

Business Reference Model v3.1  
Service Codes and Definitions - May 15, 2013

<b>BRM Services Code</b>	<b>Service</b>	<b>Definition</b>
<b>001</b>	Homeownership Promotion	Homeownership Promotion includes activities devoted to assisting citizens interested in buying homes and educating the public as to the benefits of homeownership.
<b>002</b>	Community and Regional Development	Community and Regional Development involves activities designed to assist communities in preventing and eliminating blight and deterioration, assist economically distressed communities, and encourage and foster economic development through improved public facilities and resources.
<b>004</b>	Postal Services	Postal Services provide for the timely and consistent exchange and delivery of mail and packages between businesses, organizations, and residents of the United States or between businesses, organizations, and residents of the United States and the rest of the world. It also includes the nationwide retail infrastructure required to make Postal Services easily accessible to customers.
<b>005</b>	Criminal Incarceration	Criminal Incarceration includes activities associated with the housing, custody and general care of criminals serving time in penitentiaries. This includes self-improvement opportunities provided as part of Criminal Incarceration.
<b>006</b>	Criminal Rehabilitation	Criminal Rehabilitation includes all government activities devoted to providing convicted criminals with the educational resources and life skills necessary to rejoin society as responsible and contributing members. This includes work and treatment opportunities provided as part of Criminal Rehabilitation.
<b>008</b>	Disaster Preparedness and Planning	Disaster Preparedness and Planning involves the development of response programs to be used in case of a disaster as well as pre-disaster mitigation efforts to minimize the potential for loss of life and property. This involves the development of emergency management programs and activities as well as staffing and equipping regional response centers, and mitigation focused construction and preparation.

Business Reference Model v3.1  
Service Codes and Definitions - May 15, 2013

<b>009</b>	Disaster Repair and Restore	Disaster Repair and Restore involves the immediate actions taken to respond to a disaster and the cleanup and restoration activities that take place after a disaster. These actions include, but are not limited to, providing mobile telecommunications, operational support, power generation, search and rescue, and medical life-saving actions. It also involves the cleanup and rebuilding of homes, buildings, roads, environmental resources, or infrastructure that may be damaged due to a disaster.
<b>010</b>	Emergency Response	Emergency Response involves the immediate actions taken to respond to a disaster. These actions include, but are not limited to, providing mobile telecommunications, operational support, energy emergency preparedness, power generation, search and rescue, and medical life-saving actions.
<b>011</b>	Business and Industry Development	Business and Industry Development supports activities related to the creation of economic and business opportunities and stimulus, and the promotion of financial and economic stability for corporations and citizens involved in different types of business.
<b>012</b>	Intellectual Property Protection	Intellectual Property Protection involves all activities to protect and promote the ownership of ideas and control over the tangible or virtual representation of those ideas, including inventions and discoveries; literary and artistic works; and symbols, names, images, and designs used in commerce.
<b>013</b>	Financial Sector Oversight	Financial Sector Oversight involves the regulation of private sector firms and markets (stock exchanges, corporations, etc.) to protect investors from fraud, monopolies, and illegal behavior. This also includes deposit protection.
<b>014</b>	Industry Sector Income Stabilization	Industry Sector Income Stabilization involves all programs and activities devoted to assisting adversely impacted industrial sectors (farming, commercial transportation, etc.) to ensure the continued availability of their services for the American public and the long-term economic stability of these sectors.
<b>015</b>	Elementary, Secondary, and Vocational Education	Elementary, Secondary, and Vocational Education refers to the provision of education in elementary subjects (reading and writing and arithmetic); education provided by a high school or college preparatory school; and vocational and technical education and training.
<b>016</b>	Higher Education	Higher Education refers to education beyond the secondary level; specifically, education provided by a college or university.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>017</b>	Cultural and Historic Preservation	Cultural and Historic Preservation involves all activities performed by the federal government to collect and preserve information and artifacts important to the culture and history of the United States and its citizenry and the education of U.S. citizens and the world.
<b>018</b>	Cultural and Historic Exhibition	Cultural and Historic Exhibition includes all activities undertaken by the U.S. government to promote education through the exhibition of cultural, historical, and other information, archives, art, etc.
<b>019</b>	Energy Production and Transmission	Energy Production involves the transformation of raw energy resources into useable, deliverable energy. all activities devoted to ensuring the availability of an adequate supply of energy for the United States and its citizens. It involves the management and oversight of energy producing resources including facilities, dams, land, offshore resources and the private sector and includes all types of mass-produced energy (e.g., hydroelectric, nuclear, wind, solar, or fossil fuels).
<b>020</b>	Energy Conservation	Energy Conservation and Preparedness involves protection of energy resources from over consumption to ensure the continued availability of fuel resources and to promote environmental protection.
<b>023</b>	Environmental Monitoring and Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring and forecasting of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
<b>024</b>	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
<b>025</b>	Pollution Prevention and Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
<b>026</b>	Scientific and Technological Research and Innovation	Scientific and Technological Research and Innovation includes all federal activities whose goal is the creation of new scientific and/or technological knowledge as a goal in itself, without a specific link to the other LoBs or Services of the BRM.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>027</b>	Space Exploration and Innovation	Space Exploration and Innovation includes all activities devoted to innovations directed at human and robotic space flight and the development and operation of space launch and transportation systems, and the general research and exploration of outer space
<b>033</b>	Border and Transportation Security	Border and Transportation Security includes appropriately facilitating or deterring entry and exit of people, goods, and conveyances at and between U.S. ports of entry, as well as ensuring the security of transportation and infrastructure networks, facilities, vehicles, and personnel within the United States.
<b>034</b>	Key Asset and Critical Infrastructure Protection	Key Asset and Critical Infrastructure Protection involves assessing key asset (e.g. bridge, power grid, dam, subways) and critical infrastructure vulnerabilities and taking direct action to mitigate vulnerabilities, enhance security, and ensure continuity and necessary redundancy in government operations and personnel.
<b>036</b>	Retirement and Disability Benefits	Retirement and Disability Benefits involves the development of policies and management of retirement benefits, pension benefits, and income security for those who are retired or disabled (excluding Veteran Benefits).
<b>037</b>	Unemployment Compensation	Unemployment Compensation provides income security to those who are no longer employed, while they seek new employment.
<b>038</b>	Housing Assistance	Housing Assistance involves the development and management programs that provide housing to those who are unable to provide housing for themselves including the rental of single-family or multifamily properties, and the management and operation of federally supported housing properties.
<b>039</b>	Food and Nutrition Assistance	Food and Nutrition Assistance involves the development and management of programs that provide food and nutrition assistance to those members of the public who are unable to provide for these needs themselves.
<b>040</b>	Survivor Compensation	Survivor Compensation provides compensation to the survivors of individuals currently receiving or eligible to receive benefits from the federal government. This includes, but is not limited to, survivors such as spouses or children of veterans or wage earners eligible for social security payments.
<b>041</b>	Foreign Affairs	Foreign Affairs refers to those activities associated with the implementation of foreign policy and diplomatic relations, including the operation of embassies, consulates, and other posts; ongoing membership in international organizations; the development of cooperative frameworks to improve relations with other nations; and the development of treaties and agreements.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>043</b>	Global Trade	Global Trade refers to those activities the federal government undertakes to advance worldwide economic prosperity by increasing trade through the opening of overseas markets and freeing the flow of goods, services, and capital.
<b>044</b>	Fugitive and Criminal Apprehension	Criminal Apprehension involves activities associated with the tracking, arrest, detention, and transportation of groups or individuals responsible and believed to be responsible for committing federal crimes.
<b>045</b>	Criminal Investigation and Surveillance	Criminal Investigation and Surveillance includes collecting evidence required to determine responsibility for a crime and monitoring and questioning affected parties.
<b>047</b>	Crime Prevention	Crime Prevention entails all efforts designed to create safer communities through the control and reduction of crime by addressing the causes of crime and reducing opportunities for crimes to occur.
<b>048</b>	Leadership Protection	Leadership Protection involves all activities performed to protect the health and well-being of the president, vice-president, their families, foreign leaders and dignitaries, federal judges, and other high-level government officials.
<b>050</b>	Substance Control	Substance Control supports activities associated with the enforcement of laws regarding legal substances (i.e., alcohol and tobacco) and illegal narcotics including trafficking, possession, sale, distribution, and other related activities.
<b>051</b>	Judicial Hearings	Judicial Hearings includes activities associated with proceedings (usually by a court of law) where evidence is taken for the purpose of determining an issue of fact and reaching a decision based on that evidence.
<b>052</b>	Legal Defense	Legal Defense includes those activities associated with the representation of a defendant in a criminal or civil proceeding.
<b>053</b>	Legal Investigation	Legal Investigation includes activities associated with gathering information about a given party (government agency, citizen or corporation) that would be admissible in a court of law in an attempt to determine a legal question or matter.
<b>054</b>	Legal Prosecution and Litigation	Legal Prosecution and Litigation includes all activities involved with presenting a case in a legal proceeding both in a criminal or civil court of law in an attempt to prove guilt/responsibility.
<b>055</b>	Resolution Facilitation	Resolution Facilitation refers to those activities outside a court of law, such as mediation and arbitration, which may be used in an attempt to settle a dispute between two or more parties (government agency, citizen, or corporation).
<b>056</b>	Water Resource Management	Water Resource Management includes all activities that promote the effective use, protection and management of the nation's water resources.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>057</b>	Conservation, Marine and Land Management	Conservation, Marine and Land Management involves the responsibilities of surveying, maintaining, and operating public lands and monuments, as well as activities devoted to ensuring the preservation of land, water, wildlife, and natural resources, both domestically and internationally. It also includes the sustainable stewardship of natural resources on federally owned/controlled lands for commercial use (mineral mining, grazing, forestry, fishing, etc.).
<b>058</b>	Recreational Resource Management and Tourism	Recreational Resource Management and Tourism involves the management of national parks, monuments, and tourist attractions as well as visitor centers, campsites, and park service facilities.
<b>060</b>	Air Transportation	Air Transportation involves the activities related to the safe passage of passengers or goods through the air. It also includes command and control activities related to the safe movement of aircraft through all phases of flight for commercial and military operations.
<b>061</b>	Ground Transportation	Ground Transportation involves the activities related to ensuring the availability of transit and the safe passage of passengers and goods over land.
<b>062</b>	Water Transportation	Water Transportation involves the activities related to ensuring the availability of transit and the safe passage of passengers and goods over sea and water.
<b>063</b>	Space Transportation	Space Transportation involves the activities related to ensuring the availability of transit and the safe passage of passengers and goods through aerospace.
<b>064</b>	Training and Employment	Training and Employment includes programs of job or skill training, employment services and placement, and programs for non-federal employees to promote the hiring of marginal, unemployed, or low-income workers.
<b>065</b>	Labor Rights Management	Labor Rights Management refers to those activities undertaken to ensure that employees and employers are aware of and comply with all statutes and regulations concerning labor rights, including those pertaining to wages, benefits, safety and health, whistleblower, and non-discrimination policies for non-federal employees.
<b>066</b>	Worker Safety	Worker Safety refers to those activities undertaken to save lives, prevent injuries, and protect the health of America's workers.
<b>070</b>	General Purpose Data and Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>077</b>	Inspection and Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity. This can include (but does not have to include) Firearms, Explosives, and Controlled Substances inspections and auditing.
<b>079</b>	Permits and Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
<b>101</b>	Budget Formulation	Budget Formulation involves resource planning activities that align Federal resources allocated through budget formulation and submission. It involves all activities undertaken to determine priorities for future spending and to develop an itemized forecast of future funding and expenditures during a targeted period of time. This includes the collection and use of performance information to assess the effectiveness of programs and develop budget priorities.
<b>103</b>	Enterprise Architecture	Enterprise Architecture is an established process for describing the current state and defining the target state and transition strategy for an organization's people, processes, and technology.
<b>104</b>	Strategic Planning	Strategic Planning entails the determination of annual and long-term goals and the identification of the best approach for achieving those goals.
<b>105</b>	Budget Execution	Budget Execution involves the legal (apportionment) and managerial (allotment and sub-allotment) distribution of budget authority to achieve results consistent with the formulated budget.
<b>106</b>	Workforce Planning	Workforce Planning involves the processes for identifying the workforce competencies required to meet the agency's strategic goals and for developing the strategies to meet these requirements.
<b>108</b>	Customer Services	Supports activities associated with providing an agency's customers with information regarding the agency's service offerings and managing the interactions and relationships with those customers, and/or national interest including official information dissemination, service/product outreach, and public relations.
<b>113</b>	Public Comment Tracking	Public Comment Tracking involves the activities of soliciting, maintaining, and responding to public comments regarding proposed regulations.
<b>115</b>	Rule Publication	Rule Publication includes all activities associated with the publication of a proposed or final rule in the Federal Register and Code of Federal Regulations.
<b>116</b>	Debt Collection	Debt Collection supports activities associated with the collection of money owed to the U.S. government from both foreign and domestic sources.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

118	Federal Asset Sales	Federal Asset Sales encompasses the activities associated with the acquisition, oversight, tracking, and sale of non-internal assets managed by the federal government with a commercial value and sold to the private sector.
119	Facilities, Fleet and Equipment Management	Facilities, Fleet, and Equipment Management involves the maintenance, administration, certification, and operation of office buildings, fleets, machinery, and other capital assets that are the responsibility of the federal government.
120	Help Desk Services	Help Desk Services involves the management of a service center to respond to government and contract employees' technical and administrative questions.
121	Security Management	Security Management involves the physical protection of an organization's personnel, assets, and facilities (including security clearance management). Note: Activities related to securing data and information systems are addressed under additional Services in the "810-Cyber security management" Function.
122	Travel	Travel involves the activities associated with planning, preparing, and monitoring of business related travel for an organization's employees.
124	Accounting	Accounting entails accounting for assets, liabilities, fund balances, revenues and expenses associated with the maintenance of federal funds and expenditure of federal appropriations (Salaries and Expenses, Operation and Maintenance, Procurement, Working Capital, Trust Funds, etc.), in accordance with applicable federal standards (FASAB, Treasury, OMB, GAO, etc.).
126	Payments	Payments includes disbursements of federal funds, via a variety of mechanisms, to federal and private individuals, federal agencies, state, local and international governments, and the private sector, to effect payment for goods and services, or distribute entitlements, benefits, grants, subsidies, loans, or claims.
127	Collections and Receivables	The Collections and Receivables service includes deposits, fund transfers, and receipts for sales or service.
129	Reporting and Information	Reporting and Information includes providing financial information, reporting and analysis of financial transactions.
139	Provide and Maintain IT Infrastructure	IT Infrastructure Maintenance involves the planning, design, and maintenance of an IT Infrastructure to effectively support automated needs (i.e. platforms, networks, servers, printers, etc.).
143	Goods and Services Acquisition	Goods and Services Acquisition involves the procurement of physical goods, products, and capital assets to be used by the federal government and the oversight and/or management of contractors and service providers from the private sector.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>144</b>	Inventory Control	Inventory Control refers to the tracking of information related to procured assets and resources with regard to quantity, quality, and location.
<b>145</b>	Logistics Management	Logistics Management involves the planning and tracking of personnel and their resources in relation to their availability and location.
<b>176</b>	Legislative Functions	Legislative Functions is defined by the Executive branch processes associated with working with the Legislative Branch (i.e. Congress) except for the Tax Court, the Library of Congress, and the Government Printing Office revolving fund.
<b>180</b>	Taxation Management	Taxation Management includes activities associated with the implementation of the Internal Revenue Code and the collection of taxes in the United States and abroad.
<b>217</b>	Access to Care	Access to Care focuses on the access to appropriate care. This includes streamlining efforts to receive care; ensuring care is appropriate in terms of type, care, intensity, location and availability; providing seamless access to health knowledge, enrolling providers; performing eligibility determination, and managing patient movement. It can include aid to family with children, immunization programs, and child support enforcement.
<b>228</b>	Labor Relations	Labor Relations manages the relationship between the agency and its unions and bargaining units. This includes negotiating and administering labor contracts and collective bargaining agreements; managing negotiated grievances; and participating in negotiated third party proceedings.
<b>247</b>	Health Care Administration	Health Care Administration assures that federal health care resources are expended effectively to ensure quality, safety, and efficiency. This includes managing health care quality, cost, workload, utilization, and fraud/abuse efforts.
<b>248</b>	Health Care Delivery Services	Health Care Delivery Services provides and supports the delivery of health care to its beneficiaries. This includes assessing health status; planning health services; ensuring quality of services and continuity of care; and managing clinical information and documentation. It can include aid to family with children, immunization programs, and child support enforcement.
<b>249</b>	Health Care Research and Practitioner Education	Health Care Research and Practitioner Education fosters advancement in health discovery and knowledge. This includes developing new strategies to handle diseases; promoting health knowledge advancement; identifying new means for delivery of services, methods, decision models and practices; making strides in quality improvement; managing clinical trials and research quality; and providing for practitioner education.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

251	Staffing and Recruiting	<p>Staffing and Recruiting establishes procedures for attracting and selecting high-quality, productive employees with the right skills and competencies, in accordance with merit system principles. This includes: establishing an applicant evaluation approach (which may include drug and alcohol testing); announcing the vacancy, sourcing and evaluating candidates against the competency requirements for the position; initiating pre-employment activities; and hiring employees.</p>
254	Employee Benefits and Compensation	<p>Employee Benefits and Compensation designs, develops, and implements benefits and compensation programs that attract, retain and fairly compensate agency employees. This Service includes: establishing and communicating benefits programs; processing benefits actions; and interacting as necessary with third party benefits providers. It also includes: developing and implementing compensation programs; administering bonus and monetary awards programs; administering pay changes; managing time, attendance, leave and pay; and managing payroll. In addition, designs, develops, and implements pay for performance compensation programs to recognize and reward high performance, with both base pay increases and performance bonus payments.</p>
255	Employee Performance Management	<p>Employee Performance Management designs, develops, and implements a comprehensive performance management approach to ensure agency employees are demonstrating competencies required of their work assignments. Design, develop and implement a comprehensive performance management strategy that enables managers to make distinctions in performance and links individual performance to agency goal and mission accomplishment. This Service also includes managing employee performance at the individual level and evaluating the overall effectiveness of the agency's employee development approach.</p>
256	Employee Relations	<p>Employee Relations designs, develops, and implements programs that strive to maintain an effective employer-employee relationship that balance the agency's needs against its employees' rights. This Service includes: addressing employee misconduct; addressing employee performance problems; managing administrative grievances; providing employee accommodation; administering employees assistance programs; participating in administrative third party proceedings; and determining candidate and applicant suitability.</p>
257	Separation Management	<p>Separation Management conducts efficient and effective employee separation programs that assist employees in transitioning to non-Federal employment; facilitates the removal of unproductive, non-performing employees; and assists employees in transitioning to retirement.</p>

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>260</b>	Tax and Fiscal Policy	<p>Tax and Fiscal Policy encompasses analysis of the implications for economic growth and stability in the United States and the world of Federal tax and spending policies. This includes assessing the sustainability of current programs and policies, the best means for raising revenues, the distribution of tax liabilities, and the appropriate limits on debt.</p>
<b>263</b>	System and Network Monitoring	<p>System and Network Monitoring supports all activities related to the real-time monitoring of systems and networks for optimal performance.</p>
<b>271</b>	Educational Excellence	<p>Educational Excellence refers to activities undertaken by the US Government to evaluate educational programs, collect data on America's schools, and disseminate information and research</p>
<b>272</b>	Energy Technology Development	<p>Energy Technology Development encompasses the activities that apply the results of scientific research to design, develop, and test new technologies, components, and processes. This service focuses on the development of prototypes and pilots for wide-scale technologies and components that can be mass produced by private-sector partners. The fabrication of one-time components used in very specific research techniques is an activity within the General Sciences and Innovation LOB.</p>
<b>279</b>	Battlespace Networks	<p>Battlespace Networks includes activities that extend "commercial like" IT Infrastructure to meet the connectivity and interoperability needs of deployed and mobile warfighting capabilities. This function focuses on information transport; and computing and enterprise services capabilities for the tactical edge users. It includes tactical edge networks and gateways to enable end-to-end connectivity between battlespace networks and IT infrastructure capabilities.</p>
<b>280</b>	Command and Control	<p>Command and Control includes activities that facilitate the exercise of authority and direction by a properly designated commander or decision maker over assigned and attached forces and resources in the accomplishment of the mission. It includes activities to align or synchronize interdependent and disparate entities to achieve unity of effort, understand information about the environment and situation to aid in decision making, establish a framework and select a course of action to employ resources to achieve a desired outcome/effect; and observe and assess events/effects of a decision.</p>

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>281</b>	Force Application	<p>Force Application includes activities to integrate the use of maneuver and engagement in all environments, to create the effects necessary for achieving DoD mission objectives. Maneuver is the ability to move to a position of advantage in all environments in order to generate or enable the generation of effects in all domain and the information environment. Engagement is the ability to use kinetic and non-kinetic means in all environments to generate the desired lethal and/or non-lethal effects from all domains and the information environment.</p>
<b>282</b>	Protection	<p>Protection involves Citizen Protection, Leadership Protection and Property Protection; it involves all activities performed to protect the general population of the United States, president, vice-president, their families, foreign leaders and dignitaries, and other high-level government officials from criminal activity and entails all activities performed to ensure the security of civilian and government property as well as foreign diplomatic missions.</p>
<b>283</b>	Force Protection	<p>Refers to activities to prevent and/or mitigate adverse effects of attacks on personnel (combatant or non-combatant) and physical assets of the United States, its allies and friends. This encompasses, but is not limited to: air and missile defense operations, strategic nuclear deterrent and prevention of non-kinetic attacks; mitigation of chemical, biological, radiological, nuclear, electromagnetic pulse and other lethal/non-lethal effects; and military support to civil defense activities.</p>
<b>284</b>	Force Training	<p>Force Training includes activities to develop, enhance, adapt and sustain the capacity to perform specific functions and tasks, during and in preparation for wartime and conflicts, in order to improve the individual or collective performance of personnel, units, forces, and staffs. These activities include, but are not limited to, unit force training; and training in operating weapon systems. This does not include general professional development or training.</p>
<b>301</b>	Force Allocation	<p>Force Allocation includes Application and Management; activities to integrate the use of maneuver and engagement in all environments, to create the effects necessary for achieving mission objectives and activities to integrate new and existing human and technical assets from across the Total Force and its mission partners, during and in preparation for wartime and conflicts, to make the right capabilities available at the right time/place to support national security.</p>
<b>302</b>	Nuclear Weapons Stockpile Oversight	<p>Nuclear Weapons Stockpile and Oversight includes all processes around the counting, tracking, transferring, securing, and decommissioning of various weapons that contain nuclear materials.</p>

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>303</b>	Social Security Benefits	Social Security Benefits includes all direct transfers to Individuals and involves the disbursement of funds from the federal government directly to beneficiaries who satisfy federal eligibility requirements with no restrictions imposed on the recipient as to how the money is spent. Purposes include Retirement, Survivors, and Old Age/ Supplemental Security Income (needs-based).
<b>304</b>	Immigration and Naturalization	Immigration and Naturalization includes all activities for tracking and granting of official status on all non-native non-US citizens, including: refugees, naturalized citizens, legal and illegal immigrants.
<b>306</b>	Arms Control	Arms Control includes all activities for managing both legal and illegal weapons in accordance with State, Federal and international law.
<b>308</b>	Environmental Waste Management	Environmental Waste Management includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included.
<b>309</b>	Environmental Site Stewardship	Environmental Site Stewardship supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities at facilities under the stewardship of the Federal Government.
<b>310</b>	Food and Drug Quality and Safety	Food and Drug Quality and Safety assesses quality indicators and safety metrics as a means to protect and promote the health of the general population. This includes monitoring of humans, animals, animal products, and plants, as well as tracking the spread of diseases and pests. Also includes evaluation of food and drug related incidents to assess the potential risks and dangers; education of the consumer and the general population; and facilitation of health promotion and disease and injury prevention.
<b>311</b>	Vocational Rehabilitation	Vocational Rehabilitation includes all activities devoted to providing educational resources and life skills necessary to rejoin society as responsible and contributing members.
<b>312</b>	Navigation	Navigation includes all means for the representation of position information through the use of attributes such as elevation, latitude, and longitude coordinates. This includes land-based and space-based geo-positioning technologies and services.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>313</b>	Population Health Management	Population Health Management assesses health indicators as a means to protect and promote the health of the general population. This includes monitoring of health, health planning, and health management of humans, animals, animal products, and plants, as well as tracking the spread of diseases and pests. Also includes evaluation of consumer products, drug, and foods to assess the potential risks and dangers; education of the consumer and the general population; and facilitation of health promotion and disease and injury prevention.
<b>314</b>	Assistive Technology Services	Assistive Technology Services is composed of hardware and software that help people who are physically or visually impaired, as well as ensuring electronic and information technology is accessible to people with disabilities, including employees and members of the public (i.e. 508 Compliant). This includes developing standards for all electronic and information technology.
<b>315</b>	Threat and Vulnerability Management	Threat and Vulnerability Management involves all functions pertaining to the protection of federal information and information systems from unauthorized access, use, disclosure, disruptions, modification, or destruction, as well as the creation and implementation of security policies, procedures and controls. It includes all risk and controls tracking for IT systems.
<b>316</b>	Continuous Monitoring	Continuous Monitoring includes all activities related to the real-time monitoring of security controls employed within or inherited by a system. (see Appendix G of NIST Special Publication 800-37)
<b>317</b>	Data Integrity and Privacy Management	Data Integrity and Privacy Management involves the coordination of data collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding data management, so that data quality is maintained and information is shared or available in accordance with the law and best practices
<b>318</b>	Business Analytics	Business analytics includes all forms of data analysis of extremely large, complex data sets (big data) that are manipulated for business (mission) consumption.
<b>319</b>	Regulatory Compliance	Activities associated with the direct monitoring and oversight of a specific industry or mission sector participating in a regulated activity including sector specific standard setting/reporting guideline development. Includes activities associated with developing sector specific regulations, policies, and guidance to implement laws to include public comment and tracking, regulatory creation, and rule publication.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>320</b>	Credit and Insurance	<p>Credit and Insurance includes providing protection to individuals or entities against specified risks (The specified protection generally involves risks that private sector entities are unable or unwilling to assume or subsidize and where the provision of insurance is necessary to achieve social objectives), Loan Guarantees and Direct Loans.</p>
<b>321</b>	Regulatory Enforcement	<p>Activities associated with the direct enforcement of a specific industry or mission sector participating in a regulated activity using inspections and auditing. Includes activities associated with developing sector specific regulations, policies, and guidance to implement laws to include public comment and tracking, regulatory creation, and rule publication.</p>
<b>322</b>	Public Communications Infrastructure	<p>Public Communications Infrastructure includes the management and stewardship of a type of information by the federal government and/or the creation of physical communication infrastructures on behalf of the public in order to facilitate communication. This includes management of the nation's spectrum assets.</p>
<b>324</b>	Adjudicate Non-Judicial Requests	<p>Determining the applicability of relevant statute, regulation, standard or policy to a specific individual or organizations actions or requests. Also, adjudicate Non-Judicial Requests includes those activities outside a court of law, such as mediation and arbitration, which may be used in an attempt to settle a dispute between two or more parties (government agency, citizen, or corporation).</p>
<b>325</b>	Information Discovery	<p>Information Discovery consists of all activities used to obtain information that is not readily obtainable. This includes information that is gathered to gain situational awareness. For example, national air surveillance resources that collect, analyze, and disseminate surveillance information about the national airspace.</p>
<b>326</b>	IT System Development / Integration Support	<p>IT System Development / Integration Support includes the software services enabling elements of distributed business applications to interoperate and the software development necessary to facilitate such integration. These elements can share function, content, and communications across heterogeneous computing environments.</p>
<b>327</b>	Enterprise Licenses and Software	<p>Enterprise Licenses and Software includes License Management and Software Distribution; it supports the purchase, upgrade and tracking of legal usage contracts for system software and applications and supports the propagation, installation and upgrade of written computer programs, applications and components.</p>

Business Reference Model v3.1  
Service Codes and Definitions - May 15, 2013

<b>328</b>	Collect Revenues and User Fees	Collect Revenues and User Fees supports activities associated with the collection of money owed to the U.S. government from both foreign and domestic sources. It also involves the collection of fees assessed on individuals or organizations for the provision of Government services and for the use of Government goods or resources.
<b>329</b>	Continuity of Operations	Continuity of Operations involves the activities associated with the identification of critical systems and processes, and the planning and preparation required to ensure that these systems and processes will be available in the event of a catastrophic event and involves the internal actions necessary to develop a plan for resuming operations after a catastrophic event occurs. This can include Contingency Planning, Continuity of Operations and Service Recovery work.
<b>330</b>	Legislative Relations	Legislative Relations involves activities aimed at the development, tracking, and amendment of public laws through the legislative branch of the federal government. It includes tracking, testimony, proposal development and congressional liaison operations.
<b>331</b>	International Security Assistance	International Security Assistance involves activities taken abroad to protect and advance U.S. interests and, if deterrence fails, decisively defeat threats to those interests.
<b>332</b>	Hospital and medical care for veterans	Hospital and medical care for veterans assures that federal health care resources for Veterans are expended effectively to ensure quality, safety, and efficiency and provides and supports the delivery of health care to Veterans.
<b>333</b>	Veteran Benefits and Services	The Veteran Benefits and Services service involves the development and management of retirement benefits, pension benefits, and income security for Veterans.
<b>336</b>	Seized Asset Management	Seized Asset Management involves the seizure, storage, administrative tracking and management of property seized from individuals responsible or believed to be responsible for committing federal crimes.

<b>366</b>	Biomedical Research	Basic, clinical, and translational research concerned with the application of biological, physiological, sociological principles to clinical medicine to improve human health.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>367</b>	International Development	International Development refers to those activities related to the implementation of development assistance programs to developing and transitioning countries throughout the world. Development may include technical assistance (the transfer of knowledge and expertise), and the delivery of equipment, commodities. Humanitarian Aid refers to those activities related to the implementation of humanitarian assistance programs to developing and transitioning countries throughout the world. Aid may include technical assistance (the transfer of knowledge and expertise), and the delivery of equipment, commodities and urgent humanitarian assistance including food aid.
<b>368</b>	Humanitarian Aid	
<b>369</b>	Beneficiary & Earnings Records	Activities related to processing and maintaining life-long earnings records for most of the working population, as well as providing earnings related service to the public. This service provides an estimated amount of benefits, under the current law.
<b>370</b>	Intelligence Strategy and Policy Integration	Intelligence Strategy and Policy Integration refers the set of capabilities that pertain to analyzing and understanding the wants and needs of the enterprise's marketplace – its universe of customers and partners – and planning and executing activities to manage and respond to those wants and needs.
<b>371</b>	Intelligence Lifecycle Planning	Intelligence Lifecycle Planning encompass all the facets of transforming Intelligence Information Needs (IIN) into response plans. This includes developing strategies focused on long-term standing intelligence, information, and data requirements, prioritizing requirements, managing requirements, and the execution of tasking to satisfy these requirements. It also includes all facets of pre-mission and postmission assessment.
<b>372</b>	Intelligence Collection Tasking	Intelligence Collection Tasking defines a set of services that are focused on determining the intelligence, information, and data assets required to satisfy needs, and prioritizing and assigning those assets to satisfy intelligence strategy, plans, and/or needs.
<b>373</b>	Intelligence Target Collection	Intelligence Target Collection defines a set of services that are focused on the acquisition and provisioning of multi-int data to processing elements in support of intelligence, information, and data needs.
<b>374</b>	Intelligence Holdings Processing	The Intelligence Holdings Processing defines a set of services that are focused on the manipulation and assessment of tangible and/or non-tangible assets, prior to disposition for storage, of intelligence holdings.

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>375</b>	Intelligence Holdings Ingest and Storage	Intelligence Holdings Ingest and Storage defines a set of services that are focused on an organization's ability to identify, acquire, implement storage strategies, extract entities, tag, and incorporate previously collected holdings.
<b>376</b>	Intelligence Holdings Analysis	Intelligence Holdings Analysis defines a set of services associated with operations focused on the review and synthesis of intelligence holdings data and information.
<b>377</b>	Intelligence Product Production	Intelligence Product Production defines a set of services that are focused on the selection, collation, and tailoring of Data, Information, Knowledge, and Intelligence (DIKI) to produce products to satisfy the specific needs of customers and the Community.
<b>378</b>	Intelligence Data Access and Delivery	Intelligence Data Access and Delivery defines a set of services associated with the operations focused on distributing and disseminating data and information to enterprise practitioners, customers, and other external stakeholders.
<b>379</b>	Special Intelligence Activities	Special Intelligence Activities refers a set of services that are focused on activities uniquely conducted by an agency or cooperatively among agencies in support of national interests. It includes but not limited to all planning, collection, processing, analysis, production and dissemination of contrary intelligence.
<b>381</b>	Community Deployed Resources	Community Deployed Resources are focused on planning and providing deployed personnel and technology resources to the customer base of the enterprise as needed.
<b>382</b>	Compliance and Enforcement of Government Health Regulations	The compliance and enforcement of government health regulations supports the periodic verification and compliance of establishments, products, retail sales activities, and import activities. Medical products include Pre-market and post-market activities with establishment inspections, product sampling, quality reporting and enforcement actions.
<b>383</b>	Healthcare Needs of Special Populations	Healthcare Needs of Special Populations involves the research, discovery, and testing of products and devices for the needs of special populations. It also includes supporting dialogues and publication of information related to this healthcare needs.
<b>384</b>	Preparation against threats of Bioterrorism, Pandemic and Emerging Infectious Diseases	Preparation against threats of Bioterrorism, Pandemic and Emerging Infectious Diseases involves the activities to identify serious and time-critical product safety concerns related to Government regulated products and the nation's food supply and managing (including coordinating and communicating) emergency response activities.

Business Reference Model v3.1  
Service Codes and Definitions - May 15, 2013

<b>385</b>	Access to Safe and Efficacious medical products	Access to Safe and Efficacious medical products involves the management and execution of the evaluation processes for medical products. This includes product formulation, ingredient and constituent content, product labelling and proposed advertising.
<b>386</b>	Global Supply Chain Safety - Foods and Regulated Products	Global Supply Chain Safety - Foods and Regulated Products involves the monitoring and evaluation of foods and regulated products associated with a global supply chain for food and medical products.
<b>517</b>	External Partner Relationship Management	Provides a framework to promote the effective collaboration between an organization and its business partners, particularly members of the distribution chain (e.g., channel and alliance partners, resellers, agents, brokers, and dealers) and other third parties that support operations and service delivery to an organization's customers; includes performance evaluation of partners, if necessary
<b>518</b>	Customer Feedback	Collect, analyze and handle comments and feedback from an organization's customers, both before and after a product or service is offered.
<b>530</b>	Process Tracking	Defines the set of capabilities to manage business processes, including business process mapping, remapping, reengineering, and business process improvement efforts.
<b>531</b>	Case Management	Manages the lifecycle of a particular claim or investigation within an agency to include creating, routing, tracing, assigning, and closing of a case. Includes the monitoring of activities within the business cycle and supporting the conclusion of contention or differences within the business cycle.
<b>533</b>	Correspondence Management	Correspondence Management is the set of capabilities used to manage externally initiated and internally initiated communication between an organization and its stakeholders.
<b>538</b>	Program / Project Management	Defines the set of capabilities to manage and control a particular effort of an organization. This includes project planning and resource allocation, requirements management, risk management, quality control, communications, and reporting.
<b>546</b>	Portfolio Management	Defines the set of capabilities to support the administration of a group of investments held by an organization

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

547	Performance Management	Defines the set of capabilities to measure the effectiveness of an organization's financial assets and capital. This can include Corrective Action, Program Evaluation, and Program Monitoring. Includes Program Performance Assessments, Government Performance Results Act (GPRA) plans and reports, performance-based agency budget submissions, and Financial Management Cost Accounting and Performance Measurement data.
576	Knowledge Capture	Defines the set of capabilities to facilitate collection of data and information
577	Knowledge Distribution and Delivery	Defines the set of capabilities to support the transfer of knowledge to the end customer.
590	Mapping / Geospatial	Provide for the representation of mapping and geospatial information through the use of attributes such as zip code, country code, elevation, natural features and other spatial measures.
592	Data Mining	Defines the set of capabilities to provide for the efficient discovery of non-obvious, valuable patterns and relationships within a large collection of data
601	Data Exchange	Supports the interchange of information between multiple systems and applications; includes verification that transmitted data was received unaltered.
603	Data Warehouse	Defines the set of capabilities to support the archiving and storage of large volumes of data
604	Meta Data Management	Support the maintenance and administration of data that describes data
608	Data Recovery	Defines the set of capabilities to support the restoration and stabilization of data sets to a consistent, desired state
613	Time Reporting	Defines the set of capabilities to support the submission, approval and adjustment of an employee's hours
618	Employee Development and Training	Employee Development and Training designs, develops, and implements a comprehensive employee development and training approach to ensure that agency employees have the right competencies and skills for current and future work assignments. This includes conducting employee development needs assessments; designing employee development programs; administering and delivering employee development and training programs; and evaluating the overall effectiveness of the agency's employee development approach.
624	Payroll	Defines the set of capabilities to involve the administration of employees compensation
644	Workforce Directory / Locator	Defines the set of capabilities to support the listing of employees and their whereabouts

Business Reference Model v3.1

Service Codes and Definitions - May 15, 2013

<b>648</b>	Identification and Authentication	Defines the set of capabilities to support the management of permissions for logging onto a computer, application, service, or network; includes user management and role/privilege management. This includes Identification and Authentication for digital signatures
<b>650</b>	Cryptography	Defines the set of capabilities to support the use and management of ciphers, including encryption and decryption processes, to ensure confidentiality and integrity of data
<b>654</b>	Incident Response	Defines the set of capabilities to provide active response and remediation to a security incident that has allowed unauthorized access to a government information system
<b>655</b>	Audit Trail Capture and Analysis	Defines the set of capabilities to support the identification and monitoring of activities within an application, system, or network
<b>656</b>	Certification and Accreditation	Defines the set of capabilities to support the certification and accreditation (C&A) of federal information systems, as described in NIST SP800-37.
<b>659</b>	Email	Defines the set of capabilities to support the transmission of communications over a network. Includes instant messaging
<b>661</b>	Document Management and workflow	Defines the set of capabilities to support the creation, use, archiving and deletion of unstructured data. This includes the set of capabilities to support the design, generation and maintenance of electronic or physical forms and templates
<b>673</b>	Community Management	Defines the set of capabilities to support the administration of online groups that share common interests
<b>675</b>	Voice Communications	Defines the set of capabilities to provide telephony or other voice communications
<b>678</b>	System Resource Usage	Support the balance and allocation of memory, usage, disk space and performance on computers and their applications.
<b>680</b>	Issue Tracking	Defines the set of capabilities to receive and track user-reported issues and problems in using IT systems, including help desk calls
