

JOIN NOAA RESEARCH! STUDENT OPPORTUNITIES

PATHWAYS PROGRAMS

The Pathways Programs is an opportunity for students and recent graduates to join Federal Service through the Internship Program, Recent Graduate Program, and Presidential Management Fellows Program. Participants who complete the requirements for their program may be eligible to be non-competitively converted to a permanent position. The opportunities are shared through USAJOBS.

EPP/MSI SCHOLARSHIP PROGRAM

The NOAA Educational Partnership Program (EPP) with Minority Serving institutions (MSI) Undergraduate Scholarship provides an opportunity for undergraduate students to study a wide range of STEM and social science disciplines related to NOAA's mission and objectives. Appointment as an EPP/MSI scholar involves full-time study during the 9-month academic year, an 11-week internship during the first summer at NOAA headquarters in Silver Spring, MD and, if reappointed, fulltime study during a second 9-month academic year and a second 10-week summer internship.

WILLIAM M. LAPENTA STUDENT INTERNSHIP PROGRAM

This program is targeted towards current 2nd and 3rd year undergraduate and enrolled graduate students to work in areas that will provide robust research and/or operational experience that will prepare the student for further study in NOAA fields, for application to fellowships, or for the NOAA-mission workforce.

ERNEST F. HOLLINGS UNDERGRADUATE SCHOLARSHIP

NOAA's Ernest F. Hollings Undergraduate Scholarship recognizes outstanding students studying in NOAA mission fields. Scholars receive up to \$9,500 per academic year to support their studies, as well as paid summer internship opportunities at NOAA facilities across the U.S.

ABOUT NOAA RESEARCH

The Office of Oceanic and Atmospheric Research (OAR) - or "NOAA Research" - provides the research foundation for understanding the complex systems that support our planet. Working in partnership with other organizational units of the NOAA, a bureau of the Department of Commerce, NOAA Research enables better forecasts, earlier warnings for natural disasters, and a greater understanding of the Earth. Our role is to provide unbiased science to better manage the environment, nationally, and globally.

NOAA RESEARCH WORKFORCE

- Oceanography
- Meteorology
- Physical Science
- Program and Office Support
- Budget/Finance
- Human Resources
- Logistics/Safety
