

SchoolStatus' Commitment to Your Privacy

SchoolStatus, LLC ("SchoolStatus" "We," or "Us") understands that privacy is tremendously important to our online visitors to our website ("Website Visitors"), to schools who register for our Services ("Schools"), and to students whose information we may access on behalf of a School ("Students"). Our Services provide Schools with a platform to access various types of Student data on a single user interface. As We describe below, Schools decide which data are integrated through SchoolStatus' technology. This privacy policy applies to our website and to our technology ("Services") and describes the steps we take to protect your data.

We strive to be transparent in our data collection and use practices. This is the type of personal information we may collect.

1. HOW WE COLLECT AND USE INFORMATION

We collect the following types of information:

Information about Schools: We ask for certain information when a School administrator registers a School or Schools with SchoolStatus, or if the administrator corresponds with us online, including a name, school name, school district, school email address and/or account name and password, phone number, message content, and information relating to the School's information systems. We may also retain information provided by a School if the School sends us a message, posts content to our website or through our Service, or responds to emails or surveys. Once a School begins using the Service, we will keep records of activities related to the Service. We use this information to operate, maintain, and provide to the features and functionality of the Service, to analyze our Service offerings and functionality, and to communicate with our Schools and website visitors.

Student Data: SchoolStatus may have access to personally identifiable information about students ("Student Data") in the course of providing its Services to a School. We consider Student Data to be confidential and do not use such data for any purpose other than to provide the Services on the School's behalf. SchoolStatus receives Student Data only from the School and never interacts with the Student directly. SchoolStatus has access to Student Data only as requested by the School and only for the purposes of performing Services on the School's behalf. If you are a Student or parent, please contact your School if you have questions about the School's use of technology service providers like SchoolStatus. If a Student contacts SchoolStatus with a question about our Service, we will collect personal information from that Student only as necessary to respond to the Student's request and direct the Student to contact the Student's School, and we will then delete or anonymize the personal data of the Student after providing our response.

Information collected through technology: We automatically collect certain types of usage information when visitors view our website or use our Service. We may send one or more cookies — a small text file containing a string of alphanumeric characters — to your computer that uniquely identifies your browser and lets SchoolStatus help you log in faster and enhance your navigation through the site. A cookie may also convey information to us about how you use the Service (e.g., the pages you view, the links you click and other actions you take on the Service), and allow us to track your usage of the Service over time. We may collect log file information from your browser or mobile device each time you access the Service. Log file information may include anonymous information such as your web request, Internet Protocol ("IP") address, browser type, information about your mobile device, number of clicks and how you interact with links on the Service, pages viewed, and other such information. We may employ clear gifs (also known as web beacons) which are used to anonymously track the online usage patterns of our Users. In addition, we may also use clear gifs in HTML-based emails sent to our Schools to track which emails are opened and which links are clicked by recipients. The information allows for more accurate reporting and improvement of the Service. We may also collect analytics data, or use third-party analytics tools, to help us measure traffic and usage trends for the Service. We do not allow third party advertising networks to collect information about the users of our Site or Service.

We use or may use the data collected through cookies, log files, device identifiers, and clear gifs information to: (a) remember information so that a user will not have to re-enter it during subsequent visits; (b) provide custom, personalized content and information; (c) to provide and monitor the effectiveness of our Service; (d) monitor

aggregate metrics such as total number of visitors, traffic, and usage on our website and our Service; (e) diagnose or fix technology problems; and (f) help users efficiently access information after signing in.

Student privacy is very important to us. Student Data is used only for educational purposes at the discretion of the School.

2. HOW WE SHARE YOUR INFORMATION

SchoolStatus only shares personal information in a few limited circumstances, described below. We do not rent or sell information for marketing purposes.

Who we may share information with:

- We may share information with those that provide us with technology services (e.g. web hosting and analytics services), but strictly for the purpose of carrying out their work for us.
- We may be required to share information with law enforcement or other third parties when compelled to do so by court order or other legal process, to comply with statutes or regulations, to enforce our Terms of Service with the School, or if we believe in good faith that the disclosure is necessary to protect the rights, property or personal safety of our users.

In the event of a change of control: If we sell, divest or transfer our business, we will not transfer personal information of our customers unless the new owner intends to maintain and provide the Service as a going concern, and provided that the new owner has agreed to data privacy standards no less stringent than our own. In such case we will provide you with notice and an opportunity to opt-out of the transfer of personally identifiable Student Data.

How Student Data is shared: In addition to the actions described above, SchoolStatus may facilitate the sharing of Student Data with third parties, though only when instructed and authorized to do so on behalf of the School. Some elements of our Service enable Schools to interact with parents, students, teachers and third party applications, for the benefit of the student's education. SchoolStatus does not facilitate the sharing of any Student Data with third parties on the Service except on behalf of the School after the School has authorized a third party or application to access Student Data through the Service. Please remember that this Privacy Policy applies to the SchoolStatus Services, and not other services or third party applications, which may have their own privacy policies. Schools should carefully read the privacy practices of each third party application before agreeing to engage with the application through the Service.

We store our data in the United States and we take strong measures to keep data safe and secure.

3. HOW WE STORE AND PROTECT YOUR INFORMATION

Storage and processing: Any information collected through the Service is stored and processed in the United States.

Keeping information safe: SchoolStatus maintains strict administrative, technical and physical procedures to protect information stored in our servers, which are located in the United States. Access to information is limited (through user/password credentials and two factor authentication) to those employees who require it to perform their job functions. We use industry-standard Secure Socket Layer (SSL) encryption technology to safeguard the account registration process and sign-up information. Other security safeguards include but are not limited to data encryption, firewalls, and physical access controls to building and files.
