

FOX NEWS **POLL**

All results are for release after 6:00PM/ET Thursday, June 21, 2018.

FLORIDA REPUBLICAN GOVERNOR PRIMARY

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R).

The poll was conducted by telephone with live interviewers June 15-19, 2018 among a random sample of 901 Florida likely Republican primary voters contacted on landlines (476) and cellphones (425). Results based on the full sample have a margin of sampling error of plus or minus three percentage points.

A statewide voter file was used to randomly select registered Republican voters identified as likely to vote in the August primary. The sampling method is known as “probability proportionate to size,” which means phone numbers are proportionally representative to the number of voters in all regions across the state of Florida. Fieldwork was conducted by Braun Research Inc. of Princeton, NJ.

An asterisk (*) is used for percentages of less than one-half percent.

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding. In the same way, percentages in “total” columns may be one point more or less than the sum of their component parts due to rounding.
