

European School Education Platform

Digital skills are essential to everyday life, but did you know that at least one third of European learners lack basic digital skills? Digital education is the vehicle to master technology and ensure greater inclusivity, innovation and higher quality. Therefore, helping teachers and institutions equip learners with digital skills is a key priority across the European Union. To make this a reality, the European Commission adopted a comprehensive digital education and skills package that consists of two proposals for a Council Recommendation. [Learn more about them in our article.](#)

Content by the latest focus areas

Parental engagement

Parental engagement in education can positively influence pupils' well-being and enhance their academic performance, therefore it is important to [overcome common barriers](#) that may exist. A strong school-home connection benefits all learners, but it is especially important in the case of [children with special educational needs](#) and children of [migrant and refugee families](#). Examples and inspiration on how to spark and build stronger parental involvement are offered by [parent-led programmes](#),

various [national and European projects](#) and the latest [interview with Alison Micklem](#).

Don't miss the [tutorial with ideas and resources](#) to further engage parents, [tips to foster better dialogue](#) with families and the selected publications: [Spotlight on Parental engagement](#) (HundrED) and [Parental involvement, engagement, and partnership in their children's education during their primary school years](#).
