FOX NEWS POLL

All results are for release after 6:00PM/ET Wednesday, October 21, 2020.

PENNSYLVANIA

Methodology

Interviews were conducted October 17-20, 2020 among a random sample of 1,106 Pennsylvania voters contacted on landlines (269) and cellphones (837).

Results based on the full sample have a margin of sampling error of ±3 percentage points.

A subsample of 1,045 has been defined as likely voters (LV), with a margin of error of ±3 percentage points.

Telephone numbers were randomly selected from a statewide voter file of registered Pennsylvania voters using a probability proportionate to size method, which means phone numbers are proportionally representative to the number of voters in all regions across the state.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) (formerly known as Anderson Robbins Research) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Results are of registered voters, unless otherwise noted.
An asterisk (*) is used for percentages of less than one-half percent.
A dash (-) represents a value of zero.
Some percentages may not add to 100% due to rounding. In the same way, percentages in "total"
columns may be one point more or less than the sum of their parts due to rounding.

1. **[IF NOT ALREADY VOTED:** If the presidential election were held today, how would you vote if the candidates were: **[IF DON'T KNOW:** Well, which way do you lean?**]]** **[IF ALREADY VOTED:** When you cast your early ballot, who did you vote for in the election for president?**] [ROTATE NAMES]**

[SKIP AND CODE AS ALREADY VOTED IF ALREADY VOTED]

9. Some people say they are less likely to vote because they are concerned it might expose them to coronavirus. Others say they intend to vote no matter what. How about you -- how likely are you to vote in the presidential election on a scale from zero to 10, where 10 means you're certain you will vote and zero means there is no chance you will vote. If you have already voted, either early or by sending in a mail or absentee ballot, please just say so.

Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R). Interviews were conducted by telephone (landline and cellphone) with live interviewers October 17-20, 2020 among a random sample of 1,106 Pennsylvania registered voters and 1,045 likely voters. Results based on the full sample and likely voter sample have a margin of sampling error of plus or minus three percentage points.

Results among the attached subgroups have larger sampling errors:

9. Some people say they are less likely to vote because they are concerned it might expose them to coronavirus. Others say they intend to vote no matter what. How about you -- how likely are you to vote in the presidential election on a scale from zero to 10, where 10 means you're certain you will vote and zero means there is no chance you will vote.
