# Smart Air Air Quality Monitors

### Qingping Pro Air Quality Monitor

### 6-in-1 Monitoring

Monitor your indoor air quality and environment with the QP Lite's 5 x built in sensors. Measure PM2.5, PM10, tVOC,  $CO_2$ , humidity and temperature.

### **Retina Display**

View your indoor air quality in real-time with the high-grade, retina display. No more fumbling for buttons, the touch display makes navigating easy.

### **Two-tone Design**

Take your pick: pure-white or matte-black. The QP Pro's high-precision aluminium shell gives it a superior, high-quality feel.

### Say Hi! to Clean Air

Wake up and plan your day with just one glance. The QP Pro features on-screen pollution and weather forecasts, UV index and date and time display, all in one place.

# **Monitor Your Air Remotely**

The Wi-Fi connected QP Pro allows you to monitor your air quality anywhere, anytime. Access historical trends and view air pollution forecasts.\*

## **Unparalleled Performance**

Reliable, high-accuracy sensors, backed by open-data from Smart Air.

# Smart Air CO2 Air Quality Monitor

### 3-in-1 Monitoring

Monitor your indoor air quality and environment with the Smart Air CO2's built-in high accuracy sensors from Sensirion. Measure CO<sub>2</sub>, humidity and temperature.

### **Wi-Fi Connectivity**

The product connects to the network and uploads data periodically or when triggered by over-limit conditions.

Up to 2,880 sets of data can be saved locally. This comprises of 30 days of data, with recording intervals of 15 minutes.

### Works with Qingping IOT

A platform for device-management, data collection and real-time alerting services of Qingping commercial products.

# Long-lasting Rechargeable Battery

Stay connected all day with our high-capacity rechargeable battery.

### **Effortless Mounting**

Transform your space effortlessly with our monitor's convenient wall-mounting feature. With the adhesive hook and a built-in hanging hole on the back, installation is a breeze.
