

FOX NEWS POLL

*Questions 1-4, 6-13, 20-23, 37-49 are for release after 6:00 PM/ET Thursday, June 18, 2020.
Questions 5, 14-19 and 24-36 are for release after 6:00 PM/ET Friday, June 19, 2020.*

Methodology

Interviews were conducted June 13-16, 2020 among a random national sample of 1,343 registered voters (RV). Landline (280) and cellphone (1,063) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of sampling error of ± 2.5 percentage points.

The poll includes additional interviews (an oversample) of randomly selected black voters. These interviews were done to allow additional analysis of the subgroup and are weighted so they are not overrepresented in the overall national sample. The total 252 black sample is made up of 119 interviews as part of the base national sample and 133 oversample interviews.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) (formerly known as Anderson Robbins Research) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.
Fox News Polls before 2011 were conducted by Opinion Dynamics Corporation.

Results are of registered voters, unless otherwise noted.

An asterisk () is used for percentages of less than one-half percent.*

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.
