions in an enterprise network security infrastructure.
