3:40-4:45   **Panel: Building Responsible AI Review Processes for the NAIRR**
Moderator: Oren Etzioni, Member, NAIRR TF

Panelists:
Beena Ammanath, Author, Trustworthy AI and Head of Global Deloitte AI Institute
Michael Bernstein, Associate Professor of Computer Science, Stanford University
Christine Custis, Head of Fairness, Transparency, Accountability and Safety, Partnership on AI
Arvind Narayanan, Associate Professor of Computer Science, Princeton University
Beth Plale, Michael A. and Laurie Burns McRobbie Bicentennial Professor of Computer Engineering and Executive Director, Pervasive Technology Institute, Indiana University Bloomington
Christo Wilson, Associate Professor of Computer Science, Northeastern University

Discussion Questions:

- What approaches for responsible and ethical AI R&D review have been effective elsewhere and could be considered for integration into NAIRR governance and administration? What has made these processes successful?
- What best-in-class tools to audit datasets and research outcomes for bias and to mitigate harms could be employed by the NAIRR management entity?
- What are ways that responsible AI and bias mitigation measures have fallen short in the past, and how could the NAIRR avoid these shortcomings?

4:45-4:55   **Questions from the Public**
Moderator: Manish Parashar, Co-Chair, NAIRR TF

4:55-5:00   **Closing Remarks**
Speaker: Manish Parashar, Co-Chair, NAIRR TF
