

These results are based on responses from 1,001 Americans collected between August 17th and August 21st via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.

These results are based on responses from 1,651 Americans collected between August 17th and August 21st via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.
