

**STRENGTHENING YOUTH
THROUGH EXPLORING™**

LAW ENFORCEMENT

WHAT IS EXPLORING™

Exploring is all about helping young men and women in sixth grade through 20 years old to make a more informed decision about future careers and determine if a particular career is the right one for them. Typically, a young adult will either: 1) get involved, learn about a career, and decide to pursue it; OR 2) learn enough about the career to determine it's not the right fit for them. It's better to learn as a young adult that a career is not for you, than after spending lots of money on an education only to THEN discover you don't like the career!

Exploring leaders volunteer their time to provide real-world career experiences for young adults. Exploring is not about lectures and slide shows—it's about gaining practical experience in a career field. The result is a program of activities that helps youth pursue their special interests, grow, and develop.

LAW ENFORCEMENT

Exploring builds positive relationships in society and consistently guides people to work together for the good of their communities. Respectful interactions through the Exploring program help law enforcement and community members establish mutual trust and cooperation—key elements of community policing.

The program introduces young people to potential careers in law enforcement or related criminal justice fields. It also helps them grow in strength of character, respect for the rule of law, physical fitness, good citizenship, and patriotism. Through Exploring, young citizens gain an understanding of procedural justice while members of law enforcement gain a better understanding of the communities they serve.
