

Funding Request - Advanced Theoretical Physics Fund

The Advanced Theoretical Physics Fund (ATPF) supports activities in all areas of theoretical physics in the UF Physics Department. It may potentially fund visiting faculty and researchers, workshops, or lecture series, as well as other programs that advance new ideas, international collaborations and/or the participation of underrepresented groups in theoretical physics. The fund does not support graduate or undergraduate students. To make a request for ATPF support, provide the details below and submit the form to the ATPF Committee Chair. The committee will review the request and make a recommendation to the department chair. This form must be completed and signed before any ATPF funds are committed or expended.

Your name(s):

Title of proposed activity:

Proposed dates (approximate):

Brief description of activity:

Funds requested from ATPF:

Other sources of funding sought or anticipated, and amounts pledged or requested (specify):

Comments and recommendation from ATPF Committee:

Approvals:

Chair of ATPF Committee

Physics Dept Chair
