Conducted January 16-19, 2022 under the joint direction of Beacon Research (D) and Shaw & Company Research (R), this Fox News national poll includes interviews among 1,001 registered voters who were randomly selected from a national voter file and spoke with live interviewers on both landlines and cellphones.

Results based on the full sample have a margin of sampling error of plus or minus 3 percentage points. Results among the attached subgroups have larger sampling errors:

49. There's been criticism of the Centers for Disease Control for inconsistent and confusing advice on coronavirus -- do you think the inconsistency comes mainly from learning new information about the virus or mainly from the CDC not communicating clearly?
