

Who We Are

As the only provider of converged endpoint management (XEM), Tanium is the reference platform of choice to manage complex security and technology environments.

Only Tanium protects every endpoint from cyber threats by integrating workflows across IT, Risk, Compliance, and Security into a single platform that delivers comprehensive visibility across devices, a unified set of controls, real-time remediation, and a common taxonomy for a single shared purpose: to protect critical information and infrastructure at scale.

Customers around the world trust Tanium to protect people, defend data, and secure systems. That's the power of certainty.

Corporate social responsibility

Giving back is essential to Tanium's mission. By donating 2% of our time and 2% of our profits every year, we are building the future of tech talent and supporting vibrant communities where we live and work.

Many of the organizations we support create equitable access to STEM education for underserved and at-risk populations. Additionally, every Tanium employee receives five days of volunteer time off (VTO) to contribute to the missions they care about most, and our remote-first policy allows us to increase energy efficiency, reduce our carbon footprint, and decrease hazardous waste and emissions everywhere we operate.

Tanium, the industry's only provider of converged endpoint management (XEM), is the reference platform of choice to manage complex security and technology environments. Only Tanium protects every endpoint from cyber threats by integrating workflows across IT, Risk, Compliance, and Security into a single platform that delivers comprehensive visibility across devices, a unified set of controls, real-time remediation, and a common taxonomy for a single shared purpose: to protect critical information and infrastructure at scale. Tanium has been named to the Forbes Cloud 100 list for seven consecutive years and ranks for the second consecutive year on the Fortune 100 Best Companies to Work For. In fact, more than half of the Fortune 100 and the U.S. Armed Forces trust Tanium to protect people; defend data; secure systems; and see and control every endpoint, team, and workflow everywhere. That's The Power of Certainty. Visit us at www.tanium.com and follow us on [LinkedIn](#) and [Twitter](#).
