

FOX NEWS POLL

Questions 1-7 and 25-26 are for release after 6:00 PM/ET Friday, October 30, 2020.

Questions 8-24, 27 are for release after 9:00AM/ET Sunday, November 1, 2020.

Methodology

Interviews were conducted October 27-29, 2020 among a random national sample of 1,318 registered voters (RV). Landline (299) and cellphone (1,019) telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of sampling error of ± 2.5 percentage points.

A subsample of 1,246 has been defined as likely voters (LV), with a margin of error of ± 2.5 percentage points.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) (formerly known as Anderson Robbins Research) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Fox News Polls before 2011 were conducted by Opinion Dynamics Corporation.

Results are of registered voters, unless otherwise noted.

An asterisk () is used for percentages of less than one-half percent.*

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.

1. How motivated do you feel about voting in the presidential election? Are you:

	<u>Extremely</u>	<u>Very</u>	<u>Somewhat</u>	<u>Not at all</u>	<u>(Don't know)</u>

[SKIP AND CODE AS ALREADY VOTED IF ALREADY VOTED]

26. Some people say they are less likely to vote because they are concerned it might expose them to coronavirus. Others say they intend to vote no matter what. How about you -- how likely are you to vote in the presidential election on a scale from zero to 10, where 10 means you're certain you will vote and zero means there is no chance you will vote. If you have already voted, either early or by sending in a mail or absentee ballot, please just say so.

Fox News Poll -- Margin of Error for Subgroups

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R). It was conducted by telephone (landline and cellphone) with live interviewers October 27-29, 2020 among a random national sample of 1,318 registered voters and 1,246 likely voters. Results based on the full sample and the likely voter sample have a margin of sampling error of plus or minus 3 percentage points.

Results among the attached subgroups have larger sampling errors:

26. Some people say they are less likely to vote because they are concerned it might expose them to coronavirus. Others say they intend to vote no matter what. How about you -- how likely are you to vote in the presidential election on a scale from zero to 10, where 10 means you're certain you will vote and zero means there is no chance you will vote.

26. Some people say they are less likely to vote because they are concerned it might expose them to coronavirus. Others say they intend to vote no matter what. How about you -- how likely are you to vote in the presidential election on a scale from zero to 10, where 10 means you're certain you will vote and zero means there is no chance you will vote.
