# UNIVERSITY OF MUMBAI

The University of Mumbai, known earlier as University of Bombay is amongst the first three universities established in India in 1857 by the then British Government.

The Rajabai Tower library building of the university is a two storeyed structure, built in Gothic Revival style. The building is considered not only as university's pride, but pride for the city of Mumbai for its architectural beauty. It is enriched with the rare books, manuscripts, personal collections, letters, diaries of eminent thinkers and educationalists.

The growing collection of the university library and the demands of the patron resulted into the construction of a new building at the Kalina campus which is named as Jawaharlal Nehru Library. Presently it has a collection of more than 8 lacs of monographs in almost all the major languages,

The Department of Library and Information Science, University of Mumbai was established in the year 1943. It is one of the early departments in the country to start formal Library Science Education. The former Diploma Course was changed to degree as Bachelor of Library Science in 1964. The Master in Library Science was introduced in 1968. The nomenclature changed to Library and Information Science in the year 1996. The Department has produced some of the finest library professionals in the country who have made outstanding contribution to the profession. Currently it conducts Master of Library and Information Science and Ph. D courses.

## Introduction

Koha and E-granthalaya are Open Source software for Integrated Library Management Systems which offers full featured ILS including OPAC, circulation, cataloging, acquisitions, serials control etc. These software are used worldwide by universities, public, school and special libraries. This workshop will provide practical training and theoretical aspects of Koha and E-granthalaya.

## Objectives

- To familiarize the participants with the basics and working of Koha and E-granthalaya
- To give hands on experience using Koha and E-granthalaya
- To discuss the opportunities and challenges faced while using KOHA and E-granthalaya
