FOX NEWS POLL

Questions 1-7 and 13 are for release after 9:00 A.M. ET Sunday, January 24, 2016.
Questions 8-12 are for release after 6:00 P.M. ET Monday, January 25, 2016.

IOWA

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R).

The poll was conducted by telephone with live interviewers January 18-21, 2016 among a random state sample of 801 likely Iowa caucus-goers. Respondents were screened to identify likely caucus-goers. Results for the 423 likely Democratic caucus-goers have a margin of error of plus or minus 4.5 percentage points and results for the 378 likely Republican caucus-goers have a margin of error of plus or minus 5 percentage points.

Landline (602) and cellphone (199) numbers were randomly selected from a statewide voter file of registered Iowa voters using a probability proportionate to size method. This simply means that phone numbers are proportionally representative to the number of voters in all regions across the state of Iowa. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some results may not add to 100% due to rounding.

1. How likely is it that you will attend one of the Iowa caucuses scheduled for February-- will you definitely attend, probably attend, probably not attend, or definitely not attend? **(IF DEFINITELY OR PROBABLY)** Will you attend the Democratic or Republican caucus?

| | -----Democrat----- | | | -----Republican----- | | |
