

FOX NEWS POLL

All results are for release after 9:00AM/ET Sunday, July 17, 2022.

Methodology

Conducted July 10-13, 2022, this Fox News Poll includes interviews among 1,001 registered voters (RV) nationwide who were randomly selected from a national voter file and spoke with live interviewers. Landline (164) and cellphone (837) telephone numbers were selected for inclusion using a probability proportionate to size method, which means phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of sampling error of ± 3 percentage points.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Fox News Polls before 2011 were conducted by Opinion Dynamics Corporation.

Results are of registered voters, unless otherwise noted.

An asterisk () is used for percentages of less than one-half percent.*

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.
