FOX NEWS POLL

Questions 1-7, 13-15, 22-29, and 37-43 are for release after 6PM/ET Thursday, Sept. 15, 2016.
Questions 8-12, 16-21, and 30-36 are for release after 9AM/ET Sunday, Sept. 18, 2016.

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers September 11-14, 2016 among a random national sample of 1,006 registered voters (RV).

Results based on the full sample have a margin of sampling error of plus or minus three percentage points.

A subsample of 867 has been defined as likely voters (LV), with a margin of error of plus or minus three percentage points.

Landline (440) and cellphone (566) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state. Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Results are of registered voters, unless otherwise noted.

An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some percentages may not add to 100% due to rounding.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.

1. How interested are you in the 2016 presidential election? Are you:

	------------Interested------------			---------Not interested---------			(Don't
	TOTAL	Extremely	Very	TOTAL	Somewhat	Not at all	know)
Registered Voters							
11-14 Sep 16	75%	43	32	26	19	7	*
Democrats	70%	40	30	30	22	8	*
Republicans	83%	47	36	17	14	3	*

Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll was conducted by telephone with live interviewers September 11-14, 2016 among a random national sample of 1,006 registered voters. A subsample of 867 has been defined as likely voters. The margin of sampling error is plus or minus three percentage points for results among both registered and likely voters. Results among the attached subgroups have larger sampling errors:

	Registered Voters +/- 3%	Likely Voters +/- 3%
Democrats:	+/- 5%	+/- 5%
Republicans:	+/- 5%	+/- 5%
Independents:	+/- 6.5%	+/- 7%

40. As you may know, some professional athletes have started kneeling -- rather than standing -- during the national anthem as a way to call attention to an issue. In general, do you think kneeling during the national anthem is an appropriate -- or inappropriate -- form of protest?
