

DES MOINES REGISTER/NBC NEWS/MEDIACOM IOWA POLL

Study #2270
 406 likely Republican caucusgoers
 Margin of error: ±4.9 percentage points

SELZER & COMPANY
 August 13-17, 2023
 2,953 registered voter contacts weighted by
 age, sex, and congressional district

Results may not add to 100% due to rounding.

First, how likely is it you will attend the Republican party caucuses scheduled for next January—will you definitely attend, probably attend, might or might not attend, or probably not attend?

Rep CGs

- 50 Definitely attend Republican caucus
- 50 Probably attend Republican caucus
- n/a Might or might not attend Republican caucus
- n/a Probably not attend Republican caucus
- n/a Not sure

Have you in the past attended party caucuses to show your preference for presidential candidates, or would this be your first time to participate? **(If attended in the past, ask:)** Was that a Republican caucus, a Democratic caucus, or both?

	Among likely Republican caucusgoers				
	Attended Republican caucus in the past	Attended Democratic caucus in the past	Attended both	First caucus	Not sure
Aug-23	60	8	11	19	1

For each of the following people, please tell me if your feelings are very favorable, mostly favorable, mostly unfavorable, or very unfavorable. If you don't know enough about the person to answer, just say so. **(Record "don't know" as "not sure." Rotate list.)**

	Jan-15	26	68	4	22	36	32	6

Which one of the following Republicans would be your first choice for president? **(Read list and rotate.)**
 And who would your second choice be? **(If None of these or Not sure in First choice question, record “No first choice” in Second choice question and do not ask. Read list only if necessary.)**
(Ask all.) I’m going to read the list one more time, excluding any names you may have already mentioned. This time, please tell me if the person is someone you are actively considering or not. Just answer yes or no. **(Read list, excluding answers to First choice and Second choice. Mark all yeses.)**

	Q.4a First Choice	Q.4b Second Choice	Q.4c Actively Considering	Footprint (Combined Q.4)
Among likely Republican caucusgoers				
Ryan Binkley	-	-	6	7
Doug Burgum	2	3	18	23
Chris Christie	5	5	11	21
Ron DeSantis	19	20	22	61
Larry Elder	-	1	14	15

Francis Suarez	-	-	4	5
Donald Trump	42	10	12	63
None of these (VOL)	2	7	22	3
Not sure	5	4	1	n/a
No first choice	n/a	7	n/a	n/a

(Asked only of those with a first-choice candidate, but based on all.) Would you say your mind is made up to support [CANDIDATE NAMED AS FIRST CHOICE] or could you still be persuaded to support another candidate as your first choice?

Rep CGs n=406 ±4.9% pts	Trump supporters n=173 ±7.5% pts	DeSantis supporters n=70 ±11.8% pts	
40	66	31	Mind is made up
52	34	69	Could be persuaded
1	-	-	Not sure
7			No first-choice candidate

In selecting a presidential nominee for the Republican Party, which of the following is most important to you? **(Read items. Rotate.) (If both, ask:)** And, if you had to choose just one, which of the following is most important to you? **(REPEAT CHOICES.)**

	Among likely Republican caucusgoers				
	A candidate who comes closest to your views on issues	A candidate with the best chance to defeat Joe Biden	Both (VOL)	None/other (VOL)	Not sure
Aug-23	65	29	5	1	1

ABOUT THE POLL

The Iowa Poll, conducted August 13-17, 2023, for *The Des Moines Register*, NBC News, and Mediacom by Selzer & Co. of Des Moines, is based on telephone interviews with 406 registered voters in Iowa who say they will definitely or probably attend the 2024 Republican caucuses.

Interviewers with Quantel Research contacted 2,953 randomly selected voters from the Iowa secretary of state's voter registration list by telephone. The sample was supplemented with additional phone number lookups. Interviews were administered in English. Responses for all contacts were adjusted by age, sex and congressional district to reflect their proportions among voters in the list.

Questions based on the sample of 406 voters likely to attend the 2024 Iowa Republican caucuses have a maximum margin of error of plus or minus 4.9 percentage points. This means that if this survey were repeated using the same questions and the same methodology, 19 times out of 20, the findings would not vary from the true population value by more than plus or minus 4.9 percentage points. Results based on smaller samples of respondents—such as by gender or age—have a larger margin of error.
