

Video: There's gold in seawater! Can we extract It?

November 15 2021

Credit: The American Chemical Society

The ocean has about 20 million tons of gold in it—that's around 700 TRILLION DOLLARS worth of gold!

In this episode of *Reactions*, we explore how, for over a century, people have struggled to collect it.

And we see if, where they failed, we can succeed:
