

FOX NEWS **POLL**

For release after 6PM/ET, Wednesday, July 13, 2016

VIRGINIA

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R).

The poll was conducted by telephone with live interviewers July 9-12, 2016 among a random state sample of 601 Virginia registered voters.

Results for the full sample have a margin of error of plus or minus four percentage points.

Landline (258) and cellphone (343) numbers were randomly selected from a statewide voter file of registered Virginia voters using a probability proportionate to size method. This simply means phone numbers are proportionally representative to the number of voters in all regions across the state of Virginia. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

An asterisk (*) is used for percentages of less than one-half percent.

A dash (-) represents a value of zero.

Some results may not add to 100% due to rounding.
