

FOX NEWS POLL

*Questions 1-31 are for release after 6PM/ET Wednesday, May 24, 2017.
Questions 32-48 are for release after 6PM/ET Thursday, May 25, 2017.*

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers May 21-23, 2017 among a random national sample of 1,011 registered voters (RV).

Results based on the full sample have a margin of sampling error of plus or minus three percentage points.

Landline (419) and cellphone (592) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Results are of registered voters, unless otherwise noted.

An asterisk (*) is used for percentages of less than one-half percent.

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.
