FOX NEWS POLL

Questions 1-7 and 13 are for release after 9:00 A.M. ET Sunday, January 24, 2016.
Questions 8-12 are for release after 6:00 P.M. ET Monday, January 25, 2016.

NEW HAMPSHIRE

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R).

The poll was conducted by telephone with live interviewers January 18-21, 2016 among a random state sample of 801 likely New Hampshire primary voters. Respondents were screened to identify likely primary voters. Results for the 400 likely Democratic primary voters have a margin of error of plus or minus 5 percentage points and results for the 401 likely Republican primary voters have a margin of error of plus or minus 5 percentage points.

Landline (408) and cellphone (393) numbers were randomly selected from a statewide voter file of registered New Hampshire voters using a probability proportionate to size method. This simply means that phone numbers are proportionally representative to the number of voters in all regions across the state of New Hampshire. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some results may not add to 100% due to rounding.

1. How likely is it that you will vote in the New Hampshire presidential primary scheduled for February -- will you definitely vote in the primary, probably vote in the primary, probably not vote, or definitely not vote? **(IF DEFINITELY OR PROBABLY)** Will you vote in the Democratic or Republican primary?

| | -----Democrat----- | | | -----Republican----- | | |
