

CPR MANNEQUIN DONATION

Geno Stone

On Monday (9/25), the Baltimore Ravens teamed up with the Baltimore County Fire Department and the American Heart Association to provide 30 CPR kits to the Baltimore County Public Library system.

The kits, donated by the Ravens, will provide CPR training instructions and resources to equip local residents with the tools needed to learn this life-saving education.

The kits will be available for Baltimore County residents to check out through its [Library of Things](#) collection.
