Coastal Habitat Restoration

The Coastal Resources Management Council (CRMC) works to protect and restore coastal ecosystems of the state. This goal is accomplished through the Coastal and Estuary Habitat Restoration Program and Trust Fund. With a maximum annual funding allocation of $225,000, the Trust Fund supports projects that primarily propose on-the-ground restoration work. To maximize impact in restoring ecosystems, CRMC strives to fund projects that demonstrate other sources of funding (leveraging), thereby increasing the number of sites and/or acres being restored in the state. The figures below represent the number of acres of coastal habitat restored.

Timeliness of Formal Application Processing

Formal applications are those subject to judicial or open meeting legal processes (e.g., formal comment periods, hearing schedules, contested cases, etc.) that impact CRMC's ability to control the review period for this subset of applications. CRMC's standard for formal activity application review times is ninety days to six months (90-180 days), and includes those activities for which a 30-day public comment period is required. The figures below represent the average processing time for formal applications in days.

Timeliness of Administrative Application Processing

CRMC works to efficiently process applications for activities within its jurisdiction. The majority of these applications are categorized as administrative. In an effort to gauge its responsiveness to the public, CRMC tracks the average turnaround time from CRMC's receipt of an application to assent issuance. CRMC's target for administrative activity application review is two weeks to two months (14-60 days), depending on the type of application. The figures below represent the average processing time for administrative applications in days.
