San Francisco & San Luis Obispo
Spring & Summer 2024

FTF Engineering is a successful, growing structural and civil engineering firm with an upbeat, proactive, staff-oriented culture. Our clients include award-winning architects and respected organizations across California. We specialize in unique and challenging projects including custom single-family homes, multifamily and mixed-use projects, commercial and institutional projects, seismic evaluation and retrofits and construction means and methods. Our offices are located in San Francisco and San Luis Obispo.

Why FTF?

- FTF is a first-generation practice providing opportunities for career development and firm leadership.
- As an ambitious and growth-oriented practice, our designers and engineers are exposed to a variety of project types as well as a wide range of responsibilities.
- Our team members are empowered to be leaders in our profession. FTF actively promotes professional development by subsidizing licensing exams, memberships to professional organizations, seminars, and classes.
- FTF - "For The Family" - supports work-life balance. We understand the demands of projects, clients, and deadlines. We also value the need for quality time outside the office.
