

Student-Athlete Health Insurance Information

University of the Pacific mandates health insurance for all full-time students. Students with existing insurance coverage may complete a waiver to avoid charges associated with the University of the Pacific Student Health Insurance Plan. Students without another form of medical insurance are automatically enrolled in the University of the Pacific Student Health Insurance Plan. The cost for the University of the Pacific Student Health Insurance Plan is \$789 per semester during the 2012-2013 academic year.

Pacific Athletics does not guarantee payment for student-athletes who are enrolled in the University of the Pacific Student Health Insurance Plan. Student-athletes are encouraged to apply for NCAA Assistance Funds to assist with this expense by contacting the Assistant Coordinator of Academic Achievement.
