

# **Greta Thunberg**

**By Hector I**

**Greta Thunberg is a Swedish environmental activist who is known for challenging World leaders to take immediate action for Climate Change. She is a huge inspiration to me, and a major reason I feel able to speak up for myself and others my age. She's a huge inspiration because like myself, Greta is a young adult and has made herself heard on one of the most controversial topics at the moment, which is Climate Change. The way I see it, if Greta can do it, I can too. She began her advocacy journey at the age of 15, which is the age I am right now. She began at a young age and made it really far. I want to start my journey as well here in my community, Queens, North Corona. Actions I am going to continue doing is picking up after my dog, and putting my neighbor's and I's garbage in the designated trash bins. I will also continue to use renewable resources such as solar energy.**
