Values:

We believe in a fair distribution of the benefits and costs of resource use and environmental protection.

We believe that individuals have the inherent right to achieve their highest potential in a personal and communal sense. Further, every individual commands intrinsic social value, contributes uniquely to the community and has the right to make choices based upon their individual needs, while respecting the needs of others.

We believe all people have the right to respect, dignity and privacy.

We believe in the interdependency of all members and systems of a community.

We value the strength and opportunity that come from our diverse community.

We promote social inclusion.
