

QB3 MacroLab Pricing Information

MacroLab Project Costs (updated August 2nd 2019)	UC Rate *
LIC Cloning (96-well format)	\$2,039.00
LIC Cloning (each, up to 24 samples)	\$200.00
<i>E. coli</i> protein expression testing (96-well format)	\$1,000.00
Protein purification (2 L <i>E. coli</i>)	\$746.00
Cas9-NLS purified protein (2.5 mg)	\$130.00
TEV protease (40 mg)	\$300.00
Phusion polymerase (500 µl, for 1000 reactions)	\$50.00
Competent cells (96 tubes; see our website for available strains)	\$100.00
Cloning master mixes: Gibson (without ligase), LIC, SLIC (100 tubes per box)	\$64.00
MacroLab plasmids (10 µl aliquot). See our website for list of available plasmids	\$10.00
Single protein expression testing/optimization (<i>E. coli</i> only)	\$300.00
Shipping (dry ice)	\$52.00
Custom work (hourly charge)	\$60.00

* **UC Affiliates (such as LBNL) add 9.9% to the UC rate.**
Most services also available to non-UC labs. Please contact us for a quote.
