

GLOBAL FOCAL POINT FOR THE RULE OF LAW (GFP)

A JOINT ARRANGEMENT FOR RULE OF LAW DELIVERY IN CRISIS SITUATIONS

February 2019

A COORDINATED UN APPROACH TO THE RULE OF LAW

The Global Focal Point for the Rule of Law (GFP) is a United Nations platform co-chaired by DPO and UNDP that is designed to strengthen the provision of rule of law assistance **to address and prevent violent conflict, to protect human rights and to restore justice and security for conflict-affected people.** The GFP is a field-focused arrangement that enables United Nations entities, including UNODC, UNHCR, OHCHR, EOSG, UN Women and others, to jointly pursue shared objectives, in accordance with their mandates and capacities. GFP partners promote United Nations norms and standards, including **gender mainstreaming and human rights-based approaches.**

GFP coordinating platforms and working group arrangements are established both at Headquarters and in the field to increase United Nations coherence, align strategies and programs with national development plans, serve as a single entry-point for host governments, and to achieve better results drawing on the expertise of the contributing agencies.

Through joint assessments, planning, and programming, the GFP arrangement has been supporting a coordinated UN approach to rule of law assistance, relying primarily on voluntary funding and striving to **increase impact and results** by:

PEACE OPERATION SETTINGS

CENTRAL AFRICAN REPUBLIC

GFP partners jointly support the restoration of criminal justice and security institutions, including the **operationalization of the national Special Criminal Court**. These efforts support the extension of state authority, the fight against impunity and the effectiveness of the criminal justice system. At Headquarters, GFP partners provide support to the Reference Group on the rule of law and the fight against impunity in CAR, chaired by Morocco, to garner political and financial support for the Special Court and other rule of law initiatives.

DEMOCRATIC REPUBLIC OF CONGO

GFP partners' assistance to the **Prosecution Support Cells (PSC)** accelerated trials in the military justice system. The assistance of PSC have resulted in the conviction of 990 perpetrators, including 507 Forces Armées de la RDC officials and 483 armed groups members and civilians. More female magistrates were deployed to the eastern part of the country in 2017. A total of 1,726 cases of sexual and gender-based violence were registered and 643 judgments were delivered, resulting in the convictions of senior militia members for rape and sexual slavery.

TRANSITION SETTINGS

HAITI

The GFP **joint rule of law programme** aims to:

- Enhance public security via support to the police,
- Promote a more effective and transparent justice system,
- Improve access to justice and enhance the prison administration.

During transition periods, GFP partners have provided **integrated support** to ensure that the vital gains in the areas of police, justice and corrections are sustained and that development priorities are advanced jointly.

LIBERIA

GFP partners **successfully supported the transition process** from UNMIL to UN Country Team partners that are now implementing a well-resourced joint rule of law programme. As UNMIL was closing, the GFP arrangement was instrumental in developing the **joint rule of law programme** which ensured that the UN effectively sustained capacity development support. The programme moves Liberia towards development through access to justice initiatives and community security services for the Liberian People (2016-2019).

PREVENTION/SUSTAINING PEACE SETTINGS

ETHIOPIA

Under the framework of the GFP arrangement, police capacity from DPO's Standing Police Capacity was deployed to the Gambella region in Ethiopia. The outcome of this exercise will feed into a joint project that aims to **enhance the provision of rule of law to refugees** from South Sudan and their host communities in the Gambella region. The joint endeavour was initiated by UNHCR and UNDP with support of UN Women and UNICEF.

THE GAMBIA

The UN, through the GFP and SSR Task Force, supported the country to complete a government-led and inclusive **SSR assessment**. The assessment successfully laid the foundation for developing a national Security Sector Reform Policy, and subsequently a **security strategy** to address existing gaps. The UN support is designed to connect and sequence implementation of SSR reforms with transitional justice, access to justice, human rights and conflict prevention efforts.
