

# Landing Zone Services

Do you have a need to move data quickly from where you have it to a modern cloud platform? We have a solution that gets you there fast! Many organizations have varying data needs, and the complexities involved can sometimes feel paralyzing. However, if you need to move data to a cloud without any transformations to gain all the efficiencies—such as low infrastructure, high compute and a secure environment—our Landing Zone Service offers immediate value!

Pythian's Landing Zone Service allows you to shift data to the cloud platform of your choice to address your analytics needs with architecture that allows you to point to your data and a pipeline that seamlessly picks up the data and lifts it to the cloud.

## Lift your data into the cloud quickly!

Our Landing Zone Service is tailored to get you working on data insights rather than worrying about how. You tell us what you want moved; we get the data in the cloud within two weeks.

**The Landing Zone Service** includes:

This service lands your data on a data lake within a cloud platform so you can perform relevant analytics deployed as Infrastructure as Code (IaC).

- Addresses the need to move data to the cloud where there is no need for data transformation
- Applies a standard set of identity and access management (IAM or IdAM) permissions
- Allows you to modify infrastructure as needed

## Key Outcomes

- Place identified data in a modern cloud platform
- Secure data with blanket permission level
- Receive full handover documentation with recommendations

With Pythian's focus on achieving business outcomes, all stakeholders in your initiative will realize benefits:

- **Executive leadership:** As an organizational leader responsible for crafting a technology roadmap for data-driven solutions, you can get started with arriving at insights that drive business outcomes.
- **Business user/domain expert:** Land on business outcomes faster while staying aligned with strategy and business direction.
- **Data scientist/analytics user:** Get the appropriate tools to further drive insights and remove prior barriers.
