

Improvement

Current Spec Reader External views have been redesigned

Last Updated: Nov 20, 2023 2:35 PM

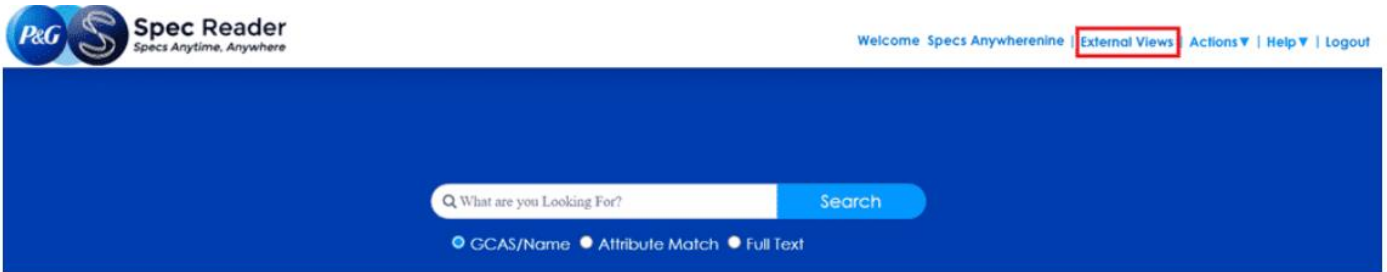

➔

Changes Description

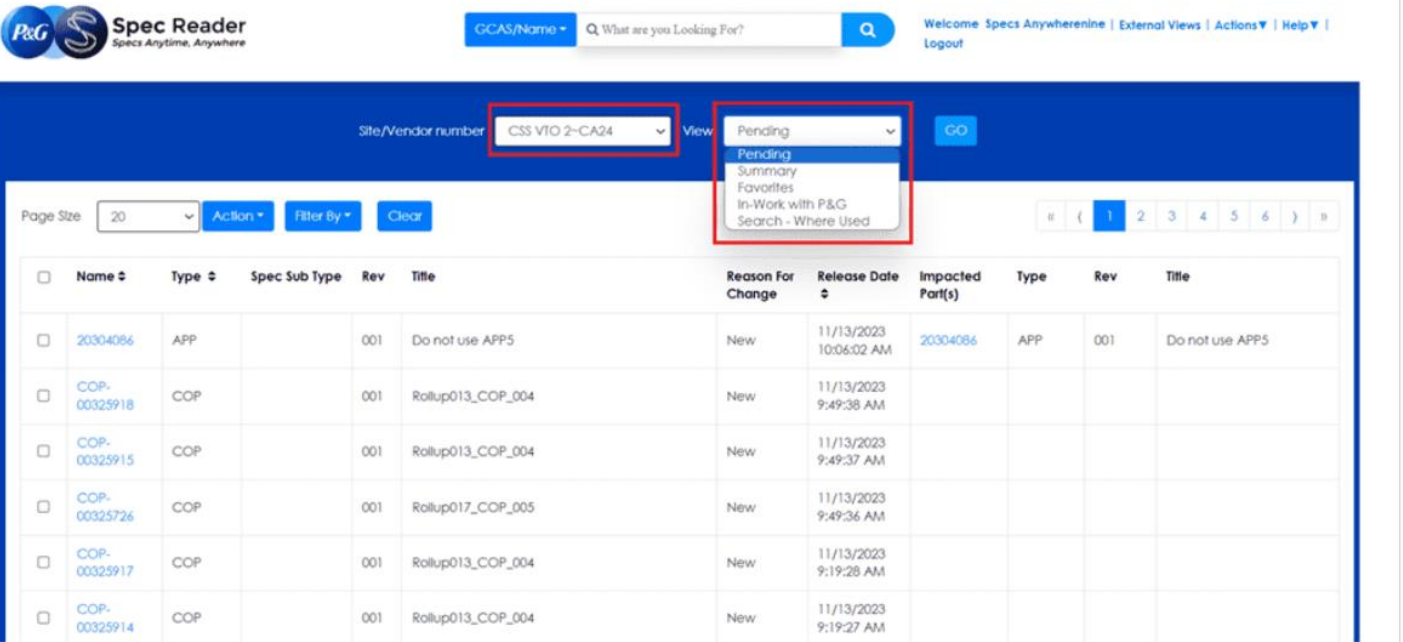

Benefit: Spec Reader’s External Views have been re-designed to turn the External experience into an area to efficiently manage their parts.

Change: Provides the ability to identify the parts which have been modified and/or impacted by a change. They can manage and move parts within their views, and send questions to their P&G Contact, or search where the part is used.

[Want to see what this will look like?](#)

- Users can select from 5 different Views – Pending, Summary, Favorites, In-Work with P&G, and Search – Where Used
- Pending View is loaded by default, for the Site/Vendor. Parts are listed in chronological order of Release Date.
- All Views except Search – Where Used has an option to export the results.

Pending View

- Pending View displays parts that are reset to Pending in the current month, by default.
- Impacted Part(s) columns display details of parts impacted by the reset to Pending part. A maximum of 5 parts is displayed in Views’ tables. More Impacted parts can be viewed in the Search – Where Used View.

- Action provides user with the capability to move single/multiple parts to Summary, Favorites or In-Work with P&G.
- Parts moved to Summary and/or Favorites indicate they are Accepted by the Site/Vendor and are removed from the Pending View.
- Move to In-Work with P&G action provides the user with the capability to email their P&G Contact(s) with any questions they have regarding the selected parts. Parts will continue to remain in Pending View when Move to In-Work with P&G is selected.

Summary View

- Summary View displays parts that have been Accepted.
- Actions in Summary View include Move to Favorites and Move to In-Work with P&G.
- Parts moved to Favorites View shall continue to remain in Summary View.
- If "Move to In-Work" with P&G action is selected, the parts are removed from Summary and/or Favorites Views and moved to Pending and In-Work with P&G Views. Email option is provided to communicate with P&G Contact(s).

Favorites View

- Favorites View displays parts that have been Accepted and moved from Pending or Summary Views.
- Remove from Favorites action shall remove the selected parts from Favorites View. Parts removed from the Favorites View shall continue to remain in the Summary View.
